COMMISSION DECISION

of 31 July 1985

concerning aids granted by the French Government in the beef and veal sector

(Only the French text is authentic)

(85/592/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular the first subparagraph of Article 93 (2),

Having regard to Council Regulation (EEC) No 805/68 of 27 June 1968 on the common organization of the market in beef and veal ⁽¹⁾, as last amended by Regulation (EEC) No 868/84 ⁽²⁾, and in particular Article 24 thereof,

After giving notice, pursuant to the first subparagraph of Article 93 (2), to the parties concerned other than the Member States to submit their comments ⁽³⁾,

Whereas:

I. BACKGROUND AND DESCRIPTION

1. Background

The Commission, being informed of proposed changes to the existing aids granted in the beef and veal sector under production and supply contracts, asked the French Government on 25 November 1981, 11 January and 17 February 1982 to provide information additional to the brief particulars set out in the inventory of aids; the planned adjustment of the aid amounts in question was notified by the French Government on 29 December 1981 as part of the aids coming under the 1981 Annual Agricultural Conference.

A procedure pursuant to Article 93 (2) of the Treaty was initiated on 10 March 1982 in respect of the 1981 Annual Agricultural Conference aids for lack of information. The aids included, among other things, a general scheme granting 'aids for the rearing of sheep and cattle'. The French authorities explained in Memo No 242 of 26 July 1982 from the French Permanent Representation that the chapter entitled 'Aids paid in respect of cattle production and supply contracts' included 'premiums to encourage the suckling of calves at foot'. These premiums form part of a scheme already launched and described in the inventory of aids.

On 17 September 1982 the Commission received further information. Reminders had been sent on several occasions (Commission telexes of 11 January, 16 February, 10 March, 9 June and 18 August 1982) that information notified must include not only new aid schemes, but also changes to those set out in the inventory, with fuller details than those given on the inventory sheets.

On 23 March 1984, by letter (SG(84) D/3989), the Commission informed the French Government that it was reserving its position, which would be notified at a later date, in respect of the premium for calves at foot.

On 5 September 1984 by telex No 11471, the Director-General for Agriculture requested further information in order to determine whether the premium for calves at foot was covered by the measure laid down in Council Regulation (EEC) No 1357/80 of 5 June 1980 introducing a system of premiums for maintaining suckler cows ⁽⁴⁾.

The French authorities replied on 23 October 1984.

2. Description

(a) Legal basis, amount, beneficiaries: The basis for the scheme is a decision of 6 December 1968 of the Minister of Agriculture. In 1982 the aid consisted of a premium of FF 300 per slaughter calf fed solely at foot on farms not delivering milk and farming specific breeds only. On 1 January 1982 the premium was raised from FF 250 to FF 300. At the rate applicable between 1 January 1982 and 5 May 1983 of 1 ECU = FF 6,08656, this was equivalent to an aid, in ECU, of 49,29 ECU. The premium was apportioned as FF 270 paid to the farmer and FF 30 paid to the national association of farm calf producers to assist production measures taken to promote this type of product. According to the inventory sheet, it concerns only about 20 producer groups or small cooperatives in central France (Corrèze, Lot, Creuse, Dordogne). In October 1984 the French Government informed the Commission of its intention to raise the ceiling on the premium for suckler calves from FF 300 to FF 370.

(b) The mechanism for granting the aid is comparable with that in cattle production and supply contracts regarding which the Commission delivered a negative Decision on 14 September 1982 (C(82) 1319 final) as part of the procedure under Article 93 (2) of the Treaty. The incompatible aids consisted firstly in flat-rate premiums granted in connection with livestock contracts per head of livestock delivered in the case of full-grown cattle and on the basis of weight in the case of young bovine animals, and price supplement premiums paid for store cattle.

At the beginning of the scheme, the Onibev (National Joint Bureau for Livestock and Meat) concluded 'outline agreements' with individual producer groups specifying the conditions for the award of the premiums and the quality measures which would have to be complied with and the procedure for checking them.

3. Grounds

The producer groups in turn grant aids to farmers who assume contractual obligations, that is to say, the producers' commitments.

The French Government, in its reply, gave the following reasons for introducing this premium in 1969/70:

- producers of calves fed at foot forego the regular guaranteed income that they would obtain for milk in exchange for the long-term and more hazardous return that they obtain from the sale of a calf,
- if the calves were fed on the customary fattening feed, producers would benefit, through the price of the feed, from the Community subsidy granted for milk powder,

- the rather limited outlets for this type of product are not sufficiently attractive in themselves to ensure its development.

Output and the market are both very limited. There is no Community market for these products and consequently no risk of interfering with competition.

II. GENERAL DESCRIPTION OF THE INDUSTRY

1. Market situation

The suckler herd, that is to say the French herd of suckler mother cows is as follows compared with the Community suckler herd:

On 31 December 1981 the Community of Ten had 5,9 million suckler cows. France accounted for 48 %, the United Kingdom for 23,9 %, Italy for 12,8 %, Ireland for 6,8 %, Germany for 2,6 % and Belgium for 2,1 %.

The suckler herd supplies quality products. Suckler cows are cows which, by virtue of the way they are reared and produced, are not milked and do not therefore produce any milk or milk products for the market.

Slaughter calves suckled by their mothers are reared on natural milk since they suckle their mothers. They are sold at three months and weigh around 100 kg per carcass. In France they are most frequently produced on small family farms in the southern Limousin, producing this one product only and in the south-west engaging in other forms of production. Annual output is around 500 000 animals, of which approximately 100 000 are marketed by producer groups. It should be noted that there is also a more specialized category, consisting of heavy calves in the Aveyron, which are sold at six months and weigh between 150 and 200 kg per carcass.

2. Links between the French national scheme and the scheme introduced by Community rules

The premium for calves suckled at foot is a national scheme altogether different from the premium for maintaining suckler cows introduced by Regulation (EEC) No 1357/80 and brought into force in 1981 (Commission Regulation (EEC) No 1581/81 ⁽¹⁾).

According to the French authorities the aim of the premium for calves at foot is to encourage the production of high-quality slaughter calves. The suckler cows for which premiums are granted under the Community rules do not, in most cases, suckle calves intended to be slaughtered very young but, more frequently, animals to be fattened into adult cattle.

⁽¹⁾ OJ No L 154, 13. 6. 1981, p. 38.

The criteria for granting the premium for calves at foot meet the specific requirements of this measure and differ from those in force for the premium for suckler cows. The premium may be granted only for:

- calves sired by bulls of the following breeds: Limousin, Garonnais, Charolais or Blonde d'Acquitaine,
- born and fattened on the farm and fed exclusively on whole natural milk.

The eligible producer must:

- be a member of a producer group approved for this type of production,
- observe its rules (total contribution and control of production),
- register and establish the identity of their calves on birth with their group.

These strict rules for awarding the premium are necessary to ensure production control in order to guarantee the consumer a quality product.

It is not out of the question, however, that some recipients of the premium for calves at foot should also qualify for the premium provided for under Community rules.

3. Expenditure incurred

According to the information forwarded by the French authorities on 23 October 1984, expenditure incurred in respect of the aid (premiums for maintaining suckler cows) governed by Community rules (Regulation (EEC) No 1357/80), distinguishing between the part of the premium financed by the EAGGF Guarantee Section (15 ECU per suckler cow in 1984) and the supplementary part financed by the Member State (a ceiling of 25 ECU per suckler cow in 1984) can be summarized as in the following table:

Budget for the premium for maintaining suckler cows

(FF)

Farm year	Community portion	National portion
1980/81	264 225 663,54	244 177 169,40
1981/82	292 353 030,62	276 838 613,08
1982/83	231 218 668,35	368 153 889,65
1983/84	122 485 537,62	195 009 207,20

The figures forwarded for 1983/84 concern the partial budget drawn up on 3 April 1984.

They have been notified subject to alteration (in the event of a dispute concerning the file, legal proceedings, etc.).

According to those figures expenditure incurred in respect of the aid for premiums to encourage the suckling of calves at foot was:

Budget for premiums for suckled calves

Period	Number of calves delivered	Amount of premium	Budget
1 April 1980 to 30 March 1981	79 800	FF 250	FF 19 950 000
1 April 1981 to 31 December 1981	79 000	FF 250	FF 19 750 000
1 January 1982 to 31 December 1982	88 038	FF 300	FF 26 411 400
1 January 1983 to 31 December 1983	80 050	FF 300	FF 24 015 000

The forecast for 1984 is for approximately 80 000 calves.

III. INCOMPATIBILITY OF THE MEASURE

The measure involves the adjustment of existing aids introduced in 1969/70 set out in the inventory of existing national aids notified by France to the Commission.

1. According to Article 24 of Regulation (EEC) No 805/68, Articles 92 to 94 of the Treaty apply to the aids described above.

The premiums in question which are granted to farmers, who are members of producer groups or small cooperatives place them in a more advantageous position for the sale of calves at foot than that of other calf producers who are not eligible for the aid. The aid which is granted per quantity unit is liable to distort competition and affect trade between Member States, particularly since France is the Community's largest producer of beef/veal and a significant proportion of the production of calves and French store animals is exported to other Member States.

The schemes in question are consequently caught by Article 92 (1) of the Treaty, which lays down the principle that aids corresponding to the criteria it sets out are incompatible with the common market.

The exceptions to this incompatibility set out in Article 92 (2) do not apply to the aids in question. Those set out in paragraph 3 define aims pursued in the interest of the Community and not in that of particular sectors of the national economy only. These exceptions must be interpreted strictly when any regional or sectoral aid programme or any individual application of general aid systems is being examined.

In particular they may be granted only in cases where the Commission can show that the aid is necessary for attaining one of the objectives set out in those provisions.

To grant the benefit of these exceptions for aids that do not yield this compensating advantage would be equivalent to permitting an interference with trade between Member States and distortions of competition devoid of any justification in terms of the Community interest, and correspondingly unfair advantages for some Member States.

In the case under consideration, the aids do not show any such compensating advantage. The French Government has been unable to put forward, or the Commission to detect, any argument that would qualify the scheme for any of the exceptions provided for in Article 92 (3) of the Treaty.

They are obviously not measures to promote the execution of an important project of common European interest within the meaning of Article 92 (3) (b) since they are contrary to the principles of the market organization in question.

Neither are they measures intended to remedy a serious disturbance in the economy of the Member State within the meaning of that same provision.

As regards the exceptions provided for in Article 92 (3) (a) and (c) concerning aids to promote or facilitate the economic development of regions and that of certain of the activities referred to under (c) above, it should be noted that the aids are granted solely in relation to the quantities of the product and not of any criteria for adjusting or improving business structures, energy saving or development in the regional context. The aids are to be regarded, therefore, as operational aids for the producers in question, a type of aid to which the Commission is in principle invariably opposed by virtue of the fact that their award is not linked to conditions that would qualify them for one of the exceptions provided for in Article 92 (3) (a) and (c).

2. Also, there are limitations on the power of Member States to interfere directly in the operation of EEC market organizations involving a common price system, for which the Community is now solely responsible.

The aid is in contradiction to the principle that Member States are no longer entitled to legislate unilaterally on farmers' incomes under an EEC market organization by granting aids of this type.

Moreover, the scheme is in addition to a measure, similar in its objective and mechanism, adopted at Community level by Regulation (EEC) No 1357/80. The main purpose of the Community measure is to guarantee specialist producers of quality beef an adequate level of

income. The premium provided for under the Community rule may be granted only in respect of farms which do not deliver milk. The measures adopted by the Community rules can be broken into two parts: one financed by the EAGGF Guarantee Section and the other, known as the 'additional premium', may be granted within a limit and financed by the Member State; according to the Community rules this additional premium must not give rise to discrimination between stock farmers in the same Member State. The information notified to the Commission indicates that the French Government avails itself of this opportunity of awarding the 'additional premium' up to the limit authorized under the Community rules.

The national aid for calves at foot is to be regarded as an aid supplement for certain recipients of the premium provided for under the Community rules.

Even if an exception under Article 93 (3) of the Treaty could have been a possibility, the fact that the aid scheme infringes the market organization rules out the application of such an exception.

