Footnotes

- (¹) All staff employed in scientific or technical departments and performing either scientific, technical or general work (including managerial staff) are considered as occupying scientific or technical posts.
- (²) The following are considered in principle as occupying administrative posts: all staff assigned to administrative, financial and supply departments of the Establishments; all secretaries, whatever the departments to which they have been assigned; and the small number of staff assigned to scientific and technical departments who are made available to the supply departments of the Establishments.
- (³) Of the staff covered by the Budget, the following may be included, as shown, under either of the heads 'scientific/technical' or 'administrative':
- (a) Category B staff in scientific/technical posts A5/A8 and administrative posts A7/A6 provided for in the Budget, up to 5 % of these posts,
 - (b) Category C staff in B posts provided for in the Budget, up to 5 % of these posts,
 - (c) Establishment staff in Category C and D posts provided for in the Budget, up to 10 % of these posts.
- (⁴) Of the total 1 910 posts, 44 are in principle to be abolished on 31 December 1973, after the special redundancy scheme embodied in the provisions of Regulation No 1543/73 have been applied in respect of the officials occupying these posts.
- However, in the exceptional cases referred to in Article 2 (1), second subparagraph of this Regulation, the Commission is authorized to maintain the relevant posts in the Establishment Plan up to 30 June 1974 at the latest.
- (⁵) Including 20 posts occupied by staff either awaiting assignment to the objective 'European Computer Program Information Centre' (COST Project 12) currently being defined or in respect of whom the redundancy scheme will be applied, in accordance with the provisions of Regulation No 1543/73. The posts becoming vacant on the implementation of the aforementioned redundancy scheme will accordingly be deemed abolished.

Footnotes

- (¹) All staff employed in scientific or technical departments and performing scientific or technical work (including managerial staff) are considered as occupying scientific or technical posts.
- (²) The following are considered in principle as administrative posts: all staff assigned to administrative and financial departments; all secretaries, whatever the departments to which they have been assigned; and the small number of staff assigned to scientific departments.
- (³) Of the staff covered by the Budget, the following may be included, as shown, under either of the heads 'scientific/technical' or 'administrative':
- (a) Category B staff in scientific/technical posts A5/A8 and administrative posts A7/A6 provided for in the Budget, up to 5 % of these posts,
 - (b) Category C staff in B posts provided for in the Budget, up to 5 % of these posts,
 - (c) Establishment staff in Category C and D posts provided for in the Budget, up to 10 % of these posts.
- (⁴) Including 20 temporary posts in accordance with the Council Decision of 21 June 1971 — amended by the Decision of 14 May 1973 — adopting a five-year research and training programme in the field of fusion and plasma physics; these temporary posts may not exceed the duration of this programme.
- (⁵) Including 43 posts occupied by staff in respect of whom either:
- Article 6 (c) of the EAEC Treaty, or
 - the special redundancy scheme will be applied.
- Posts becoming vacant with the implementation of the redundancy scheme referred to above will be considered to have been abolished.

EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION

CHAPTER 10 — MEMBERS OF THE INSTITUTION

CHAPTER 11 — STAFF

Article	Item	Remarks
100		
	1004	In calculating the 1973 appropriations, due allowance was already made for the new Member States and for the changes in the expenditure repayment scales. There is therefore no need to ask for an increase in the appropriations for 1974.
100a		These appropriations cover individual assistance to Members of Parliament paid in the form of a personal monthly allowance.

CHAPTER 11 — STAFF (*contd*)

Article	Item	Remarks
111	1110	This increase is partially attributable to the rise in the level of allowances and travel expenses paid to this category of staff, in particular staff recruited for the sessions. Moreover, the number of auxiliary staff required is proportioned to the permanent staff.
	1112	It is necessary to allow for an increase in the number of local staff (particular ushers) employed, in order to meet the needs arising from the occupation of new premises and the provision of new catering services (kitchen, waiter service, etc.). Account must also be taken of the fact that salaries are tied to the cost of living index.
112	1123	Expenditure chargeable to the Commission.
113	1130	The Institution's contribution is 3.297 % of the basic salaries shown under item 1100.*
	1131	Contribution to the accident insurance for officials stipulated in the staff regulations; the Institution's contribution to the insurance premium is shown here (0.96 %).
114	1141	This increase takes account of a probable increase in fares.

CHAPTER 11 — STAFF (*contd*)

CHAPTER 12 — ALLOWANCES AND EXPENSES ON ENTERING AND ON LEAVING THE SERVICE AND ON TRANSFER

Article	Item	Remarks
115		This increase in appropriations is attributable to the rise in basic salaries, which governs the scale of overtime payments, and the constant increase in the European Parliament's workload.
117		
	1172	The cost of translation work done outside has risen by 30 %.
120		This reduction is explained by the fact that the bulk of the recruiting will take place in 1973.
121 to 124	1221 1231 1241 }	Most of the expenditure shown under these headings and chargeable to 1974 relates to staff recruited in 1973.
125		This heading covers expenditure resulting from the retirement of certain A grade officials voluntarily leaving the employment of the European Parliament under the recent early retirement scheme.

CHAPTER 14 — EXPENDITURE ON SOCIAL WELFARE AND ON FURTHER VOCATIONAL TRAINING OF STAFF

CHAPTER 15 — COST OF ORGANIZING INTERNAL TRAINING COURSES

Article	Item	Remarks
130	1301	This increase takes account of the fact that owing to the enlargement of the Communities some meetings will be held at locations more remote from Luxembourg, Strasbourg or Brussels, with an inevitable rise in the cost of transport and accommodation.
140		Appropriation to cover payments to officials and other servants in special circumstances (including Article 76 of Staff Regulations).
141		Appropriations used jointly with the other European institutions in Luxembourg and agreed with their representatives and those of the staff.
143		Expenditure on the purchase of medical equipment and material and on medical examinations on recruitment, annual and other check-ups. Estimate agreed with consulting physician.
144		Organization of language courses (especially in the new official languages) and further vocational training courses and seminars. This expenditure is intended to cover needs which it has so far proved impossible to meet adequately owing to lack of staff.
149		Appropriations required largely for the Joint Social Expenditure Fund of the European institutions in Luxembourg and agreed with their representatives and those of the staff.
150		Cost of further training courses for students, translators and interpreters completing their studies (courses lasting from one to six months; on average three trainees per language section).

TITLE 2

BUILDINGS, EQUIPMENT AND MISCELLANEOUS OPERATING EXPENDITURE

CHAPTER 20 — IMMOVABLE PROPERTY INVESTMENTS

CHAPTER 21 — RENTAL OF BUILDINGS AND INCIDENTAL EXPENDITURE

CHAPTER 22 — MOVABLE PROPERTY AND ANCILLARY EXPENSES

Article	Item	Remarks
201		The Staff Committee has called for the construction of a day-nursery in the immediate vicinity of the office buildings. The cost of a prefabricated day nursery is in the order of 400 000 units of account. This raises the fundamental problem of the acquisition of a building by a Community institution before a final decision on its seat.
210		These estimates are based on the rentals paid in 1973, for the old buildings. The increase in appropriations is attributable to contractual increases in a number of rents, in line with the indices. Provision has been made under Chapter 99 for the occupation of new buildings.
211 to 219		Increase resulting from the rise in the cost of public and other services.
214		The bulk of the 1973 expenditure will be covered by the appropriations transferred from item 9901. For 1974 the appropriations shown under this item relate to routine fitting out and the fitting out of the new premises.
220		The reduction in the appropriations is due to a return to normal working.

CHAPTER 22 — MOVABLE PROPERTY AND ANCILLARY EXPENSES (*contd*)

Article	Item	Remarks
221	2210	It will be necessary to fit out the Brussels conference rooms with proper conference tables, to equip the new outside offices and to augment the equipment at the usual place of work.
222	2220	The reduction in appropriations is due to a return to normal working.
223	2230 and 2232	The substantial and continuing growth in the European Parliament's work, and in particular the number and geographical dispersion of committee meetings, makes it necessary to increase the transport fleet as well as hiring charges.
	2231	Increase in the prices of cars chargeable to this heading.
	2232	See item 2230.
	2233	This increase takes account of the rise in repair costs and of the increase in the size of the transport fleet.
225	2250	The accession of the new Member States makes it necessary to acquire a large number of working documents in languages previously not held by the library. An appropriation of 9 000 units of account is entered under this heading for the purchase and renewal of dictionaries.
	2252	(1) subscriptions to newspapers and periodicals for documentation: 14 000 u.a. (2) subscriptions to newspapers and periodicals for information: 10 000 u.a. (3) subscriptions to newspapers and periodicals for linguists: 2 000 u.a. Total: 26 000 u.a.
	2253	These appropriations are higher because of the increase in the cost and number of subscriptions to news agencies, particularly in the new Member States.

