COMMISSION REGULATION (EEC) No 3121/80**of 2 December 1980****altering the special rate for converting the free-at-frontier reference prices of imported liqueur wines into pounds sterling**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 337/79 of 5 February 1979 on the common organization of the market in wine⁽¹⁾, as last amended by Regulation (EEC) No 2930/80⁽²⁾,

Having regard to Council Regulation No 129 on the value of the unit of account and the exchange rates to be applied for the purposes of the common agricultural policy⁽³⁾, as last amended by Regulation (EEC) No 2543/73⁽⁴⁾, and in particular Article 3 thereof,

Having regard to Commission Regulation (EEC) No 1393/76 of 17 June 1976 laying down detailed rules for the importation of products in the wine-growing sector originating in certain third countries⁽⁵⁾, as last amended by Regulation (EEC) No 3104/80⁽⁶⁾, and in particular Article 1a (4) thereof,

Having regard to the opinion of the Monetary Committee,

Whereas, pursuant to Article 1a of Regulation (EEC) No 1393/76, special rates are used to convert the free-at-frontier reference prices for imported liqueur wines into national currency; whereas the special rates applicable at present were fixed to take effect on 1 July 1980;

Whereas Article 1a (3) (c) of Regulation (EEC) No 1393/76 provides that the special rate for a currency other than those maintained at any given moment within a maximum spread of 2.25 % is to be revised when, for a period of 20 working days, its conversion rate moves away by an average of not less than 10 % from the special rate previously fixed for the currency

in question; whereas that condition has been fulfilled for the pound sterling for the period 5 November to 2 December 1980; whereas application of these provisions makes it necessary to alter the special rate for the pound sterling with effect from 3 December 1980,

HAS ADOPTED THIS REGULATION:

Article 1

The special rate referred to in Article 1a of Regulation (EEC) No 1393/76 shall be:

- (a) for the Belgian franc and the Luxembourg franc:
one Belgian franc/Luxembourg franc = 0.0251321 ECU;
- (b) for the Danish krone:
one Danish krone = 0.129477 ECU;
- (c) for the German mark:
one German mark = 0.402888 ECU;
- (d) for the French franc:
one French franc = 0.171028 ECU;
- (e) for the pound sterling:
one pound sterling = 1.83172 ECU;
- (f) for the Irish pound:
one Irish pound = 1.49656 ECU;
- (g) for the Italian Lira:
100 Italian Lire = 0.0859941 ECU;
- (h) for the Dutch guilder:
one Dutch guilder = 0.364482 ECU.

COUNCIL

COUNCIL DIRECTIVE

of 27 November 1980

**on the protection of workers from the risks related to exposure to chemical,
physical and biological agents at work**

(80/1107/EEC)

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community, and in particular Article 100
thereof,

Having regard to the proposal from the Commis-
sion⁽¹⁾, drafted following consultation with the Advi-
sory Committee on Safety, Hygiene and Health Protec-
tion at work,

Having regard to the opinion of the European Parlia-
ment⁽²⁾,

Having regard to the opinion of the Economic and
Social Committee⁽³⁾,

Whereas the Council resolution of 29 June 1978 on
an action programme of the European Communities
on safety and health at work⁽⁴⁾, provides for the
harmonization of provisions and measures regarding
the protection of workers with respect to chemical,
physical and biological agents; whereas efforts must
therefore be made towards approximation, while the
improvement is being maintained, of the laws, regula-
tions and administrative provisions of the Member
States in accordance with Article 117 of the Treaty;

Whereas certain differences are revealed by an exami-
nation of the measures taken by Member States to
protect workers from the risks related to exposure to
chemical, physical and biological agents at work;
whereas, therefore, in the interests of balanced develop-
ment, these measures, which directly affect the func-

tioning of the common market, should be approxi-
mated and improved; whereas this approximation and
improvement should be based on common princi-
ples;

Whereas the said protection should as far as possible
be ensured by measures to prevent exposure or keep it
at as low a level as is reasonably practicable;

Whereas to this end it is appropriate that the Member
States should, when they adopt provisions in this field,
comply with a set of requirements, including in parti-
cular the laying down of limit values; whereas an
initial list of agents may be adopted in this Directive
for the application of further more specific require-
ments; whereas the Member States will determine
whether and to what extent each of these require-
ments is applicable to the agent concerned;

Whereas provision should be made, within the time
limits set by this Directive, for the implementation, in
respect of a limited number of agents, of provisions to
ensure, for the workers concerned, appropriate surveil-
lance of their state of health during exposure and the
provision of appropriate information;

Whereas the Council will lay down the limit values
and other specific requirements for certain agents in
individual Directives;

Whereas certain technical aspects concerning the
specific requirements established in the individual
directives can be reviewed in the light of experience
and progress made in the technical and scientific
fields;

⁽¹⁾ OJ No C 89, 5. 4. 1979, p. 6.

⁽²⁾ OJ No C 59, 10. 3. 1980, p. 73.

⁽³⁾ OJ No C 297, 28. 11. 1979, p. 5.

⁽⁴⁾ OJ No C 165, 11. 7. 1978, p. 1.

