COMMISSION REGULATION (EC) No 600/2005

of 18 April 2005

concerning a new authorisation for 10 years of a coccidiostat as an additive in feedingstuffs, the provisional authorisation of an additive and the permanent authorisation of certain additives in feedingstuffs

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 70/524/EEC of 23 November 1970 concerning additives in feedingstuffs⁽¹⁾, and in particular Articles 3, 9d(1) and 9e(1) thereof,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition⁽²⁾ and in particular Article 25 thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition.
- (2) Article 25 of Regulation (EC) No 1831/2003 lays down transitional measures for applications for the authorisation of feed additives submitted in accordance with Directive 70/524/EEC before the date of application of Regulation (EC) No 1831/2003.
- (3) The applications for authorisation of the additives listed in the Annexes to this Regulation were submitted before the date of application of Regulation (EC) No 1831/2003.
- (4) Initial comments on those applications, as provided for in Article 4(4) of Directive 70/524/EEC, were forwarded to the Commission before the date of application of Regulation (EC) No 1831/2003. Those applications are therefore to continue to be treated in accordance with Article 4 of Directive 70/524/EEC.

(5) The person responsible for putting into circulation Salinomax 120G submitted an application for authorisation for 10 years, as a coccidiostat for chickens for fattening, according to Article 4 of that Directive. The European Food Safety Authority (EFSA) has delivered an opinion on the safety of the use of this preparation for humans, animals and the environment, under the conditions set out in Annex I to this Regulation. The assessment shows that the conditions laid down in Article 3a of Directive 70/524/EEC for such authorisation are satisfied. Accordingly, the use of this preparation, as specified in Annex I, should be authorised for 10 years.

(6) Data were submitted in support of an application of the new additive *Lactobacillus acidophilus* DSM 13241 for dogs and cats. The EFSA delivered favourable opinions on 15 April 2004 and 27 October 2004 on the safety for the target animals, the user and the environment. The assessment shows that the conditions laid down in Article 9e(1) of Directive 70/524/EEC for such authorisation are satisfied. Accordingly, the use of that micro-organism preparation, as specified in Annex II, should be provisionally authorised.

(7) The use of the micro-organism preparation *Enterococcus faecium* ATCC 53519 and *Enterococcus faecium* ATCC 55593 was provisionally authorised, for the first time, for chickens for fattening by Commission Regulation (EC) No 1436/98⁽³⁾. New data were submitted in support of an application for authorisation without time limit of that micro-organism preparation. The assessment shows that the conditions laid down in Article 3a of Directive 70/524/EEC for such authorisation are satisfied. Accordingly, the use of that micro-organism preparation, as specified in Annex III, should be authorised without a time limit.

(8) The use of the micro-organism preparation *Bacillus licheniformis* DSM 5749 and *Bacillus subtilis* DSM 5750 was provisionally authorised, for the first time, for turkeys for fattening by Commission Regulation (EC) No 2437/2000⁽⁴⁾ and for calves by Commission Regulation (EC) No 418/2001⁽⁵⁾. New data were submitted in support of an application for authorisation without time limit of that micro-organism preparation. The assessment shows that the conditions laid down in Article 3a of Directive 70/524/EEC for such authorisation are satisfied. Accordingly, the use of that micro-organism preparation, as specified in Annex III, should be authorised without a time limit.

⁽²⁾ OJ L 268, 18.10.2003, p. 29. Regulation as amended by Commission Regulation (EC) No 378/2005 (OJ L 59, 5.3.2005, p. 8).

⁽⁴⁾ OJ L 280, 4.11.2000, p. 28.

⁽⁵⁾ OJ L 62, 2.3.2001, p. 3.

- (9) The use of the micro-organism preparation *Saccharomyces cerevisiae* NCYC Sc 47 was provisionally authorised, for the first time, for rabbits by the Regulation (EC) No 1436/98. New data were submitted in support of an application for authorisation without time limit of that micro-organism preparation. The assessment shows that the conditions laid down in Article 3a of Directive 70/524/EEC for such authorisation are satisfied. Accordingly, the use of that micro-organism preparation, as specified in Annex III, should be authorised without a time limit.
- (10) The assessment of this application shows that certain procedures should be required to protect workers from exposure to the additive set out in the Annex. Such protection should be assured by the application of Council Directive 89/391/EEC of 12 June 1989 on the introduction of measures to encourage improvements in the safety and health of workers at work⁽¹⁾.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

The preparation belonging to the group 'Coccidiostats and other medicinal substances', as specified in Annex I, is authorised for use for 10 years as additive in animal nutrition under the conditions laid down in that Annex.