CHAPTER 23 — CURRENT ADMINISTRATIVE EXPENDITURE

Article	Item	Remarks
231	2310 and 2311	Normal rise in the cost of postal charges and telecommunications.
233		The increase in the number of staff is likely to result in an increase in the number of legal proceedings, and the Institution must allow for this.
239	2391	These appropriations were calculated on the basis of the establishment plan for ushers, drivers and some of the staff employed in the printing works.
	2393	The increase in staff and in the volume of the European Parliament's work result in an increase in the amount of equipment and documents that have to be moved during part-sessions. Account has also been taken of a probable increase in the costs of transport and labour.
	2394	Petty expenses (taxi fares, parking charges, snacks, books, bus tickets, advertisements, sureties, etc.).

270		The constant rise in costs and the increase in the volume of work of the European Parliament make it necessary to provide for an increase in expenditure under this heading.
271	2710	The increase in printing costs and in the volume of work handled by the European Parliament, in particular the multilingual edition of the verbatim reports of the Luxembourg part-sessions, make it necessary for us to request an increase in the appropriations under this heading.
272	2720	This increase is attributable to information of journalists from the new Member States.

TITLE 1

EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION

CHAPTER 11 — STAFF

Article	Item	Remarks
110		The calculations for these appropriations were drawn up on the basis of the provisions of the Staff Regulations and the scheme applicable to other servants.
	1100	Appropriations calculated on the basis of the list of posts annexed hereto.
	1101	The family allowances include (Article 67 of the Staff Regulations): (a) head of household allowance (b) dependant child allowance (c) education allowance.
	1102	This allowance is paid to officials fulfilling the conditions laid down in Article 4 of Annex VII of the Staff Regulations.
	1103	This allowance is granted to officials in Category C holding shorthand-typing and typing posts.
111		
	1110	Staff recruited specifically to deal with the excess of work and to replace officials temporarily unable to carry out their duties (illness, maternity etc.). The appropriations provided for will enable approximately 30 auxiliary staff to be recruited in 1974 (estimate).
	1111	Remuneration of freelance interpreters called in for meetings held outside Brussels and Luxembourg where interpreting is not ensured by the Communities' interpreting service.
	1112	Local staff recruited to carry out manual and other services. The remuneration of local staff has had to be adopted to Brussels levels. The 1973 appropriation will therefore need to be increased by a transfer. The appropriations will enable about 12 local staff to be recruited in 1974 (estimate).
113		
	1130	Appropriation for paying the institution's contribution to the joint sickness insurance scheme.
	1131	Appropriation to cover the institution's share of the insurance premium against occupational diseases and staff accidents at work.

CHAPTER 37 — EXPENDITURE RELATING TO CERTAIN INSTITUTIONS AND BODIES

Article	Item	Remarks
372	3721	B. Appropriation decided by the Council at its meeting on 23 July 1970 (an appropriation of the same amount is set out as revenue).
373		The statement of expenditure of the Economic and Social Committee is covered in Annex I of this section.
374		The statement of expenditure for the Audit Board is given in Annex II of this section: the appropriations for the Audit Board have, since 1972, been entered half in the budget section relating to the Parliament and half in that relating to the Council.
375		The statement of expenditure of the ECSC Auditor is covered in Annex III of this section. From 1974 onwards, the appropriations for the ECSC Auditor are entered half in the budget section relating to the Parliament and half in that relating to the Council.

CHAPTER 38 — LOAN OF SERVICES BETWEEN INSTITUTIONS

Article	Item	Remarks
380		The flat-rate calculation of the costs of the Office made at the end of 1969 has never been revised in the light of concrete components. Book-keeping data available from the past year has served as a basis for determining the new figure. Moreover, in view of the new tasks assigned to the Office and the consequences of the accession, the demand for services has increased beyond production means available.
381		Appropriation for payment of services for the Council by Commission interpreters. It should be recalled that from 1974 onwards the fixed amount per day for interpretation and interpreters will be raised from 85 to 100 units of account.

EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION

CHAPTER 10 — MEMBERS OF THE INSTITUTION

CHAPTER 11 — STAFF

Article	Item	Remarks
100		By an interim Decision of the Council of June 1959 the daily fees of Members of the Audit Board are fixed at 1/300th of the basic salary for Grade A 1.
110 to 116		The appropriations have been calculated on the basis of the posts provided for in the list of posts. The increase is due to new posts, authorized for 1973, being filled during the course of the year.
111		The appropriations provided for in Article 111 make allowance for the replacement of staff, particularly in the case of illness.

TITLE 1**EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION****CHAPTER 10 — AUDITOR****CHAPTER 11 — STAFF**

Article	Item	Remarks
100		The flat rate amount of the Auditor's fees, calculated at the rate of half the basic salary of the Members of the High Authority and of the Judges of the Court, was fixed by a Decision of the Special Council of Ministers of the ECSC, at its session on 9 and 10 April 1954.
110	1100 1101 1102	The appropriations were calculated on the basis of posts estimates, taking into account normal promotion of staff according to seniority in 1974.
111	1110	These appropriations are intended to provide for the reinforcement or occasional replacement in the exercise of their duties of one or the other of the officials in the department with the aid of auxiliary staff.

One-third of the contribution required to meet such insurance shall be paid by the official and the remainder by the Institution. The employers' contributions to persons in receipt of pensions from the other three Institutions are also included in the appropriations. For this reason it will not be necessary to reimburse any of these contributions. The appropriation includes 50 200 units of account for the Official Publications Office.																																								
1131		This appropriation is intended to cover: — the Institution's contribution to insurance against occupational diseases and accidents. The Institution's contribution has been 0.83863 % of the basic salary since 1 January 1972. — supplementary expenditure resulting, in the event of permanent partial disability, from a compensation percentage higher than that proposed by the insurers and from the fees of the medical specialists consulted in such cases. — travelling and subsistence expenses resulting from the application of Article 73 of Staff Regulations (officials or persons in receipt of a pension called to attend a medical examination). The appropriation includes 13 200 units of account for the Official Publications Office.

CHAPTER 22 — MOVABLE PROPERTY AND ANCILLARY EXPENSES (*contd*)

Article	Item	Remarks
224		
	2240	Appropriation to cover: — the cost of hiring computer and associated equipment, including the telephone lines between Brussels and Luxembourg and a print-out unit; — the purchase of supplies and documentation; — work done outside the Commission, including the programme conversion.
	2241	This appropriation is to cover costs incurred in the analysis of the farm accountancy network.
225		
	2250	Appropriation to cover the purchase of books, documents and other non-periodic publications required by the Commission's departments.
	2251	Appropriation to provide special library equipment.
	2252	Appropriation to cover the cost of subscription to newspapers, specialized periodicals, official journals, parliamentary papers, foreign trade statistics, various bulletins and other specialized publications.
	2253	Appropriation to cover the cost of subscriptions to news agency services via teleprinters and press and information bulletins.
	2254	Appropriation to cover the cost of binding and other expenditure necessary for the preservation of books and publications. The following appropriations are provided for in this Chapter for the Official Publications Office: 2250 600 u.a. 2252 200 u.a. 2253 200 u.a.
226		The continuing growth of the Commission's departments and the ever-increasing variety of tasks entrusted to them have not given rise to a parallel growth in the information and internal documentation structures: the Commission therefore considers it indispensable to introduce a modern internal documentation system. The introduction of this system is planned to take place over a period of three financial years, at the end of which time it should be in full working order. The requisite funds for the operating budget are estimated at 331 000 units of account in 1974, 525 000 units of account in 1975 and 670 000 units of account in 1976. The detailed analysis of these appropriations for 1974 and the justification for them are given below.
	2261	Appropriation to cover the purchase of microfilm equipment and special filing cabinets for microfiches.
	2263	Appropriation to cover the hire of equipment for transformation of analogical data into digital data (15 000 u.a.) for the operation of a data storage and retrieval system (90 000 u.a.) and for the hire of remote inquiry terminal (9 000 u.a.).
	2264	Appropriation to cover the cost of organizing regular 'briefings' to authors of documents, secretaries and users of the system in order to acquaint them with modern documentation methods.
	2265	Appropriation to cover the development, from its initial stages, of the modular elements of a very advanced method of documentation. The use of a modular construction makes it possible to keep the system up to the level of the latest developments in technique.
	2266	Appropriation to cover the purchase of consumable stores, films, copies of microfiches, special paper for reproduction and enlargement work, and the use of a system for the transformation of analogical data into digital data.

