DIRECTIVES

COMMISSION DIRECTIVE 2010/15/EU

of 8 March 2010

amending Council Directive 91/414/EEC to include fluopicolide as active substance

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market ⁽¹⁾, and in particular Article 6(1) thereof,

Whereas:

- (1) In accordance with Article 6(2) of Directive 91/414/EEC the United Kingdom received on 7 May 2004 an application from Bayer CropScience for the inclusion of the active substance fluopicolide in Annex I to Directive 91/414/EEC. Commission Decision 2005/778/EC ⁽²⁾ confirmed that the dossier was 'complete' in the sense that it could be considered as satisfying, in principle, the data and information requirements of Annexes II and III to Directive 91/414/EEC.
- (2) For that active substance, the effects on human health and the environment have been assessed, in accordance with the provisions of Article 6(2) and (4) of Directive 91/414/EEC, for the uses proposed by the applicant. The designated rapporteur Member State submitted a draft assessment report on 12 December 2005.
- (3) The assessment report was peer reviewed by the Member States and the EFSA and presented to the Commission in the format of the EFSA Scientific Report for fluopicolide on 4 June 2009 ⁽³⁾. This report was reviewed by the Member States and the Commission within the Standing Committee on the Food Chain and Animal Health and finalised on 27 November 2009 in the format of the Commission review report for fluopicolide.
- (4) It has appeared from the various examinations made that plant protection products containing fluopicolide may be expected to satisfy, in general, the requirements laid down in Article 5(1)(a) and (b) and Article 5(3) of Directive 91/414/EEC, in particular with regard to the uses which were examined and detailed in the Commission review report. It is therefore appropriate

to include fluopicolide in Annex I to that Directive, in order to ensure that in all Member States the authorisations of plant protection products containing this active substance may be granted in accordance with the provisions of that Directive.

- (5) Without prejudice to that conclusion, it is appropriate to obtain further information on certain specific points. Article 6(1) of Directive 91/414/EEC provides that the inclusion of a substance in Annex I may be subject to conditions. It is appropriate, as regards fluopicolide, to require that the notifier submits further information on the relevance of the metabolite M15 for groundwater.
- (6) Without prejudice to the obligations defined by Directive 91/414/EEC as a consequence of including an active substance in Annex I, Member States should be allowed a period of six months after inclusion to review existing provisional authorisations of plant protection products containing fluopicolide to ensure that the requirements laid down by Directive 91/414/EEC, in particular in its Article 13 and the relevant conditions set out in Annex I, are satisfied. Member States should transform existing provisional authorisations into full authorisations, amend them or withdraw them in accordance with the provisions of Directive 91/414/EEC. By derogation from the above deadline, a longer period should be provided for the submission and assessment of the complete Annex III dossier of each plant protection product for each intended use in accordance with the uniform principles laid down in Directive 91/414/EEC.
- (7) It is therefore appropriate to amend Directive 91/414/EEC accordingly.
- (8) The measures provided for in this Directive are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DIRECTIVE:

Article 1

Annex I to Directive 91/414/EEC is amended as set out in the Annex to this Directive.

⁽¹⁾ OJ L 230, 19.8.1991, p. 1.

⁽²⁾ OJ L 293, 9.11.2005, p. 26.

⁽³⁾ EFSA Scientific Report (2009) 299, 1-158, Conclusion regarding the peer review of the pesticide risk assessment of the active substance fluopicolide (finalised: 4 June 2009).

Article 2

Member States shall adopt and publish by 30 November 2010 at the latest the laws, regulations and administrative provisions necessary to comply with this Directive. They shall forthwith communicate to the Commission the text of those provisions and a correlation table between those provisions and this Directive.

They shall apply those provisions from 1 December 2010.

When Member States adopt those provisions, they shall contain a reference to this Directive or shall be accompanied by such a reference on the occasion of their official publication. Member States shall determine how such reference is to be made.

