THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 470/2009 of the European Parliament and of the Council of 6 May 2009 laying down Community procedures for the establishment of residue limits of pharmacologically active substances in foodstuffs of animal origin, repealing Council Regulation (EEC) No 2377/90 and amending Directive 2001/82/EC of the European Parliament and of the Council and Regulation (EC) No 726/2004 of the European Parliament and of the Council ⁽¹⁾, and in particular Article 14 in conjunction with Article 17 thereof,

Having regard to the opinion of the European Medicines Agency formulated by the Committee for Medicinal Products for Veterinary Use,

Whereas:

(1) The maximum residue limit for pharmacologically active substances intended for use in the European Union in veterinary medicinal products for food-producing animals or in biocidal products used in animal husbandry should be established in accordance with Regulation (EC) No 470/2009.

(2) Pharmacologically active substances and their classification regarding maximum residue limits in foodstuffs of animal origin are set out in the Annex to Commission Regulation (EU) No 37/2010 of 22 December 2009 on pharmacologically active substances and their classification regarding maximum residue limits in foodstuffs of animal origin ⁽²⁾.

(3) An application for the establishment of maximum residue limits (hereinafter 'MRL') for derquantel in ovine species has been submitted to the European Medicines Agency.

(4) The Committee for Medicinal Products for Veterinary Use recommended establishing MRLs for derquantel for ovine species, applicable to muscle, fat, liver and kidney, excluding animals producing milk for human consumption.

(5) Table 1 of the Annex to Regulation (EU) No 37/2010 should therefore be amended to include MRLs for the substance derquantel for ovine species.

COMMISSION REGULATION (EU) No 891/2010**of 8 October 2010****concerning the authorisation of a new use of 6-phytase as a feed additive for turkeys (holder of authorisation Roal Oy)****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation.
- (2) In accordance with Article 7 of Regulation (EC) No 1831/2003, an application was submitted for the authorisation of the preparation set out in the Annex to this Regulation. That application was accompanied by the particulars and documents required pursuant to Article 7(3) of Regulation (EC) No 1831/2003.
- (3) The application concerns the authorisation of a new use of the enzyme preparation 6-phytase (EC 3.1.3.26) produced by *Trichoderma reesei* (CBS 122001) as a feed additive for turkeys, to be classified in the additive category 'zootechnical additives'.
- (4) The use of 6-phytase (EC 3.1.3.26) has been authorised for poultry for fattening and breeding other than turkeys for fattening, for poultry for laying and for pigs other than sows by Commission Regulation (EU) No 277/2010⁽²⁾.

- (5) New data were submitted to support the application. The European Food Safety Authority ('the Authority') concluded in its opinion of 10 March 2010⁽³⁾ that 6-phytase (EC 3.1.3.26), under the proposed conditions of use, does not have an adverse effect on animal health, human health or the environment, and that its use can improve the performance of the animals. The Authority does not consider that there is a need for specific requirements of post-market monitoring. It also verified the report on the method of analysis of the feed additive in feed submitted by the Community Reference Laboratory set up by Regulation (EC) No 1831/2003.
- (6) The assessment of 6-phytase (EC 3.1.3.26) shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of this preparation should be authorised as specified in the Annex to this Regulation.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

The preparation specified in the Annex, belonging to the additive category 'zootechnical additives' and to the functional group 'digestibility enhancers', is authorised as an additive in animal nutrition, subject to the conditions laid down in that Annex.

Article 2

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EU) No 892/2010**of 8 October 2010****on the status of certain products with regard to feed additives within the scope of Regulation (EC) No 1831/2003 of the European Parliament and of the Council****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Article 2(3) thereof,

Whereas:

- (1) For certain substances, micro-organisms or preparations, referred to as products, there is uncertainty whether they are feed additives. This uncertainty concerns some products which are authorised as feed additives included in the Register of feed additives and also included in the Catalogue of feed materials provided for in Article 24 of Regulation (EC) No 767/2009 of the European Parliament and of the Council of 13 July 2009 on the placing on the market and use of feed, amending European Parliament and Council Regulation (EC) No 1831/2003 and repealing Council Directive 79/373/EEC, Commission Directive 80/511/EEC, Council Directives 82/471/EEC, 83/228/EEC, 93/74/EEC, 93/113/EC and 96/25/EC and Commission Decision 2004/217/EC ⁽²⁾, some products which are neither authorised as feed additives nor included in the Catalogue of feed materials and some products which are authorised as feed additives, but could be included in the Catalogue of feed materials in accordance with the conditions laid down in Regulation (EC) No 767/2009.
- (2) To avoid inconsistencies in the treatment of such products, to facilitate the work of the national competent control authorities and to lighten the burden of the interested parties, as regards certain products it is necessary to adopt a Regulation determining those products that are not feed additives.
- (3) For that determination all the characteristics of the products concerned have to be taken into account.
- (4) From a comparison between the characteristics of the products included in the Register of feed additives on

the one hand and of the products mentioned in the Catalogue of feed materials on the other hand, several criteria may be derived for the classification of products as feed material, feed additive or other products. Useful criteria for this differentiation are amongst others the production and processing method, the level of standardisation, the homogenisation, the purity, the chemical definition and the mode of use of the products. For the sake of consistency, products with similar properties should be classified by analogy. For products for which there were doubts whether they were feed additives, an examination has been carried out taking into account these criteria.

- (5) Based on that examination, the products set out in the Annex should not be considered as feed additives within the scope of Regulation (EC) No 1831/2003.
- (6) As regards the labelling of the products which were authorised as feed additives and the labelling of feed materials and compound feed containing those products, a transitional period should be provided to allow feed business operators to adapt. Furthermore those products should be deleted from the Register of feed additives.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

The substances, micro-organisms and preparations (referred to as 'products'), as set out in the Annex, are not feed additives within the scope of Regulation (EC) No 1831/2003.

Article 2

The products listed under Part 1 of the Annex shall no longer be considered as authorised feed additives within the scope of Regulation (EC) No 1831/2003.

⁽¹⁾ OJ L 268, 18.10.2003, p. 29.

⁽²⁾ OJ L 229, 1.9.2009, p. 1.

Article 3

Products set out in Part 1 of the Annex which are labelled as feed additives and pre-mixtures in accordance with Regulation (EC) No 1831/2003 may continue to be placed on the market until 9 October 2013 and remain on the market until stocks are exhausted. The same applies to feed materials or compound

feed which refer to these products in their labelling as feed additives in accordance with Regulation (EC) No 767/2009.

Article 4

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EU) No 893/2010

of 8 October 2010

amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for acequinocyl, bentazone, carbendazim, cyfluthrin, fenamidone, fenazaquin, flonicamid, flutriafol, imidacloprid, ioxynil, metconazole, prothioconazole, tebufenozide and thiophanate-methyl in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a) thereof,

Whereas:

- (1) For bentazone, carbendazim, cyfluthrin, fenamidone, ioxynil, and thiophanate-methyl maximum residue levels (MRLs) were set in Annex II and Part B of Annex III to Regulation (EC) No 396/2005. For acequinocyl, fenazaquin, flonicamid, Flutriafol, imidacloprid, metconazole, prothioconazole, and tebufenozide, MRLs were set in Part A of Annex III to Regulation (EC) No 396/2005.
- (2) In the context of a procedure, in accordance with Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market ⁽²⁾, for the authorisation of the use of a plant protection product containing the active substance bentazone on sweet corn an application was made under Article 6(1) of Regulation (EC) No 396/2005 for modification of the existing MRLs.
- (3) As regards acequinocyl, such an application was made for the use on oranges, mandarins, peaches, grapes, tomatoes and aubergines. As regards carbendazim, such an application was made for the use on lemon, limes and mandarins. As regards cyfluthrin, such an application was made for the use on courgettes, gherkins, beans with pods, peas with pods and potatoes. As regards fenamidone, such an application was made for the use on strawberries and cucurbits. As regards fenazaquin, such an application was made for the use on tea. As regards flonicamid, such an application was made for the use on citrus fruit, cherries, peppers, aubergines and peas without pods. As regards flutriafol, such an application was made for the use on apples, bananas and wine grapes. As regards imidacloprid, such an application was made for the use on rice. As regards ioxynil, such an application was made for the use on chives. As regards metconazole, such an application was made for

the use on cherries, peaches, apricots, cotton seed, wheat and sugar beet. As regards prothioconazole, such an application was made for the use on broccoli and cauliflower. As regards tebufenozide, such an application was made for the use on rice. As regards thiophanate-methyl, such an application was made for the use on grapefruit, orange, lemon, limes and mandarins.

