COUNCIL DECISION

of 30 May 1978

on the equivalence of checks on practices for the maintenance of varieties
carried out in third countries

(78/476/EEC)

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Directive 70/457/EEC of 29
September 1970 on the common catalogue of varieties
of agricultural plant species⁽¹⁾, as last amended by
Directive 78/55/EEC⁽²⁾, and in particular Article
21 (1)(b) thereof,

Having regard to Council Directive 70/458/EEC of 29
September 1970 on the marketing of vegetable
seed⁽³⁾, as last amended by Directive 78/55/EEC, and
in particular Article 32 (1) (b) thereof,

Having regard to the proposal from the Commission,

Whereas in a number of third countries certain var-
ieties officially accepted in the Community are main-
tained according to practices for the maintenance of
varieties ;

Whereas such practices are or may be officially
checked in those countries ;

Whereas an examination of the conditions of official
checks on practices for the maintenance of varieties
carried out in Canada, the German Democratic Repu-
blic, Spain, Hungary, New Zealand, Poland, Sweden,
the United States of America and South Africa has
shown that these checks afford the same guarantees as
those carried out by the Member States ;

Whereas this Decision does not preclude Community
findings on equivalence being revoked or the exten-
sion of their period of validity being refused, when the
conditions on which they are based are not or cease to
be satisfied ; whereas, to this end, further practical
information on seed of the varieties being maintained
in the abovementioned countries should also be
obtained when carrying out comparative Community
tests ;

Whereas certain of the technical and administrative
provisions in the Annex may be subject to frequent
adjustment ; whereas, in order to simplify the proce-
dure which at present governs amendments to the
Annex, such adjustments should be made in accor-
dance with the procedure of the Standing Committee
on Seeds and Propagating Material for Agriculture,
Horticulture and Forestry ;

Whereas this Decision does not affect the provisions
of the Protocol on German Internal Trade and
connected problems,

HAS ADOPTED THIS DECISION :

Article 1

It is hereby noted that the official checks on practices
for the maintenance of varieties carried out in the
countries and by the authorities listed in the Annex
for the species listed therein and concerning the said
countries afford the same guarantees as those carried
out by the Member States.

Article 2

The following shall be adopted in accordance with the
procedure laid down in Article 23 of Directive
70/457/EEC and in Article 40 of Directive
70/458/EEC :

- the practices for the maintenance of varieties to
which the official checks referred to in Article 1
apply,
- the technical and administrative adjustments to be
made to the Annex, with the exception of those
concerning column 2 of the table.

Article 3

A finding as referred to in Article 1 shall be with-
drawn when the conditions therefor are no longer
satisfied.

Article 4

This Decision shall apply from 1 July 1978 to 30
June 1988.

COMMISSION RECOMMENDATION**of 12 May 1978****to the Government of Ireland regarding draft Regulations implementing Council Directive 74/561/EEC on admission to the occupation of road haulage operator in national and international transport operations****(78/482/EEC)**

Under cover of a letter dated 22 July 1977, the Office of the Irish Permanent Representative to the European Communities forwarded to the Commission, for consultation purposes, the text of draft Regulations implementing Council Directive 74/561/EEC of 12 November 1974 on admission to the occupation of road haulage operator in national and international transport operations⁽¹⁾.

This notification was made pursuant to Article 7 (1) of that Directive.

The Commission regrets the tardy notification of the implementing measures: not only has the Irish Government thereby exceeded the time limit for fulfilling the obligations incumbent upon it under Article 7 of Directive 74/561/EEC but also it has made it impossible for the Commission to adopt this recommendation in good time.

The Commission makes the following recommendation regarding the draft Regulations:

1. The Commission notes that the Irish Government's draft Regulations satisfy in principle the provisions of the Community Directive as regards admission to the occupation of road haulage operator, subject to approval of the implementing measures which have yet to be taken and to the following amendments to be made to them.

2. Regulation 3 (1) of the draft Regulations prohibits any person engaged in the occupation of road haulage operator from carrying goods unless he is the holder of a national or international road freight certificate. This Regulation therefore covers only 'persons', a term which is not defined any further, and does not include undertakings.

The Irish Government has explained that in its national legislation the term 'person' covers both natural and legal persons.

However, in view of the definition of the term 'undertakings' contained in the second subparagraph of Article 1 (2) of the Community Directive, which covers associations, groups and bodies, some of which may not fall within the categories of natural and legal

persons, the Commission recommends that the Irish Government provide expressly that the provisions of the proposed Regulations apply to the admission of both persons and undertakings to the occupation of road haulage operator.

3. The Commission also notes that Regulation 3 (2) of the draft Regulations exempts certain categories of transport operation from the application of Regulation 3 (1) (the possession of a road freight certificate constituting proof of satisfaction of the conditions of good repute, financial standing and professional competence).