3. The premium for calves at foot is not covered by the system of compensatory allowances provided for in Articles 5 and 7 of Council Directive 75/268/EEC of 28 April 1975 on mountain and hill farming and farming in certain less-favoured areas⁽¹⁾, as amended by Regulation (EEC) No 797/75⁽²⁾. The latter system provides for a compensatory allowance for the production of cattle for a maximum amount of 97 ECU per livestock unit.

According to the Annex to that Directive, it applies only to cattle more than six months old (see Annex to the Directive) and the national scheme for calves at foot applies only to calves sold at three months, or at six months in the particular case of heavy calves in the Aveyron. The purpose of the Directive is precisely to exclude the compensatory allowance for calves younger than six months.

Article 5 of the Directive prohibits, in addition, the grant of a compensatory allowance for permanent natural handicaps exceeding those limits or leaving aside those requirements in the areas shown in the list adopted pursuant to the procedure laid down in Article 2 (2). The premium for calves at foot could even be granted in addition to the compensatory allowance provided for by Council Directive 75/268/EEC for the same herd. France qualifies for application of this Directive. The departments of Creuse, Corrèze and Lot are partly classified as mountain or hill areas (Article 3 (3) of the Directive) and partly as less-favoured areas (Article 3 (4) of the Directive); the department of Dordogne is classified as a less-favoured area (Article 3 (4) of the Directive). The premium for calves at foot is therefore also contrary to Article 2 (2) referred to above.

⁽¹⁾ OJ No L 128, 19. 5. 1975, p. 1.

⁽²⁾ OJ No L 93, 30. 3. 1985, p. 1.

4. To sum up, the premium for calves at foot must be regarded as an aid which is incompatible with the common market and must be discontinued.

5. This Decision is without prejudice to any action that the Commission may take as regards recovery of the abovementioned aid from the recipients, and as regards the financing of the common agricultural policy by the EAGGF,

Article 2

The French Government shall inform the Commission within two months of the notification of this Decision of the action it is taking to comply with the provisions of Article 1.

Article 3

This Decision is addressed to the French Republic.

HAS ADOPTED THIS DECISION:

Article 1

The financial benefit conferred by the premium intended to encourage the suckling of calves at foot is hereby found to be incompatible with the common market by virtue of Article 92 of the Treaty and must be discontinued.

Vice-President

COMMISSION DECISION
of 20 November 1985
on the reorganization of the Joint Research Centre (JRC)
(85/593/Euratom)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Atomic Energy Community, and in particular Article 8 thereof,

Having regard to the Treaty establishing a single Council and a single Commission of the European Communities, and in particular Article 16 thereof,

Whereas the Joint Research Centre (JRC) should be given a structure adapted to its particular purpose; whereas this structure should be altered whenever the Commission considers it necessary, in order to ensure that JRC activities are performed as effectively as possible and that they are fully consistent with the Commission's priorities.

Whereas the Commission adopted a Decision on 4 January 1985 on the full scientific and administrative integration of the Directorate-General for Science, Research and Development,

HAS DECIDED AS FOLLOWS:

Article 1

Within the Directorate-General for Science, Research and Development, the Joint Research Centre, hereinafter referred to as 'the JRC', shall consist of the establishments set up by the Commission to carry out the Community's research and training programmes, and of the necessary ancillary services.

Article 2

The organs of the JRC shall be:

- the Director-General, who shall also serve as Deputy Director-General of the Directorate-General for Science, Research and Development,
- the Board of Governors,
- the Scientific Council,
- the Scientific Committee.

Article 3

The JRC shall be under the authority of a Director-General appointed by the Commission on the basis of a contract of

not more than four years' duration, which shall be renewable; he shall, himself, be under the authority of the Director-General for Science, Research and Development. The Director-General of the JRC and the services directly under him shall be located in Brussels.

The Director-General of the JRC shall take all measures necessary for the efficient functioning of the JRC consistent with the regulations in force and the authority delegated to him.

In accordance with the procedures hereinafter described the Director-General of the JRC:

- shall prepare, within the context of the integrated action programmes, draft programmes for the JRC's various fields of activity for submission to the Commission, indicating the financial aspects thereof,
- shall negotiate and conclude research contracts, within the total funds provided for the purpose, and in doing so shall conform to the tariff rules laid down by the Council on a proposal from the Commission,
- shall be responsible for the implementation of programmes and for financial administration,
- shall determine the internal organization of the JRC, taking particularly into account the requirements of a functional budget,
- shall, within the limits of the powers delegated to him by the Director-General for Science, Research and Development, exercise the powers conferred upon the appointing authority by the Staff Regulations of Officials and upon the authority empowered to conclude contracts by the Conditions of Employment of Other Servants.

Article 4

A Board of Governors of the JRC is hereby set up. It shall consist of 11 members:

- (a) a high-level representative from each Member State, to be appointed formally by the Commission on the basis of nominations by the authorities of the State in question;
- (b) a chairman elected by the 10 representatives of the Member States referred to in point (a).

All members shall be appointed for a term of three years, which shall be renewable.

The Board of Governors shall draw up its own rules of procedure, within the framework of Council Decision 84/337/Euratom, EEC ⁽¹⁾, and in particular Articles 3 and 4 thereof.

The Board of Governors of the JRC shall assist and advise the Commission in the formulation of strategic decisions concerning the role of the JRC within the Community framework programmes and having regard to the need to develop close cooperation between the JRC and the Member States, in particular in the following fields:

- the drafting of proposals concerning new programmes and their integration into the Community research strategy,
- preparing, each year, the establishment plan for the JRC and its budget,
- implementing the research and development programmes,
- adapting the JRC programme in accordance with Articles 3 and 4 of Decision 84/337/Euratom, EEC,
- drafting an annual JRC management report,
- any other consultation the Commission may request of it.

The Board of Governors of the JRC shall normally be convened twice yearly.

The JRC shall provide the secretariat for the Board of Governors of the JRC and shall make available to it any information it may require for the performance of its function.

Article 5

A Scientific Council of the JRC is hereby set up. It shall consist of 11 members:

- (a) the chairman, appointed by the Commission;
- (b) a leading scientist from each Member State, to be appointed by the Commission on the basis of at least two nominations by the authorities of the State in question.

All members shall be appointed for a term of three years, which shall be renewable.

The Scientific Council of the JRC shall normally be convened six times a year.

It shall assist and advise the Commission on the following matters:

- the implementation of current research and development programmes and allocation of available resources for these programmes,
- the formulation of proposals relating to new programmes and the funds considered necessary for their implementation,

- the JRC's establishment plan and the recruitment of senior staff (A 1 and A 2 and appointments of comparable importance),
- major investments,
- the internal evaluation of the research results at the halfway stage of the programme.

The JRC shall provide the secretariat for the Scientific Council and shall make available to it any information it may require for the performance of its function.

Article 6

The Board of Governors and the Scientific Council may meet jointly at the request of either one of the two bodies or of the Commission.

Article 7

A scientific committee of the JRC is hereby set up to assist the Director-General.

Two-thirds of the Scientific Committee shall be composed of the main heads of department and project managers, and one-third by members of the scientific and technical staff, elected by that staff as their representatives.

The Scientific Committee shall be regularly consulted by the Director-General on all questions of a scientific or technical nature relating to the activities of the JRC. In this connection, it shall take part in the preparation of draft programmes.

Article 8

1. The Director-General of the JRC, having due regard to the general policy adopted by the Council and the European Parliament and to the general guidelines issued by the Commission, shall prepare the draft programmes for the JRC's various fields of activity under the responsibility of the Director-General for Science, Research and Development and in close consultation with the Directorates for Scientific and Technical Coordination, Cooperation with non-member countries, COST and Means of Action.

2. The Scientific Council and the Board of Governors of the JRC shall be consulted on draft programmes.

3. The Commission shall examine the draft programme in the light of the general policy and budgetary situation of the Community. It shall adopt the proposals in accordance with the provisions of the Treaty and lay them before the Council.

⁽¹⁾ OJ No L 177, 4. 7. 1984, p. 23.

Article 9

1. The Director-General of the JRC shall be responsible for the proper execution of the programmes laid down for the JRC. He shall direct the activities of the departments and services, and in particular decide between the alternative methods of implementing the programme.

2. In agreement with the Director-General for Science, Research and Development, he shall provide the Commission with all the information it needs to draw up the reports required by Article 11 of the Euratom Treaty.

3. The Director-General of the JRC shall ensure, as necessary, that successive programmes are properly coordinated and inter-related, during implementation and preparation, with particular reference to the scientific and industrial infrastructure of the JRC. The Director-General shall arrange to review the programmes every two years.

Article 10

The Director-General of the JRC shall keep the Scientific Council of the JRC regularly informed concerning the activities of the Joint Research Centre, in particular as regards major contracts concluded, staff management policy, the detailed elaboration of the Centre's programme and any major amendments to programmes already approved. In the light of this information the Scientific Council of the JRC may deliver opinions to the Director-General.

Article 11

1. Each year the Director-General of the JRC shall make an estimate of the funds required for the implementation of the programme, for inclusion under the relevant head of the preliminary draft budget of the Communities. This estimate shall include a forecast of revenue and expenditure in respect of work done by the JRC under contract.

Article 8 shall apply, *mutatis mutandis*, to the preparation of preliminary draft budgets for research activities.

2. Expenditure of the JRC shall be authorized by the Director-General of the JRC under powers delegated to him by the Director-General for Science, Research and Development; he shall sign payment orders and receipts; he shall conclude contracts and authorize transfers of funds.

3. The Director-General of the JRC shall make a quarterly financial report to the Commission. At the end of the financial year he shall forward a statement of revenue and expenditure for that financial year to the Director-General for Science, Research and Development, who shall submit it to the Commission.

4. The Commission shall appoint the officer responsible for the control of the commitment and authorization of expenditure and for the supervision of revenue.

5. The Commission shall appoint the accounting officer responsible for the payment of expenditure and receipt of revenue and for the handling of funds and securities, for the safe custody of which he shall be responsible.

Article 12

1. Within the limits of the powers delegated to him by the Director-General for Science, Research and Development, the Director-General of the JRC shall have such powers over the staff as are conferred upon the appointing authority.

2. However, in respect of officials and other servants of grades A 1 and A 2, the powers laid down in Articles 29, 49, 50 and 51 and Title VI of the Staff Regulations shall be exercised by the Commission on a proposal from the Director-General of the JRC in agreement with the Director-General for Science, Research and Development.

3. The Director-General of the JRC shall, on behalf of the Commission and of the Director-General for Science, Research and Development, take all measures necessary to ensure the safety of persons and installations for which he is responsible.

Article 13

The Director-General of the JRC may delegate the powers conferred on him to Establishment Directors.

The Director-General of the JRC shall inform the Director-General for Science, Research and Development of the powers delegated to Establishment Directors.

Done at Brussels, 20 November 1985.