	2521	Appropriation to cover the cost of organizing meetings of the Commissions and Working Parties set up within the framework of ECSC activities: — Joint Commissions for the harmonization of terms of employment in: — the coal industry — the iron and steel industry, — General Commission for safety and health in the steel industry, — Commission for non-manual activities — "Coal", — Commission for non-manual activities — "Steel", — Advisory Commissions for ECSC research programmes, — Working party on ECSC scientific and technical methods/policies, — Working Party on cooperation between national administrations and national security institutions.
253		Appropriation to cover the travel expenses of members and experts, the expenses incurred on practical tests in respect of rescue apparatus and safety equipment in coal-mines, and the costs of the safety campaign in the coalfields.
254		In the draft Decision which the Commission has submitted to the Council, it is proposed, <i>inter alia</i> , to set up a Consultative Committee on Youth Affairs. The draft provides for all the administrative expenditure of the Committee and its Secretariat to be covered by a special appropriation in the Communities' budget. An appropriation of 92 000 units of account is entered under Chapter 98.
255		This appropriation is intended to cover sundry expenses for meetings organized outside the provisional places of work of the Commission, for organizing and participating in conferences, congresses, and symposia. The estimates of expenditure for 1974 are as follows: — participation in the conference on "The Environment, Communes and Regions" organized by the Council of European Communes, (52 000 u.a.), — organization of a symposium on the effects on industrial structures of a revision of the system of serial manufacture, (20 000 u.a.), — organization of a symposium in the ECSC sector, (18 000 u.a.), — organization of an international seminar on the development of safety norms (motor vehicles) (38 000 u.a.), — organization of a symposium in the energy sector (12 000 u.a.), — reserve (10 000 u.a.).

262		This appropriation is intended to cover expenditure arising from the programme of studies and general surveys which the Commission proposes to carry out in 1974. If necessary, it may be used for the purchase of studies or to cover the cost of special subscriptions to specialized institutions.												
263		The appropriations set out in this Article must enable the needs of the parties concerned to be met. The appropriation entered under item 2632 includes 60 000 units of account for the last stage of execution of a five-year research programme on the consumption of steel by sector. In accordance with Article 46 of the Treaty establishing the European Coal and Steel Community, the latter may at any time consult Governments, the various parties concerned (undertakings, workers, consumers and dealers) and their associations, and any experts. The various parties concerned and their associations shall be entitled to present any suggestions or comments on questions affecting them. Consequently, certain studies and surveys must be carried out in order to meet these requirements. It would also be advisable, at the request of the Governments concerned, to study the possibilities for re-employing — in existing industries or through the creation of new activities — workers made redundant by market developments or technical change.

Article	Item	Remarks
272		
	2720	This appropriation covers all the work of informing the public, by all appropriate technical means, of the aims and activities of the European Communities. The appropriation of 3 850 000 units of account has been calculated on the basis of the Commission's information policy for 1974. The increase in the appropriation is explained by: — the rise in prices in various sectors of activity; — the need to ensure the intensification of information services not only in the Community but throughout the world; — the attachment to the Commission of an editorial TV team.
	2721	This appropriation is provided for participation by the communities in the international exhibition to be held in Spokane (USA).
273		This appropriation is to enable youth information services to be strengthened.
290		This appropriation is intended to cover the cost of reimbursement to each Member State of 10 % of the amounts paid in accordance with Article 3 of the Decision of 21 April 1970 (70/243/ECSC/EEC/Euratom).

302		This appropriation is to make it possible to carry out the first joint programme of exchanges of young workers as adopted by the Governments of Member States on 9 May 1964: it consists of projects carried out jointly with the various organizations concerned, meetings and teaching material for the preparation of courses. So far this programme has been open only to young agricultural workers. It is to be revised in order to extend the exchange of young workers to all sectors of production.																
303		The Council has stressed the importance of the information and training courses organized hitherto under Article 23 of Regulation (EEC) No 1612/68. They have made it possible to increase collaboration and strengthen contacts between the employment services and the Commission. The appropriation has been fixed so that a wider programme of courses with more participants can be organized. The 1974 programme provides for the following courses: — courses for officials from national employment services (study of structure, organization and functioning of employment services programmes); — courses for officials from vocational guidance services; — courses for health-inspection and safety-at-work officials from Member States; — organization of courses for welfare officers and officials in various sectors of the social field (migrant workers, ECSC industries); — individual courses for officials and other servants of the various departments of the social security organizations and funds; — further training for staff specialized in the international compensation activities of national labour services.

Article	Item	Remarks
304		This appropriation is intended to make it possible to carry out projects in support of or with the participation of independent movements representing migrant workers, handicapped people and women. It may also be used to subsidise projects undertaken by these movements.
310		
	3101	The Community does not propose to grant any more subsidies at the moment for measures taken on the spot.
	3102	Research under this programme is to go on for a period of four years starting from 1 January 1973 (Council Decision of 29 December 1972). The grand total of expenditure provided for amounts to 1 965 640 units of account, of which 532 700 units of account were authorized in 1973. For 1974, it will be necessary to provide a second instalment of 524 965 units of account rounded off to 525 000 units of account.
	3104	This appropriation is intended to make it possible to set up a stock of virus A/22 vaccine (Council Decision No 73/88/EEC of 26 March 1973). The expenditure provided for amounts to 483 780 units of account of which two-thirds (i.e. 322 520 u.a.) were authorized in 1973. The balance (i.e. 161 260 u.a., rounded off to 162 000 u.a.) is entered under the 1974 Budget.
	3105	The Community must provide for the possibility of taking precautions against the threat of other exotic strains of virus than the A/22 (Council Decision of 17 April 1973). In 1973 an appropriation of 707 580 units of account was authorized.
311		Pursuant to the Directives of 13 May 1965 on the procedure to be followed in preparing Opinions in respect of official recognition of slaughterhouses and cutting rooms in the intra-Community fresh meat trade and the Directive of 15 February 1971 on health problems affecting the trade in fresh poultry-meat, which also provides for the appointment by the Commission of a panel of experts responsible for giving opinions on slaughterhouses, the fees, travel and subsistence expenses of the veterinary experts responsible for these inspections are estimated at 7 500 units of account for 1974.

	3121	The work done hitherto in laying out comparative field trials of cuttings and seeds under Council Directive Nos 66/400 to 66/403, 68/193, 69/108 and 70/458/EEC is to be continued in 1974. The participation of the new Member States in the comparative trials prescribed by the Directives will proceed by stages and will be completed by 1975.
	3122	Council Directive Nos 66/400 to 66/403, 69/203 and 70/458/EEC provide that the Council, acting on a Proposal from the Commission, shall decide whether seeds or cuttings raised in a non-member country are as reliable — with regard to Community requirements in respect of their certification — as cuttings and seeds raised in the Community and whether they comply with the provisions of the above-mentioned Directives. The appropriation of 9 000 units of account will be used to cover the travel expenses of experts instructed to collect such information as the Commission requires in order to be able to forward to the Council a Proposal for a Decision recognizing the equivalence of seeds harvested and certified in non-member countries.
313		
	3130	The EEC subscribes to the International Grains Arrangement in order to encourage international cooperation in general and to further the aims of the Community in the sphere of the commercial policy, the common agricultural policy and the development aid policy in respect of cereals (Council Decision of 29 April 1961). The contribution of members towards expenditure is fixed on the basis of the number of votes allocated to them. For the 1973/74 financial year (1st half of 1974) the contribution per vote is fixed at £72.50. An increase of 10% is to be expected in the 1974/75 financial year (2nd half of 1974). The Community will probably have 423 votes out of 2 000. The appropriation for 1974 has been worked out on the assumption that there will be no appreciable change in the Community's present participation when the Arrangement is renegotiated after it expires at the end of June.
	3131	The aim of this Agreement is to encourage international cooperation and to further the aims of the Community in the sphere of the commercial policy and the common agricultural policy in respect of olive oil. The Community will probably have 515 votes out of 1 600. The contribution for 1974 will be about 13 860 pesetas per vote.
	3132	The reference token entry has been entered under this item in anticipation of EEC participation in the International Sugar Agreement.
314		
		The appropriation of 375 000 units of account is intended to cover expenditure under Regulation Nos 79/65/EEC and 184/66/EEC. A further appropriation of 248 000 units of account has been entered under Chapter 98 to cover the possible financial consequences of the alteration to these Regulations which the Commission has proposed to the Council.

