## REGULATION (EEC) No 218/74 OF THE COMMISSION

of 25 January 1974

fixing the monetary compensatory amounts and certain rates for their application

THE COMMISSION OF THE EUROPEAN COMMUNITIES:

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 974/71 <sup>(1)</sup> of 12 May 1971 on certain measures of conjunctural policy to be taken in agriculture following the temporary widening of the margins of fluctuation for the currencies of certain Member States, as last amended by Regulation (EEC) No 3450/73 <sup>(2)</sup>, and in particular Article 6 thereof;

Whereas Article 1 (1) of Regulation (EEC) No 974/71 provides that if, for the purposes of commercial transactions, a Member State allows the exchange rate of its currency to fluctuate by a margin wider than the one permitted by the international rules in force on 12 May 1971:

- (a) the Member State whose currency has appreciated by more than the margin of fluctuation should levy compensatory amounts on imports and grant compensatory amounts on exports
- (b) the Member State whose currency has depreciated by more than the margin of fluctuation should levy compensatory amounts on exports and grant compensatory amounts on imports

of the products referred to in paragraph 2 of that Article in trade with other Member States and third countries; whereas Germany and BLEU are at present experiencing the situation envisaged in (a) and France the situation envisaged in (b);

Whereas, pursuant to Article 1 (1a) of the same Regulation, if an exchange rate other than that corresponding to the parity of the currency of a Member State is used for the purpose of conversions between units of account and that currency, Article 1 (1) applies by analogy where, for the currency in question, the average spot market rate during a period to be determined differs by at least 1 % from the exchange rate used; whereas this applies at present to the Italian lira, the Dutch guilder, the English pound and the Irish pound;

Whereas for Denmark the new method of calculating monetary compensatory amounts means that no such amounts should be fixed for that Member State;

Whereas under Article 2 (1) (a) of the said Regulation, for products covered by intervention arrangements, the monetary compensatory amounts for the Member States who keep their exchange rates at any given moment within a band of 2.25 %, are to be equal to the amounts obtained by applying to the price the percentage difference between:

- the conversion rate used within the framework of the common agricultural policy and
- the conversion rate resulting from the central rate;

Whereas the monetary compensatory amounts for Germany and the Benelux countries should therefore be calculated by using the percentages of 12.03 and 2.7 respectively; whereas these amounts should remain unchanged for as long as the factors used in calculating them do not vary;

Whereas Article 2 (1) (b) of the same Regulation specifies that the monetary compensatory amounts for the other Member States, namely France, Italy,

<sup>(1)</sup> OJ No L 106, 12. 5. 1971, p. 1.

<sup>(2)</sup> OJ No L 353, 22. 12. 1973, p. 25.

Ireland and the United Kingdom, are equal to the amounts obtained by applying to the price the percentage difference between:

- the ratio between the conversion rate used within the framework of the common agricultural policy for the currency of the relevant Member State and the actual parity of each of the currencies of the Member States who keep their exchange rate at any given moment within a band of 2.25 %; and
- the spot market rate over a given period for the currency of the relevant Member State against each of the currencies of the Member States who keep their exchange rates at any given moment within a band of 2.25 %;

Whereas, for other products whose price depends on the price of the products referred to above and which are governed by the common organization of markets, or are the subject of a specific arrangement under Article 235 of the Treaty, the said Article 2 provides that 'monetary' compensatory amounts are equal to the incidence on the prices of the product concerned of the application of the compensatory amount to the prices of the products referred to in the last recital on which they depend;

Whereas by Regulation (EEC) No 1463/73 <sup>(1)</sup> of 30 May 1973, as last amended by Regulation (EEC) No 3482/73 <sup>(2)</sup>, the Commission laid down detailed rules for the application of Regulation (EEC) No 974/71; whereas under Article 4 of that Regulation a 'monetary' compensatory amount is to be fixed for each Member State in which the conditions laid down in Article 1 of Regulation (EEC) No 974/71 are met; whereas that amount is to apply in trade between Member States and third countries; whereas, however, in trade with the new Member States, 'accession' compensatory amounts and, in trade with third countries, import charges, export refunds and export levies expressed in units of account are to be multiplied by a coefficient reflecting the position of the currency of the relevant Member State; whereas, for Member States which do not keep their exchange rates at any given moment within a band of 2.25 % the coefficient is to be derived from the percentage used in calculating the 'monetary' compensatory amount;