COMMISSION DECISION

of 22 November 1985

authorizing Greece to take certain safeguard measures under Article 108 (3) of the
EEC Treaty

(Only the Greek text is authentic)

(85/594/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 108 (3) thereof,

Whereas the Greek economy has experienced a marked deterioration in its balance of payments on current account, particularly since the beginning of 1985;

Whereas this situation has continued to worsen in recent months; whereas there has been growing pressure on the foreign exchange market; whereas, accordingly, and in order to guard against hoarding, the Bank of Greece, whilst accepting a marked reduction in the value of the drachma, has been obliged to draw on its official reserves to a significant extent;

Whereas the expenditure incurred through the accumulation of large foreign debts severely restricts payments outside Greece; whereas Greece is thus faced with an exceptional economic situation and the present trend in the balance of payments is unacceptable;

Whereas in a letter dated 16 October 1985, the Greek Government informed the Commission that it had adopted a programme of economic stabilization and had taken a series of measures designed to reduce the disequilibrium in its balance of payments and that in so doing it was relying on Article 109 (1) of the Treaty;

Whereas as part of these measures the Greek Government adopted a system requiring an interest-free six month deposit to be lodged in cash with the Bank of Greece; whereas this deposit represents 40 or 80 % of the cif value of goods depending on which list they are on; whereas this deposit system was adopted primarily to make an immediate impact on the balance of payments pending the results of other measures and to curb liquidity in order to support the attempt to control expansion in the money supply, which forms an integral part of the Greek economic recovery plan;

Whereas no discrimination in the financing of commercial operations to the detriment of products imported from the Community may be authorized pursuant to this Decision;

Whereas on 30 October 1985 the Commission, having examined the Greek economic situation in the light of Article

108 (1) of the Treaty and the measures already taken by Greece in accordance with Article 104 of the Treaty, addressed a recommendation to the Member State in question under Article 108 (1) of the Treaty;

Whereas, having consulted the Monetary Committee the Commission recommended to the Council that mutual assistance be provided; whereas by its Decision of 18 November 1985 the Council granted a loan under the Community loans mechanism designed to help Member States balance of payments;

Whereas, given the extent of the present difficulties in Greece and the urgency with which measures should be taken to remedy the situation, neither the measures recommended to Greece under Article 108 (1) nor the Community support granted appear adequate as they will not be fully effective in the short-term and will not be sufficient to guarantee the rapid recovery of the Greek balance of payments;

Whereas the Commission should therefore authorize the application of appropriate protective measures under Article 108 (3) of the Treaty;

Whereas, accordingly Greece should be authorized to require an interest-free cash deposit on the importation of certain goods;

Whereas the reduction of the Greek foreign debt necessitates the temporary extension beyond 31 December 1985 of restrictions on the free movement of capital in transactions made by Greek residents;

Whereas for the same reason and by way of derogation from Article 106 (1) of the Treaty, a restriction on the export of currency in connection with holiday expenses is also justified;

Whereas pursuant to Commission Decision C/85/1344 which was notified to the Greek Government on 13 August 1985 export aid provided for by Decision 1574/70 of the Greek Monetary Committee, as amended by Decision 350/82, should have been abolished on that date;

Whereas Decision 1574/70 of the Greek Monetary Committee provides for payments to companies after exports have been effected, on the basis of an added value calculated on exportation; whereas the estimated value of this aid is between 6.6 % and 26.4 % of the fob price of the exported product;

Whereas although maintenance of such aid might make it possible to avoid aggravating the disequilibrium in the balance of trade currently being experienced by Greece, it cannot provide a lasting solution to the problem of competitiveness faced by Greek products on the export markets; whereas, accordingly, the period during which such aid is permitted must be limited as part of the protective measures authorized in this Decision;

Whereas the economic situation in Greece should be kept under close review so that the measures authorized may be amended or repealed should the circumstances which justify them change;

Whereas the protective measures authorized under Article 1 should be reviewed periodically.

HAS DECIDED AS FOLLOWS:

Article 1

Greece is hereby authorized on a temporary basis to require upon importation of the goods listed in Annex 1 a certificate from a competent financial institution attesting to the fact that an interest-free six-month deposit has been lodged in cash with the Bank of Greece; the amount of the deposit shall not exceed:

- 40 % of the cif value of the goods included in List I or
- 80 % of the cif value of the goods included in List II.

Greece shall publish a list of the financial institutions referred to above.

Article 2

Greece shall ensure that the bank deposit certificates provided for in Article 1 are issued automatically and without delay.

Article 3

Greece shall take the measures necessary to ensure that the Bank of Greece releases deposits immediately and without any formalities upon expiry of the six-month period.

Article 4

Importation of the goods listed in Annex 1 shall be exempt from the requirement referred to in Article 1 if it is intended that the goods in question be re-exported; in this case a written undertaking in the form of a personal guarantee covering 100 % of the cif value of the imported goods may be required.

Greece shall take such measures as are necessary to ensure that this guarantee ceases to be required on the re-exportation of the goods concerned, provided that this takes place no later than one year after importation and that the customs documents show that the fob value upon exportation is at least 30 % more than the cif value upon importation.

The guarantee shall no longer be required where exportation proves impossible through unforeseeable circumstances or cases of *force majeure*.

If export market conditions have changed so that the exportation envisaged is no longer economically feasible the period of one year shall be extended by six months on request.

Article 5

Greece shall ensure that there is no discrimination between domestic products and products imported from other Member States in the granting of internal credits for commercial transactions.

Moreover, Greece shall ensure that imports of products from other Member States can benefit without restriction from credits for commercial transactions granted by non-residents.

Article 6

1. Greece is hereby authorized, temporarily and within the limits laid down in Annex 2 to this Decision, to prohibit or to make subject to prior authorization the conclusion or execution of transactions and transfers relating to movement of capital liberalized at the time of this Decision under Articles 1 and 2 of Council Directive 60/501/EEC ⁽¹⁾, as amended by Directive 63/21/EEC ⁽²⁾.

2. Greece is hereby authorized temporarily to extend beyond 31 December 1985 restrictions or transfers relating to the holiday expenses of Greek residents as following:

- from 1 January 1986 the annual tourist allowance per person shall not be less than 760 ECU,
- from 1 January 1987 this allowance shall be raised by at least 40 ECU per year.

3. Without prejudice to the terms of Article 9 (3) and (5) the authorizations contained in this Article shall be valid for a period of three years as from the date on which this Decision takes effect.

⁽¹⁾ OJ No 43, 12. 7. 1960, p. 919/60.

⁽²⁾ OJ No 9, 22. 1. 1963, p. 62/63.

Article 7

Greece is hereby authorized until 31 December 1986 to grant the export aid referred to in Decision 1574/70 of the Greek Monetary Committee, as amended by Decision 350/82 authorizing payments to exporting firms on the basis of the value added on exportation.

These payments shall be no higher than 26,4 % of the fob price. The rates of aid for the various products shall not exceed the rates in force on 13 August 1985.

Article 8

Any difficulties arising in the application of the measures authorized shall be the subject of joint examination by Greece and the Commission.

Article 9

1. This Decision shall take effect on 29 November 1985.

2. The Commission shall check that the terms of this Decision are being observed and shall keep the developments in the economic situation in Greece under close review.

3. The Commission reserves the right to amend or repeal all or any part of this Decision, after consulting the Member

State concerned, particularly if it finds that the circumstances which led to its adoption have changed or that its effects are more restrictive than they need be in order to achieve their objectives.

4. The Commission shall re-examine, together with the Greek authorities the protective measures referred to in Article 1 before 31 January 1986 and thereafter every three months should this be necessary.

5. If, before the date of expiry of the derogations permitted under Article 6, Greece claims that balance of payments difficulties persist or that there is a serious likelihood of their recurring, the Commission shall examine the overall economic situation in order to determine whether an extension of all or part of the protective measures in force is appropriate.

Article 10

This Decision is addressed to the Hellenic Republic.

ANNEX 1

LIST I

List of products subject to a 40 % deposit on importation

CCT Heading number	Description
02.02 A I	Whole poultry: fowl
04.05	Birds' eggs and egg yolks, fresh, dried or otherwise preserved, sweetened or not
07.06	Manioc, arrowroot, salep, Jerusalem artichokes, sweet potatoes and other similar roots and tubers with high starch or inulin content, fresh or dried, whole or sliced; sago pith
10.02	Rye
10.04	Oats
10.06 except A	Rice, other than rice for sowing
10.07	Buckwheat, millet, canary seed and grain sorghum; other cereals
11.01	Cereal flours
11.02	Cereal groats and cereal meal; other worked cereal grains (for example, rolled, flaked, polished, pearled or kibbled but not further prepared), except rice falling within heading No 10.06; germ of cereals, whole, rolled, flaked or ground
11.04	Flour of the dried leguminous vegetables falling within heading No 07.05 or of fruit falling within any heading in Chapter 8; flour and meal of sago and of roots and tubers falling within heading No 07.06
11.05	Flour, meal and flakes of potato
11.08	Starches, inulin
12.07	Plants and parts (including seeds and fruit) of trees, bushes, shrubs or other plants, being goods of a kind used primarily in perfumery, in pharmacy, or for insecticidal, fungicidal or similar purposes, fresh or dried, whole, cut, crushed, ground or powdered
13.02	Shellac, seed lac, stick lac and other lacs; natural gums, resins, gum-resins and balsams
14.01	Vegetable materials of a kind used primarily for plaiting (for example, cereal straw, cleaned, bleached or dyed, osier, reeds, rushes, rattans, bamboos, raffia and lime bark)
14.02	Vegetable materials, whether or not put up on a layer or between two layers of other material, of a kind used primarily as stuffing or as padding (for example, kapok, vegetable hair and eel-grass)
14.05	Vegetable products not elsewhere specified or included
ex 15.07	Fixed vegetable oils, fluid or solid, crude, refined or purified, except china-wood oils and castor oil
17.02 except B I a)	Other sugars in solid form, syrup, sugar syrups, not containing added flavouring or colouring matter; artificial honey, whether or not mixed with natural honey; caramel, except glucose in the form of white crystalline powder, whether or not agglomerated
24.01	Unmanufactured tobacco; tobacco refuse

CCT Heading number	Description
25.20	Gypsum; anhydrite; calcined dipsum, and plasters with a basis of calcium sulphate, whether or not coloured, but not including plasters specially prepared for use in dentistry
25.22	Quicklime, slaked lime and hydraulic lime, other than calcium oxide and hydroxide
25.23	Portland cement, cement fondu, slag cement, supersulphate cement and similar hydraulic cements, whether or not coloured or in the form of clinker
25.24	Asbestos
ex 25.30	Crude natural boric acid containing not more than 85 % of H_3BO_3 , calculated on the dry weight
26.01 B	Manganese ores and concentrates, including manganiferous iron ores and concentrates with a manganese content of 20 % or more by weight
26.03	Ash and residues (other than from the manufacture of iron or steel), containing metals or metallic compounds
26.04	Other slag and ash, including kelp
27.02	Lignite, whether or not agglomerated
27.03	Peat (including peat litter), whether or not agglomerated
27.10 C III except ex d)	Lubricating oils; other oils but not including oils for use in motor vehicles
27.11 B I ex c)	Petroleum gases and other gaseous hydrocarbons, only ready, single-use containers of 300 g, 500 g, 1, 2 and 3 kg
27.13	Paraffin wax, micro-cristalline wax, slack wax, ozokerite, lignite wax, peat wax and other mineral waxes, whether or not coloured
ex 27.14 C	Other residues of petroleum oils or of oils obtained from bituminous minerals, except petroleum coke and petroleum bitumen
ex 27.16	Bituminous mixtures based on natural asphalt, on natural bitumen, on petroleum bitumen, on mineral tar or on mineral tar pitch (for exemple, bituminous mastics, cut-backs), except asphalt solutions of 60 % or more and emulsions and suspensions of asphalt in water, whether or not mixed with inorganic substances (asbestos)
28.17 A	Caustic soda
ex 28.38 A	Aluminium sulphate (argyl)
31.02	Mineral or chemical fertilizers, nitrogenous
31.03	Mineral or chemical fertilizers, phosphatic
31.05	Other fertilizers, goods of the present Chapter in tablets, lozenges and similar prepared forms or in packings of a gross weight not exceeding 10 kg
32.04	Colouring matter of vegetable origin (including dyewood extract and other vegetable dying extracts, but excluding indigo) or of animal origin
32.05	Synthetic organic dyestuffs (including pigment dyestuffs); synthetic organic products of a kind used as luminophores; products of the kind known as optical bleaching agents, substantive to the fibre; natural indigo
32.06	Colour lakes
ex 32.07	Other colouring matter; inorganic products of a kind used as luminophores; pigments based on zinc sulphide (lithopone and the like), titanium oxide, lead, barium, zinc or strontium chromates