However, Article 2 of the Directive does not provide for the possibility of exemption for certain types of transport operation, but for natural persons or undertakings engaged exclusively in certain transport operations.

The Commission therefore recommends, in the interests of clarity, that Regulation 3 (2) of the draft Regulations be amended to ensure compliance with Article 2 of the Directive.

4. The Commission also notes that Regulation 3 (2) of the draft Regulations exempts certain categories of transport operation from the requirement of possession of a road freight certificate. These include the following cases:

(a) the carriage is by means of a lorry or tractor which complies with the conditions specified in section 7 (1) of the Road Transport Act 1935 (No 23 of 1935), as amended by section 29 of the Transport Act 1958 (No 19 of 1958), and which is used in the course of international transport;

(b) the carriage of cattle, sheep or pigs within the State.

The Commission considers that the transport operations referred to under (a) fall within the scope of the Directive, since they do not fall in the categories of transport operation exempted by Article 2 of the Directive (transport operations having only a minor impact on the transport market because of the nature of the goods carried or the short distance involved).

⁽¹⁾ OJ No L 308, 19. 11. 1974, p. 18.

As regards the transport operations referred to under (b) (the carriage of cattle, sheep or pigs within the State), the Commission believes, first, that they can be excluded from the scope of the Directive only if the operators concerned are engaged exclusively in this type of transport operation (e.g. they use vehicles which are built and equipped permanently for this purpose); and secondly that they can be regarded as having a minor impact on the transport market in question only if they are effected over short distances.

As regards the other exemptions provided for in Regulation 3 (2) of the draft Regulations (the carriage of turf and milk — subparagraphs (iii), (iv) and (v) of Regulation 3 (2) (b) — and farm-to-farm transport operations — Regulation 3 (2) (d)), the Commission has no objections to these, provided that the condition of exclusive engagement in such transport operations laid down in Article 2 of the Community Directive is fulfilled.

The Commission therefore recommends that Regulation 3 (2) of the draft Regulations be amended in the light of these comments.

5. On the principle of good repute, the Commission notes that Article 3 (2) of the Directive states that, pending coordination at a later date, each Member State shall determine the provisions relating to good repute which must be satisfied by the applicant.

The Commission, however, considers the provisions of the draft Regulations, in particular paragraphs (9) and (11) of Regulation 5, are unclear and incomplete.

In the interests of clarity, the Commission requests the Irish Government to incorporate new provisions in the draft Regulations defining the conditions regarding good repute which must be satisfied.

6. Paragraphs (1) and (2) of Regulation 8 of the draft Regulations grant temporary permission to carry on a road transport business in the event of the death or illness of the holder of a road freight certificate.

The Commission considers that these provisions do not fully meet the requirements of Article 4 (1) of the Community Directive because :

- (a) the draft Regulations do not define the conditions under which a business can continue to be run ;

- (b) they refer only to death and incapacity caused by ill-health, but do not mention legal incapacity.

The Commission therefore recommends that the Irish Government amend paragraphs (1) and (2) of Regulation 8 of the draft Regulations to satisfy the requirements of Article 4 (1) of the Community Directive.

7. Regulation 13 (4) of the draft Regulations provides that a certificate of professional competence may be granted by the Minister to any applicant if he holds :

- (a) a Chartered Institute of Transport intermediate or final examination pass ; or
- (b) a university degree or other third level qualification which has called for a study of transport ; or
- (c) any other qualification which the Minister is satisfied is equivalent to one of the qualifications referred to above.

The Commission notes that Article 3 (4) of the Community Directive allows Member States to exempt the applicant from having to furnish proof of professional competence if he holds certain advanced diplomas or technical diplomas implying sound knowledge of the subjects listed in the Annex to the Directive. This provision implies that Member States which decide to make use of this option must establish exactly which diplomas may justify the exemption in question.

Accordingly, the provision which leaves it to the Minister's discretion to decide whether a professional qualification is equivalent to that called for in the Community Directive is not compatible with Article 3 (4) of the Directive, and should therefore be deleted.

8. Subparagraph (a) of Regulation 13 (5) of the draft Regulations states : 'Where a person satisfies the Minister that he holds a qualification and that the holding of such a qualification implies that the holder thereof has a knowledge sufficient for the purposes of these Regulations of one or more of the subjects listed in the Annex to the Directive, the Minister may grant to the person an exemption as regards that subject or subjects.'

This partial exemption from the requirement to furnish proof of knowledge of one or more subjects does not comply with Article 3 (4) of the Directive, which provides : 'Member States may exempt from the

application of these provisions the holders of certain advanced diplomas or technical diplomas implying sound knowledge of the subjects listed in the Annex.'

The Commission therefore recommends that subparagraph (a) of Regulation 13 (5) of the draft Regulations be amended to ensure compliance with Article 3 (4) of the Directive.
