COMMISSION DIRECTIVE 2001/78/EC

of 13 September 2001

amending Annex IV to Council Directive 93/36/EEC, Annexes IV, V and VI to Council Directive 93/37/EEC, Annexes III and IV to Council Directive 92/50/EEC, as amended by Directive 97/52/EC, and Annexes XII to XV, XVII and XVIII to Council Directive 93/38/EEC, as amended by Directive 98/4/EC

(Directive on the use of standard forms in the publication of public contract notices)

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

93/36/EEC, Article 11(6) of Directive 93/37/EEC, Article 17(1) of Directive 92/50/EEC and Article 21(1) and (4), Article 22(2) and Article 24(1) of Directive 93/38/EEC.

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 92/50/EEC of 18 June 1992 relating to the coordination of procedures for the award of public service contracts ⁽¹⁾ as amended by Directive 97/52/EC ⁽²⁾, and in particular Article 22 thereof, Council Directive 93/36/EEC of 14 June 1993 coordinating procedures for the award of public supply contracts ⁽³⁾ as amended by Directive 97/52/EC, and in particular Article 14 thereof, Council Directive 93/37/EEC of 14 June 1993, concerning the coordination of procedures for the award of public works contracts ⁽⁴⁾ as amended by Directive 97/52/EC, and in particular Article 35(2) thereof and Council Directive 93/38/EEC of 14 June 1993, coordinating the procurement procedures of entities operating in the water, energy, transport and telecommunications sectors ⁽⁵⁾ as amended by Directive 98/4/EC ⁽⁶⁾, and in particular Article 39(2) and Article 40(2) and (3) thereof,

Whereas:

- (1) Directives 92/50/EEC, 93/36/EEC, 93/37/EEC and 93/38/EEC stipulate that contracts to which they apply must be published in the *Official Journal of the European Communities* and specify the information they must contain; these Directives also establish models in accordance with which notices must be drawn up; this obligation arises from article 9(4) of Directive

- (2) The Commission adopted a recommendation (91/561/EEC) on 24 October 1991 ⁽⁷⁾ and a communication on 30 December 1992 ⁽⁸⁾; the use of certain model notices for supplies and works contracts is therefore recommended. These models differ from the model notices in the annexes to the Directives.

- (3) The models laid down in the Directives now need to be modified in order to contribute to simplifying the implementation of the advertising rules while adapting them to the electronic means developed as part of the information system for public procurement (SIMAP), launched by the Commission in collaboration with the Member States. Moreover, the use of standard forms and the possible use of the common procurement vocabulary (CPV) will contribute to greater transparency in the market. For clarification purposes, it is suitable to replace the abovementioned annexes by the standard form.

- (4) The measures provided for in this Directive are in accordance with the opinions of both the Advisory Committee on Public Procurement and the Advisory Committee on Telecommunications Procurement,

ANNEX C
CONTRACT NOTICE - UTILITIES
EXCEPTIONS MADE TO THE USE OF EUROPEAN SPECIFICATIONS

Article 18(6) of directive 93/38/EEC

WORKS ☐
SUPPLIES ☐
SERVICES ☐

Derogation from the obligation to define technical specifications by reference to European specifications was made because:

(for the detailed text see the Directive)

It is technically impossible to establish satisfactorily that the product conforms to the European specifications; ☐

The application of the obligation would prejudice the application of Council Directive 86/361/EEC of 24 July 1986 on the initial stage of the mutual recognition of type approval for telecommunications terminal equipment, or of Council Decision 87/95/EEC of 22 December 1986 on standardisation in the field of information technology and telecommunications; ☐

Use of specifications would oblige the contracting entity to acquire supplies incompatible with equipment already in use or would entail disproportionate cost or disproportionate technical difficulty; ☐

The relevant European specification is inappropriate for the particular application or does not take account of technical developments which have come about since its adoption; ☐

The project is of a genuinely innovative nature for which use of European specifications would not be appropriate. ☐

- | | |
|--|--|

ANNEX II

CONTRACT AWARD NOTICE - UTILITIES

Exceptions made to the use of European specifications

Article 18(6) of Directive 93/38/EEC

WORKS ☐

SUPPLIES ☐

SERVICES ☐

Derogation from the obligation to define technical specifications by reference to European specifications was made because:

(For detailed text see the relevant article)

It is technically impossible to establish satisfactorily that the product conforms to the European specifications; ☐

The application of the obligation would prejudice the application of Council Directive 86/361/EEC of 24 July 1986 on the initial stage of the mutual recognition of type approval for telecommunications terminal equipment, or of Council Decision 87/95/EEC of 22 December 1986 on standardisation in the field of information technology and telecommunications; ☐

Use of specifications would oblige the contracting entity to acquire supplies incompatible with equipment already in use or would entail disproportionate cost or disproportionate technical difficulty.; ☐

The relevant European specification is inappropriate for the particular application or does not take account of technical developments which have come about since its adoption. ☐

The project is of a genuinely innovative nature for which use of European specifications would not be appropriate. ☐