CCT Heading number	Description
ex 32.08	Prepared pigments, prepared opacifiers and prepared colours, vitrifiable enamels and glazes, liquid lustres and similar products, of the kind used in the ceramic, enamelling and glass industries; engobes (slips); glass frit and other glass, in the form of powder, granules or flakes; except pigments which contain precious metals or their compounds and except vitrifiable enamels and glazes
35.01 except A	Caseine glues and other
35.04	Peptones and other protein substances (excluding enzymes of heading No 35.07) and their derivatives; hide powder, whether or not chromed
35.05	Dextrins and dextrin glues; soluble or roasted starches; starch glues
35.06	Prepared glues not elsewhere specified or included; products suitable for use as glues put up for sale by retail as glues in packages not exceeding a net weight of 1 kg
36.01	Propellent powders
36.02	Prepared explosives, other than propellent powders
36.04	Safety fuses; detonating fuses; percussion and detonating caps; ignitors; detonators
36.05	Pyrotechnic articles (for example, fireworks, railway fog signals, amorces, rain rockets)
36.06	Matches (excluding Bengal matches)
36.08	Ferro-cerium and other pyrophoric alloys in all forms; articles of combustible materials
37.03	Sensitized paper, paperboard and cloth, unexposed or exposed but not developed
38.01	Artificial graphite; colloidal graphite, other than suspensions in oil
38.07	Spirits of turpentine (gum, wood and sulphate) and other terpenic solvents produced by the distillation or other treatment of coniferous woods; crude dipentene; sulphite turpentine; pine oil (excluding 'pine oils' not rich in terpineol)
38.08	Rosin and resin acids, and derivatives thereof other than ester gums included in heading No 39.05; rosin spirit and rosin oils
38.11	Disinfectants, insecticides, fungicides, rat poisons, herbicides, anti-sprouting products, plant-growth regulators and similar products, put up in forms or packings for sale by retail or as preparations or articles (for example, sulphur-treated bands, wicks and candles, fly-papers)
38.17	Preparations and charges for fire-extinguishers; charged fire-extinguishing grenades
38.19 K	Refractory cements, mortars and similar compositions
39.01 A	Ion exchangers
39.01 B	Adhesive strips of a width not exceeding 10 cm, the coating of which consists of unvulcanized natural or synthetic rubber
39.01 C I	Phenoplasts
39.01 C III	Alkyds and other polyesters
39.01 C IV	Polyamides

CCT Heading number	Description
39.02 A	Ion exchangers
39.02 B	Adhesive strips of a width not exceeding 10 cm, the coating of which consists of unvulcanized natural or synthetic rubber
ex 39.02 C I b)	Polyethylene tubes
ex 39.02 C VII b)	Polyvinyl chloride tubes
39.02 C IX	Polyvinyl acetate
39.02 C XIV	Other polymerization or copolymerization products which are not listed under heading No 32.02 C
39.03 B II	Cellulose nitrates
ex 39.04	Hardened proteins (for example, hardened casein and hardened gelatin) but not including artificial sausage casings
39.05	Natural resins modified by fusion (run gums); artificial resins obtained by esterification of natural resins or of resinic acids (ester gums); chemical derivatives of natural rubber (for example, chlorinated rubber, rubber hydrochloride, oxydized rubber, cyclized rubber)
40.05 A, except B)	Plates, sheets and strip, of unvulcanized natural or synthetic rubber, other than smoked sheets and crepe sheets of heading No 40.01 or 40.02; granules of unvulcanized natural or synthetic rubber compounded ready for vulcanization; unvulcanized natural or synthetic rubber, compounded before or after coagulation either with carbon black (with or without the addition of mineral oil) or with silica (with or without the addition of mineral oil), in any form, of a kind known as masterbatch, except granules of natural or synthetic rubber compounded ready for vulcanization
ex 40.06	Unvulcanized natural or synthetic rubber, including rubber latex, in other forms or states (for example, rods, tubes and profile shapes, solutions and dispersions); articles of unvulcanized natural or synthetic rubber (for example, coated or impregnated textile thread; rings and discs) but not including solutions and dispersions and textile thread coated or impregnated with unvulcanized rubber
40.07	Vulcanized rubber thread and cord, whether or not textile covered, and textile thread covered or impregnated with vulcanized rubber
40.08	Plates, sheets, strip, rods and profile shapes, of unhardened vulcanized rubber
ex 40.09	Piping and tubing, of unhardened vulcanized rubber but not including fittings suitable for conducting gases or liquids, for use in civil aircraft
40.10	Transmission, conveyor or elevator belts or belting, of vulcanized rubber
40.13	Articles of apparel and clothing accessories (including gloves), for all purposes, of unhardened vulcanized rubber
42.01	Saddlery and harness, of any material (for example, saddles, harness, collars, traces, knee-pads and boots), for any kind of animal
42.04	Articles of leather or of composition leather of a kind used in machinery or mechanical appliances or for other industrial purposes
43.02 A	Furskins, tanned or dressed, including furskins assembled in plates, crosses and similar forms
44.01	Fuel wood, in logs, in billets, in twigs or in faggots; wood waste, including sawdust

CCT Heading number	Description
44.02	Wood charcoal (including shell and nut charcoal), agglomerated or not
44.05	Wood sawn lengthwise, sliced or peeled, but not further prepared, of a thickness exceeding 5 mm
44.09	Hoopwood; split poles; piles, pickets and stakes of wood, pointed but not sawn lengthwise; chipwood; drawn wood; pulpwood in chips or particles; wood shavings of a kind suitable for use in the manufacture of vinegar or for the clarification of liquids, roughly trimmed but not turned, bent or otherwise worked, suitable for the manufacture of walking-sticks, umbrella handles, tool handles or the like
44.11	Fibre building board of wood or other vegetable material, whether or not bonded with natural or artificial resins or with other organic binders
44.12	Wood wool and wood flour
44.13	Wood (including blocks, strips and friezes for parquet or wood block flooring, not assembled), planed, tongued, grooved, rebated, chamfered, V-jointed, centre V-jointed, beaded, centre-beaded or the like, but not further manufactured
44.14 A	Small boards for the manufacture of pencils
44.15	Plywood, blockboard, laminboard, battenboard and similar laminated wood products (including veneered panels and sheets); inlaid wood and wood marquetry
44.23	Builders' carpentry and joinery (including prefabricated and sectional buildings and assembled parquet flooring panels)
44.25	Wooden tools, tool bodies, tool handles, brush bodies; boot and shoe lasts and trees, of wood
44.26	Spools, cops, bobbins, sewing thread reels and the like, of turned wood
46.02	Plaits and similar products of plaiting materials, for all uses, whether or not assembled into strips; plaiting materials bound together in parallel strands or woven, in sheet form, including matting, mats and screens; straw envelopes for bottles
46.03	Basketwork, wickerwork and other articles of plaiting materials, made directly to shape; articles made up from goods falling within heading No 46.02; articles of loofah
ex 48.01 C	Kraft paper and kraft board
ex 48.01 F	Only filter paper and filter paperboard, cellulose wadding and webs of cellulose fibres, printing paper and writing paper, strawpaper and strawboard, wrapping and packaging paper made from wastepaper, other paper and other paperboard
48.05	Paper and paperboard, corrugated (with or without flat surface sheets) creped, crinkled, embossed or perforated, in rolls or sheets
ex 48.07 D	Only self copy paper, paper and paperboard coated with material of mineral origin or with powdered metal, surface-coloured paper and paperboard, paper and paperboard coated or impregnated with artificial plastic materials (excluding adhesives), carbon paper and similar copying paper
50.01	Silk-worm cocoons suitable for reeling
50.02	Raw silk (not thrown)
50.03	Silk waste (including cocoons unsuitable for reeling, silk noils and pulled or garnetted rags)

CCT Heading number	Description
50.04	Silk yarn, other than yarn of noil or other waste silk, not put up for retail sale
50.05	Yarn spun from noil or other waste silk, not put up for retail sale
50.07	Silk yarn and yarn spun from noil or other waste silk, put up for retail sale; silk-worm gut; imitation catgut of silk
50.09	Woven fabrics of silk, of noil or other waste silk
51.01 A	Yarn of synthetic textile fibres (continuous), not put up for retail sale
51.01 B I	Hollow-filament yarn of regenerated textile fibres
51.02	Monofil, strip (artificial straw and the like) and imitation catgut, of man-made fibre materials
51.03	Yarn of man-made fibres (continuous), put up for retail sale
51.04	Woven fabrics and man-made fibres (continuous), including woven fabrics of monofil or strip of heading No 51.01 or 51.02
52.01	Metallized yarn, being textile yarn spun with metal or covered with metal by any process
52.02	Woven fabrics of metal strips or of metallized yarn, of a kind used in articles of apparel, as furnishing fabrics or the like
53.06	Yarn of carded sheep's or lambs' wool (woollen yarn), not put up for retail sale
53.07	Yarn of combed sheep's or lambs' wool (worsted yarn), not put up for retail sale
53.08	Yarn of fine animal hair (carded or combed), not put up for retail sale
53.09	Yarn of horsehair or of other coarse animal hair, not put up for retail sale
53.10	Yarn of sheep's or lambs' wool, or horsehair or of other animal hair (fine or coarse), put up for retail sale
53.11	Woven fabrics of sheep's or lambs' wool or of fine animal hair
53.12	Woven fabrics of horsehair or of other coarse animal hair
54.03	Flax or ramie yarn, not put up for retail sale
54.04	Flax or ramie yarn, put up for retail sale
54.05	Woven fabrics of flax or of ramie
55.01	Cotton, not carded or combed
55.02	Cotton linters
55.03	Cotton waste (including pulled or garnetted rags), not carded or combed
55.04	Cotton, carded or combed
55.05	Cotton yarn, not put up for retail sale
55.06	Cotton yarn, put up for retail sale
55.07	Cotton gauze
55.08	Terry towelling and similar terry fabrics, of cotton

CCT Heading number	Description
55.09	Other woven fabrics of cotton
56.05	Yarn of man-made fibres (discontinuous or waste), not put up for retail sale
56.06	Yarn of man-made fibres (discontinuous or waste), put up for retail sale
56.07	Woven fabrics of man-made fibres (discontinuous or waste)
57.01	True hemp (' <i>Cannabis sativa</i> '), raw or processed but not spun; tow and waste of true hemp (including pulled or garnetted rags or ropes)
57.02	Manila hemp (abaca) (' <i>Musa textilis</i> '), raw or processed but not spun; tow and waste of Manila hemp (including pulled or garnetted rags or ropes)
57.04	Other vegetable textile fibres, raw or processed but not spun; waste of such fibres (including pulled or garnetted rags or ropes)
57.06	Yarn of jute or of other textile bast fibres of heading No 57.03
57.07	Yarn of other vegetable textile fibres; paper yarn
57.10	Woven fabrics of jute or of other textile bast fibres of heading No 57.03
57.11	Woven fabrics of other vegetable textile fibres; woven fabrics of paper yarn
ex 59.05	Nets and netting made of twine, cordage or rope, except fishing nets and netting of yarn, twine, cordage or rope
59.06	Other articles made from yarn, twine, cordage, rope or cables other than textile fabrics and articles made from such fabrics
59.07	Textile fabrics coated with gum or amylaceous substances, of a kind used for the outer covers of books and the like; tracing cloth; prepared painting canvas; buckram and similar fabrics for hat foundations and similar uses
59.10	Linoleum and materials prepared on a textile base in a similar manner to linoleum, whether or not cut to shape or of a kind used as floor coverings; floor coverings consisting of a coating applied on a textile base, cut to shape or not
59.11	Rubberized textile fabrics, other than rubberized knitted or crocheted goods
59.12	Textile fabrics otherwise impregnated or coated; painted canvas being theatrical scenery, studio back-cloths or the like
59.13	Elastic fabrics trimmings (other than knitted or crocheted goods) consisting of textile materials combined with rubber threads
59.14	Wicks, of woven, plaited or knitted textile materials, for lamps, stoves, lighters, candles and the like; tubular knitted gas-mantle fabric and incandescent gas mantles
61.01	Men's and boys' outer garments
61.02	Women's, girls' and infants' outer garments
61.03	Men's and boys' under garments, including collars, shirt fronts and cuffs
61.04	Women's, girls' and infants' under garments
61.05	Handkerchiefs
61.06	Shawls, scarves, mufflers, mantillas, veils and the like

CCT Heading number	Description
61.07	Ties, bow ties and cravats
61.09	Corsets, corset-belts, suspender-belts, brassières, braces, suspenders, garters and the like (including such articles of knitted or crocheted fabric), whether or not elastic
61.10	Gloves, mittens, mitts, stockings, socks, sockettes, not being knitted or crocheted goods
61.11	Made up accessories for articles of apparel (for example, dress shields, shoulder and other pads, belts, muffs, sleeve protectors, pockets)
64.02 A	Footwear with uppers and outer soles of leather
68.01	Road and paving setts, curbs and flagstones of natural stone (except slate)
68.02	Worked monumental or building stone, and articles thereof (including mosaic cubes), other than goods falling within heading No 68.01 or within Chapter 69
68.03	Worked slate and articles of slate, including articles of agglomerated slate
68.04	Hand polishing stones, whetstones, oilstones, hones and the like, and millstones, grindstones, grinding wheels and the like (including grinding, sharpening, polishing, trueing and cutting wheels, heads, discs and points), of natural stone (agglomerated or not), of agglomerated natural or artificial abrasives, or of pottery, with or without cores, shanks, sockets, axles and the like of other materials, but without frameworks; segments and other finished parts of such stones and wheels, of natural stone (agglomerated or not), of agglomerated natural or artificial abrasives, or of pottery
68.06	Natural or artificial abrasive powder or grain, on a base of woven fabric, of paper, of paperboard or of other materials, whether or not cut to shape or sewn or otherwise made up
68.07	Slag wool, rock wool and similar mineral wools; exfoliated vermiculite, expanded clays, foamed slag and similar expanded mineral materials; mixtures and articles of heat-insulating, sound-insulating, or sound-absorbing mineral materials, other than those falling within heading No 68.12 or 68.13 or in Chapter 69
68.08	Articles of asphalt or of similar material (for example, of petroleum bitumen or coal tar pitch)
68.11	Articles of cement (including slag cement), of concrete or of artificial stone (including granulated marble agglomerated with cement), reinforced or not
68.12	Articles of asbestos-cement, of cellulose fibre-cement or the like
68.13	Fabricated asbestos and articles thereof (for example, asbestos board, thread and fabric; asbestos clothing, asbestos jointing), reinforced or not, other than goods falling within heading No 68.14; mixtures with a basis of asbestos and mixtures with a basis of asbestos and magnesium carbonate, and articles of such mixtures
68.15	Worked mica and articles of mica, including bonded mica splittings on a support of paper or fabric (for example, micanite and micafolium)
68.16	Articles of stone or of other mineral substances (including articles of peat), not elsewhere specified or included
69.08	Glazed setts, flags and paving, hearth and wall tiles
69.09	Laboratory, chemical or industrial wares; troughs, tubs and similar receptacles of a kind used in agriculture; pots, jars and similar articles of a kind commonly used for the conveyance or packing of goods
70.03 A	Glass of the variety known as 'enamel' glass, in rods and tubes

CCT Heading number	Description
70.11	Glass envelopes (including bulbs and tubes) for electric lamps, electronic valves or the like
70.12	Glass inners for vacuum flasks or for other vacuum vessels
70.20	Glass fibre (including wool), yarns, fabrics, and articles made therefrom
73.10	Bars and rods (including wire rod), of iron or steel, hot-rolled, forged, extruded, cold-fomed or cold-finished (including precision-made); hollow mining drill steel
73.12	Hoop and strip, of iron or steel; sheets and plates of iron
ex 73.13	Sheets and plates, of iron or steel, hot-rolled or cold-rolled, except sheets and plates, hot-rolled, of a thickness exceeding 13 mm and those with raised or indented patterns
73.14	Iron or steel wire, whether or not coated, but not insulated
73.15 A VIII	Wire, whether or not coated with alloy steel and high carbon steel, but not insulated
73.17	Tubes and pipes of cast iron
73.18	Tubes and pipes and blanks therefor, of iron (other than of cast iron) or steel, excluding high-pressure hydro-electric conduits
73.21	Structures and parts of structures (for example, hangars and other buildings, bridges and bridge-sections, lock-gates, towers, lattice masts, roofs, roofing framework, door and window frames, shutters, balustrades, pillars and columns), of iron or steel; plates, strip, rods, angles, shapes, sections, tubes and the like prepared for use in structures, of iron or steel
73.22	Reservoirs, tanks, vats and similar containers, for any material (other than compressed or liquified gas), of iron or steel, of a capacity exceeding 300 litres, whether or not lined or heat-insulated, but not fitted with mechanical or thermal equipment
73.23	Casks, drums, cans, boxes and similar containers, of sheet or plate iron or steel, of a description commonly used for the conveyance or packing of goods
73.25	Stranded wire, cables, cordage, ropes, plaited bands, slings, and the like, of iron or steel wire, but excluding insulated electric cables
73.26	Barbed iron or steel wire; twisted hoop or single flat wire, barbed or not, and loosely twisted double wire, of kinds used for fencing, of iron or steel
73.27	Gauze, cloth, grill, netting, fencing, reinforcing fabric and similar materials, of iron or steel wire; expanded metal, of iron or steel
73.29	Chain and parts thereof, of iron or steel
73.30	Anchors and grapnels and parts thereof, of iron or steel
73.31	Nails, tacks, staples, hook-nails, corrugated nails, spiked clamps, studs, spikes and drawing pins, of iron or steel, whether or not with heads of other materials, but not including such articles with heads of copper
73.32	Bolts and nuts (including bolt ends and screw studs), whether or not threaded or tapped, screws (including screw hooks and screw rings), rivets, cotters, cotter-pins and similar articles; of iron or steel; washers (including spring washers) of iron or steel
73.33	Needles for hand sewing (including embroidery), hand carpet needles and handknitting needles, bodkins, crochet hooks, and the like, and embroidery stilettos, of iron or steel
73.34	Pins (excluding hat pins and other ornamental pins and drawing pins), hair pins, curling grips and the like, of iron or steel

CCT Heading number	Description
73.35	Springs and leaves for springs, of iron or steel
73.36	Stoves (including stoves with subsidiary boilers for central heating), ranges, cookers, grates, fires and other space heaters, gas-rings, platewarmers with burners, wash boilers with grates and other heating elements, and similar equipment, of a kind used for domestic purposes, not electrically operated, and parts thereof, of iron or steel
73.37	Boilers (excluding boilers of heading No 84.01) and radiators, for central heating, not electrically heated, and parts thereof, of iron or steel; air heaters and hot air distributors (including those which can also distribute cool or conditioned air), not electrically heated, incorporating a motor-driven fan or blower, and parts thereof, of iron or steel
ex 73.40	Other articles of iron or steel; conveyor and transmission belt fasteners, pallets and similar platforms for handling goods, spools, cops, bobbins and similar holders for spinning and weaving, balls and other solid shapes, for use in grinding and crushing mills
74.03 except A	Wrought bars, rods, angles, shapes and sections, of copper; copper wire, but not including copper alloys containing more than 10 % by weight of nickel
74.04	Wrought plates, sheets and strip, of copper, of a thickness exceeding 0,15 mm
74.05 except A	Copper foil (whether or not embossed, cut to shape, perforated, coated, printed, or backed with paper or other reinforcing material), of a thickness (excluding any backing) not exceeding 0,15 mm, except of copper alloys containing more than 10 % by weight of nickel
74.07	Tubes and pipes and blanks therefor, of copper; hollow bars of copper
74.08	Tube and pipe fittings (for example, joints, elbows, sockets and flanges), of copper
74.10	Stranded wire, cables, cordage, ropes, plaited bands and the like, of copper wire, but excluding insulated electric wires and cables
74.11	Gauze, cloth, grill, netting, fencing, reinforcing fabric and similar materials (including endless bands), of copper wire; expanded metal, of copper
74.15	Nails, tacks, staples, hook-nails, spiked clamps, studs, spikes and drawing pins, of copper, or of iron or steel with heads of copper; bolts and nuts (including bolt ends and screw studs), whether or not threaded or tapped, screws (including screw hooks and screw rings), rivets, cotters, cotter-pins and similar articles, of copper; washers (including spring washers) of copper
74.16	Springs, of copper
74.17	Cooking and heating apparatus of a kind used for domestic purposes, not electrically operated, and parts thereof, of copper
74.18	Other articles of a kind commonly used for domestic purposes, sanitary ware for indoor use, and parts of such articles and ware, of copper
ex 74.19	Other articles of copper, except snuff boxes, cigarette cases, cosmetic and powder boxes and cases and similar pocket articles, chain and parts thereof
75.06	Other articles of nickel
76.01	Unwrought aluminium; aluminium waste and scrap
76.02	Wrought bars, rods, angles, shapes and sections, of aluminium wire
76.03	Wrought plates, sheets and strip, of aluminium of a thickness exceeding 0,20 mm

CCT Heading number	Description
76.04	Aluminium foil (whether or not embossed, cut to shape, perforated, coated, printed, or backed with paper or other reinforcing material), of a thickness (excluding any backing) not exceeding 0,20 mm
76.06	Tubes and pipes and blanks therefor, of aluminium; hollow bars of aluminium
76.07	Tube and pipe fittings (for example, joints, elbows, sockets and flanges), of aluminium
76.08	Structures and parts of structures (for example, hangars and other buildings, bridges and bridge-sections, towers, lattice masts, roofs, roofing frameworks, door and window frames, balustrades, pillars and columns), of aluminium; plates, rods, angles, shapes, sections, tubes and the like, prepared for use in structures of aluminium
76.09	Reservoirs, tanks, vats and similar containers, for any material (other than compressed or liquified gas), of aluminium, of a capacity exceeding 300 litres, whether or not lined or heat-insulated, but not fitted with mechanical or thermal equipment
76.10	Casks, drums, cans, boxes and similar containers (including rigid and collapsible tubular containers), of aluminium, of a description commonly used for the conveyance or packing of goods
76.11	Containers, of aluminium, for compressed or liquified gas
76.12	Stranded wire, cables, cordage, ropes, plaited bands and the like, of aluminium wire, but excluding insulated electric wires and cables
76.15	Articles of a kind commonly used for domestic purposes, sanitary ware for indoor use, and parts of such articles and ware, of aluminium
76.16	Other articles of aluminium
77.01	Unwrought magnesium; magnesium waste (excluding shavings of uniform size) and scrap
77.02	Wrought bars, rods, angles, shapes and sections, of magnesium; magnesium wire; wrought plates, sheets and strip, of magnesium; magnesium foil; raspings and shavings of uniform size, powders and flakes, of magnesium; tubes and pipes and blanks therefor, of magnesium; hollow bars of magnesium; other articles of magnesium
77.04	Beryllium, unwrought or wrought, and articles of beryllium
78.01	Unwrought lead (including argentiferous lead); lead waste and scrap
78.05	Tubes and pipes and blanks therefor, of lead; hollow bars, and tube and pipe fittings (for example, joints, elbows, sockets, flanges and S-bends), of lead
78.06	Other articles of lead
79.04	Tubes and pipes and blanks therefor, of zinc; hollow bars, and tube and pipe fittings (for example, joints, elbows, sockets and flanges), of zinc
79.06	Other articles of zinc
80.05	Tubes and pipes and blanks therefor, of tin; hollow bars, and tube and pipe fittings (for example, joints, elbows, sockets and flanges), of tin
80.06	Other articles of tin
82.01	Hand tools, the following: spades, shovels, picks, hoes, forks and rakes; axes, bill-hooks and similar hewing tools; scythes, sickles, hay knives, grass shears, timber wedges and other tools of a kind used in agriculture, horticulture or forestry
82.02	Saws (non-mechanical) and blades for hand or machine saws (including toothless saw blades)

CCT. Heading number	Description
82.04	Hand tools, including glaziers' diamonds, not falling within any other heading of this Chapter; blow lamps, anvils; vices and clamps, other than accessories for, and parts of, machine tools; portable forges; grinding wheels with framework (hand or pedal operated)
82.05	Interchangeable tools for hand tools, for machine tools or for power-operated hand tools (for example, for pressing, stamping, drilling, tapping, threading, boring, broaching, milling, cutting, turning, dressing, morticing or screw driving) including dies for wire drawing, extrusion dies for metal, and rock drilling bits
82.06	Knives and cutting blades, for machines or for mechanical appliances
82.07	Tool-tips and plates, sticks and the like for tool-tips, unmounted, of sintered metal carbides (for example, carbides of tungsten, molybdenum or vanadium)
82.08	Coffee-mills, mincers, juice-extractors and other mechanical appliances, of a weight not exceeding 10 kg and of a kind used for domestic purposes in the preparation, serving or conditioning of food or drink
82.09	Knives with cutting blades, serrated or not (including pruning knives), other than knives falling within heading No 82.06, and blades therefor
82.11 A I	Open-blade razors
82.12	Scissors (including tailors' shears), and blades therefor
82.13	Other articles of cutlery (for example, secateurs, hair clippers, butchers' cleavers, paper knives); manicure and chiropody sets and appliances (including nail files)
82.14	Spoons, forks, fish-eaters, butter knives, ladles, and similar kitchen or tableware
82.15	Handles of base metal for articles falling within heading Nos 82.09, 82.13 or 82.14
83.08	Flexible tubing and piping, of base metal
84.06 B	Outboard motors
ex 84.06 C I a) 2	Only engines for use in auto-cycles and motor-cycles
84.06 C I b) 1	Spark ignition engines, piston engines, of a cylinder capacity of not less than 250 m ³ , for industrial assembly
84.06 C I b) 2 ex bb)	Spark ignition engines, piston engines, except those for marine propulsion
84.06 C II b) 1 and ex 2	Compression ignition engines, except those for use in agricultural tractors or for rail traction
84.06 D II b)	Parts of internal combustion engines, except those for use in civil aircraft
84.10	Pumps (including motor pumps and turbo pumps) for liquids, whether or not fitted with measuring devices; liquid elevators of bucket, chain, screw, band and similar kinds
84.11 C II	Fans, blowers and the like, parts, except those for use in civil aircraft
84.12 except A	Air conditioning machines, self-contained, comprising a motor-driven fan and elements for changing the temperature and humidity of air, except those for use in civil aircraft
84.13	Furnace burners for liquid fuel (atomizers), for pulverized solid fuel or for gas; mechanical stokers, mechanical grates, mechanical ash dischargers and similar appliances

CCT Heading number	Description
84.14	Industrial and laboratory furnaces and ovens, non-electric
84.17 D	Percolators and other appliances for making coffee and other hot drinks
84.17 F	Water heaters, non-electric
ex 84.18 C II	Centrifuges: machinery and apparatus for filtering or purifying liquids or gases but not including machinery and apparatus for purifying oils and fats falling within subheading 84.18 C II a) 2)
84.20	Weighing machinery (excluding balances of a sensitivity of 5 cg or better) including weight-operated counting and checking machines; weighing machine weights of all kinds
84.21	Mechanical appliances (whether or not hand operated) for projecting, dispersing or spraying liquids or powders; fire extinguishers (charged or not); spray guns and similar appliances; steam or sand blasting machines and similar jet projecting machines
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transport cranes, jacks, pulley tackle, belt conveyors and teleferics), not being machinery falling within heading No 84.23 and not including machinery for use in civil aircraft
84.24	Agricultural and horticultural machinery for soil preparation or cultivation (for example, ploughs, cultivators, seed and fertilizer distributors) lawn and sports ground rollers
84.25	Harvesting and threshing machinery; straw and fodder presses; hay or grass mowers; winnowing and similar cleaning machines for seed, grain or leguminous vegetables and egg-grading and other grading machines for agricultural produce (other than those of a kind used in the bread grain milling industry falling within heading No 84.29)
84.27	Presses, crushers and other machinery, of a kind used in wine-making, cider-making, fruit juice preparation or the like
84.28	Other agricultural, horticultural, poultry-keeping and bee-keeping machinery; germination plant fitted with mechanical or thermal equipment, poultry incubators and brooders
84.29	Machinery of a kind used in the bread grain milling industry, and other machinery (other than farm type machinery) for the working of cereals or dried leguminous vegetables
84.30	Machinery, not falling within any other heading of this Chapter, of a kind used in the following food or drink industries: bakery, confectionery, chocolate manufacture, macaroni, ravioli or similar cereal food manufacture, the preparation of meat, fish, fruit or vegetables (including mincing or slicing machines), sugar manufacture or brewing
84.32	Book-binding machinery, including book-sewing machines
84.37	Weaving machinery, knitting machines and machines for making gimped yarn, tulle, lace, embroidery, trimmings, braid or net; machines for preparing yarns for use on such machines, including warping and warp sizing machines
84.38	Auxiliary machinery for use with machines of heading No 84.37 (for example, dobbies, Jacquards, automatic stop motions and shuttle-changing mechanisms); parts and accessories suitable for use solely or principally with the machines of the present heading or with machines falling within heading No 84.36 or 84.37 (for example, spindles and spindle flyers, card clothing, combs, extruding nipples, shuttles, healds and heald-lifters and hosiery needles)

CCT Heading number	Description
84.39	Machinery for the manufacture or finishing of felt in the piece or in shapes, including felt-hat making machines and hat-making blocks
84.51 A	Typewriters
84.52	Calculating machines; accounting machines, cash registers, postage-franking machines, ticket-issuing machines and similar machines, incorporating a calculating device
84.54	Other office machines (for example, hectograph or stencil duplicating machines, addressing machines, coin-sorting machines, coin-counting and wrapping machines, pencil-sharpening machines, perforating and stapling machines)
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves
ex 85.01 B I b)	Electric motors of an output of not less than 37 kW and static converters
85.03	Primary cells and primary batteries
85.04	Electric accumulators
85.05	Tools for working in the hand, with self-contained electric motor
85.09	Electrical lighting and signalling equipment and electrical windscreen wipers, defrosters and demisters, for cycles or motor vehicles
85.10 except A	Portable electric battery and magneto lamps, other than lamps falling within heading No 85.09, except miners' safety lamps
ex 85.12 A	Electric instantaneous or storage water heaters and immersion heaters other than those for use in civil aircraft
ex 85.12 B	Electric soil heating apparatus and electric space heating apparatus, other than those for use in civil aircraft
85.12 C	Electric hairdressing appliances (for example, hairdryers, hair curlers, curling tong heaters)
85.12 D	Electric smoothing irons
85.12 E	Electro-thermic domestic appliances
85.12 F	Electric heating resistors
85.13	Electrical line telephonic and telegraphic apparatus (including such apparatus for carrier-current line systems)
85.14 except A	Microphones and stands therefor; loudspeakers; audio-frequency electric amplifiers, other than those for use in civil aircraft
ex 85.15 A I	Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras; radio navigational aid apparatus, radar apparatus and radio remote control apparatus, other than those for use in civil aircraft
ex 85.15 A II	Transmitter-receivers, other than those for use in civil aircraft
ex 85.15 A IV	Television cameras, other than those for use in civil aircraft
ex 85.15 B	Other apparatus other than those for use in civil aircraft
ex 85.15 C	Parts falling within heading No 85.15, other than those for use in civil aircraft

CCT Heading number	Description
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lampholders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors; printed circuits; switchboards (other than telephone switchboards) and control panels
85.20	Electric filament lamps and electric discharge lamps (including infra-red and ultra-violet lamps); arc lamps
85.23 except A	Insulated (including enamelled or anodized) electric wire, cable, bars, strip and the like (including co-axial cable), whether or not fitted with connectors, other than ignition wiring sets and wiring sets, for use in civil aircraft
85.25	Insulators of any material
85.26	Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating material apart from any minor components of metal incorporated during moulding solely for purposes of assembly, but not including insulators falling within heading No 85.25
85.27	Electrical conduit tubing and joints therefor, of base metal lined with insulating material
85.28	Electrical parts of machinery and apparatus, not being goods falling within any of the preceding headings of this Chapter
87.01	Tractors (other than those falling within heading No 87.07), whether or not fitted with power take-offs, winches or pulleys
ex 87.02	Motor vehicles for the transport of persons, goods or materials (including sports motor vehicles, other than those of heading No 87.09), except motor vehicles for the transport of persons of a cylinder capacity exceeding 1 610 cm ³ falling within subheading 87.02 A I, whether new or used
87.03	Special purpose motor lorries and vans (such as breakdown lorries, fire-engines, fire-escapes, road sweeper lorries, snow-ploughs, spraying lorries, crane lorries, searchlight lorries, mobile workshops and mobile radiological units), but not including the motor vehicles of heading No 87.02
87.04	Chassis fitted with engines, for the motor vehicles falling within heading No 87.01, 87.02 or 87.03
87.05	Bodies (including cabs), for the motor vehicles falling within heading No 87.01, 87.02 or 87.03
87.06	Parts and accessories of the motor vehicles falling within heading No 87.01, 87.02 or 87.03
87.07	Works trucks, mechanically propelled, of the types used in factories, warehouses, dock areas or airports for short distance transport or handling of goods (for example, platform trucks, fork-lift trucks and straddle carriers); tractors of the type used on railway station platforms; parts of the foregoing vehicles
87.09	Motor-cycles, auto-cycles and cycles fitted with an auxiliary motor, with or without side-cars; side-cars of all kinds
87.10	Cycles (including delivery tricycles), not motorized
87.12	Parts and accessories of articles falling within heading No 87.09, 87.10 or 87.11
87.13	Baby carriages and parts thereof
87.14	Other vehicles (including trailers), not mechanically propelled, and parts thereof
90.24 B II	Thermostats
ex 90.26	Water meters only

LIST II

List of products subject to a deposit of 80 % on importation

CCT Heading number	Description
01.01 A	Horses
02.05	Pig fat free of lean meat and poultry fat, not rendered or solvent-extracted), fresh, chilled, frozen, salted, in brine, dried or smoked
02.06	Meat and edible meat offals (except poultry liver), salted, in brine, dried or smoked
03.02 B except I	Smoked fish, whether or not cooked before or during the smoking process, except herring
03.03 except B IV	Crustaceans and certain molluscs, except squid, cuttle-fish, etc.
04.06	Natural honey
04.07	Edible products of animal origin, not elsewhere specified or included
05.01	Human hair, unworked, whether or not washed or scoured; waste of human hair
05.04	Guts, bladders and stomachs of animals (other than fish), whole and pieces thereof
05.05	Fish waste
05.07	Skins and other parts of birds, with their feathers or down, feathers and parts of feathers (whether or not with trimmed edges) and down not further worked than cleaned, disinfected or treated for preservation; powder and waste of feathers or parts of feathers
05.08	Bones and horn-cores, unworked, defatted, simply prepared (but not cut to shape), treated with acid or degelatinized; powder and waste of these products
05.09	Ivory, tortoise-shell, horns, antlers, hooves, nails, claws and beaks, unworked or simply prepared but not cut to shape, and waste and powder of these products; whalebone and the like, unworked or simply prepared but not cut to shape, and hair and waste of these products
05.12	Coral and similar substances, unworked or simply prepared but not otherwise worked; shells, unworked or simply prepared but not cut to shape; powder and waste of shells
05.14	Ambergris, castoreum, civet and musk; cantharides; bile, whether or not dried; animal products, fresh, chilled or frozen, or otherwise provisionally preserved, of a kind used in the preparation of pharmaceutical products
06.03	Cut flowers and flower buds of a kind suitable for bouquets or for ornamental purposes, fresh, dried, dyed, bleached, impregnated or otherwise prepared
06.04	Foliage, branches and other parts (other than flowers or buds) of trees, shrubs, bushes and other plants, and mosses, lichens and grasses, being goods of a kind suitable for bouquets or ornamental purposes, fresh, dried, dyed, bleached, impregnated or otherwise prepared
07.01 except A I	Vegetables, fresh or chilled, except seed potatoes
07.02	Vegetables (whether or not cooked), preserved by freezing

