**COUNCIL REGULATION (EC) No 1177/2002
of 27 June 2002
concerning a temporary defensive mechanism to shipbuilding**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 87(3)(e), 89 and 133 thereof,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the Opinion of the European Parliament ⁽²⁾,

Whereas:

- (1) The European Commission and the Government of the Republic of Korea, hereinafter 'Korea', signed the Agreed Minutes relating to world shipbuilding on 22 June 2000, hereinafter 'the Agreed Minutes', with the aim of restoring fair and transparent competitive conditions. However, the commitments under the Agreed Minutes, notably the commitment of ensuring an effective price surveillance mechanism, have not been effectively implemented by the Korean side and therefore a satisfactory result has not been obtained.
- (2) Operating aid has not been effective in ensuring that the European shipbuilding industry is not injured by competition not respecting normal competitive conditions in the shipbuilding market. Accordingly, as follows from Article 3 of Council Regulation (EC) No 1540/98 of 29 June 1998 establishing new rules on aid to shipbuilding ⁽³⁾, contract-related operating aid to shipbuilding may not be granted in respect of contracts agreed as from 1 January 2001.
- (3) However, as an exceptional and temporary measure, and in order to assist Community shipyards in those segments that have suffered adverse effects in the form of material injury and serious prejudice caused by unfair Korean competition, a temporary defensive mechanism should be authorised for limited market segments and for a short and limited period only. Regulation (EC) No 1540/98 should apply *mutatis mutandis*.
- (4) The situation in the Community shipbuilding industry is heterogeneous. According to the Commission's Fourth and Fifth Reports on the Situation in World Shipbuilding, approximately half of compensated gross tonnage produced in Community shipyards concerns the market segments in which Community shipyards are in a strong position on the international market. However, in other segments, there is evidence that Community shipyards have suffered adverse effects in the form of material injury and serious prejudice caused by unfair Korean competition. Therefore, contract-related temporary support may be authorised in certain circumstances in those segments, namely container ships and product and chemical tankers.
- (5) Considering the exceptional development in the sector of LNG carriers, the Commission will continue to monitor this market. Contract-related temporary support may be authorised in this sector if the Commission confirms, on the basis of investigations covering the period of 2002, that the Community industry has suffered material injury and serious prejudice in this sector caused by unfair Korean practices to the same extent as has been found for container ships and product and chemical tankers.
- (6) Support of 6 % of contract value before aid may be authorised in order to effectively enable Community shipyards to overcome unfair Korean competition.
- (7) The temporary defensive mechanism should only be authorised after the Community initiates dispute settlement proceedings against Korea, by requesting consultations with Korea, in accordance with the World Trade Organisation's Understanding on the Rules and Procedures for the Settlement of Disputes and may no longer be authorised if these dispute settlement proceedings are resolved, or suspended on the grounds that the Community considers that the Agreed Minutes have been effectively implemented,

HAS ADOPTED THIS REGULATION:

Article 1

For the purposes of this Regulation, the relevant definitions listed in Article 1 of Regulation (EC) No 1540/98 shall apply. In addition, the following definitions shall apply:

- (a) 'container ships' shall mean ships designed with a single deck hull with an arrangement of holds to carry containers (standard or non-standard; refrigerated or non-refrigerated), whose holds are fitted with cell guides to facilitate the positioning of the containers, as may be some of the deck storage space. Other ships combining cargo carrying capacity for containers and other cargo are considered as container ships if the larger part of the cargo carrying capacity is dedicated to containers;
- (b) 'chemical tankers' shall mean ships designed with a single deck hull with an arrangement of integral and/or independent tanks suited to carry chemical products in liquid form. Chemical tankers are characterised by the ability to carry and handle several substances at the same time and the particular equipment of the tanks with coatings, reflecting the nature and hazard of the cargo carried;
- (c) 'product tankers' shall mean ships designed with a single deck hull with an arrangement of integral and/or independent tanks suited to carry refined petroleum products in liquid form;
- (d) 'LNG carriers' (Liquefied Natural Gas carriers) shall mean ships designed with a single deck hull with fixed integral and/or independent tanks suited to carry natural gas in liquid form.