Whereas Article 8 (1) of Regulation (EEC) No 1463/73 specifies that no compensatory amounts apply in intra-BLEU trade or in trade between BLEU and the Netherlands these states being treated as a single Member State; whereas Article 8 (3) of the same Regulation specifies likewise that no compensatory amounts apply in trade between Ireland and the United Kingdom;

Whereas the final paragraph of Article 1 (2) of Regulation (EEC) No 974/71 specifies that the provisions of that Regulation apply only where application of the monetary measures in question would lead to disturbances in trade in agricultural products; whereas, furthermore, Article 4 (2) of that Regulation specifies that no compensatory amount is fixed for products for which the amount calculated in accordance with Article 2 is negligible in relation to their average value;

Whereas Council Regulation (EEC) No 2958/73 <sup>(3)</sup> of 31 October 1973, as last amended by Regulation (EEC) No 197/74 <sup>(4)</sup>, fixed a representative rate for the Italia lira to be applied in agriculture; whereas Article 4b of Regulation (EEC) No 974/71 stipulates that, for products for which a marketing year is fixed, the economic effects of this measure must, as a general rule, be deferred to the beginning of the 1974/75 marketing year, an exception to this rule being made in respect of beef and veal by Regulation (EEC) No 197/74; whereas to this end, under the terms of that Article, the intervention and buying-in prices valid in Italy are, until the end of the 1973/74 marketing year, fixed at the level, expressed in lira, resulting from the provision in force on 31 December 1973, or 31 October 1973 in the case of sugar;

Whereas, for products to which 'monetary' compensatory amounts apply, the incidence of these measures must be taken into account when such amounts are being fixed;

Whereas this may be done by applying to prices resulting from the new conversion rate a percentage representing the difference between spot market rates and the new representative rate for the lira on the one hand and on the other the difference between Italian prices resulting from the conversion rate and prices actually applied;

<sup>(1)</sup> OJ No L 146, 4. 6. 1973, p. 1.

<sup>(2)</sup> OJ No L 357, 28. 12. 1973, p. 14.

<sup>(3)</sup> OJ No L 303, 1. 11. 1973, p. 1.

<sup>(4)</sup> OJ No L 22, 26. 1. 1974, p. 2.

Whereas 'monetary' compensatory amounts are normally fixed with effect from a Monday and are based on the mean of spot market rates recorded over the period running from the previous Wednesday week to the previous Tuesday; whereas, since the French franc has been floating since 21 January 1974, representative spot market rates could not be recorded over the period normally taken into consideration; whereas, for this reason, the first 'monetary' compensatory amounts applicable in France should be based on the mean of rates recorded over the period 22 to 24 January 1974;

Whereas the Italian government has notified its intention of ceasing to have recourse to Article 2a of Regulation (EEC) No 974/71 as from 15 January 1974; whereas, therefore, for products imported into Italy, in respect of which customs export formalities are completed after 14 January 1974 in an exporting Member State, the 'monetary' compensatory amount applicable by reason of importation into Italy shall be paid by Italy in accordance with the last paragraph of Article 10 (4) of Regulation (EEC) No 1463/73;

Whereas, as a result, Annex III to Commission Regulation (EEC) No 2102/73 <sup>(1)</sup> fixing the 'monetary' compensatory amounts and certain rates for their application, as last amended by Regulation (EEC) No 80/74 <sup>(2)</sup>, no longer has any bearing on the said transactions;

Whereas the 'monetary' compensatory amounts introduced by Regulation (EEC) No 974/71 were fixed by Regulation (EEC) No 2102/71; whereas, because of the many amendments made to this Regulation it would be advisable to republish the complete set of 'monetary' compensatory amounts;

Whereas the measures provided for by this Regulation are in accordance with the Opinion of the Management Committee for Wine, for Cereals, for Pigmeat,

for Poultrymeat and Eggs, for Sugar, for Milk and Milk Products, and for Beef and Veal,

HAS ADOPTED THIS REGULATION:
