COMMISSION REGULATION (EEC) No 2879/85

of 16 October 1985

amending Regulation (EEC) No 2238/85 as regards the countervailing charges to be imposed where the minimum import price for dried grapes is not observed

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

COMMISSION REGULATION (EEC) No 2880/85

of 16 October 1985

fixing the export refunds on olive oil

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organization of the market in oils and fats ⁽¹⁾, as last amended by Regulation (EEC) No 231/85 ⁽²⁾,

Having regard to Council Regulation No 171/67/EEC of 27 June 1967 on export refunds and levies on olive oil ⁽³⁾, as last amended by Regulation (EEC) No 2429/72 ⁽⁴⁾, and in particular the first sentence of Article 7 thereof,

Having regard to the opinion of the Monetary Committee,

Whereas Article 20 of Regulation No 136/66/EEC provides that, where prices within the Community are higher than world market prices, the difference between these prices may be covered by a refund when olive oil is exported to third countries;

Whereas the detailed rules for fixing and granting export refunds on olive oil are contained in Regulations No 171/67/EEC and (EEC) No 616/72 ⁽⁵⁾, as last amended by Regulation (EEC) No 2962/77 ⁽⁶⁾;

Whereas Article 2 of Regulation No 171/67/EEC provides that the refund must be the same for the whole Community;

Whereas Article 3 of Regulation No 171/67/EEC provides that when the refund on olive oil is being fixed account must be taken of:

- the existing situation and the future trend with regard to prices and availabilities of olive oil on the Community market and prices for olive oil on the world market,
- the aims of the common organization of the market in olive oil which are to ensure equilibrium

and the natural development of prices and trade on this market,

- the need to avoid disturbances on the Community market, and
- the economic aspect of the proposed exports;

Whereas, furthermore, Article 4 of Regulation No 171/67/EEC provides that the said refund must be fixed in accordance with the following criteria:

- the olive oil prices in the main producing areas of the Community,
- the most favourable quotations recorded on the various markets of importing third countries, and
- the marketing costs and the most favourable transport charges from Community markets in the main producing areas to ports or other points of export in the Community, as well as costs incurred in placing the goods on the world market;

Whereas Article 5 of Regulation No 171/67/EEC provides that the refund on olive oil may be varied according to destination where the world market situation or the specific requirements of certain markets make this necessary;

Whereas Article 7 of Regulation No 171/67/EEC provides that the refund must be fixed at least once every month; whereas it may, if necessary, be altered in the intervening period;

Whereas it follows from applying these detailed rules to the present situation on the market in olive oil and in particular to olive oil prices within the Community and on the markets of third countries that the refund should be as set out in the Annex hereto;

Whereas, if the refund system is to operate normally, refunds should be calculated on the following basis:

- in the case of currencies which are maintained in relation to each other at any given moment within a band of 2,25 %, a rate of exchange based on their central rate, multiplied by the coefficient provided for in Article 2b (2) of Regulation (EEC) No 974/71 ⁽⁷⁾, as last amended by Regulation (EEC) No 855/84 ⁽⁸⁾,

⁽¹⁾ OJ No 172, 30. 9. 1966, p. 3025/66.

⁽²⁾ OJ No L 26, 31. 1. 1985, p. 12.

⁽³⁾ OJ No 130, 28. 6. 1967, p. 2600/67.

⁽⁴⁾ OJ No L 264, 23. 11. 1972, p. 1.

⁽⁵⁾ OJ No L 78, 31. 3. 1972, p. 1.

⁽⁶⁾ OJ No L 348, 30. 12. 1977, p. 53.

⁽⁷⁾ OJ No L 106, 12. 5. 1971, p. 1.

⁽⁸⁾ OJ No L 90, 1. 4. 1984, p. 1.

— for other currencies, an exchange rate based on the arithmetic mean of the spot market rates of each of these currencies recorded over a given period in relation to the Community currencies referred to in the previous indent, and the aforesaid coefficient;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Oils and Fats,

HAS ADOPTED THIS REGULATION:

Article 1

The export refunds on the products listed in Article 1 (2) (c) of Regulation No 136/66/EEC shall be as set out in the Annex hereto.