CHAPTER 32 — EXPENDITURE ON DEVELOPMENT AID

Article	Item	Remarks
315		On 29 December 1972, the Commission presented to the Council a Proposal for a Regulation on the coordination of agricultural research. Title II 'Specific Measures' Article 3 of the said Proposal makes provision for measures to: (a) coordinate national programmes at Community level by organizing the work undertaken in the Member States on a rational basis, by using the results of this work more effectively or by matching the work more closely to known requirements; (b) introduce joint programmes to strengthen or supplement the work undertaken in the Member States in respect of subjects of special importance to the Community; (c) create jointly financed institutions if they prove to be necessary in order to overcome a real deficiency in an area of recognized importance to the Community. An appropriation of 2 790 000 units of account is entered under Chapter 98 pending a Council Decision.
321		This appropriation is to cover expenditure on symposia for African nationals who are not nationals of the AASM. It aims at: — strengthening contacts with university and political circles in non-associated developing countries, particularly those requesting association with the Community; — to financing the organization of symposia and the increase in circulation of a magazine in English for potential associated countries in the commonwealth. In addition, in 1974, it is to be expected that the importance of providing verbal and written information for nationals of non-associated countries will grow as a result of the opening of negotiations for the renewal of the Yaoundé Convention.
322		This appropriation is to cover expenditure on training and administration for the 'European Centre for the training of economist-statisticians from developing countries'. This training course is for 90 nationals from these countries.
323 and 324		An appropriation of 700 000 units of account has been included under Chapter 98.
325		The Commission has forwarded to the Council a communication on programmes for training young executives for development aid. An appropriation of 78 000 units of account is entered under Chapter 98.
326		An appropriation of 28 000 units of account is entered under Chapter 98.

CHAPTER 34 — EXPENDITURE RELATING TO SAFEGUARDS

Article	Item	Remarks
327		This appropriation is to cover expenditure on negotiations beginning in 1973 and continuing in 1974.
330		The income and expenditure connected with research and investment are given in Annex 1 to Section III of the Communities' Budget (see Volume 5). In accordance with the provisions of the Financial Regulation, this expenditure includes appropriations for commitment and appropriations for payment. The appropriations for commitment for 1974 amount to 77 556 162 units of account. The appropriations for payment, the total amount of which is given in this Chapter, amount to 84 107 919 units of account.
340		This appropriation has been worked out on the basis of the staff establishment authorized for 1973 and in the light of the ever-increasing number of nuclear power plants to be checked and the increased number of inspections to be carried out in plants making plutonium or enriched uranium fuel elements and in reprocessing plants where the flow of the substances handled must be followed up physically. Travel resulting from the requirements of the agreement with the Vienna Agency within the framework of the Non-Proliferation Treaty has also been taken into account.
341		The training programme for inspectors recruited in 1973 is to be continued.
342		This appropriation has been worked out in such a way as to maintain the effectiveness of the inspection procedure and to make substantial increases in the amount of sampling and analysis, for the reasons given in the remarks on Article 340.

Article	Item	Remarks
343	3431	The increase is due to the need to supplement the technical equipment (complete units for gamma spectrometry, neutron counters, special seals for fuel elements, mobile units with non-destructive measuring equipment, spectrophotometers, etc.).
344		The appropriation is to enable a seminar to be organized for the representatives of 200 nuclear power plants to prepare 'facility attachments' within the framework of the Non-Proliferation Treaty (NPT).
350	3501	This appropriation is intended to cover expenditure incurred by the 'Health Protection' Directorate in consulting various groups of experts; the group of experts concerned with 'Basic Standard' referred to in Article 31 of the Euratom Treaty; the group representing the appropriate authorities referred to in Article 30 of the Treaty; the group of technical experts studying dosimetry of humans and the group responsible for the monitoring of ambient radioactivity and of foodstuffs; the group of experts concerned with protection against electromagnetic radiation; the group of experts on information and training in the field of radioactivity; the group of doctors responsible for radiology inspections.
	3502	This appropriation is requested in order to continue and finalise a programme of studies dealing in particular with the application of Article 25 of the Basic Standards of Euratom, dosimetry comparison programmes in the new Member States, plans for disposing of radioactive waste, the training of workers in nuclear energy plants and protection against electromagnetic radiation.
	3503	This appropriation is for the organization of: — a symposium on radiation protection and the medical uses of ionizing radiation; — a symposium on experience gained in the field of radioactive waste (Article 37 of the Euratom Treaty); — a seminar on the identification of foodstuffs exposed to radiation.
351		This appropriation is to cover expenditure on training courses, particularly for new officials.
352		This credit is to cover expenditure on the monitoring and inspection of measuring installations in accordance with Article 35 of the Euratom Treaty. It is also to cover mission expenses of officials of the 'Health Protection' Directorate.

353		This appropriation is for the purchase of further equipment for radiation protection, such as the demonstration equipment used at the conferences and seminars on radiation protection which are to be organized.
354		This appropriation is to cover the cost of publishing the minutes of conferences and symposia on health and safety which are to be organized, and for the purchase of specialized publications and reference works. It is also to cover the cost of printing and publishing the quarterly and annual reports on ambient radioactivity and the final reports on study contracts.
355		
	3550	Various projects will be undertaken in 1974 in order to protect the general public against pollution and nuisances. Some of these projects will supplement the exploratory studies and consultations undertaken in 1972 and 1973. The proposed action programme for the reduction of pollution and nuisances provides for the objective evaluation of the risks associated with certain pollutants considered to be of priority importance in the air, water and soil, including noise pollution. This evaluation is based on the selection and establishment of criteria and the establishment of health and ecology standards. This project also provides for the intra-Community harmonization of sampling and measuring methods and the standardization of pollution inspection networks. The projects envisaged will be carried out as follows: meetings of experts, seminars, scientific symposia and more general conferences will be organized on each of the pollutants considered of priority importance. In order to prepare these projects, studies must be carried out by experts and consultants and comparison programmes must be organized in respect of sampling and analysis. This appropriation will also cover the cost of publishing conference minutes and expenditure on fact-finding and coordination visits to sampling and measurement installations and study and inspection centres and also expenditure incurred by staff of the Health Protection Service in attending scientific and technical meetings. The increase in the appropriation requested is mainly due to the transition from the exploratory studies proposed in 1973 to the first stage of implementation of the projects provided for in the Communication on the environment policy. The pollutants considered to be of priority importance are listed in Document No COM(73)530 'A European Communities' Programme concerning the Environment — Part II'.
	3550	These pollutants have been classified in two categories. The first consists of pollutants for which criteria and health standards may be established before 31 December 1974. The second category consists of pollutants for which the exploratory work, the consultation of experts and fact-finding projects can be started in 1974. Health standards will also be established for chemical substances and germs which are injurious to health in water for human consumption. By way of indication, a dozen groups of experts might be working in 1974, including all those that have already been working since 1973. It should be pointed out that an International Conference will be organized with the US Environmental Protection Agency and the WHO on the general topic of 'Recent achievements in the evaluation of the effects of environmental pollution on health'.

Article	Item	Remarks
355		(<i>contd</i>)
	3551	This appropriation is to cover the financing of activities resulting from: — the completion of exploratory studies begun in 1972 — the implementation of the 'environment' programme where protection of the working environment is concerned, through closer cooperation between national authorities and in accordance with priorities agreed on by both sides of industry. In each of the fields accorded priority importance, a policy will be worked out on each aspect of the problem: the definition of the methods for assessing the risks and their consequences, the training of technicians to implement these methods in company's works, the availability of certain services (particularly documentation services), liaison with professional bodies, surveys. Also planned are: — epidemiological surveys (respiratory diseases in agricultural workers, the effect of noise), — the creation of a data bank to feed a documentation service on the working environment, in conjunction with the other Community projects in this field, — the continuation of work on chemical nuisances in order to inform the industrial users of these substances, — improvements in liaisons with the professional circles concerned (works doctors, for example).
360		This appropriation is for the purchase of reference works, regular subscriptions, conservation and upkeep of reference works and periodicals, the preparation of card-indexes, catalogues, or work on punched card systems.
361		This appropriation is for the publication and distribution of reports describing the results of Community research programmes, periodicals containing bibliographies or abstracts, the dissemination of those results within the Community and to ensure full utilization thereof.
362		This appropriation is for the hiring of data processing equipment and the purchase or hiring of duplicating machines and telecommunications, documentation and library equipment. It is also to be used to develop and operate the European STID network (Council Resolution of 24 June 1971).
363		This appropriation is to cover the cost of documentary selection, cataloguing and analysis, documentary studies, surveys and research and the purchase or preparation in the official Community languages of card-indexes, concordances and bibliographies.