Article 3

1. Member States shall in accordance with Directive 91/414/EEC, where necessary, amend or withdraw existing authorisations for plant protection products containing fluopicolide as active substance by 30 November 2010. By that date, they shall in particular verify that the conditions in Annex I to that Directive relating to fluopicolide are met, with the exception of those identified in part B of the entry concerning the active substance, and that the holder of the authorisation has, or has access to, a dossier satisfying the requirements of Annex II to that Directive in accordance with the conditions of Article 13(2) of that Directive.

2. By way of derogation from paragraph 1, for each authorised plant protection product containing fluopicolide as either the only active substance or as one of several active substances all of which were listed in Annex I to Directive 91/414/EEC by 31 May 2010 at the latest, Member States shall re-evaluate the product in accordance with the uniform principles provided for in Annex VI to Directive 91/414/EEC,

on the basis of a dossier satisfying the requirements of Annex III to that Directive and taking into account part B of the entry in Annex I to that Directive concerning fluopicolide. On the basis of that evaluation, they shall determine whether the product satisfies the conditions set out in Article 4(1)(b), (c), (d) and (e) of Directive 91/414/EEC.

Following that determination Member States shall:

- (a) in the case of a product containing fluopicolide as the only active substance, where necessary, amend or withdraw the authorisation by 30 November 2011 at the latest; or
- (b) in the case of a product containing fluopicolide as one of several active substances, where necessary, amend or withdraw the authorisation by 30 November 2011 or by the date fixed for such an amendment or withdrawal in the respective Directive or Directives which added the relevant substance or substances to Annex I to Directive 91/414/EEC, whichever is the latest.

Article 4

This Directive shall enter into force on 1 June 2010.

Article 5

This Directive is addressed to the Member States.

Done at Brussels, 8 March 2010.

For the Commission

The President

José Manuel BARROSO

In Annex I to Directive 91/414/EEC, the following entry is added at the end of the table:

No	Common Name, Identification Numbers	IUPAC Name	Purity ⁽¹⁾	Entry into force	Expiration of inclusion	Specific provisions
'303	Fluopicolide CAS No 239110-15-7 CIPAC N° 787	2,6-dichloro-N-[3-chloro-5-(trifluoromethyl)- 2-pyridylmethyl]benzamide	≥ 970 g/kg The impurity toluene must not exceed 3 g/kg in the technical material.	1 June 2010	31 May 2020	PART A Only uses as fungicide may be authorised. PART B For the implementation of the uniform principles of Annex VI, the conclusions of the review report on fluopicolide, and in particular Appendices I and II thereof, as finalised in the Standing Committee on the Food Chain and Animal Health on 27 November 2009 shall be taken into account. In this overall assessment, Member States must pay particular attention to: — the protection of aquatic organisms, — the protection of groundwater when the active substance is applied in regions with vulnerable soil and/or climatic conditions, — to the risk to operators during application, — the potential for long range transport via air. Conditions of authorisation shall include risk mitigation measures and monitoring programmes shall be initiated to verify potential accumulation and exposure in vulnerable areas, where appropriate. The Member States concerned shall ensure that the notifier submits to the Commission further information on the relevance of the metabolite M15 for groundwater by 30 April 2012 at the latest.'

⁽¹⁾ Further details on identity and specification of active substances are provided in the review report.

- (4) Persons indicted by the ICTY are still at large, and there is evidence that they are being assisted in their efforts to continue to evade justice.
- (5) The measures provided for in Common Position 2004/293/CFSP should be renewed for a further 12 months,

HAS ADOPTED THIS DECISION:

Article 1

1. Member States shall take the necessary measures to prevent the entry into, or transit through their territories of the persons listed in the Annex, who are engaged in activities which help persons at large continue to evade justice for crimes

for which the ICTY has indicted them or are otherwise acting in a manner which could obstruct the ICTY's effective implementation of its mandate.

