THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff⁽¹⁾, and in particular Article 9(1)(a) thereof,

Whereas:

- (1) In order to ensure uniform application of the Combined Nomenclature annexed to Regulation (EEC) No 2658/87, it is necessary to adopt measures concerning the classification of the goods referred to in the Annex to this Regulation.
- (2) Regulation (EEC) No 2658/87 has laid down the general rules for the interpretation of the Combined Nomenclature. Those rules apply also to any other nomenclature which is wholly or partly based on it or which adds any additional subdivision to it and which is established by specific provisions of the Union, with a view to the application of tariff and other measures relating to trade in goods.
- (3) Pursuant to those general rules, the goods described in column 1 of the table set out in the Annex should be classified under the CN code indicated in column 2, by virtue of the reasons set out in column 3 of that table.

- (4) It is appropriate to provide that binding tariff information which has been issued by the customs authorities of Member States in respect of the classification of goods in the Combined Nomenclature but which is not in accordance with this Regulation can, for a period of three months, continue to be invoked by the holder, under Article 12(6) of Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code⁽²⁾.

- (5) The measures provided for in this Regulation are in accordance with the opinion of the Customs Code Committee,

ANNEX

Description of the goods	Classification (CN code)	Reasons
(1)	(2)	(3)
A product comprising: — a high pressure mercury vapour discharge lamp with a non-sealed beam reflector, — cabling, — ventilation slots, — an installation frame with a holder, and — a socket. The product is designed to be used in projectors.	8539 32 10	Classification is determined by General Rules 1 and 6 for the interpretation of the Combined Nomenclature, Note 2(a) to Section XVI and by the wording of CN codes 8539, 8539 32 and 8539 32 10. As the product is considered to be a part of a projector, Note 2 to Section XVI applies. By virtue of Note 2(a) to Section XVI, parts which are goods included in any of the headings of Chapter 84 or 85 are to be classified in their respective headings. Given its characteristics, the product meets the terms of heading 8539. Consequently, classification under heading 8529 is excluded. The product is therefore to be classified under CN code 8539 32 10 as a mercury vapour discharge lamp.

ANNEX

Description of the goods	Classification (CN code)	Reasons
(1)	(2)	(3)
A product (so-called 'exhaust gas temperature sensor') consisting of: — a thermistor with a power handling capacity not exceeding 20 W, in its own housing, — a fixing bolt, — a shaft facilitating fixation inside a vehicle's exhaust system, and — an electrical cable, with a heat resistant sleeve, which connects the product to a plug and which, in turn, enables connection to the vehicle's engine management system. Depending on the temperature, the thermistor changes its resistance. When connected, this change of resistance produces a change of electrical current, which is transmitted to the engine management system. The product cannot convert the electrical current output into a temperature measurement or display the temperature.	8533 40 10	Classification is determined by General Rules 1 and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 8533, 8533 40 and 8533 40 10. Classification under heading 9025 as a thermometer or as a part thereof is excluded as the product cannot measure nor display temperature. The product is a non-linear resistor depending on temperature (see also the Harmonised System Explanatory Notes to heading 8533 (A)(5)) and therefore is to be classified under subheading 8533 40 as other variable resistors.

DIRECTIVES

COMMISSION DIRECTIVE 2010/50/EU

of 10 August 2010

amending Directive 98/8/EC of the European Parliament and of the Council to include dazomet as an active substance in Annex I thereto

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

the Standing Committee on Biocidal Products on 11 March 2010, in an assessment report.

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 98/8/EC of the European Parliament and of the Council of 16 February 1998 concerning the placing of biocidal products on the market ⁽¹⁾, and in particular the second subparagraph of Article 16(2) thereof,

Whereas:

(1) Commission Regulation (EC) No 1451/2007 of 4 December 2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market ⁽²⁾ establishes a list of active substances to be assessed, with a view to their possible inclusion in Annex I, IA or IB to Directive 98/8/EC. That list includes dazomet.

(2) Pursuant to Regulation (EC) No 1451/2007, dazomet has been evaluated in accordance with Article 11(2) of Directive 98/8/EC for use in product-type 8, wood preservatives, as defined in Annex V to that Directive.

(3) Belgium was designated as Rapporteur Member State and submitted the competent authority report, together with a recommendation, to the Commission by 16 April 2007 in accordance with Article 14(4) and (6) of Regulation (EC) No 1451/2007.

(4) The competent authority report was reviewed by the Member States and the Commission. In accordance with Article 15(4) of Regulation (EC) No 1451/2007, the findings of the review were incorporated, within

(5) It appears from the examinations made that biocidal products used as wood preservatives and containing dazomet may be expected to satisfy the requirements laid down in Article 5 of Directive 98/8/EC. It is therefore appropriate to include dazomet in Annex I to that Directive.

(6) Not all potential uses have been evaluated at EU level. The EU level risk assessment addresses only professional use outdoors for the remedial treatment of wooden poles, such as transmission poles, by insertion of granules. It is therefore appropriate that Member States assess those uses or exposure scenarios and those risks to the compartments and populations that have not been representatively addressed in the EU level risk assessment and, when granting product authorisations, ensure that appropriate measures are taken or specific conditions imposed in order to reduce the identified risks to acceptable levels.

(7) In the light of the findings of the assessment report, it is appropriate to require that risk mitigation measures are applied at product authorisation level to products containing dazomet and used as wood preservatives to ensure that risks are reduced to an acceptable level in accordance with Article 5 of Directive 98/8/EC and Annex VI thereto.

(8) In particular, it is appropriate to require that products intended for industrial or professional use be used with appropriate personal protective equipment, unless it can be demonstrated that risks for industrial or professional users can be reduced by other means.

(9) It is important that the provisions of this Directive be applied simultaneously in all the Member States in order to ensure equal treatment of biocidal products on the market containing the active substance dazomet and also to facilitate the proper operation of the biocidal products market in general.

⁽¹⁾ OJ L 123, 24.4.1998, p. 1.

⁽²⁾ OJ L 325, 11.12.2007, p. 3.

- (10) A reasonable period should be allowed to elapse before an active substance is included in Annex I in order to permit Member States and the interested parties to prepare themselves to meet the new requirements entailed and to ensure that applicants who have prepared dossiers can benefit fully from the 10-year period of data protection, which, in accordance with Article 12(1)(c)(ii) of Directive 98/8/EC, starts from the date of inclusion.
- (11) After inclusion, Member States should be allowed a reasonable period to implement Article 16(3) of Directive 98/8/EC.
- (12) Directive 98/8/EC should therefore be amended accordingly.
- (13) The measures provided for in this Directive are in accordance with the opinion of the Standing Committee on Biocidal Products,

HAS ADOPTED THIS DIRECTIVE:

Article 1

Annex I to Directive 98/8/EC is amended in accordance with the Annex to this Directive.

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1013/2006 of the European Parliament and of the Council of 14 June 2006 on shipments of waste ⁽¹⁾, and in particular the third subparagraph of Article 63(4) thereof,

Whereas:

- (1) Pursuant to Article 63(4) of Regulation (EC) No 1013/2006 Bulgaria may raise objections to shipments of certain wastes for recovery for a period of time ending on 31 December 2009.
- (2) By letter of 23 December 2009 Bulgaria requested to extend that period until 31 December 2012.

waste destined for recovery to Bulgaria in accordance with Regulation (EC) No 1013/2006, the measures provided for in this Decision should apply as of 1 January 2010. Article 2

This Decision shall apply with effect from 1 January 2010.