Article 2

1. Subject to paragraphs 2 to 6, direct aid in support of contracts for the building of container ships, product and chemical tankers as well as LNG carriers shall be considered compatible with the common market when there has been competition for the contract from a Korean shipyard offering a lower price.

2. Direct aid in support of contracts for the building of LNG carriers may only be authorised under this Article for final contracts signed after the Commission gives notice in the *Official Journal of the European Communities* that it confirms, on the basis of investigations covering the period of 2002, that Community industry has suffered material injury and serious prejudice in this market segment caused by unfair Korean practices.

3. Aid under this Article may be authorised for shipbuilding contracts up to a maximum intensity of 6 % of contract value before aid.

4. This Regulation shall not apply in respect of any ship delivered more than three years from the date of signing of the final contract. The Commission may, however, grant an extension of the three-year delivery limit when this is found justified by the technical complexity of the individual shipbuilding project concerned or by delays resulting from unexpected disruptions of a substantial and defensible nature in the working programme of a yard due to exceptional circumstances, unforeseeable and external to the company.

5. The Commission will keep under review the market segments eligible for aid under paragraph 1, with regard to evidence clearly proving that a specific market segment within the Community has been directly injured by unfair and non-transparent competitive conditions.

6. Regulation (EC) No 1540/98 shall apply *mutatis mutandis*.

Article 3

Aid covered by Article 2 shall be subject to the provisions of Article 88 of the Treaty. The Commission shall adopt a decision in accordance with Regulation (EC) No 659/1999 of 22 March 1999 laying down detailed rules for the application of Article 88 ⁽¹⁾ of the EC Treaty ⁽²⁾.

Article 4

The Regulation shall be applied to final contracts signed from the entry into force of this Regulation until its expiry, with the exception of final contracts signed before the Community gives notice in the *Official Journal of the European Communities* that it has initiated dispute settlement proceedings against Korea by requesting consultations in accordance with the World Trade Organisation's Understanding on the Rules and Procedures for the Settlement of Disputes and final contracts signed one month or more after the Commission gives notice in the *Official Journal of the European Communities* that these dispute settlement proceedings are resolved, or suspended on the grounds that the Community considers that the Agreed Minutes have been effectively implemented.

Article 5

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Communities* and shall expire on 31 March 2004.

⁽¹⁾ The numbering of Articles in the Treaty establishing the European Community has been changed in the Treaty of Amsterdam.

⁽²⁾ OJ L 83, 27.3.1999, p. 1.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EC) No 1181/2002

of 1 July 2002

amending Annex I of Council Regulation (EEC) No 2377/90 laying down a Community procedure for the establishment of maximum residue limits of veterinary medicinal products in foodstuffs of animal origin

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2377/90 of 26 June 1990 laying down a Community procedure for the establishment of maximum residue limits of veterinary medicinal products in foodstuffs of animal origin ⁽¹⁾, as last amended by Commission Regulation (EC) No 869/2002 ⁽²⁾ and in particular Articles 6, 7 and 8 thereof,

Whereas:

- (1) In accordance with Regulation (EEC) No 2377/90, maximum residue limits must be established progressively for all pharmacologically active substances which are used within the Community in veterinary medicinal products intended for administration to food-producing animals.
- (2) Maximum residue limits should be established only after the examination within the Committee for Veterinary Medicinal Products of all the relevant information concerning the safety of residues of the substance concerned for the consumer of foodstuffs of animal origin and the impact of residues on the industrial processing of foodstuffs.
- (3) In establishing maximum residue limits for residues of veterinary medicinal products in foodstuffs of animal origin, it is necessary to specify the animal species in which residues may be present, the levels which may be present in each of the relevant meat tissues obtained from the treated animal (target tissue) and the nature of the residue which is relevant for the monitoring of residues (marker residue).
- (4) In view of the reduced availability of veterinary medicinal products for certain food-producing species ⁽³⁾, maximum residue limits may be established by methods of extrapolation from maximum residue limits set for other species on a strictly scientific basis.
- (5) For the control of residues, as provided for in appropriate Community legislation, maximum residue limits should usually be established for the target tissues of

liver or kidney. However, the liver and kidney are frequently removed from carcasses moving in international trade, and maximum residue limits should therefore also always be established for muscle or fat tissues.