Article 2

This Regulation shall enter into force on 17 October 1985.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EEC) No 2881/85

of 16 October 1985

fixing the amount of the subsidy on oil seeds

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organization of the market in oils and fats ⁽¹⁾, as last amended by Regulation (EEC) No 231/85 ⁽²⁾, and in particular Article 27 (4) thereof,

Having regard to Council Regulation (EEC) No 1223/83 of 20 May 1983 on the exchange rates to be applied in agriculture ⁽³⁾, as last amended by Regulation (EEC) No 1297/85 ⁽⁴⁾,

Having regard to Council Regulation (EEC) No 1569/72 of 20 July 1972 laying down special measures for colza, rape and sunflower seed ⁽⁵⁾, as last amended by Regulation (EEC) No 1474/84 ⁽⁶⁾, and in particular Article 2 (3) thereof,

Having regard to the opinion of the Monetary Committee,

Whereas Article 27 of Regulation No 136/66/EEC provides that a subsidy should be granted in respect of oil seeds harvested and processed within the Community when the target price for a species of seed is higher than the price on the world market; whereas these provisions at present apply only in respect of colza, rape and sunflower seeds;

Whereas the subsidy on oil seeds should, theoretically, be equal to the difference between those two prices;

Whereas the target price and the monthly increments in the target price of sunflower seed for the 1985/86 marketing year have been fixed in Regulations (EEC) No 1489/85 ⁽⁷⁾, and (EEC) No 1490/85 ⁽⁸⁾;

Whereas in the absence of the target price for the 1985/86 marketing year for colza and rape seed and in the absence of the amount of the monthly increase for November, December 1985, January, February and March 1986 for colza and rape seed, the amount of the

subsidy in the case of advance fixing for October, November, December 1985, January, February and March 1986 for colza and rape seed has been obtainable only provisionally on the basis of the target price and the monthly increase as last proposed by the Commission to the Council for the marketing year 1985/86; whereas this amount may, therefore, be applied on a temporary basis and should be confirmed or replaced when the indicative price of the 1985/86 marketing year is known;

Whereas Article 29 of Regulation No 136/66/EEC provides that the world market price, calculated for a Community frontier crossing point, is to be determined on the basis of the most favourable purchasing opportunities, quotations being adjusted where necessary to take account of quotations for competing products;

Whereas Article 4 of Council Regulation No 115/67/EEC of 6 June 1967 laying down criteria for determining world market prices for oil seeds and fixing the frontier crossing point ⁽⁹⁾, as last amended by Regulation (EEC) No 1983/82 ⁽¹⁰⁾, fixed the said crossing point at Rotterdam; whereas Article 1 of that Regulation provides that when the world market price is being determined account should be taken of all offers on the world market known to the Commission and of quotations on those exchanges which are significant for international trade; whereas Article 2 of Commission Regulation No 225/67/EEC of 28 June 1967 on detailed rules for determining the world market price for oil seeds ⁽¹¹⁾, as last amended by Regulation (EEC) No 1971/85 ⁽¹²⁾, provides that offers and quotations which do not relate to shipments to be effected within 30 days following the date on which the world market price is determined should be disregarded; whereas offers and quotations which the Commission believes, in view of general price movements or information available to it, not to be representative of the real trend of the market must also be disregarded; whereas offers and quotations relating to quantities of less than 500 tonnes and offers relating to seed of a quality other than that normally acceptable on the world market must also be disregarded;

Whereas Article 3 of Regulation No 225/67/EEC provides that of the offers and quotations taken into

consideration, those for delivery c and f should be increased by 0,2 % ; whereas offers and quotations for delivery fas, fob or otherwise should be increased, as appropriate, by loading, transport and insurance costs from the point of shipment or loading to the frontier crossing point ; whereas cif offers and quotations for frontier crossing points other than Rotterdam should be adjusted to allow for the difference in transport and insurance costs as compared with a product delivered cif Rotterdam ; whereas the Commission should take account only of the loading, transport and insurance costs which to its knowledge are the lowest ; whereas, finally, offers and quotations for delivery cif Rotterdam should be increased by 0,242 ECU ;

Whereas Article 5 of Regulation No 115/67/EEC provides that the world market price should be determined for seed of the standard quality for which the target price has been fixed, delivered in bulk ;

Whereas Article 3 of Regulation No 225/67/EEC provides that offers and quotations relating to products presented otherwise than in bulk should be adjusted by deducting the additional value resulting from that presentation ; whereas offers and quotations relating to a quality other than the standard quality for which the target price was fixed should be adjusted on the basis of the coefficients of equivalence shown in the Annex to that Regulation ; whereas, in the case of offers on the world market for qualities of colza and rape seed other than those listed in that Annex, coefficients of equivalence derived from those listed in that Annex may, pursuant to Article 4 of Regulation No 225/67/EEC, be applied ; whereas, when derived coefficients are being calculated, account must be taken of the differences between prices for the qualities of seed in question and prices for the qualities listed in that Annex, and of the characteristics of these various seeds ;

