**Guide to the provisions applying to the international carriage of passengers by road by  
means of occasional coach and bus services**

This practical guide for transport firms is intended to bring about an improvement in the understanding and application of the provisions governing most of the occasional international coach and bus services in Western Europe.

The guide — which contains practical examples — makes a comparative analysis of the rules to which these services are subject under Community rules and the rules established by the Agreement on the International Carriage of Passengers by Road by means of Occasional Coach and Bus Services (ASOR).