- (6) In the case of veterinary medicinal products intended for use in laying birds, lactating animals or honey bees, maximum residue limits must also be established for eggs, milk or honey.
- (7) Trimethoprim, Neomycin (including framycetin), Paromomycin, Spectinomycin, Colistin, Danofloxacin, Difloxacin, Enrofloxacin, Flumequine, Erythromycin, Tilmicosin, Tylosin, Florfenicol, Lincomycin and Oxytetracycline should be inserted into Annex I to Regulation (EEC) No 2377/90.
- (8) An adequate period should be allowed before the entry into force of this Regulation in order to allow Member States to make any adjustment which may be necessary to the authorisations to place the veterinary medicinal products concerned on the market which have been granted in accordance with Directive 2001/82/EC ⁽⁴⁾ of the European Parliament and of the Council to take account of the provisions of this Regulation.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Veterinary Medicinal Products,

HAS ADOPTED THE FOLLOWING REGULATION:

Article 1

Annex I of Regulation (EEC) No 2377/90 is hereby amended as set out in the Annex hereto.

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

COMMISSION REGULATION (EC) No 1182/2002**of 1 July 2002****deferring the final date for sowing certain arable crops in certain areas of the Community in the 2002/03 marketing year**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1251/1999 of 17 May 1999 establishing a support system for producers of certain arable crops ⁽¹⁾, as last amended by Regulation (EC) No 1038/2001 ⁽²⁾, and in particular Article 9 thereof,

Whereas:

- (1) Article 8(2) of Regulation (EC) No 1251/1999 provides that, in order to qualify for area payments for cereals and linseed under the support system for certain arable crops, producers must have sown the seed at the latest by 31 May preceding the relevant harvest.
- (2) As a result of the particular weather conditions applying this year in certain areas of Italy, it will not be possible to meet the final dates for sowing set. Consequently, the final date for sowing arable crops for the 2002/03 marketing year should, where necessary, be deferred for certain specific areas. To that end, a derogation from Regulation (EC) No 1251/1999 should be provided for in

accordance with the eleventh indent of Article 9 of that Regulation.

- (3) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:

Article 1

The final dates for sowing for the 2002/03 marketing year shall be as set out in the Annex as regards the crops, Member States and areas shown.

Article 2

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

It shall apply to area payments in respect of the 2002/03 marketing year.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EC) No 1183/2002
of 1 July 2002
determining the world market price for unginned cotton

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Protocol 4 on cotton, annexed to the Act of Accession of Greece, as last amended by Council Regulation (EC) No 1050/2001 ⁽¹⁾,

Having regard to Council Regulation (EC) No 1051/2001 of 22 May 2001 on production aid for cotton ⁽²⁾, and in particular Article 4 thereof,

Whereas:

- (1) In accordance with Article 4 of Regulation (EC) No 1051/2001, a world market price for unginned cotton is to be determined periodically from the price for ginned cotton recorded on the world market and by reference to the historical relationship between the price recorded for ginned cotton and that calculated for unginned cotton. That historical relationship has been established in Article 2(2) of Commission Regulation (EC) No 1591/2001 of 2 August 2001 ⁽³⁾. Where the world market price cannot be determined in this way, it is to be based on the most recent price determined.
- (2) In accordance with Article 5 of Regulation (EC) No 1051/2001, the world market price for unginned cotton is to be determined in respect of a product of specific characteristics and by reference to the most favourable offers and quotations on the world market among those

considered representative of the real market trend. To that end, an average is to be calculated of offers and quotations recorded on one or more European exchanges for a product delivered cif to a port in the Community and coming from the various supplier countries considered the most representative in terms of international trade. However, there is provision for adjusting the criteria for determining the world market price for ginned cotton to reflect differences justified by the quality of the product delivered and the offers and quotations concerned. Those adjustments are specified in Article 3(2) of Regulation (EC) No 1591/2001.

- (3) The application of the above criteria gives the world market price for unginned cotton determined hereinafter,

HAS ADOPTED THIS REGULATION:

Article 1

The world price for unginned cotton as referred to in Article 4 of Regulation (EC) No 1051/2001 is hereby determined as equalling EUR 24,067/kg.

Article 2

This Regulation shall enter into force on 2 July 2002.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX

QUESTIONNAIRE ON THE IMPLEMENTATION OF DIRECTIVE 1999/13/EC CONCERNING THE LIMITATION OF EMISSIONS OF VOLATILE ORGANIC COMPOUNDS DUE TO THE USE OF ORGANIC SOLVENTS IN CERTAIN ACTIVITIES AND INSTALLATIONS

Guidance for answering the questions below:

The answers shall be short and as accurate as possible.

The information submitted, regarding in particular the number of installations and the measures taken, may include representative data, provided that it is sufficient to demonstrate that the requirements of the Directive have been met.

For the reports covering periods preceding the dates set up in Article 4 of the Directive 1999/13/EC, information regarding existing installations will be based on the best available estimations for those periods.

1. General description

What are the main features of national legislation that are necessary to set up a authorisation or registration system to ensure compliance with the requirements of the Directive? Please, detail changes in national legislation during the reporting period, concerning Directive 1999/13/EC.

2. Coverage of installations

For each of the twenty sections of Annex II A, please estimate how many installations fall into the categories set out below (Member States with a different sector classification in their national legislation may use it in terms of answering this question):

- all existing installations, encompassed by Article 2(2) of the Directive, at the end of the reporting period;
- all installations which were registered or authorised by the competent authority during the reporting period;
- of the installations referred to in the previous indent, how many were authorised or registered pursuant to Article 4(4) of the Directive? (optional);
- how many of these installations are also covered by the IPPC Directive? (optional).

3. Basic operator obligations

What administrative provisions in general terms have been put into place to allow the competent authorities to ensure that installations operate in accordance with the general principles set out in Article 5?

4. Existing installations

How many existing installations are authorised or registered as using the reduction scheme of Annex IIB, according to Article 4(3)?

5. All installations

5.1. Following Article 5(3a), Member States shall report to the Commission on the derogation concerning the application of fugitive emission limit values.

- Has there been any derogation?

☐ Yes

☐ No

- In these cases, how is it demonstrated that for the individual installation concerned this value was not technically and economically feasible?
- How is it taken into account that significant risks to human health or the environment are not to be expected?

5.2. Following Article 5(3b), activities which can not be operated under contained conditions may be exempted from the controls of Annex II A, when this possibility is explicitly mentioned in that Annex.

- How many operators have used this possibility and for how many installations?

- How is it demonstrated that the reduction scheme of Annex II B is not technically and economically feasible?
- How does the operator demonstrate for the respective installations that the best available technique is being used?

6. National plans

- 6.1. Has the Member State decided to define and implement a National Plan according to Article 6 (see Commission Decision 2000/541/EC of 6 September 2000 on criteria for assessing national plans according to Article 6 of Council Directive 1999/13/EC ⁽¹⁾)?
- 6.2. How many installations have been included under the national plan? What is the emission reduction target, which the plan will deliver? What is the current overall emission for the installations covered by the plan? How does this compare with any interim reduction target falling within this reporting period?

7. Substitution

Following the provision of guidance by the Commission according to Article 7(1), to what extent has this been taken into account for the authorisation and formulation of general binding rules (see Article 7(2))?