CCT Heading number	Description
07.03	Vegetables provisionally preserved in brine, in sulphur water or in other preservative solutions, but not specially prepared for immediate consumption
07.04	Dried, dehydrated or evaporated vegetables, whole, cut, sliced, broken or in powder, but not further prepared
08.01	Dates, bananas, coconuts, Brazil nuts, cashew nuts, pineapples, avocados, mangoes, guavas and mangosteens, fresh or dried, shelled or not
08.02	Citrus fruit, fresh or dried
08.03	Figs, fresh or dried
08.04	Grapes, fresh or dried
08.05	Nuts other than those falling within heading No 08.01, fresh or dried, shelled or not
08.06	Apples, pears and quinces, fresh
08.07	Stone fruit, fresh
08.08	Berries, fresh
08.09	Other fruit, fresh
08.10	Fruit (whether or not cooked), preserved by freezing, not containing added sugar
08.11	Fruit provisionally preserved (for example, by sulphur dioxide gas, in brine, in sulphur water or in other preservative solutions), but unsuitable in that state for immediate consumption
08.12	Fruit, dried, other than that falling within heading No 08.01, 08.02, 08.03, 08.04 or 08.05
08.13	Peel of melons and citrus fruit, fresh, frozen, dried or provisionally preserved in brine, in sulphur water or in other preservative solutions
09.01 A II	Roasted coffee, whether or not freed of caffeine
16.01	Sausages and the like, of meat, meat offal or animal blood
16.02	Other prepared or preserved meat or meat offal
16.03	Meat extracts, meat juices and fish extracts, in immediate packings
16.04	Prepared or preserved fish, including caviar and caviar substitutes
16.05 A and ex B	Prepared crustaceans and molluscs, crabs, crawfish, lobsters, shrimps and prawns, except squid, octopus and cuttle-fish
17.04	Sugar confectionery, not containing cocoa
18.06	Chocolate and other food preparations containing cocoa
19.03	Macaroni, spaghetti and similar products
19.04	Tapioca and sago; tapioca and sago substitutes obtained from potato or other starches
19.05	Prepared foods obtained by the swelling or roasting of cereals or cereal products (puffed rice, cornflakes and similar products)
19.07 except C	Bread, ships' biscuits and other ordinary bakers' wares, not containing added sugar, honey, eggs, fats, cheese or fruit, except communion wafers, cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products

CCT Heading number	Description
19.08	Pastry, biscuits, cakes and other fine bakers' wares, whether or not containing cocoa in any proportion
20.01	Vegetables and fruit, prepared or preserved by vinegar or acetic acid, with or without sugar, whether or not containing salt, spices or mustard
20.02	Vegetables prepared or preserved otherwise than by vinegar or acetic acid
20.03	Fruit preserved by freezing, containing added sugar
20.04	Fruit, fruit-peel and parts of plants, preserved by sugar (drained, glacé or crystallized)
20.05	Jams, fruit jellies, marmalades, fruit purée and fruit pastes, being cooked preparations, whether or not containing added sugar
20.06	Fruit otherwise prepared or preserved, whether or not containing added sugar or spirit
20.07	Fruit juices (including grape must) and vegetable juices, whether or not containing added sugar, but unfermented and not containing spirit
21.02	Extracts, essences or concentrates, of coffee, tea or maté and preparations with a basis of those extracts, essences or concentrates; roasted chicory and other roasted coffee substitutes and extracts, essences and concentrates thereof
21.03	Mustard flour and prepared mustard
21.04	Sauces: mixed condiments and mixed seasonings
21.05	Soups and broths, in liquid, solid or powder form; homogenized composite food preparations
21.06	Natural yeasts (active or inactive); prepared baking powders
21.07 except D II b) G I a) 1) G I c) 1) G I e) 1) and G V b	Food preparations not elsewhere specified or included, except yoghurt containing no milkfats or containing less than 1,5 % by weight of such fats, others not specified containing no starch or containing less than 5 % by weight of starch, containing 15 % or more but less than 30 % by weight of sucrose, containing no starch or containing less than 5 % by weight of starch, containing 50 % or more but less than 85 % by weight of sucrose, containing no starch or containing less than 5 % by weight of starch and containing 18 % or more but less than 26 % by weight of milkfats
22.01	Waters, including spa waters and aerated waters; ice and snow
22.02 A	Lemonade, flavoured spa waters and flavoured aerated waters, and other non-alcoholic beverages, not including fruit and vegetable juices falling within heading No 20.07 which contain no milks or milkfats
22.03	Beer made from malt
22.04	Grape must, in fermentation or with fermentation arrested otherwise than by the addition of alcohol
22.05	Wine of fresh grapes, grape must with fermentation arrested by the addition of alcohol
22.06	Vermouths, and other wines of fresh grapes flavoured with aromatic extracts
22.07	Other fermented beverages (for example, cider, perry and mead)
22.08	Ethyl alcohol or neutral spirits, undenatured, of an alcoholic strength of 80 % vol or higher; denatured spirits (including ethyl alcohol and neutral spirits) of any strength
22.09	Spirits (other than those of heading No 22.08); liqueurs and other spirituous beverages; compound alcoholic preparations (known as 'concentrated extracts') for the manufacture of beverages

CCT Heading number	Description
22.10	Vinegar and substitutes for vinegar
ex 23.07 C	Dog and cat food
24.02	Manufactured tobacco; tobacco extract and essences
25.01 A II	Common salt and pure sodium chloride
25.15	Marble, travertine, ecaussine and other calcareous monumental and building stone of an apparent density of 2 500 kg/m ³ or more and alabaster, including such stone not further worked than roughly split, roughly squared or squared by sawing
ex 27.16	Only asphalt mixtures with asphalt solutions of 60 % or more and emulsions and suspensions of asphalt in water, whether or not mixed with inorganic substances

Residents' purchases of securities issued by the European Communities and by the European Investment Bank shall, however, continue to be governed by the provisions of Article 53 of the Accession Treaty.

COMMISSION DECISION

of 6 December 1985

amending Decision 85/340/EEC as regards the third countries whose imports may be subject to intra-Community surveillance

(Only the German, Greek, English, French, Italian and Dutch texts are authentic)

(85/595/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS DECISION:

Article 1

Having regard to the Treaty establishing the European Economic Community, and in particular the first paragraph of Article 115 thereof,

The reference to Egypt amongst the countries of origin of category 1 textile products is deleted from Annex 7 A of Decision 85/340/EEC.

Article 2

Having regard to Commission Decision 85/340/EEC of 27 June 1985 authorizing certain Member States to apply intra-Community surveillance to imports of products originating in third countries which have been put into free circulation in the Community and which may be the subject of protective measures under Article 115 of the Treaty ⁽¹⁾,

This Decision is addressed to the Kingdom of Belgium, the Federal Republic of Germany, the French Republic, the Hellenic Republic, Ireland, the Italian Republic, the Grand Duchy of Luxembourg, the Kingdom of the Netherlands and the United Kingdom.

Done at Brussels, 6 December 1985.

Whereas by error in Annex 7 A of the said Decision Egypt has been listed amongst the countries of origin of category 1 textile products; whereas this Annex should be amended by deleting the reference to 'Egypt',

COMMISSION DECISION

of 11 December 1985

correcting Decision 82/462/EEC on the replacement of the Annex to Council Directive 75/270/EEC concerning the Community list of less-favoured areas within the meaning of Council Directive 75/268/EEC

(Only the German text is authentic)

(85/596/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 75/268/EEC of 28 April 1975 on mountain and hill farming and farming in certain less-favoured areas ⁽¹⁾, as last amended by Regulation (EEC) No 797/75 ⁽²⁾, and in particular Article 2 (3) thereof,

Whereas Commission Decision 82/462/EEC ⁽³⁾ replaced the Community list of areas less-favoured for farming in Germany; whereas, as a result of an error, one commune was not fully included in the list; whereas the Decision concerned should be corrected,

HAS ADOPTED THIS DECISION:

Article 1

1. In the Annex to Decision 82/462/EEC under Gebiet 25, 1. Berggebiet; 327 Landkreis Tuttlingen:

— insert '056 Rietheim-Weilheim' under the heading 'Gemeinden',

— delete '056 Rietheim-Weilheim' from the heading 'Gemeinden mit Teilflächen'.

2. In the Annex to Decision 82/462/EEC, delete '056 Rietheim-Weilheim' from the heading 'Gemeinden mit Teilflächen' in Gebiet 25, 2. Benachteiligte Agrarzone, 327 Landkreis Tuttlingen.

COMMISSION DECISION

of 11 December 1985

withholding approval from the Bavarian market structure programme for Franconian wine
pursuant to Council Regulation (EEC) No 355/77

(Only the German text is authentic)

(85/597/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No 355/77 of
15 February 1977 on common measures to improve the
conditions under which agricultural and fishery products are
processed and marketed ⁽¹⁾, as last amended by Regulation
(EEC) No 1247/85 ⁽²⁾, and in particular Article 5
thereof,

Whereas, on 15 May 1984, pursuant to Regulation (EEC)
No 355/77 the Government of the Federal Republic of
Germany forwarded the Bavarian market structure
programme for Franconian wine and provided additional
information on 12 July 1985;

Whereas the said programme relates to the provision of new
capacities for the reception and processing of grapes and for
the storage of wine by wine producers' organizations with a
view to bringing existing capacities into line with increased
demand as a result of new members joining these
organizations and the increase in production by the
organizations themselves and with a view to stabilizing
prices; whereas it therefore constitutes a programme within
the meaning of Article 2 of Regulation (EEC) No
355/77;

Whereas a Community financial contribution towards the
provision of new capacities for the reception and processing
of grapes would be contrary to the common agricultural
policy's aim of restoring balance to the wine market;

Whereas the production aims pursued by the producers'
organizations covered by the programme do not correspond

to the aims of the common agricultural policy in the wine
sector;

Whereas, moreover, the programme does not provide
evidence for any additional demand for storage capacity
which would justify a Community contribution;

Whereas the measures provided for in this Decision are in
accordance with the opinion of the Standing Committee on
Agricultural Structure,

HAS ADOPTED THIS DECISION:

Article 1

Approval is hereby withheld from the Bavarian market
structure programme for Franconian wine which the
Government of the Federal Republic of Germany forwarded
on 15 May 1984 pursuant to Regulation (EEC) No 355/77
and concerning which additional information was provided
on 12 July 1985.

COMMISSION DECISION

of 12 December 1985

on the implementation of the reform of agricultural structures in Belgium pursuant to Council
Directive 75/268/EEC

(Only the Dutch and French texts are authentic)

(85/598/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Directive 75/268/EEC of 28 April
1975 on mountain and hill farming and farming in certain
less-favoured areas ⁽¹⁾, as last amended by Regulation (EEC)
No 797/85 ⁽²⁾, and in particular Article 13 thereof,

Whereas the Belgium Government notified, pursuant to
Article 13 of Directive 75/268/EEC in conjunction with
Article 17 (4) of Council Directive 72/159/EEC of 17 April
1972 on the modernization of farms ⁽³⁾, as last amended by
Regulation (EEC) No 797/85, the ministerial order of
20 August 1985 granting farmers in less-favoured areas an
annual compensatory allowance to offset permanent natural
handicaps;

Whereas under Article 13 of Directive 75/268/EEC in
conjunction with Article 18 (3) of Directive 72/159/EEC,
the Commission has to decide whether, having regard to the
provisions notified, the existing provisions in Belgium for the
implementation of Directive 75/268/EEC continue to
satisfy the conditions for financial contribution by the
Community to common measures within the meaning of
Article 13 of Directive 75/268/EEC;

Whereas the abovementioned ministerial order satisfies the
conditions and objectives of Directive 75/268/EEC;

Whereas a revision of the application form for the
compensatory allowance is indicated and Belgium has agreed
to follow this up in the year;

Whereas the EAGGF Committee has been consulted on the
financial aspects;

Whereas the measures provided for in this Decision are in
accordance with the opinion of the Standing Committee on
Agricultural Structure,

HAS ADOPTED THIS DECISION:

Article 1

The provisions existing in Belgium for the implementation of
Directive 75/268/EEC continue, having regard to the
ministerial order of 20 August 1985 granting farmers in
less-favoured areas an annual compensatory allowance to
offset permanent natural handicaps, to satisfy the conditions
for financial contribution by the Community to common
measures within the meaning of Article 13 of Directive
75/268/EEC.

