COMMISSION REGULATION (EC) No 1161/2001
of 14 June 2001
on the issuing of export licences for wine-sector products

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Commission Regulation (EC) No 883/2001 of 24 April 2001, laying down detailed rules for implementing Council Regulation (EC) No 1493/1999 as regards trade with third countries in products in the wine sector ⁽¹⁾, and in particular Article 9(3) thereof,

Whereas:

- (1) Article 63(7) of Council Regulation (EC) No 1493/1999 of 17 May 1999 on the common organisation of the market in wine ⁽²⁾ limits the grant of export refunds for wine-sector products to the volumes and expenditure contained in the Agreement on Agriculture concluded during the Uruguay Round multilateral trade negotiations.
- (2) Article 9 of Regulation (EC) No 883/2001 lays down the conditions under which the Commission may take specific measures to prevent an overrun of the quantity laid down or the budget available under the said Agreement.
- (3) On the basis of information on export licence applications available to the Commission on 13 June 2001, the quantity still available for the period until 30 June 2001, for zones (1) Africa, (3) eastern Europe and (4) western Europe, referred to in Article 9(5) of Regulation (EC) No

883/2001, could be exceeded unless the issue of export licences with advance fixing of the refund is restricted. Therefore, a single percentage for the acceptance of applications submitted from 6 to 12 June 2001 should be applied and the submission of applications and the issue of licences suspended until 30 June 2001,

HAS ADOPTED THIS REGULATION:

Article 1

1. Export licences with advance fixing of the refund for wine-sector products for which applications are submitted from 6 to 12 June 2001 under Regulation (EC) No 883/2001 shall be issued for 48,80 % of the quantities requested for zone (1) Africa and for 48,80 % of the quantities requested for zone (3) eastern Europe.
2. The issue of export licences for wine-sector products referred to in paragraph 1 for which applications are submitted from 13 June 2001 and the submission of export licence applications from 15 June 2001 for zones (1) Africa, (3) eastern Europe and (4) western Europe shall be suspended until 30 June 2001.

COMMISSION REGULATION (EC) No 1162/2001**of 14 June 2001****establishing measures for the recovery of the stock of hake in ICES sub-areas III, IV, V, VI and VII and ICES divisions VIII a, b, d, e and associated conditions for the control of activities of fishing vessels**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 3760/92 of 20 December 1992 establishing a Community system for fisheries and aquaculture⁽¹⁾, as last amended by Regulation (EC) No 1181/98⁽²⁾, and in particular Article 15(1) thereof,

Whereas:

- (1) In November 2000, the International Council for the Exploration of the Sea indicated that the stock of hake in ICES sub-areas III, IV, V, VI and VII and ICES divisions VIII a, b, d, e is at serious risk of collapse.
- (2) The majority of this stock of hake inhabits ICES sub-areas V, VI and VII and ICES divisions VIII a, b, d, e.
- (3) At the Council meeting of 14 and 15 December 2000, the Commission and the Council noted the urgent requirement to establish a recovery plan for this stock of hake.
- (4) The immediate requirement is to reduce catches of juvenile hake by:
 - establishing a general increase in the mesh size of towed nets used to catch hake to which end it is necessary to derogate from conditions regarding mesh sizes of towed gears laid down in Annexes I and II to Council Regulation (EC) No 850/98 of 30 March 1998 for the conservation of fishery resources through technical measures for the protection of juveniles of marine organisms⁽³⁾ as last amended by Regulation 973/2001⁽⁴⁾,
 - establishing geographical areas in which juvenile hake occur in high abundance and specifying that fishing with towed nets may take place in these areas only if these nets are of high mesh size,
 - establishing additional conditions to ensure that capture of juvenile hake by beam trawls is reduced.
- (5) To provide information on catches of juvenile hake by some vessels targeting hake and by other vessels targeting Norway lobsters, observers should be placed on board vessels engaged in such activities, taking into account the level of fishing activity by each Member State fishing in the appropriate areas.

- (6) Control measures additional to those laid down in Council Regulation (EEC) No 2847/93 of 12 October 1993 establishing a control system applicable to the common fisheries policy⁽⁵⁾, as last amended by Regulation (EC) No 2846/98⁽⁶⁾, and specific control programmes defined according to Article 34c of the said Regulation are required to ensure compliance with the measures laid down in this Regulation.
- (7) Further conservation measures affecting fishing for Nephrops, which involves significant by-catches of hake, may be proposed in the light of recent scientific advice from ICES and the results of trials of more selective fishing gear that are currently being conducted.

HAS ADOPTED THIS REGULATION:

Article 1

This Regulation shall apply to fishing vessels operating within ICES sub-areas V and VI and ICES divisions VII b, c, f, g, h, j, k and ICES divisions VIII a, b, d, e.

Article 2

1. Notwithstanding the conditions laid down in Article 4(4) and Article 15 of Regulation (EC) No 850/98, catches of hake (*Merluccius merluccius*) retained on board any vessel carrying any towed gear of mesh size 55 mm to 99 mm may not be in excess of 20 % of the weight of the total catch of marine organism retained on board.

2. The conditions of paragraph 1 shall not apply to any vessel of length less than 12 metres overall which returns to port within 24 hours of its most recent departure from port.

Article 3

It shall be prohibited to use:

- (a) except in ICES sub-areas V and VI, any cod-end and/or extension piece of any towed nets except beam trawls of mesh size greater than 55 mm which is not constructed of single-twine netting material of which no twine is of thickness greater than 6 mm or of double-twine netting material of which no twine is of thickness greater than 4 mm;

- (c) any demersal towed net which includes any individual quadrilateral mesh of which the bars of the mesh are not of approximately equal length;
- (d) any demersal towed net to which a cod-end of mesh size less than 100 mm is attached by any means other than being sewn into that part of the net anterior to the cod-end.

Article 4

It shall be prohibited to carry on board or deploy any beam trawl of mesh size equal to or greater than 70 mm unless the entire upper half of the anterior part of such a net consists of a panel of netting material of which no individual mesh is of mesh size less than 180 mm attached:

- directly to the headline, or
- to no more than three rows of netting material of any mesh size attached directly to the headline.

The panel of netting shall extend towards the posterior of the net for at least the number of meshes determined by:

- (a) dividing the length in metres of the beam of the net by 12;
- (b) multiplying the result obtained in (a) by 5,400;
- (c) dividing the result obtained in (b) by the mesh size, in millimetres, of the smallest mesh in the panel;
- (d) ignoring any decimal or other fractions in the result obtained in (c).

COMMISSION REGULATION (EC) No 1163/2001**of 14 June 2001****providing for compensation to producer organisations for tuna delivered to the processing industry between 1 July and 30 September 2000**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 104/2000 of 17 December 1999 on the common organisation of the market in fishery and aquaculture products ⁽¹⁾, as amended by Commission Regulation (EC) No 939/2001 ⁽²⁾, in particular Article 27(6) thereof,

Whereas:

(1) Until 31 December 2000, Article 18 of Council Regulation (EC) No 3759/92 of 17 December 1992 on the common organisation of the market in fishery and aquaculture products ⁽³⁾, which was repealed by Regulation (EC) No 104/2000, provided for a compensatory allowance to be granted under certain conditions to Community tuna producer organisations for quantities of tuna delivered to the processing industry during the calendar quarter for which prices had been recorded, where both the average quarterly selling price recorded on the Community market and the free-at-frontier price plus any applicable countervailing charge were lower than 91 % of the Community producer price for the product concerned.