Article	Item	Remarks																								
364		This appropriation is to cover expenditure involved in applications for and the examination and issue of patents protecting inventions made in the course of the Community research programme and expenditure involved in the renewal and administration of patents applied for during previous financial years.																								
380		This appropriation has been entered <i>pro-forma</i>. It has been worked out in terms of the estimated services to the Commission of the Office for Official Publications, calculated on the basis of costs incurred in 1973. The increase in this <i>pro-forma</i> appropriation is mainly due to the cost of printing the Official Journal in the new official languages and that of the other publications issued by the Institutions of the Community.																								
381		This appropriation is to cover the services to the Commission provided by the European Parliament interpreters. The appropriation required in 1974 has been set at 300 000 units of account in view of the increasing number of meetings.																								
382		Under the terms of the Agreement between the Commission and the Office for Official Publications of the European Communities, concluded on 8 December 1972, to take effect on 1 January 1973 concerning the attachment of a Medium and Long-term Translation Service (MLTS) to the Office, the Commission has committed itself to providing an adequate number of translators to carry out all the work required by the Office for its own needs and for the needs of the Institutions of the Community. These translators will have their location of service in Luxembourg but will be on the Commission's staff list. Where necessary, freelance translators may also be employed on a temporary basis. CHAPTER 39 — OTHER EXPENDITURE ON SPECIFIC PROJECTS UNDERTAKEN BY THE INSTITUTION

Article	Item	Remarks
390		An appropriation of 185 000 units of account is entered under Chapter 98.
391		A Proposal for a Regulation to commission community contracts for industrial innovation and development has been submitted to the Council.
393		Under the provisions of the Council Regulation of 22 May 1973 on the support of Community projects in the field of hydrocarbons, the support granted to such projects may take the form of financial benefits granted by the Community, in particular direct participation in financing. Although other possibilities should not be excluded, the requests for financial support will very probably be concentrated on the technical development of production and drilling installations on the continental shelf. The amount of support to be given annually during the first three years is estimated at 25 million units of account which would represent minority Community participation in three or four conventional oil-rig projects (investment of 15 million units of account and annual operating costs of 12 to 15 million units of account) or in a greater number of projects of smaller scope. This appropriation may be used only after the Council has reached a Decision on each individual project.
394		This appropriation is blocked and may be unblocked only on the basis of the Decision which the Council will take on the Commission Proposal concerning the scientific and technological policy programme.

Article	Item	Remarks						
400		This appropriation is intended, — up to an amount of 35 million units of account for structural projects to be carried out in the countries afflicted by drought. Projects envisaged include the financing of the following measures: purchase of the means of transport, rebuilding of runways, establishing stockpiling facilities, human water supplies, a seed programme, intensification of land cultivation, ensuring survival of cattle, etc. — up to an amount of 600 000 units of account to make it possible for rapid Community aid to be provided for disaster victims.						
401		Under the provisions of Council Decision (EEC) of 22 December 1966, the Community is authorized to allocate aid to Italy towards the granting of assistance to workers made redundant because of the reorganization of the sulphur industry in Italy and towards the granting of scholarships for the professional training of their children. This Community aid shall not exceed 4 200 000 units of account. On 31 December 1972 the unused balance was 906 045 units of account (including 35 000 units of account entered under the 1973 Budget) which represents appropriations remaining from previous financial years. The appropriation of 350 000 units of account for 1974 is therefore a re-entry.

CHAPTER 41 — SUBSIDIES AND FINANCIAL CONTRIBUTIONS

Article	Item	Remarks
410		Appropriations intended to cover Commission intervention in activities beneficial to the functioning and development of the Community and, generally speaking, to European integration.
411		Granting of aid to higher education institutions setting up a programme of value to European integration. The appropriation includes 8 000 units of account to further the study of Customs Law and its harmonization.
412		Granting of aid to groups, movements, circles or activities of a European nature. The appropriation includes 5 000 units of account for meetings on family allowances, old age and medical statistics, as well as for the study of subjects relating to the registration of migrant workers and to data-processing in the social security field.
413		Contributions or participation in the organizing of congresses, occasional meetings and activities of a European or a scientific character of real value to the Community.
		The appropriation includes a grant of 5 000 units of account to the European Institute for Social Security for the organization of a seminar on social security and finance (financing by public authorities, joint financing, interventions from public resources and negative income tax).
4130		Allocation of research grants and endowments for research work on the various aspects of European integration.
4131		Allocation of study grants for the intensive training of conference interpreters, with a view to solving the problem of the lack of qualified interpreters with a knowledge of Community languages.
4139		This appropriation is to enable American nationals occupying high-level positions in their country to carry out a brief period of study in the Community.
414		Granting of European prizes and financial contribution towards the printing, translation and dissemination of works of a scientific nature of interest to the Community in the study of European problems.
		The increase provided for will enable the number of cases in which aid is granted up to the present time to be increased.
415		Appropriation to help consumer organizations adapt themselves to the European plan and to finance activities undertaken by these European organizations representing consumers in order to enable them to carry out their duties in the best possible way. Community intervention is intended to enable these organizations to carry out sample surveys among consumers, which would serve as the basis for studies and surveys of such complex problems as the elimination of technical barriers to trade, and so enable them to express reasoned opinions and take part in the drawing-up of directives.
416		Community participation in the financing of the Fourth International Tin Agreement, a participation fixed at £500 per annum until the end of 1974.

CHAPTER 43 — EUROPEAN SCHOOLS

Article	Item	Remarks
430 to 435		In the course of the meeting held on 22 and 23 May 1973, the governing Council approved the budgets of the European Schools for 1974. The contribution of the Commission amounts to 8 907 000 units of account, allocated as shown on the opposite page. This allocation was determined taking into account the expenditure for which the Member States assume direct responsibility, miscellaneous revenue of the schools, and a margin of 5 % to ensure that possible supplementary budgets for the schools in 1974 are covered.

CHAPTER 51 — EXPENDITURE UNDER ARTICLE 5 OF THE COUNCIL DECISION OF 1 FEBRUARY 1971 ON THE REFORM OF THE EUROPEAN SOCIAL FUND

CHAPTER 52 — SOCIAL FUND — PILOT SCHEMES AND PREPARATORY STUDIES

Article	Item	Remarks
500		The increase over that for 1973 of the appropriation entered for 1974, is due principally to the following two factors: (a) as the Council Decisions on opening the 'Agriculture' and 'Textile industry' sectors were not made until 19 December 1972, the 1973 financial year was an initial phase during which the first claims from the Member States in connection with these two sectors were received. During the 1974 financial year the number of claims will be considerably higher than in 1973; (b) in addition, plans are being made to open new fields. In addition to these appropriations for the 1974 financial year, the Commission is authorized to enter into commitments during that financial year for the two subsequent financial years, up to the amount of: 1975: 50 000 000 u.a.; 1976: 20 000 000 u.a.
510		The appropriations entered for the 1974 financial year, on the basis of experience gained since the setting up of the reformed Social Fund and bearing in mind present expectations, will be used in the following sectors: the regional sector; the economic sector; technical progress. The distribution between these sectors will depend on the claims received for each. The relative importance of the various types of intervention cannot be determined accurately in advance as this will depend on the various measures proposed by the promoters of the projects and on the commitments of the Member States. In addition to these appropriations for the 1974 financial year, the Commission is authorized to enter into commitments during that financial year for the two subsequent financial years, up to the amount of: 1975: 60 000 000 u.a.; 1976: 30 000 000 u.a.
520	5200	In view of the type of projects concerned, the proper administration of the appropriations in Chapters 50 and 51 will require preliminary studies and pilot schemes to test the means or methods proposed before they are brought into general use.