Whereas Article 2 of Regulation No 115/67/EEC provides that, where no offer or quotation can be used as a basis for determining the world market price, that price should be determined on the basis of the value of the average quantities of oil and oil cake resulting from the processing of 100 kilograms of seed within the Community less an amount corresponding to the cost of processing these seeds into oil and oil cake ; whereas the quantities and costs to be taken into consideration for the purposes of the calculation are fixed in Article 5 of Regulation No 225/67/EEC ; whereas the value of those quantities should be determined in accordance with Article 6 of that Regulation ;

Whereas Article 3 of Regulation No 115/67/EEC provides that, where no offer or quotation can be used

as a basis for determining the world market price and where it is, moreover, impossible to establish the value of the oil or oil cake processed from such seed, the world market price should be determined on the basis of the most recent known value for oil or oil cake, adjusted to take account of the trend of world prices for competing products by applying to that value the rules set out in Article 2 of Regulation No 115/67/EEC ; whereas Article 7 of Regulation No 225/67/EEC defines competing products as those oils or oil cakes, as the case may be, which appear to have been offered in the largest quantities on the world market during the period under consideration ;

Whereas, under Article 6 of Regulation No 115/67/EEC, the price determined for colza, rape and sunflower seeds must also be adjusted by an amount not exceeding the margin, as calculated in accordance with that Article, where that margin may affect the normal disposal of seeds harvested in the Community ;

Whereas the factors to be taken into consideration for the purpose of determining that margin are defined in Article 8 of Regulation No 225/67/EEC ; whereas no adjustment should be made where the margin is found to be less than 0,604 ECU ;

Whereas Council Regulation (EEC) No 1594/83 of 14 June 1983 on the subsidy for oil seeds⁽¹⁾ laid down rules for granting the subsidy on oil seeds ; whereas, under that Regulation, where the subsidy to be granted is fixed in advance, the amount of such subsidy must be equal to the amount applicable on the day on which the application for advance fixing was lodged, adjusted by the difference between the target price valid on that day and the target price valid on the day on which the seeds are placed under control at an oil or feed mill and, where appropriate, a corrective amount ; whereas Article 35 of Commission Regulation (EEC) No 2681/83 of 21 September 1983 laying down detailed rules for the application of the subsidy system for oil seeds⁽²⁾, as last amended by Regulation (EEC) No 2825/85⁽³⁾, provides that such adjustment should involve increasing or reducing the amount of subsidy applicable on the day on which the application was lodged by the corrective amount and the difference between the target prices mentioned in Article 35 of Regulation (EEC) No 2681/83 ;

Whereas Article 37 of Regulation (EEC) No 2681/83 provides that the corrective amount must be equal to

⁽¹⁾ OJ No L 163, 22. 6. 1983, p. 44.

⁽²⁾ OJ No L 266, 28. 9. 1983, p. 1.

⁽³⁾ OJ No L 268, 10. 10. 1985, p. 16.

the difference between the world market price for colza, rape and sunflower seeds and the forward price for those seeds valid for a shipment effected during the month in which the seeds were placed under control at an oil mill, those prices being determined in accordance with Articles 1, 4 and 5 of Regulation No 115/67/EEC; whereas, if no offer and no price can be used for such determination, the method of calculation provided for in Article 37 of Regulation (EEC) No 2681/83 should be used; whereas the abovementioned difference may be adjusted in accordance with Article 38 of Regulation (EEC) No 2681/83, account being taken of the prices of the main competing cereals;

Whereas Article 33 of Regulation (EEC) No 2681/83 provides for the publication of the amount of the final subsidy obtained from the conversion into each of the national currencies of the amount in ECU resulting from the calculation referred to above plus or minus the differential amount; whereas Article 1 of Regulation (EEC) No 1813/84⁽¹⁾ defined the elements which determine the differential amounts; whereas these elements are equal to the incidence on the target price or the subsidy of the coefficient derived from the percentage referred to in Article 2 (1) of Regulation (EEC) No 1569/72; whereas, according to these provisions, this percentage represents:

- (a) for those Member States whose currencies are maintained as between themselves within a spread at any given moment of 2,25 %, the difference between:
 - the conversion rate used under the common agricultural policy, and
 - the conversion rate resulting from the central rate,
- (b) for Italy, the United Kingdom and Greece, the difference between:
 - the relationship between the conversion rate used under the common agricultural policy for the currency of the Member State concerned and the central rate of each of the currencies of the Member States referred to in (a), and
 - the spot market rate for the currency of the Member State in question in relation to each of the currencies of the Member States referred to in (a), as recorded over a period to be determined;

Whereas, however, pursuant to Article 2a of Regulation (EEC) No 1569/72, the monetary disparity for the marketing years 1984/85 to 1986/87 will be calculated

by a method which takes into account a coefficient applied to the conversion rate resulting from the central rate; whereas Regulation (EEC) No 2679/85⁽²⁾ fixed the coefficient;

Whereas Regulation (EEC) No 1813/84 specifies the spot and forward exchange rates and the period to be used for calculating the differential amounts; whereas in cases where, for one or more months, quotations of forward exchange rates are not available, the rates adopted for the previous months or the following months, as the case may be, must be used;

Whereas the subsidy should be fixed whenever the market situation makes it necessary and in such a way as to ensure its being applied at least once a week; whereas the subsidy may be altered whenever it becomes obvious that such alteration is necessary;

Whereas it follows from applying these provisions to the offers and quotations known to the Commission that, pursuant to Article 33 of Regulation (EEC) No 2681/83 the amount of the subsidy in ECU and the amount of the subsidy in each of the national currencies must be fixed in accordance with the Annex to this Regulation; whereas, pursuant to the same Article, the spot and forward exchange rates for the ECU in national currencies determined in accordance with Article 4 of Regulation (EEC) No 1813/84 must also be published,

HAS ADOPTED THIS REGULATION:

Article 1

1. The amounts of the subsidy and the exchange rates referred to in Article 33 (2) and (3) of Regulation (EEC) No 2681/83 shall be as set out in the Annex hereto.
2. The amount of the subsidy in the case of advance fixing for October, November, December 1985, January, February and March 1986 for colza and rape seed will, however, be confirmed or replaced as from 17 October 1985 to take into account the indicative price which is fixed for these products for the 1985/1986 marketing year, and the amount of the monthly increase for November, December 1985, January, February and March 1986 for colza and rape seed.

COMMISSION OF THE EUROPEAN COMMUNITIES

EUROPEAN PERSPECTIVES

THE EUROPEAN MONETARY SYSTEM

Origins, operation and outlook

by J. van Ypersele

with the collaboration of J.-C. Kocune

Preface by Robert Triffin

Since 13 March 1979, the exchange rates of the European Community currencies (with the exception of sterling and the drachma) have been regulated by the European Monetary System. The creation of the EMS arose from two complementary concerns: to stabilize exchange relationships between European currencies and to base this external stability on a better convergence of the Community's economies toward internal stability.

This book tries to answer the questions likely to be raised by the educated person over the mechanisms and the economic significance of the EMS, as well as its first results and its prospects.

Chapter I explains the motives behind this European initiative in a world where, following the demise of the Bretton Woods system, the 'floating' of the major currencies was accompanied in practice by enormous international monetary instability that hindered investment and economic recovery.

The creation, through the EMS, of a 'zone of monetary stability in Europe' was only the latest in the succession of efforts, in the monetary area, to pursue European economic integration. Chapter II recalls those previous attempts, from the statement of a number of objectives in the Rome Treaty to the concerted floating of European currencies in the 'snake'.

Chapter III examines the substance of the EMS and its machinery (exchange rate and intervention mechanism, role of the ECU, credit mechanisms), explaining the new elements in these mechanisms compared with the snake, and analysing the conditions required in theory for their proper functioning.

Chapter IV illustrates, with the help of statistical analyses, how the EMS actually operated during its first five years. Despite an international environment more volatile than ever, the performance has been good as far as exchange rates are concerned, and on the convergence front, though much still remains to be done, definite progress has been made towards internal stability since the last two parity realignments. In conclusion, the chapter looks at the recent rapid development in the private use of the ECU.

Finally, Chapter V deals with the future of the EMS. It describes the transition to the institutional phase (which has been put off) and underlines the urgent need for a better convergence of the participating economies. A number of possible reforms that would be likely to reinforce the system and to improve its capacity to withstand outside shocks are also set out.