COMMISSION DECISION

of 12 December 1985

adjusting the boundaries of less-favoured areas in France within the meaning of Council Directive 75/268/EEC

(Only the French text is authentic)

(85/599/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 75/268/EEC of 28 April 1975 on mountain and hill farming and farming in certain less-favoured areas ⁽¹⁾, as last amended by Regulation (EEC) No 797/85 ⁽²⁾, and in particular Article 2 (3) thereof,Whereas Council Directive 75/271/EEC of 28 April 1975 concerning the Community list of less-favoured farming areas within the meaning of Directive 75/268/EEC (France) ⁽³⁾, as last amended by the Decision 85/138/EEC ⁽⁴⁾, identifies the areas in France included in the Community list of less-favoured areas within the meaning of Article 3 (3), (4) and (5) of Directive 75/268/EEC;

Whereas the French Government has applied, pursuant to Article 2 (1) of Directive 75/268/EEC, for an adjustment of the boundaries of the less-favoured areas listed in the Annex to Directive 75/271/EEC;

Whereas the transfer of certain areas already listed as areas within the meaning of Article 3 (4) of Directive 75/268/EEC to the list of the areas within the meaning of Article 3 (3) of the same directive is in accordance with the indices and the values, including the criteria for exceptions, used in Directive 75/271/EEC to define mountain areas;

Whereas the totality of the adjustments requested by the French Government pursuant to Article 2 (3) of Directive

75/268/EEC do not lead to an increase of the utilized agricultural areas of all the listed areas and consequently have no effect on the limit fixed in the said Article;

Whereas the EAGGF Committee has been consulted on the financial aspects;

Whereas the measures provided for in this Decision are in accordance with the Standing Committee on Agricultural Structure,

HAS ADOPTED THIS DECISION

Article 1

With effect from the winter feeding period 1985 to 1986, the list of less-favoured areas in France contained in the Annex to Directive 75/271/EEC is hereby amended as shown in the Annex to this Decision.

COMMISSION DECISION

of 13 December 1985

approving an amendment to the programme on the slaughter and processing of pigs in the Netherlands pursuant to Council Regulation (EEC) No 355/77

(Only the Dutch text is authentic)

(85/604/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 355/77 of 15 February 1977 on common measures to improve the conditions under which agricultural and fishery products are processed and marketed ⁽¹⁾, as last amended by Regulation (EEC) No 1247/85 ⁽²⁾, and in particular Article 5 thereof,

Whereas on 23 January 1985 the Netherlands Government notified a second amendment to the programme on the slaughter and processing of pigs approved by Commission Decision 80/674/EEC ⁽³⁾, as first amended by Decision 83/599/EEC ⁽⁴⁾; whereas it provided further information on 14 May and 4 June 1985;

Whereas the implementation of the original programme has made a marked contribution towards enlarging slaughterhouses, which are getting closer to their optimum size; whereas investment in chilling capacity has increased appreciably and no longer constitutes the weak point in the chain of operations linked to slaughter; whereas on the other hand the need for certain other investments, concerning the environment, can be allowed for;

Whereas when the amended programme is being implemented, therefore, only projects for modernizing slaughterhouses with a technical slaughter capacity of at least 200 000 pigs per year and whose average rate of use of slaughter capacity three years after the completion of the work is at least 60 % of their technical capacity calculated over a period of a working year of 1 800 hours will be considered for Community financing; whereas investment in the cutting of meat linked with slaughter will be permitted; whereas projects to increase chilling capacity may no longer

be subsidized; whereas on the other hand, investment in the environment such as equipment to purify waste water and to control pollution caused by noise and odours and investment in energy saving may now be considered;

Whereas the purpose of this amendment is to update and prolong the programme until 1990; whereas it meets the objectives and conditions of Regulation (EEC) No 355/77;

Whereas the Standing Committee on Agricultural Structure has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS DECISION:

Article 1

The amendment to the programme communicated by the Netherlands Government on 23 January 1985 and supplemented on 14 May and 4 June 1985 on the slaughter and processing of pigs pursuant to Regulation (EEC) No 355/77 is hereby approved.

COMMISSION DECISION

of 13 December 1985

approving a programme relating to the slaughter and processing of calves in the Netherlands in accordance with Council Regulation (EEC) No 355/77

(Only the Dutch text is authentic)

(85/605/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 355/77 of 15 February 1977 on common measures to improve the conditions under which agricultural products and fishery products are processed and marketed ⁽¹⁾, as last amended by Regulation (EEC) No 1247/85 ⁽²⁾, and in particular Article 5 thereof,

Whereas, on 21 January 1985, the Netherlands Government notified a programme relating to the slaughter and processing of calves and, on 14 May and 4 June 1985, provided additional details;

Whereas the said programme relates to expenditure on:

- the modernization and rationalization of existing slaughterhouses,
- the modernization of cold-storage capacities without increasing such capacities, and the reduction of losses due to cold storage,
- the cutting of meat on premises adjacent to slaughterhouses,
- environmental improvement and energy-saving schemes;

Whereas, at present, only large slaughterhouses are competitive and whereas, therefore, in order to implement this programme effectively, consideration for Community financing will be given only to projects for the modernization and restructuring of slaughterhouses having a technical slaughtering capacity of at least 10 000 bovine animals per year and where the average utilization of slaughtering capacity, three years after the works have been completed, will reach a minimum of 60 % of the technical capacity on the basis of a working year of 1 800 hours; whereas expenditure on the cutting of meat at the place of slaughter is admissible; whereas projects to increase cold-storage capacity may not be subsidized; whereas expenditure on environmental improvement and energy-saving schemes may be taken into consideration;

Whereas the said programme aims to rationalize the slaughter and processing of calves by modernizing and restructuring large and medium-sized slaughterhouses; whereas this measure raises the level of utilization of slaughterhouses, reduces unit production costs and thus stabilizes producers' incomes; whereas it therefore constitutes a programme within the meaning of Article 2 of Regulation (EEC) No 355/77;

Whereas the programme contains a sufficient number of the details referred to in Article 3 of Regulation (EEC) No 355/77, showing that the objectives laid down in Article 1 of the said Regulation can be achieved in respect of veal production; whereas the scheduled time for implementation of the programme does not exceed the limit laid down in Article 3 (1) (g) of the Regulation;

Whereas the measure provided for in this Decision is in accordance with the opinion of the Standing Committee on Agricultural Structure,

HAS ADOPTED THIS DECISION:

Article 1

The programme relating to the slaughter and processing of calves, communicated by the Government of the Netherlands on 21 January 1985 and supplemented on 14 May and 4 June 1985, in accordance with Regulation (EEC) No 355/77, is hereby approved.

COMMISSION DECISION

of 13 December 1985

on the list of establishments in Spain approved for the purpose of importing fresh meat into the Community

(85/606/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 72/462/EEC of 12 December 1972 on health and veterinary inspection problems upon importation of bovine animals and swine and fresh meat from third countries ⁽¹⁾, as last amended by Directive 83/91/EEC ⁽²⁾, and in particular Articles 4 (1) and 18 (1) thereof,

Whereas establishments in third countries cannot be authorized to export fresh meat to the Community unless they satisfy the general and special conditions laid down in Directive 72/462/EEC;

Whereas on the basis of a first inspection no establishments were judged satisfactory and whereas Commission Decision 84/327/EEC ⁽³⁾ prohibited Member States, on a Community basis, from importing fresh meat from establishments in Spain, while still allowing those Member States whose national legislation so permitted the possibility of not abruptly interrupting existing trade flows with the establishments proposed by the Spanish authorities, for a period of seven months;

Whereas a further inspection carried out pursuant to Article 5 of Directive 72/462/EEC and Article 3 (1) of Commission Decision 83/196/EEC of 8 April 1983 concerning the on-the-spot inspections to be carried out in respect of the importation of bovine animals and swine and fresh meat from non-member countries ⁽⁴⁾ has shown that the standard of hygiene in one establishment has been raised and can thus be regarded as satisfactory;

Whereas this establishment can in these circumstances be included in a list of establishments authorized to export to the Community;

Whereas, therefore, Decision 84/327/EEC must be repealed;

Whereas it should be recalled that imports of fresh meat are also subject to other Community veterinary legislation, particularly as regards animal health protection requirements;

Whereas import of fresh meat from the establishment appearing in the Annex remains subject to provisions laid down elsewhere and to the general provisions of the Treaty; whereas in particular, import from third countries and re-export to other Member States of certain categories of meat, such as meat containing residues of certain substances which are not yet covered by harmonized Community rules, remain subject to the health legislation of the importing Member State, while respecting the general provisions of the Treaty;

Whereas the provisions of Directive 72/462/EEC apply to imports of fresh meat from Spain until the entry into force of the Treaty of Accession of Spain and Portugal;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

Article 1

1. The establishment in Spain appearing in the Annex is hereby approved for the import of fresh meat into the Community pursuant to the said Annex.

2. Imports from the establishment referred to in paragraph 1 shall remain subject to the Community veterinary provisions laid down elsewhere, and, in particular those concerning animal health protection requirements.

Article 2

Member States shall prohibit imports of fresh meat coming from establishments other than that appearing in the Annex.

Article 3

COMMISSION DECISION

of 13 December 1985

repealing Decisions 79/543/EEC and 79/559/EEC in respect of veterinary legislation
following the accession of Spain

(85/607/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS DECISION:

Having regard to the Treaty establishing the European Economic Community,

Article 1

Having regard to the Act of Accession of Spain and Portugal, and in particular Article 396 thereof,

Decisions 79/543/EEC and 79/559/EEC are hereby repealed with effect from 1 March 1986, subject to the entry into force of the Treaty of Accession of Spain and Portugal.

Whereas the fact that Spain is no longer a third country carries certain consequences, in particular as regards Commission Decision 79/543/EEC of 2 May 1979 concerning animal health conditions and veterinary certification for imports of fresh meat from Spain ⁽¹⁾, and Commission Decision 79/559/EEC of 2 May 1979 supplementing, by the addition of Spain, the list of third countries from which Member States authorize imports of bovine animals, swine and fresh meat ⁽²⁾;

Article 2

This Decision is addressed to the Member States.

Whereas, pursuant to Article 2 (3) of the Treaty of Accession, the Community institutions may adopt before accession the measures referred to in Article 396 of the Act, such measures entering into force subject to and on the date of the entry into force of that Treaty,

Done at Brussels, 13 December 1985.

COMMISSION DECISION

of 13 December 1985

amending, because of the accession of Spain and Portugal, Decision 77/144/EEC laying down the standard code and rules governing the transcription into a machine-readable form of the data of the surveys of plantations of certain species of fruit trees and laying down the boundaries of the production areas for these surveys

(85/608/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS DECISION: .

Having regard to the Treaty establishing the European Economic Community,

Article 1

Having regard to the Act of Accession of Spain and Portugal, and in particular Article 396 thereof,

Subject to the entry into force of the Treaty of Accession of Spain and Portugal, Annex I 'Detailed provisions' and Annex IV of Decision 77/144/EEC shall be replaced by Annex I to this Decision.

Having regard to Council Directive 76/625/EEC of 20 July 1976 concerning the statistical surveys to be carried out by the Member States in order to determine the production potential of plantations of certain species of fruit trees ⁽¹⁾, as last amended by Council Directive 81/1015/EEC ⁽²⁾, and in particular Article 4 (2) and (4) thereof,

Article 2

Whereas, because of the accession of Spain and Portugal, Commission Decision 77/144/EEC ⁽³⁾, as last amended by Decision 81/433/EEC ⁽⁴⁾, should be amended;

This Decision is addressed to the Member States.

Whereas, pursuant to Article 2 (3) of the Treaty of Accession the institutions of the Community may adopt before accession the measures referred to in Article 396 of the Act, such measures entering into force subject to and on the date of the entry into force of that Treaty,