CHAPTER 54 — SOCIAL FUND — EXPENDITURE PROVIDED FOR UNDER ARTICLE 125 (1) (b) OF THE EEC TREATY

Article	Item	Remarks
530		Expenditure provided for under this Article is the outcome of the application of the transitional provisions of the Decision of 1 February 1971 (Art. 10(2)) and takes account of the estimated amount of claims which will be submitted for operations carried out by 1 July 1972.
	5301 and 5302	The amounts entered for 1974 were calculated with reference to the two previous financial years and after drawing up an inventory of the projects carried out up to 30 June 1972. In view of the time limits laid down in Council Regulation No 9 concerning the carrying out of these operations, and of the time necessary for the national authorities to draw up claims, plus the time required by the Commission for the investigation and completion of the cases, the projects connected with Article 125 (1) (a) of the EEC Treaty cannot be expected to be finished before 1975. As regards the appropriation for item 5302, claims concerning the resettlement of workers passing from one country of the European Community to another are still diminishing, while those concerning resettlement in the same country are increasing. This development has implied an increase in the expenditure to be expected on this item. Consequently the appropriations to be entered in the Budget will be increased from three million units of account to four million units of account in 1974.

Article	Item	Remarks
600		Expenditure on the common agricultural policy relating to the Guarantee Section of the EAGGF consists of refunds financed under Article 2 of Regulation (EEC) No 729/70 and intervention expenses financed under Article 3 of the same Regulation, the general rules for financing being laid down in Regulation (EEC) No 2824/72.
601		
	6014	This appropriation is intended to cover interventions in the form of purchases and subsequent operations carried out by a public intervention agency in accordance with Article 7 of Regulation No 120/67/EEC as well as special intervention measures aimed at avoiding extensive purchases by intervention agencies operating under Article 8 of that Regulation.
602		This appropriation is intended to cover expenditure on subsidies for feed grains imported into Italy by sea from the other Member States, as a result of the abatement of levies accorded to the same imports from non-member countries (Article 23 of Regulation No 120/67/EEC and Regulation (EEC) No 1359/73 which has fixed the abatement for the marketing year 1973/74 at 6 units of account per metric ton and provided for its gradual reduction to 1.50 units of account per metric ton).
	6020	
611		At the present stage of preparation, this appropriation is intended to cover the following interventions: — refunds on production pursuant to Article 9 of Regulation No 359/67/EEC; — intervention in respect of storage provided for by Articles 5, 6 and 8 of Regulation No 359/67/EEC.

	6213	This appropriation is intended to cover possible expenditure on intervention as a whole in respect of the public or private stockage of Grana Padano and Parmigiano-Reggiano cheeses under Article 8 of Regulation (EEC) No 804/68, and aid for the private stockage of long-keeping cheeses in accordance with Article 9 of the same Regulation.
	6214	Allocation to cover: — expenditure on the stock of butter and subsequent operations carried out under Article 6 of Regulation (EEC) No 804/68: aids to private stockage, purchases and stockage by public intervention agencies, and special disposal measures excluding food aid to developing countries or disaster victims, as this expenditure is dealt with in item 6219; — expenditure on special measures for the reduction of surpluses of butter fats in accordance with Article 12 of Regulation (EEC) No 804/68, excluding aid to butter consumption under Regulation (EEC) No 1191/73, which is dealt with in item 6290.
	6218	In former years this expenditure, as it was provided for special disposal measures, formed part of item 6212. Item 6218 covers only a fraction of expenditure for food gifts of skimmed-milk powder; the other part is dealt with in Article 903.
	6219	In former years this expenditure formed part of item 6214 which covered expenditure on stocking proper and on all special measures.

CHAPTER 77 — APPROPRIATIONS FOR AUDITING THE ACCOUNTS OF ACCOUNTING PERIODS BEFORE 1 JANUARY 1971

Article	Item	Remarks
740		Allocation to cover expenditure on aid per hectare granted to producers under Article 12 of Regulation (EEC) No 1696/71; this expenditure is only provisional, pending a Council Decision as to the actual granting and the level of aid.
760		
	7601	Allocation to cover aid in the Community silkworms sector under Article 2 of Regulation (EEC) No 865/72.
	7602	On 28 December 1972 the Council adopted a Resolution committing itself to the creation of a common organization of the markets before 1 August 1973 (OJ No C 141, 31 December 1972). This new item was created, with a token entry, in order to cover possible expenditure by transfer, after the Council has reached the decision envisaged above.
	7609	This item was created to defray expenses which will arise, after a decision to be taken by the Council, from Commission proposals at present being drawn up.
770		In a decree of 11 January 1973 concerning case No 13/72, the Court of Justice rescinded Commission Decision No 72/120/EEC of 20 January 1972 relating to the contribution by the Guarantee Section of the EAGGF to the expenditure of the Kingdom of the Netherlands on refunds for exports to non-Member States, and Commission Decision No 72/115/EEC of 26 January 1972 relating to the determination of the lowest average refunds. In this case the contribution to expenditure was for the 1966/67 accounting period. In view of the decree of the Court of Justice, the Commission has had to revise the calculations relating to expenditure on refunds and to make a complementary repayment for the refunds granted within the framework of national food aid programmes: the amount required for this purpose — 3 000 000 units of account — is entered under this Article. Certain appropriations relating to the final closing of accounts will have to be re-entered in the balances of the second half-year of 1969 and of 1970. Given that in the second half of 1969 and in 1970, most of the movements of funds which took place under the clearing scheme were carried out by means of provisional payments in accordance with the Council Resolutions of 21 April 1970 and 30 May 1972, the re-entry of these appropriations will primarily have a rectifying effect and will not give rise to any major expenditure, since they will be covered by <i>ad hoc</i> contributions varying according to the periods and payable solely by the 'Six'. In order to avoid the necessity of re-entering the amounts several times and that of taking rectifying action, it is proposed that these appropriations be re-entered when preparatory work on the definitive closing of the accounts is sufficiently far advanced to allow of the amounts involved being estimated as accurately as possible.

CHAPTER 79 — OTHER EXPENDITURE

Article	Item	Remarks
790		
	7901	This item corresponds to the application of Regulation (EEC) No 2464/69.
	7902	The appropriation for this item is intended to enable the Community to contribute to the aid granted to Netherlands farmers (Regulation (EEC) No 3141/73 O.J. No L 321, 22.11.73) following the rise of 5 % in the central rate of the Netherlands florin on 17 September 1973.
791		The appropriation for this item corresponds to the accession compensatory amounts granted in intra-Community trade.
792		The appropriation for this item represents the difference between the monetary compensatory amounts granted in intra-Community trade and those levied under the same conditions.
799		In the 1973 Budget this Article represented an approximate and provisional estimate of the incidence on Common Market agricultural policy of the expenditure of the new Member States. The sum of 238 362 027·28 units of account is the difference between the advances paid out to the paying bodies, which represent an overall commitment, and the payments received. This amount was carried forward to the financial year 1973 under Article 111 of the Financial Regulations (73/91/ECSC, EEC, Euratom). It is intended to cover second-category expenditure for the 1972 financial year which could not be allocated because of the incomplete and provisional figures forwarded to the EAGGF as requests for payments. Currently available figures do not permit an exact distribution, but the main items involved are official stockpiling of cereals, skimmed and powdered milk, and butter, for approximate amounts of 50, 25 and 150 million units of account. This expenditure will be allocated according to the budgetary nomenclature in the course of the financial year 1973 on the basis of figures received for the discharge of liabilities for 1972.

Article	Item	Remarks
800	8003	Expenditure to be borne by this item in 1974 derives from the application of Article 6 (4) of Regulation (EEC) No 729/70. The entry of this credit in the draft budget shall not prevent its being used first of all, should the need arise, to supplement the credits in Chapters 81 to 85 in cases where the expenditure in 1974 resulting from joint activities exceeds the credits at present entered under the corresponding budgetary headings. It is understood that any transfers which may be decided upon in 1974 to supplement budget items relating to joint schemes and special measures will come in the first instance from the appropriation under Article 870 and in the second instance from the appropriation under item 8003.

CHAPTER 85 — DEVELOPMENT OPERATIONS IN PRIORITY AGRICULTURAL REGIONS

Article	Item	Remarks
840	8404	The appropriation entered under this item is intended to meet expenditure arising from the application of Council Regulation (EEC) No 1696/71 of 26 July 1971.
850	8501 and 8502	On the basis of the Council Resolution of 21 March 1972 which states that the EAGGF could be used as from 1972 for regional development schemes, an appropriation of 25 000 000 units of account was reserved in 1972 (item 8501) and another of 50 000 000 units of account in 1973 (item 8502). These appropriations constitute commitment authorizations, and may be used as soon as the Council has given its decision on the Commission Proposal of 26 May 1971 relating to Community financing of development schemes in priority agricultural areas. Should the appropriations be committed in the course of this financial year, the budget authority has undertaken to make the necessary amendments to the expenditure and revenue entries.
	8503	Pursuant to the abovementioned Council Resolution of 21 March 1973, the sum of 50 000 000 units of account will be levied on the annual grant of 325 million units of account in the financial year 1974 to finance regional development schemes.