Whereas representatives of employers and workers have a role to play in the protection of workers ;

Whereas, since the Hellenic Republic is to become a member of the European Economic Community on the 1 January 1981 in accordance with the 1979 Act of Accession, it should be granted a longer period in which to implement this Directive so as to enable it to set up the necessary legislative, social and technical structures, in particular those concerning consultation of both sides of industry, the setting up of a system for monitoring the health of workers as well as the supervision of such implementation,

HAS ADOPTED THIS DIRECTIVE :

Article 1

1. The aim of this Directive is the protection of workers against risks to their health and safety, including the prevention of such risks, arising or likely to arise at work from exposure to chemical, physical and biological agents considered harmful.

2. This Directive shall not apply to :

- workers exposed to radiation covered by the Treaty establishing the European Atomic Energy Community,
- sea transport,
- air transport.

Article 2

For the purposes of this Directive :

- (a) 'agent' means any chemical, physical or biological agent present at work and likely to be harmful to health ;
- (b) 'worker' means any employed person exposed or likely to be exposed to such agents at work ;
- (c) 'limit value' means the exposure limit or biological indicator limit in the appropriate medium, depending on the agent.

Article 3

1. In order that the exposure of workers to agents be avoided or kept at as low a level as is reasonably practicable, Member States shall, when they adopt provisions for the protection of workers, concerning an agent, take :

- the measures set out in Article 4,
- the additional measures set out in Article 5, where the agent appears in the initial list in Annex I.

2. For the purposes of paragraph 1, the Member States shall determine the extent, if any, to which each of the measures provided for in Articles 4 and 5 is to apply, taking into account the nature of the agent, the extent and duration of the exposure, the gravity of the risk and the available knowledge concerning it, together with the degree of urgency of the measures to be adopted.

3. Member States shall adopt the measures necessary to ensure :

- in the case of the agents listed in Annex II, Part A, appropriate surveillance of the state of health of workers during the period of exposure,
- in the case of the agents listed in Annex II, Part B, access for workers and/or their representatives at the place of work to appropriate information on the dangers which these agents present.

4. The adoption of the measures referred to in paragraph 3 by the Member States shall not oblige them to apply paragraphs 1 and 2.

Article 4

The measures referred to in the first indent of Article 3 (1) shall be :

1. limitation of the use of the agent at the place of work ;
2. limitation of the number of workers exposed or likely to be exposed ;
3. prevention by engineering control ;
4. establishment of limit values and of sampling procedures, measuring procedures and procedures for evaluating results ;

12. keeping updated records of exposure levels, lists of workers exposed and medical records ;
13. emergency measures for abnormal exposures ;

Article 5

The additional measures referred to in the second indent of Article 3 (1) shall be :

1. providing medical surveillance of workers prior to exposure and thereafter at regular intervals. In special cases, it shall be ensured that a suitable form of health surveillance is available to workers who have been exposed to the agent, after exposure has ceased ;
2. access by workers and/or their representatives at the place of work to the results of exposure measurements and to the anonymous collective results of the biological tests indicating exposure when such tests are provided for ;
3. access by each worker concerned to the results of his own biological tests indicating exposure ;
4. informing workers and/or their representatives at the place of work where the limit values referred to in Article 4 are exceeded, of the causes thereof and of the measures taken or to be taken in order to rectify the situation ;
5. access by workers and/or their representatives at the place of work to appropriate information to improve their knowledge of the dangers to which they are exposed.

Article 6

Member States shall see to it that :

- workers' and employers' organizations are consulted before the provisions for the implementation of the measures referred to in Article 3 are adopted and that workers' representatives in the undertakings or establishments, where they exist, can check that such provisions are applied or can be involved in their application,
- any worker temporarily suspended on medical grounds in accordance with national laws or practices from exposure to the action of an agent is, where possible, provided with another job,

- the measures adopted in implementation of this Directive are consistent with the need to protect public health and the environment.

Article 7

This Directive and the individual Directives referred to in Article 8 shall not prejudice the right of Member States to apply or introduce laws, regulations or administrative provisions ensuring greater protection for workers.

Article 8

1. In the individual Directives which it adopts on the agents listed in Annex I, the Council shall, acting on a proposal from the Commission, lay down the limit value or values and the other specific requirements applicable.
2. The titles of the individual Directives shall include serial numbers.
3. Adaptation to technical progress in accordance with the procedure in Article 10 shall be restricted to the technical aspects listed in Annex III under the conditions laid down in the individual Directives.

Article 9

1. With a view to the adaptation to technical progress referred to in Article 8 (3) a committee is hereby established consisting of representatives of the Member States and presided over by a representative of the Commission.
2. The Committee shall draw up its own rules of procedure.

Article 10

1. Where the procedure laid down in this Article is invoked, matters shall be referred to the Committee by the chairman, either on his own initiative or at the request of the representative of a Member State.
2. The representative of the Commission shall submit to the Committee a draft of the measures to be taken. The Committee shall deliver its opinion on this draft within a time limit which the chairman may set according to the urgency of the matter. Decisions shall be taken by a majority of 41 votes, the votes of Member States being weighted as provided for in Article 148 (2) of the Treaty. The chairman shall not vote.