2. Paragraph 1 will not oblige a Member State to refuse its own nationals entry into its territory.

3. Paragraph 1 shall be without prejudice to the cases where a Member State is bound by an obligation of international law, namely:

8. In cases where pursuant to paragraphs 3, 4, 6 and 7, a Member State authorises the entry into, or transit through, its territory of persons listed in the Annex, the authorisation shall be limited to the purpose for which it is given and to the persons concerned thereby.

The Council, acting upon a proposal by the High Representative of the Union for Foreign Affairs and Security Policy or a Member State, shall adopt modifications to the list contained in the Annex as required.

COMMISSION DECISION

of 5 March 2010

pursuant to Directive 95/46/EC of the European Parliament and of the Council on the adequate protection provided by the Faeroese Act on processing of personal data

*(notified under document C(2010) 1130)***(Text with EEA relevance)**

(2010/146/EU)

THE EUROPEAN COMMISSION,

circumstances surrounding a data transfer operation or a set of data transfer operations and giving particular consideration to a number of elements relevant for the transfer and listed in Article 25(2) thereof.

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data ⁽¹⁾, and in particular Article 25(6) thereof,

- (4) Given the different approaches to data protection in third countries, the adequacy assessment should be carried out, and any decision based on Article 25(6) of Directive 95/46/EC should be made and enforced in a way that does not arbitrarily or unjustifiably discriminate against or between third countries where like conditions prevail, nor constitute a disguised barrier to trade, regard being had to the Community's present international commitments.

After consulting the Working Party on Protection of Individuals with regard to the processing of personal data ⁽²⁾,

Whereas:

- (5) The Faeroe Islands are a self-governing community within the Kingdom of Denmark. When Denmark joined the European Community in 1973, the Faeroe Islands did not. They are therefore to be considered as a third country within the meaning of Directive 95/46/EC.

- (1) Pursuant to Directive 95/46/EC, Member States are required to provide that the transfer of personal data to a third country may take place only if the third country in question ensures an adequate level of protection and if the Member States' laws implementing other provisions of the Directive are complied with prior to the transfer.

- (2) The Commission may find that a third country ensures an adequate level of protection. In that case, personal data may be transferred from the Member States without additional guarantees being necessary.

- (3) Pursuant to Directive 95/46/EC the level of data protection should be assessed in the light of all the

- (6) The Home Rule Act of the Faeroe Islands divides all policy areas into two main groups, whereby Special Faeroese Affairs are the responsibility of the Faeroese Government's administration and legislation and Joint Concerns are the responsibility of the Kingdom of Denmark. This Decision only covers transfer of personal data from the Community to recipients in the Faeroe Islands who are subject to the Act on Processing of Personal Data ⁽³⁾ ('the Faeroese Act'). The Faeroese Act does not apply to the processing of personal data in the course of an activity carried out by authorities of the Kingdom of Denmark, namely, the High Commissioner of the Faeroe Islands (Rigsombudsmanden), the Court of the Faeroe Islands (Sorenskriveren), the Commissioner of the Faeroe Islands (Politimesteren på Færøerne), the Prison and Probation Service of the Faeroe Islands (Kriminalforsorgens afdeling), the Island Command Faeroes (Færøernes Kommando) and the Chief Medical Officer of the Faeroe Islands (Landslægen).

⁽²⁾ Opinion 9/2007 on the level of protection of personal data in Faeroe Islands, adopted on 9 October 2007, available at http://ec.europa.eu/justice_home/fsj/privacy/workinggroup/wpdocs/2007_en.htm

⁽³⁾ Act No 73 of 8 May 2001 on Processing of Personal Data, available at <http://www.datueftirlitid.fo/Default.asp?sida = 2878>