(2) An examination of the situation on the Community market in the year 2000 has shown that between 1 July and 30 September of that year both the average quarterly selling price and the free-at-frontier price as referred to in Article 18 of Regulation (EEC) No 3759/92 for yellowfin tuna (*Thunnus albacares*) weighing not more than 10 kg each, bigeye tuna (*Thunnus obesus*) and skipjack or stripe-bellied bonito (*Euthynnus (Katsuwonus) pelamis*) were lower than 91 % of the Community producer price in force, as laid down in Council Regulation (EC) No 2748/1999 ⁽⁴⁾.

(3) The conditions laid down by Regulation (EEC) No 3759/92 should be retained in order to take a decision on granting the compensatory allowance on the products in question for the period from 1 July to 30 September 2000.

(4) Entitlement to the compensatory allowance should be determined on the basis of sales covered by invoices bearing a date falling within the quarter concerned and which have been used to calculate the average monthly selling price referred to in Article 7(1)(b) of Commission Regulation (EEC) No 2210/93 ⁽⁵⁾, which was repealed with effect from 1 January 2001 by Regulation (EC) No 80/2001 ⁽⁶⁾.

(5) The level of the compensation provided for in Article 18(2) of Regulation (EEC) No 3759/92 may not in any case exceed either the difference between the triggering threshold and the average selling price of the product in question on the Community market or a flat-rate amount equivalent to 12 % of that threshold.

(6) The quantities on which compensation as provided for in Article 18(1) of Regulation (EEC) No 3759/92 is payable may under no circumstances exceed the limits laid down in paragraph 3 of that Article for the quarter concerned.

(7) The quantities of yellowfin tuna (*Thunnus albacares*) weighing not more than 10 kg each, bigeye tuna (*Thunnus obesus*) and skipjack or stripe-bellied bonito (*Euthynnus (Katsuwonus) pelamis*) sold and delivered to the processing industry established in the customs territory of the Community were higher during the quarter concerned than the quantities sold and delivered during the same quarter of the three previous fishing years. Since those quantities exceed the limit set in Article 27(3) of Regulation (EC) No 104/2000, the total quantities of those products on which compensation is payable should therefore be limited.

(8) In accordance with the ceilings laid down in Article 18(4) of Regulation (EEC) No 3759/92 for the purpose of calculating the allowance to be granted to each producer organisation, the quantities on which the allowance is payable should be allocated among the producer organisations concerned in proportion to the quantities produced by them in the same quarter of the 1997, 1998 and 1999 fishing years.

(9) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fishery Products,

Whereas:

- (4) Examination of the figures supplied by Member States shows that the aggregate volume of the applications submitted by traditional importers for the products listed in Annex I to this Regulation exceeds the portion of the quota set aside for them. The applications must therefore be met by applying the uniform rate of reduction/increase shown in Annex I to the imports, expressed in volume terms, of each importer over the reference period.
- (5) Examination of the figures supplied by Member States shows that the aggregate volume of applications submitted by non-traditional importers for the products listed in Annex II to this Regulation exceeds the portion of the quota set aside for them. - (2) The Commission has received from the Member States under Article 5 of Regulation (EC) No 650/2001 particulars of the numbers and aggregate volume of import licence applications submitted and the total volume imported by traditional importers in 1998 or 1999, the reference year.

Where the use of this quantitative criterion would entail allocating an amount greater than that applied for, the quantity allocated shall be limited to that specified in the application.

- (3) The Commission is now able, on the basis of that information, to establish uniform quantitative criteria by which the competent national authorities may satisfy licence applications submitted by importers in the

Article 2

COMMISSION REGULATION (EC) No 1167/2001
of 14 June 2001
fixing the export refunds on milk and milk products

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1255/1999 of 17 May 1999 on the common organisation of the market in milk and milk products ⁽¹⁾, as last amended by Regulation (EC) No 1670/2000 ⁽²⁾, and in particular Article 31(3) thereof,

Whereas:

(1) Article 31 of Regulation (EC) No 1255/1999 provides that the difference between prices in international trade for the products listed in Article 1 of that Regulation and prices for those products within the Community may be covered by an export refund within the limits resulting from agreements concluded in accordance with Article 300 of the Treaty.