Article	Item	Remarks
870		This appropriation is intended partly to finance measures financed by the Community and constituting joint projects within the meaning of Article 6 of Regulation (EEC) No 729/70, and partly to cover expenditure arising in 1974 from special measures in the event that they exceed the budget estimates of Articles 890 to 894. It is understood that any transfers decided upon in 1974 to supplement budget items relating to joint projects and special measures will come in the first instance from the appropriation under Article 870 and in the second instance from the appropriation under item 8003.
880		For the years 1969 to 1973, appropriations amounting to 509 384 300 units of account have been carried forward by Council Decision for the financing of joint schemes within the meaning of Article 6 of Regulation (EEC) No 729/70. These appropriations represent authorizations for commitments: they will be committed from the time when expenditure on joint schemes exceeds the annual appropriation of 325 000 000 units of account. Where these appropriations have been committed totally or partially in the course of the financial year, the budgetary authorities have undertaken to make the resulting modifications to both expenditure and revenue. This reserve was, in the financial years 1969 to 1973 made up as follows:
8801		84 799 418 units of account have been carried forward for 1969 pursuant to the provisions of Regulation (EEC) No 2010/68.
8802		83 428 882 units of account have been carried forward for 1970 pursuant to the provisions of Regulation No (EEC) 1534/69.
8803		184 986 000 units of account have been carried forward for 1971 pursuant to the provisions of Regulation (EEC) No 2591/70.
8804		85 170 000 units of account have been carried forward for 1972 pursuant to the provisions of Regulation (EEC) No 847/72.
8805		71 000 000 units of account representing the estimate of appropriations which will be held back in 1973 will be carried forward for 1973 pursuant to the provisions of a Regulation which the Commission has proposed to the Council concerning the allocation of the 1973 appropriations. This amount of 71 000 000 u.a. is made up as follows: — 25 000 000 u.a. (see remarks on items 8100-8101-8102), — 46 000 000 u.a. (see remarks on item 8805). The amounts carried over are liable to be modified according to the actual expenditure arising out of special measures.

TITLE 9

FOOD AID AND OTHER EXPENDITURE

CHAPTER 90 — FOOD AID EXPENDITURE

Article	Item	Remarks
900		In the present state of Community Regulations, expenditure on food aid in the form of milk products from official stocks is financed by the Guarantee Section of the EAGGF (items 6218 and 6219). The Commission has undertaken to submit to the Council at an early date a proposal for a Regulation allowing expenditure on food aid to be reclassified after definition of expenditure coming under food aid policy and that coming under the common agricultural policy. Expenditure under this Article arises from: (a) the Council Decision of 10/11 November 1969 which laid down that 335 500 metric tons would be provided as Community food aid in the 1969/70 plan of execution, and the Council Decision of 6 April 1971 which laid down that the Community would provide 353 140 metric tons in the 1970/71 plan of execution; (b) the implementation of the provisions of Regulation (EEC) No 2052/69, amended by Regulation (EEC) No 1703/72.
	9003	In view of the expected rate of execution of the plan, it appears at present that the financial provisions of the 1970/71 plan of execution of the 1967 Food Aid Convention will be implemented mainly in 1974. The appropriation of 25 000 000 units of account for 1974 is a re-entry of the corresponding amount for 1972 which was carried over in 1973 and could not be used during the last financial year.
901		The expenditure under this Article arises from: (a) the Council Decision of 23 May 1972 which laid down that 414 000 metric tons would be provided within the framework of Community food aid action for the 1971/72 plan of execution of the Food Aid Convention of 1971, and the Decision of 2 April 1973 which laid down that the Community would provide 465 000 metric tons in the 1972/73 plan of execution of the same Convention; (b) the implementation of the provisions of Regulation (EEC) No 1073/72.
	9011	The expenditure incurred by the implementation of the 1972/73 plan of execution will amount to 48 million units of account instead of 35 million units of account envisaged in the 1973 Budget. As against the previous plan of execution: (a) the Council has decided to increase — as from 1 January 1973, and owing to the enlargement of the Community — the overall annual cereal contribution from 1 035 000 metric tons to 1 287 000 metric tons, i.e. an increase of 252 000 metric tons. For the action year extending from 1 July 1972 to 30 June 1973, the Community's commitment was increased by the quantity for six months, i.e. by 126 000 metric tons, thus increasing the commitment for this plan of execution from 1 035 000 metric tons to 1 161 000 metric tons; (b) the Council has decided that the Community's share in food aid action should be 40 %, thus increasing it from 414 000 metric tons to 465 000 metric tons.
	9012	The cost of the 1973/74 plan of execution has been estimated at 75 million units of account as compared to 1972/73: (a) the Community's commitment will increase from 1 161 000 to 1 287 000 metric tons; (b) the Community's share in food aid action will henceforth be the 45 % minimum laid down by the Council; this means an increase from 465 000 metric tons to 579 000 metric tons (+ 114 000).

Article	Item	Remarks
902		The expenditure under this Article arises from: (a) the Council Decision of 26 May 1972 concluding an Agreement between the EEC and the World Food Programme; (b) the implementation of the provisions of Regulation (EEC) No 1577/71.
903		The expenditure under this Article arises from: (a) the Council Decisions of 6 and 20 March 1970 concluding an Agreement between the EEC and the World Food Programme and the International Red Cross Committee for the supply of skimmed-milk powder as food aid (Regulation (EEC) No 442/72); (b) the implementation of the provisions of Regulation (EEC) No 2721/72.
904		
	9040	The expenditure under this item arises from: (a) the Council Decisions of 30 October and 19 December 1972 concluding respectively an Agreement and a triennial Convention between the EEC and UNRWA; (b) the implementation of the provisions of Regulation (EEC) Nos 1475/72 and 1052/73. The amount corresponds to the appropriation necessary for the execution of the triennial aid programme (sugar) concluded with UNRWA.
	9041	This appropriation is intended to finance exceptional expenditure involved in urgent food-aid projects for the Sahel countries (Chad, Mali, Mauretania, Niger, Senegal and Upper Volta) and Ethiopia.

Details of the calculations concerning these contributions can be seen in Annex A to this Statement of Revenue. The scales for the contributions of the Member States to the complementary programmes (1973 to 1976) in the fields of 'Plutonium and transplutonic elements' and 'Supervision and management of fissile materials' as shown in Annex A to this Budget has been calculated on the basis of the relative shares proposed in the draft budget 1974. As regards the 'HFR Reactor' complementary programme, the scale has been determined by the Council on an <i>ad hoc</i> basis (see Annex A to this Budget).

In accordance with the insertion made in the minutes of the Council meeting at the time of the adoption of the programme decisions relating to direct action covered by List 'B', it has been agreed that, from the beginning of the financial year 1974, these activities will be financed from the General Budget. In order to comply with this requirement of the Council budgetary authorities on the one hand, and the Council's programme decision on the other, a special appropriation account has been created (1.91) recording the expenditure under this objective and making provision for resources derived from Chapter 26 (Item 2652) of Section III — Commission — of the Budget of the European Communities.

N.B.: The programme appropriation has been fixed at two million units of account; of which one tranche of 1 722 million units of account was made available in 1973. It has been agreed, in accordance with entry in the Council minutes made when the programme decisions relating to direct actions on List 'B' were adopted, that from the beginning of the financial year 1974, these activities will be financed from the General Budget. This makes it necessary to amend the timetable in order to limit the tranche to needs foreseeable in 1973.

Staff referred to in footnote 5 to the list of posts for 'Headquarters and indirect action', annexed to this Budget, may be placed at the disposal of the Member States' Governments or bodies on the basis of Article 6 (c) of the Euratom Treaty.

From a budgetary standpoint, this measure necessitates the creation of one or, if necessary, several appropriation accounts (articles) reflecting the financial repercussions for each Government or body of the Member States involved.

As soon as one of these Governments or bodies notifies the Commission of its final agreement to take on certain staff members on the basis of Article 6 (c) of the Euratom Treaty, the above appropriation account or accounts — including appropriation account 1.10.2 — will receive posts or resources in accordance with their actual requirements.