- (7) The Faeroese Act is based on the standards set out in Directive 95/46/EC and accordingly it covers all the basic principles necessary for an adequate level of protection of the right of natural persons to privacy with respect to the processing of personal data. The application of these standards is guaranteed by judicial remedy and by independent supervision carried out by the supervisory authority, the Data Protection Commissioner, who is invested with powers of investigation and intervention.
- (8) In the interest of transparency and in order to safeguard the ability of the competent authorities in the Member States to ensure the protection of individuals as regards the processing of their personal data, it is necessary to specify the exceptional circumstances in which the suspension of specific data flows may be justified, notwithstanding the finding of adequate protection.
- (9) The measures provided for in this Decision are in accordance with the opinion of the Committee established under Article 31(1) of Directive 95/46/EC,
- (a) where a competent Faeroese authority has determined that the recipient is in breach of the applicable standards of protection; or
- (b) where there is a substantial likelihood that the standards of protection are being infringed, there are reasonable grounds for believing that the competent Faeroese authority is not taking or will not take adequate and timely steps to settle the case at issue, the continuing transfer would create an imminent risk of grave harm to data subjects and the competent authorities in the Member State have made reasonable efforts in the circumstances to provide the party responsible for processing established in the Faeroe Islands with notice and an opportunity to respond.
2. The suspension shall cease as soon as the standards of protection are assured and the competent authority of the Member States concerned is notified thereof.

Article 4

1. Member States shall inform the Commission without delay when measures are adopted on the basis of Article 3(1).

2. The Member States and the Commission shall inform each other of cases where the action of bodies responsible for ensuring compliance with the standards of protection in the Faeroe Islands fails to secure such compliance.

3. If the information collected under Article 3 and under paragraphs 1 and 2 of this Article provides evidence that any body responsible for ensuring compliance with the standards of protection in the Faeroe Islands is not effectively fulfilling its role, the Commission shall inform the competent Faeroese authority and, if necessary, present draft measures in accordance with the procedure referred to in Article 31(2) of Directive 95/46/EC with a view to repealing or suspending this Decision or limiting its scope.

Article 5

The Commission shall monitor the functioning of this Decision and report any pertinent findings to the Committee established under Article 31 of Directive 95/46/EC, including any evidence that could affect the finding in Article 1 of this Decision, that protection in the Faeroe Islands is adequate within the meaning of Article 25 of Directive 95/46/EC and any evidence that this Decision is being implemented in a discriminatory way.

Article 6

Member States shall take all the measures necessary to comply with the Decision by the end of a period of 90 days from the date of its notification to the Member States at the latest.

HAS ADOPTED THIS DECISION:

Article 1

For the purposes of Article 25(2) of Directive 95/46/EC, the Faeroe Islands are considered as providing an adequate level of protection for personal data transferred from the European Union to recipients subject to the Act on Processing of Personal Data ('the Faeroese Act').

Article 2

This Decision concerns only the adequacy of protection provided in the Faeroe Islands by the Faeroese Act with a view to meeting the requirements of Article 25(1) of Directive 95/46/EC and does not affect other conditions or restrictions implementing other provisions of that Directive that pertain to the processing of personal data within the Member States.

Article 3

1. Without prejudice to their powers to take action to ensure compliance with national provisions adopted pursuant to provisions other than Article 25 of Directive 95/46/EC, the competent authorities in Member States may exercise their existing powers to suspend data flows to a recipient in the Faeroe Islands whose activities fall within the scope of the Faeroese Act in order to protect individuals with regard to the processing of their personal data in the following cases:

Article 7

This Decision shall apply from 15 June 2010.

Article 8

This Decision is addressed to the Member States.

COMMISSION DECISION

of 8 March 2010

concerning the draft Decree from Greece on the display of information of all manner of dairy products indicating the country of origin of the raw material (milk) used for the manufacture and sale of such products to the final consumer, and the obligations of retail sellers on how to display dairy products at points of sales within their stores

*(notified under document C(2010) 1195)***(Only the Greek text is authentic)****(Text with EEA relevance)**

(2010/147/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2000/13/EC of the European Parliament and of the Council of 20 March 2000 on the approximation of the laws of the Member States relating to the labelling, presentation and advertising of foodstuffs ⁽¹⁾, and in particular Article 19 thereof,

Whereas:

- (4) Article 1(3) of the notified draft provides that, where the abovementioned products come from European Union countries other than Greece or are imported from non-EU countries, their sealed packaging must include information which indicates at the very least the specific country of production of those products or a label 'Made in EU'.
- (5) Article 1(6) of the notified draft lays down rules concerning the manner in which those indications have to be presented: they must be displayed on at least one side of the packaging, and in particular on the side considered to be the front, below the trade name of the product in clearly legible, indelible letters, and must be in Greek.
- (1) In accordance with the procedure provided for in the second paragraph of Article 19 of Directive 2000/13/EC, the Greek authorities notified the Commission on 1 June 2009 of the draft Decree on the display of information of all manner of dairy products indicating the country of origin of the raw material (milk) used for the manufacture and sale of such products to the final consumer, and the obligations of retail sellers on how to display dairy products at points of sales within their stores.
- (2) According to Article 1(1) of the notified Decree, this applies to milk, chocolate milk, yoghurt, all kinds of milk-based desserts, crèmes, rice pudding and cream to be sold to the final consumer in sealed packages.
- (3) Article 1(2) of the notified draft requires that where the abovementioned products are made in Greece, the sealed packaging of those products must also have information indicating the origin of the raw materials (milk) from which those products are made. Such information shall consist in a minimum content described in letters (a) and (b) of Article 1(2) of the draft Decree.
- (6) Directive 2000/13/EC harmonises the rules governing the labelling of foodstuffs by making provision for, on the one hand, harmonisation of certain national provisions and, secondly, arrangements for non-harmonised national provisions. The scope of harmonisation is defined in Article 3(1) of that Directive, which lists all the particulars that are compulsory on the labelling of foodstuffs in accordance with Articles 4 to 17 and subject to the exceptions contained therein. Furthermore, Article 4(2) of Directive 2000/13/EC provides that other particulars in addition to those listed in Article 3(1) of that Directive may be required, in the case of specified foodstuffs, by Union provisions or, in their absence, by national provisions.
- (7) Article 18(2) of Directive 2000/13/EC allows the adoption of non-harmonised national provisions if they are justified on one of the grounds listed therein, including, inter alia, the prevention of fraud and the protection of public health, and provided they are not of such a nature as to impede application of the definitions and rules laid down by Directive 2000/13/EC. Therefore, where draft national labelling provisions have been proposed in a Member State, it is necessary to examine their compatibility with the abovementioned requirements and the provisions of the Treaty.

⁽¹⁾ OJ L 109, 6.5.2000, p. 29.

- (8) The Greek authorities maintain that the notified measure is necessary to protect consumers and provide them with complete information so that they are aware of the country of origin of the raw material contained in the products in question. They also state that the draft Decree is necessary to safeguard the interests of Greek dairy farmers.
- (9) In accordance with Article 3(1)(8) of Directive 2000/13/EC the indication of the place of origin or provenance is mandatory where failure to give such a particular might mislead the consumer to a material degree as to the true origin or provenance of the foodstuff. This provision puts in place an appropriate mechanism to counter the risk of consumers being misled in cases where some elements could imply that a given food comes from an origin or provenance different from the true one. In the case of the dairy products listed in Article 1(1) of the notified Decree, the Greek authorities did not provide any justification allowing to conclude that the introduction, as a general rule, of an obligation to indicate the country of origin of the raw material (milk) or the specific country of production or a label 'Made in EU' is necessary to attain one of the objectives listed in Article 18(2) of Directive 2000/13/EC.
- (10) In light of these observations, the Commission has delivered a negative opinion pursuant to the third paragraph of Article 19 of Directive 2000/13/EC.
- (11) The Greek authorities should accordingly be requested not to adopt the corresponding provisions of the draft Decree in question.
- (12) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,
- HAS ADOPTED THIS DECISION:
- Article 1*
- Greece shall not adopt Article 1(2), (3) and (6) of the draft Decree on the display of information of all manner of dairy products indicating the country of origin of the raw material (milk) used for the manufacture and sale of such products to the final consumer, and the obligations of retail sellers on how to display dairy products at points of sales within their stores.