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 2002/57/EC of 13 June 2002 on the marketing of seed of oil and fibre plants⁽¹⁾, and in particular Article 21(1) thereof,

Whereas:

- (1) In Austria the quantity of available seed of soya bean (*Glycine max*) suitable to the national climatic conditions and which satisfies the germination capacity requirements of Directive 2002/57/EC is insufficient and is therefore not adequate to meet the needs of that Member State.
- (2) It is not possible to meet the demand for seed of these species satisfactorily with seed from other Member States or from third countries which satisfies all the requirements laid down in Directive 2002/57/EC.
- (3) Accordingly, Austria should be authorised to permit the marketing of seed of that species subject to less stringent requirements for a period expiring on 15 June 2005.
- (4) In addition, other Member States irrespective of whether the seed was harvested in a Member State or in a third country covered by Council Decision 2003/17/EC of 16 December 2002 on the equivalence of field inspec-

tions carried out in third countries on seed-producing crops and the equivalence of seed produced in third countries⁽²⁾ which are in a position to supply Austria with seed of that species, should be authorised to permit the marketing of such seed.

- (5) It is appropriate that Austria act as coordinator in order to ensure that the total amount of seed authorised pursuant to this Decision does not exceed the maximum quantity covered by this Decision.
- (6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry,

HAS ADOPTED THIS DECISION:

Article 1

The marketing in the Community of seed of soya bean (*Glycine max*) which does not satisfy the minimum germination capacity requirements laid down in Directive 2002/57/EC shall be permitted, for a period expiring on 15 June 2005, in accordance with the terms set out in the Annex to this Decision and subject to the following conditions:

- (a) the germination capacity must be at least that set out in the Annex to this Decision,
- (b) the official label must state the germination ascertained in the official examination carried out pursuant to Article 2(1)(f) and (g) of Directive 2002/57/EC,
- (c) the seed must have been first placed on the market in accordance with Article 2 of this Decision.

Article 2

Any seed supplier wishing to place on the market the seeds referred to in Article 1 shall apply for authorisation to the Member State in which he is established or importing.

The Member State concerned shall authorise the supplier to place that seed on the market, unless:

- (a) there is sufficient evidence to doubt as to whether the supplier is able to place on the market the amount of seed for which he has applied for authorisation; or
- (b) the total quantity authorised to be marketed pursuant to the derogation concerned would exceed the maximum quantity specified in the Annex.

Article 3

The Member States shall assist each other administratively in the application of this Decision.

Austria shall act as coordinating Member State in respect of Article 1 in order to ensure that the total amount authorised does not exceed the maximum quantity specified in the Annex.

Any Member State receiving an application under Article 2 shall immediately notify the coordinating Member State of the amount covered by the application. The coordinating Member State shall immediately inform the notifying Member State as to whether authorisation would result in the maximum quantity being exceeded.

Article 4

Member States shall immediately notify the Commission and the other Member States of the quantities in respect of which they have granted marketing authorisation pursuant to this Decision.

Article 5

This Decision is addressed to the Member States.

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 94/57/EC of 22 November 1994 on common rules and standards for ship inspection and survey organisations and for the relevant activities of maritime administrations⁽¹⁾, and in particular Article 4(3) thereof,

Having regard to the letters dated 25 March 2003 and 8 May 2003 from the Portuguese Authorities, requesting the extension of the limited recognition of 'RINAVE — Registro Internacional Naval, SA' (hereafter RINAVE) as per Article 4(2) and (3) of the abovementioned Directive, for unlimited time,

Whereas:

- (1) The limited recognition under Article 4(3) of Directive 94/57/EC is a recognition granted to organisations (classification societies) which fulfil all criteria other than those set out under paragraphs 2 and 3 of the section 'General' of the Annex, but which is limited in time and scope in order for the organisation concerned to further gain experience.
- (2) Commission Decision 2000/481/EC⁽²⁾ recognised RINAVE on the basis of Article 4(3) for Portugal, for a period of three years.
- (3) The Commission has verified that RINAVE meets all criteria of the Annex of the abovementioned Directive other than those set out under paragraphs 2 and 3 of the section 'General' of the Annex, including the new provisions referred to in Article 4(5).

(4) The assessment carried out by the Commission has furthermore revealed the organisation's dependence on the technical rules of another recognised organisation.

(5) During the period 2000 to 2003, the safety and pollution prevention performance records of RINAVE as published by the Paris Memorandum of Understanding have consistently been of the highest level.

(6) The measures provided for in this Decision are in accordance with the opinion of the Committee set out in Article 7 of Directive 94/57/EC,

HAS ADOPTED THIS DECISION:

Article 1

The limited recognition of 'RINAVE — Registro Internacional Naval, SA' is extended pursuant to Article 4(3) of Directive 94/57/EC for a period of three years as from the date of adoption of this Decision.