1	1.91	1.91.0				It was agreed, in accordance with the entry made in the Council minutes when the research and training programme decisions for List B direct actions were adopted, that as from the financial year 1974 all activities coming under the programme project 'Technical assessments in support of Commission activities' be financed by the general part of the Budget. To respect the Council's wish, appropriation account 1.91 was created, recording — in terms of posts — the expenditure on this objective and providing for resources from item 2652 of Section III — Commission — of the Budget of the European Communities. The amount entered under this item is therefore the counterpart in terms of resources of the posts entered in this appropriation account. This appropriation corresponds to the use of the Computer Centre—1.40.0 (around 82 hours of computer time). This appropriation corresponds to the expenditure in respect of 12 men per year assigned to research.

COUNCIL DECISION

Authorizing the Commission to make certain transfers of funds

In accordance with Article 103, first indent, of the Financial Regulation applicable to the Budget of the European Communities, the Council authorizes the Commission to make the following transfers for the purposes of the Statement of Expenditure relating to research and investment activities for the financial year 1974:

Inter-chapter transfers resulting from the structure of the Functional Budget

The Commission shall decide on transfers between chapters within programmes governed by the same financing scale where such transfers are necessitated by variations, in the implementation of the Functional Budget, between the initial budgetary authorizations and the actual needs resulting from secondary charges.

These transfers shall not have the effect of increasing or reducing by more than 10 %, as to budgetary commitments and payment authorizations, the original appropriation entered in each chapter.

These transfers shall not have the effect of necessitating an increase in the programme appropriations as adopted by the Council following the initial programme decision or any revisions of subsequent programmes.

FOOTNOTES

- (¹) All staff employed in scientific or technical departments and performing either scientific, technical or general work (including managerial staff) are considered as occupying scientific or technical posts.
- (²) The following are considered in principle as occupying administrative posts: all staff assigned to administrative, financial and supply departments of the Establishments; all secretaries, whatever the departments to which they have been assigned; and the small number of staff assigned to scientific and technical departments who are made available to the supply departments of the Establishments.
- (³) Of the staff covered by the Budget, the following may be included, as shown, under either of the heads 'scientific/technical' or 'administrative':
- (a) Category B staff in scientific/technical posts A5/A8 and administrative posts A7/A6 provided for in the Budget, up to 5 % of these posts;
 - (b) Category C staff in B posts provided for in the Budget, up to 5 % of these posts;
 - (c) Establishment staff in Category C and D posts provided for in the Budget, up to 10 % of these posts.
- (⁴) Of the total 1 910 posts, 44 are in principle to be abolished on 31 December 1973, after the special redundancy scheme embodied in the provisions of Regulation (EEC) No 1543/73 have been applied in respect of the officials occupying these posts. However, in the exceptional cases referred to in Article 2 (1), first subparagraph of this Regulation, the Commission is authorized to maintain the relevant posts in the Establishment Plan up to 30 June 1974 at the latest.
- (⁵) Including 20 posts occupied by staff either awaiting assignment to the objective 'European Computer Program Information Centre' (COST Project 12) currently being defined or in respect of whom the redundancy scheme will be applied, in accordance with the provisions of Regulation (EEC) No 1543/73. The posts becoming vacant on the implementation of the aforementioned redundancy scheme will accordingly be deemed abolished.

CHAPTER 13 — EXPENDITURE RELATING TO MISSIONS AND DUTY TRAVEL

CHAPTER 14 — EXPENDITURE ON SOCIAL WELFARE AND ON FURTHER VOCATIONAL TRAINING OF STAFF

Article	Item	Remarks
130	1300	The figure for these appropriations seems essential in view of the need to strengthen contacts with national courts, universities and scientific bodies, in addition to personal contacts, conferences and meetings at which it is desirable that Members of the Court be present.
140		Appropriation to cover payments to officials and other servants in special circumstances (including Article 76 of Staff Regulations).
141		The appropriation enables financial aid to be given in support of projects aimed at encouraging good social relations between officials.
142		The appropriation provided for in this Article covers: — salaries of canteen staff; — maintenance and repair of existing equipment; — purchase of supplementary materials.
143		The increase is partly to permit participation in the development of preventive medicine as planned by the Commission.
144		The appropriation represents the flat-rate contribution of the Court to the financing of language and further training courses.
149		The appropriation is mainly to cover the Court's share of expenses incurred by social, cultural and sporting activities; the funds are managed by the Social Activities Committee.

CHAPTER 15 — COST OF ORGANIZING INTERNAL TRAINING COURSES

Article	Item	Remarks
150		In cooperation with Ministers of Justice, this appropriation enables one-week courses to be held at the seat of the Court during the financial year for about 100 judges or public prosecutors. Judges or public prosecutors invited to participate in the courses are nominated by Ministers of Justice. They can only claim reimbursement of travel and subsistence expenses on the basis of the rules in force for duty travel of officials (Rate II of Article 13, Annex VII of Staff Regulations).

	2231	Provision is made for the replacement of four cars which have covered about 100 000 km — the average purchase price per car is around 6 600 units of account. Account must also be taken of the sale of the old cars for approx 500 units of account which are deducted from expenditure.
	2233	The appropriations are to cover the costs of maintenance, repair, garages and insurance for 16 cars.
225		
	2250	The appropriation is justified by the increasing number of publications and legal works of interest to the Court.
	2251	The appropriations cover the first work of transcribing the full text of judgments and opinions on perforated tape.
	2252 } 2253 }	The appropriations are to cover subscriptions to newspapers, periodicals and news agencies.
230		The appropriations are to cover the cost of purchasing paper, envelopes, office equipment and supplies for duplicating as well as certain expenses for printing work.
231		The appropriations have been estimated on the basis of expenditure in the course of the first months of this financial year. The increased appropriation is due to a wider distribution of documents and increased postal charges.

CHAPTER 26 — EXPENDITURE ON STUDIES, SURVEYS AND CONSULTATIONS

CHAPTER 27 — EXPENDITURE ON PUBLISHING AND INFORMATION

Article	Item	Remarks
255		Meetings with judges and public prosecutors of Member States are necessary in view of the development of the case law of the Court side-by-side with that of the courts of the Member States in the field of Community law; certain meetings have already taken place in cooperation with the Ministers of Justice of Member States, who would like such contacts to be further developed. The appropriation for 1974 allows enough to cover travel and subsistence expenses for around 200 people.
270		These appropriations are to cover publication of material in the Official Journal. Proceeds from the sale of publications and of the Official Journal is estimated under Article 902 of the revenue estimates at 12 000 units of account.
271	2710	These appropriations are to cover the cost of publishing the 20th volume of Reports of the Cases and other publications in six languages (bibliography and legal works) and publication of the case law of Member States concerning Community law. This appropriation also provides for the publication in English and Danish of reports of some previous cases.

EXPENDITURE RESULTING FROM THE INSTITUTION CARRYING OUT SPECIAL FUNCTIONS

CHAPTER 37 — EXPENDITURE RELATING TO CERTAIN INSTITUTIONS AND BODIES

CHAPTER 38 — LOAN OF SERVICES BETWEEN INSTITUTIONS

Article	Item	Remarks
371		
	3710	It is not possible to make a precise estimate of the amount of this Article. The appropriation of previous financial years should however be retained in order to ensure the normal operation of justice in all cases where the grant of legal aid has been approved, and where expenses of witnesses and expert witnesses, visits to the scene of occurrence, enquiries into applications for legal aid, fees and other costs may have to be charged to the Court.
	3711	The appropriation is to cover the costs of any meetings which may be held and other administrative expenses.
	3712	This appropriation is estimated and calculated on the basis of expenses incurred on the occasion of a preliminary meeting held in 1964. In accordance with Article 24 of Protocol No 8 concerning the Statute of the Court of Arbitration of the Association and Article 3 of 'Protocol No 10 concerning the operational expenses of Institutions of the Association' responsibility for travel and subsistence expenses for Members of the Court of Arbitration is to be equally divided between the EEC and the Associated States.
	3713	Pursuant to Article 3 of Protocol No 10, responsibility for expenses incurred by the Registry of the Court of Arbitration, or resulting from investigation of disputes and from the technical organization of sessions (place, staff, interpretation and translation, etc.) is accepted in full by the EEC.
380		Share of the Institution at the rate of Bfrs 366 per published page in the costs of the Official Journal and of Bfrs 408 per page for the other publications.
381		Interpreters are at present placed at our disposal by the Parliament and Commission interpretation services in Luxembourg. Appropriation is to cover the flat-rate daily interpreter's allowance of 105·70 units of account. This appropriation takes account of the need to interpret in the six languages.
