tion originating in any of the said countries or territories with the exception of those listed in Annex C thereto — once the relevant Community amount has been reached;

Whereas, in respect of electrical capacitors, fixed or variable, the ceiling, calculated as indicated above, should be 10 307 000 European units of account, and therefore the maximum amount is 2 061 000 European units of account; whereas on 12 June 1980, the amounts of imports into the Community of the products in question, originating in South Korea, a country covered by preferential tariff arrangements, reached that maximum amount; whereas, bearing in mind the objectives of Regulation (EEC) No 2789/79 which provides that maximum amounts should not be exceeded, customs duties should be re-established in respect of the products in question in relation to South Korea,