(2) Regulation (EC) No 1255/1999 provides that when the refunds on the products listed in Article 1 of the above-mentioned Regulation, exported in the natural state, are being fixed, account must be taken of:

- the existing situation and the future trend with regard to prices and availabilities of milk and milk products on the Community market and prices for milk and milk products in international trade,
- marketing costs and the most favourable transport charges from Community markets to ports or other points of export in the Community, as well as costs incurred in placing the goods on the market of the country of destination,
- the aims of the common organisation of the market in milk and milk products which are to ensure equilibrium and the natural development of prices and trade on this market,
- the limits resulting from agreements concluded in accordance with Article 300 of the Treaty, and
- the need to avoid disturbances on the Community market, and
- the economic aspect of the proposed exports.

(3) Article 31(5) of Regulation (EC) No 1255/1999 provides that when prices within the Community are being determined account should be taken of the ruling prices which are most favourable for exportation, and that

when prices in international trade are being determined particular account should be taken of:

- (a) prices ruling on third country markets;
- (b) the most favourable prices in third countries of destination for third country imports;
- (c) producer prices recorded in exporting third countries, account being taken, where appropriate, of subsidies granted by those countries; and
- (d) free-at-Community-frontier offer prices.

(4) Article 31(3) of Regulation (EC) No 1255/1999 provides that the world market situation or the specific requirements of certain markets may make it necessary to vary the refund on the products listed in Article 1 of the abovementioned Regulation according to destination.

(5) Article 31(3) of Regulation (EC) No 1255/1999 provides that the list of products on which export refunds are granted and the amount of such refunds should be fixed at least once every four weeks; the amount of the refund may, however, remain at the same level for more than four weeks.

(6) In accordance with Article 16 of Commission Regulation (EC) No 174/1999 of 26 January 1999 on specific detailed rules for the application of Council Regulation (EC) No 804/68 as regards export licences and export refunds on milk and milk products ⁽³⁾, as last amended by Regulation (EC) No 806/2001 ⁽⁴⁾; the refund granted for milk products containing added sugar is equal to the sum of the two components; one is intended to take account of the quantity of milk products and is calculated by multiplying the basic amount by the milk products content in the product concerned; the other is intended to take account of the quantity of added sucrose and is calculated by multiplying the sucrose content of the entire product by the basic amount of the refund valid on the day of exportation for the products listed in Article 1(1)(d) of Council Regulation (EC) No 2038/1999 of 13 September 1999 on the common organisation of the markets in the sugar sector ⁽⁵⁾, however, this second component is applied only if the added sucrose has been produced using sugar beet or cane harvested in the Community.

- (7) Commission Regulation (EEC) No 896/84 ⁽¹⁾, as last amended by Regulation (EEC) No 222/88 ⁽²⁾, laid down additional provisions concerning the granting of refunds on the change from one milk year to another; those provisions provide for the possibility of varying refunds according to the date of manufacture of the products.
- (8) For the calculation of the refund for processed cheese provision must be made where casein or caseinates are added for that quantity not to be taken into account.
- (9) It follows from applying the rules set out above to the present situation on the market in milk and in particular to quotations or prices for milk products within the Community and on the world market that the refund should be as set out in the Annex to this Regulation.

(³) In the case of cheese presented in containers which also contain conserving liquid, in particular brine, the aid is granted on the net weight, the weight of the liquid being deducted.

(¹³) Where the product contains non-lactic matter, the non-lactic matter is not to be taken into account for the purposes of calculating the aid.

When completing customs formalities, the applicant must state on the declaration provided for that purpose whether or not non-lactic matter has been added and, where this is the case, the maximum content by weight of the non-lactic matter added per 100 kilograms of finished product.'
