COMMISSION REGULATION (EEC) No 1505/77

of 5 July 1977

amending for the 12th time Regulation (EEC) No 2042/75 on special detailed rules for the application of the system of import and export licences for cereals and rice

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2727/75 of 29 October 1975 on the common organization of the market in cereals⁽¹⁾, as last amended by Regulation (EEC) No 1151/77⁽²⁾, and in particular Article 12 (2) thereof,

Whereas Commission Regulation (EEC) No 2042/75 of 25 July 1975 on special detailed rules for the application of the system of import and export licences for cereals and rice⁽³⁾, as last amended by Regulation (EEC) No 1125/77⁽⁴⁾, fixed the period of validity of import licences for feed grain at 60 days in order to take account of the drought raging in several regions of the Community which had led to a drop in fodder supplies and a rise in prices;

Whereas the reasons which led to the fixing of this period of validity no longer apply; whereas it is therefore desirable to limit the validity of import licences for certain cereals to 45 days again, in order to reduce the risks to the normal development of the market from seasonal falls in prices;

Whereas harmonization of the periods of validity of export licences for all cereals is desirable;

Whereas Regulation (EEC) No 2042/75 fixed the period of validity of export licences at 30 days for common wheat, barley and maize and 90 days for other cereals; whereas the period of 30 days was introduced for the three main cereals at a time when prices on the world market were fluctuating considerably and the supply situation in the various importing countries was uncertain because of the forecast for world harvests;

Whereas the overall world situation has become more stable as a result of the favourable harvest forecasts from many countries; whereas this more balanced situation on the world market permits a return to a longer period of validity of export licences for common wheat, barley and maize, in order to facilitate commercial transactions without affecting the internal Community market; whereas, however, a certain caution must be used when prolonging this period of validity; whereas a period of validity of two months following the month of issue in the case of export licences for common wheat, barley and maize meets the above requirements;

Whereas harmonization of the periods of validity of export licences for all cereals is desirable;

Whereas the Management Committee for Cereals has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1

1. Annex I to Regulation (EEC) No 2042/75 is replaced by Annex I to this Regulation.
2. Annex II to Regulation (EEC) No 2042/75 is replaced by Annex II to this Regulation.

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Letter No 1

Brussels,

Sir,

1. In the negotiations referred to in Article 5 (4) of Protocol 3 annexed to the ACP-EEC Convention of Lomé the representatives of the ACP States referred to in that Protocol and the Commission, on behalf of the European Economic Community, acknowledged the joint obligations and responsibilities deriving from the Convention and reaffirmed their determination fully to implement the provisions of the Protocol.

Following the conclusions of the said negotiations the parties have agreed as follows :

For the period 1 May 1977 to 30 June 1978 the guaranteed prices referred to in Article 5 (4) of the Protocol shall be :

- (a) for raw sugar, 27.25 units of account per 100 kilograms ;
- (b) for white sugar, 33.83 units of account per 100 kilograms.

These prices shall refer to sugar of standard quality as defined in Community rules, unpacked, and cif European ports of the Community.

2. Having regard to the change in the definition of the Community's intervention prices and other relevant factors, the Community expects that the guaranteed price for ACP raw sugar and the adoption of the special self-balancing storage levy system for preferential sugar will enable the ACP States to secure on the Community market during the 1977/78 delivery period a price of not less than 28.20 units of account per 100 kilograms.
3. In respect of ACP white sugar the Community expects that the guaranteed price will result in a market price of 35.60 units of account per 100 kilograms.

I take the opportunity to inform you that the Community has just adopted amending legislation in order that a special self-balancing storage levy system shall apply to imported preferential sugar with effect from 1 July 1977.

I should be obliged if you would acknowledge receipt of this letter and confirm that this letter and your reply constitute an Agreement between your Government and the Community.

Please accept, Sir, the assurance of my highest consideration.

of the European Communities*

- '1. In the negotiations referred to in Article 5 (4) of Protocol 3 annexed to the ACP-EEC Convention of Lomé the representatives of the ACP States referred to in that Protocol and the Commission, on behalf of the European Economic Community, acknowledged the joint obligations and responsibilities deriving from the Convention and reaffirmed their determination fully to implement the provisions of the Protocol.

Following the conclusions of the said negotiations the parties have agreed as follows :

For the period 1 May 1977 to 30 June 1978 the guaranteed prices referred to in Article 5 (4) of the Protocol shall be :

- (a) for raw sugar, 27.25 units of account per 100 kilograms ;
- (b) for white sugar, 33.83 units of account per 100 kilograms.

These prices shall refer to sugar of standard quality as defined in Community rules, unpacked, and cif European ports of the Community.

2. Having regard to the change in the definition of the Community's intervention prices and other relevant factors, the Community expects that the guaranteed price for ACP raw sugar and the adoption of the special self-balancing storage levy system for preferential sugar will enable the ACP States to secure on the Community market during the 1977/78 delivery period a price of not less than 28.20 units of account per 100 kilograms.
3. In respect of ACP white sugar the Community expects that the guaranteed price will result in a market price of 35.60 units of account per 100 kilograms.

I take the opportunity to inform you that the Community has just adopted amending legislation in order that a special self-balancing storage levy system shall apply to imported preferential sugar with effect from 1 July 1977.

I should be obliged if you would acknowledge receipt of this letter and confirm that this letter and your reply constitute an Agreement between your Government and the Community.'

I have the honour to confirm the agreement of my Government with the foregoing.