- (4) In accordance with Article 8 of Regulation (EC) No 396/2005, these applications were evaluated by the Member States concerned and the evaluation reports were forwarded to the Commission.
- (5) The European Food Safety Authority, hereinafter 'the Authority', assessed the applications and the evaluation reports, examining in particular the risks to the consumer and where relevant to animals and gave reasoned opinions on the proposed MRLs ⁽³⁾. It forwarded these opinions to the Commission and the Member States and made them available to the public.
- (6) The Authority concluded in its reasoned opinions that all requirements with respect to data were met and that the modifications to the MRLs requested by the applicants were acceptable with regard to consumer safety on the basis of a consumer exposure assessment for 27 specific European consumer groups. It took into account the most recent information on the toxicological properties of the substances. Neither the lifetime exposure to these substances via consumption of all food products that may contain these substances, nor the short term exposure due to extreme consumption of the relevant crops showed that there is a risk that the acceptable daily intake (ADI) or the acute reference dose (ARfD) is exceeded.
- (7) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (8) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health and neither the European Parliament nor the Council has opposed them,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

COMMISSION REGULATION (EU) No 894/2010**of 8 October 2010**

amending Regulation (EC) No 815/2008 on a derogation from Regulation (EEC) No 2454/93 in respect of the definition of the concept of originating products used for the purposes of the scheme of generalised preferences to take account of the special situation of Cape Verde regarding exports of certain fisheries products to the Community

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code ⁽¹⁾, and in particular Article 247 thereof,

Having regard to Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code ⁽²⁾, and in particular Article 76 thereof,

Whereas:

- (1) By Commission Regulation (EC) No 815/2008 ⁽³⁾ Cape Verde was granted a derogation from the rules of origin laid down in Regulation (EEC) No 2454/93 allowing it to consider as originating in Cape Verde certain fishery products produced in Cape Verde from non-originating fish. That derogation is due to expire on 31 December 2010.
- (2) By letter dated 21 December 2009 Cape Verde submitted a request for an increase in the quantities granted for 2010 in respect of two of the three categories of fishery products covered by Regulation (EC) No 815/2008. By letter dated 8 June 2010, it submitted complementary information in support of this request.
- (3) The request set out that the originally granted total quantities for 2010 should respectively be increased to 3 600 tonnes for prepared or preserved mackerel fillets and 1 500 tonnes for prepared or preserved frigate tuna or frigate mackerel.
- (4) The total annual quantities originally granted have contributed, in 2008 and 2009, to a significant extent to the improvement of the situation in the fishery

processing sector and, to a certain extent, to the revitalisation of Cape Verde's artisanal fleet, which is of vital importance for that country. However, it appears that the completion of the envisaged revitalisation of the Cape Verdean fleet to the planned levels was affected by certain economic and geographical circumstances and thus further investments are needed.

- (5) The request demonstrates that in the absence of an increase of the quantities that may be traded under the derogation, the ability of the Cape Verdean fishing processing industry to continue its export to the European Union would be significantly affected, which might deter the further necessary investments.
- (6) An increase of the quantities of goods that may be traded under the derogation is therefore required to ensure that the revitalisation efforts of the local fishing fleet continue and thus improve its ability to supply the local fishery processing sector with originating fish.
- (7) The existing quotas are expected to be exhausted for the two categories of products concerned far before the end of 2010, which further justifies the need for an increase in the quantities granted for 2010. However, it does not appear appropriate to fully meet the amounts requested. In particular, account should be taken of the fact that there are already significant sourcing possibilities in originating fish as supplies from local vessels and bilateral cumulation can be used.
- (8) The quantities of the derogation for 2010 should therefore be raised to 2 500 tonnes for prepared or preserved mackerel fillets and to 875 tonnes for prepared or preserved frigate tuna or frigate mackerel fillets, which quantities are considered to be sufficient to allow the processing industry of Cape Verde to continue its exports to the European Union and support the efforts of the local authorities in ensuring that the revitalisation efforts of the local fishing fleet continue successfully.
- (9) Regulation (EC) No 815/2008 should therefore be amended accordingly.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Customs Code Committee,