8. Monitoring

- 8.1. In relation to Article 8(1), in the case where a Member State has introduced an annual reporting obligation for the operator to supply the competent authority with data for the purposes of verifying compliance with the directive, please state how many operators have not supplied the competent authority with the necessary data and for how many installations? What measures are taken by the competent authority to ensure that this information is supplied within the shortest possible time?
- 8.2. In relation to Article 8(1), in the case where a Member State has introduced an 'on request' reporting obligation for the operator to supply the competent authority with data for the purposes of verifying compliance with the Directive, please state how many operators have supplied the competent authority with the necessary data and for how many installations?
- 8.3. Without prejudice to Article 8(4) and in relation to Article 8(3), what is the number of installations with a non-continuous measurement frequency of more than one year?

9. Non-compliance

11. Reduction Scheme

- 11.1. What is the procedure to ensure that the reduction scheme proposed by the operator, corresponds as closely as possible to the emissions, which would have resulted if the emission limit values set out in Annex II of the Directive had been applied? Please provide information about your experience with the application of the Reduction Scheme.
- 11.2. If you have used the reduction scheme proposed by Annex II B(2), please answer the following questions:
 - 11.2.1. Which procedures and practices are in place to calculate the annual reference emission?

⁽¹⁾ OJ L 230, 12.9.2000, p. 16

11.2.2. Which procedures and practices are in place to calculate the emission target?

11.2.3. Which practices are in place to ensure that compliance with the target emission is achieved?

Answer may be brief and summary in form.

12. Solvent management plan

According to Article 9, how is compliance by the operator demonstrated (solvent management plan or equivalent)?

COMMISSION DECISION

of 28 June 2002

amending Decision 2002/161/EC to approve the plans submitted by Germany for the eradication of classical swine fever and the emergency vaccination of feral pigs in North Rhine-Westfalia

(notified under document number C(2002) 2379)

(Only the German text is authentic)

(Text with EEA relevance)

(2002/531/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 2001/89/EC of 23 October 2001 on Community measures for the control of classical swine fever⁽¹⁾, and in particular Article 16(1), 20(1), 25(3) thereof,

Whereas:

- (1) In April 2002 classical swine fever was confirmed in the feral pig population in North Rhine-Westfalia at the border with Rhineland-Palatinate in Germany.
- (2) In accordance with Articles 16 and 20 of Directive 2001/89/EC, the German authorities have submitted plans for the eradication of classical swine fever and for the emergency vaccination of feral pigs in North Rhine-Westfalia.
- (3) The German authorities have authorised the use of a live attenuated vaccine against classical swine fever (C strain) to be used for the immunisation of feral pigs by means of oral baits.
- (4) The submitted plans have been examined and found to comply with the provisions of Directive 2001/89/EC.
- (5) In relation to the classical swine fever situation in the feral pigs in certain areas of Germany, by means of Decisions 1999/335/EC⁽²⁾ and 2002/161/EC⁽³⁾, the Commission approved the plans presented by Germany for the eradication of classical swine fever and for the emergency vaccination of feral pigs in Rhineland-Palatinate and Saarland. Decision 2002/161/EC also establishes certain conditions on trade of live pigs and certain pig products from the areas in which the evolution of the disease would probably be influenced by the vaccination.
- (6) In accordance with the plans already approved by the Commission and the ones referring to North Rhine-Westfalia vaccination is to be applied in a single area

which includes some bordering areas of Rhineland-Palatinate, Saarland and North Rhine-Westfalia.

- (7) For the sake of clarity, it is therefore appropriate to amend Decision 2002/161/EC to include under the approval the new plans submitted by Germany referring to North Rhine-Westfalia and to ensure that the same conditions are applied in the whole area within which the evolution of the disease will probably be influenced by the vaccination.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Article 1 of Decision 2002/161/EC is replaced by the following Article:

'Article 1

The plans submitted by Germany for the eradication of classical swine fever in feral pigs in Saarland and North Rhine-Westfalia are hereby approved.'

Article 2

Article 2 of Decision 2002/161/EC is replaced by the following Article:

DECISION No 1/2002 OF THE ACP-EC CUSTOMS COOPERATION COMMITTEE**of 26 June 2002****derogating from the concept of 'originating products' to take account of the special situation of the Seychelles regarding the production of tuna loins (HS heading ex 16.04)**

(2002/532/EC)

THE ACP-EC CUSTOMS COOPERATION COMMITTEE,

HAS DECIDED AS FOLLOWS:

Having regard to the ACP-EC Partnership Agreement signed at Cotonou on 23 June 2000, and in particular Article 38 of Protocol I thereof,

Whereas:

- (1) Article 1 of Decision 1/2000 of the ACP-EC Council of Ministers of 27 July 2000 on transitional measures valid from 2 August 2000 ⁽¹⁾ provides that the trade provisions of the ACP-EC Partnership Agreement, including Protocol 1 concerning the definition of the concept of 'originating products' and methods of administrative cooperation, apply from 2 August 2000.
- (2) Article 38(1) of the said Protocol provides for derogations from the rules of origin to be granted whenever the development of an existing industry or the establishment of a new one warrants it.
- (3) Article 38(8) of the said Protocol provides that the derogations are granted automatically within an annual quota of 2 000 tonnes for tuna loins.
- (4) On 13 February 2002 the African, Caribbean and Pacific States (ACP States) submitted a request, on behalf of the Government of the Seychelles, for a derogation from the rule of origin in the Protocol, in respect of tuna loins produced by this country. On 12 March 2002, the ACP States submitted an amendment to their initial request. The request, as amended, is made for a quantity of 800 tonnes for the period up to 30 September 2002, and of 1 000 tonnes for the period from 1 October 2002 to 30 September 2003.
- (5) The derogation is requested under the relevant provisions of Protocol 1, particularly with regard to Article 38(8) and the requested quantities fall within the limits of the annual quota which are granted automatically upon request of the ACP States.
- (6) Therefore, pursuant to Article 38(8), a derogation can be granted to the Seychelles in respect of tuna loins for the quantities and for the periods requested,

Article 1

By way of derogation from the special provisions in the list in Annex II to Protocol 1 of the ACP-EC Partnership Agreement, tuna loins of HS heading ex 16.04 produced in the Seychelles from non-originating tuna shall be regarded as originating in this country in accordance with the terms of this Decision.

Article 2

The derogation provided for in Article 1 shall apply to the products and the quantities shown in the Annex to this Decision which are imported into the Community from the Seychelles during the period of 1 June 2002 to 30 September 2003.

Article 3

The quantities referred to in the Annex shall be managed by the Commission, which shall take all administrative action it deems advisable for their efficient management.

Where an importer presents, in a Member State, a declaration of entry for free circulation, including an application for the benefit of this Decision, the Member State shall, if the declaration has been accepted by the customs authorities, notify the Commission of its wish to draw the amount corresponding to its requirements.

Applications to draw, showing the date of acceptance of declarations, shall be transmitted to the Commission without delay.

Withdrawals shall be granted by the Commission in order of date of acceptance of declarations of entry for free circulation by the Member States' customs authorities, provided that the available balance permits.

If a Member State fails to use a withdrawal it shall return it, as soon as possible, to the appropriate quota.

If requests exceed the available balance of a given quota, quantities shall be allocated on a pro rata basis. The Commission shall inform the Member States of withdrawal on the quotas.

Each Member State shall ensure that importers have continuous and equal access to the amounts available as long as the balance permits.

⁽¹⁾ OJ L 195, 1.8.2000, p. 46.

Article 4

The customs authorities of the Seychelles shall take the necessary steps to carry out quantitative checks on exports of the products referred to in Article 1. To that end, all the certificates they issue pursuant to this Decision shall bear a reference to it. The competent authorities of those countries shall forward to the Commission every three months a statement of the quantities in respect of which movement certificates EUR.1 have been issued pursuant to this Decision and the serial numbers of those certificates.
