REGULATIONS

COMMISSION REGULATION (EU) No 559/2011

of 7 June 2011

amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for captan, carbendazim, cyromazine, ethephon, fenamiphos, thiophanate-methyl, triasulfuron and triticonazole in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005⁽¹⁾ of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For captan, carbendazim, cyromazine, ethephon, fenamiphos, thiophanate-methyl, triasulfuron and triticonazole maximum residue levels (MRLs) are set in Annex II and Part B of Annex III to Regulation (EC) No 396/2005.
- (2) For captan the Commission was informed that uses on celery, spinach, and parsley were revoked and thus the corresponding MRLs could be reduced without requiring the opinion of the European Food Safety Authority, hereinafter 'the Authority', in accordance with Article 17 of Regulation (EC) No 396/2005.
- (3) For cyromazine an evaluation by the Authority⁽²⁾ indicated that the MRL for lettuce may raise concerns of consumer protection. The Authority recommended lowering that MRL. These concerns also apply to scarole.

- (4) On the basis of additional data submitted by South Africa and Germany, the Authority further refined its earlier evaluation of the consumer exposure for carbendazim⁽³⁾ and thiophanate-methyl⁽⁴⁾. It concluded that it is necessary to lower the MRLs as regards carbendazim for grapefruits, oranges, and tomatoes and as regards thiophanate-methyl for tomatoes.

- (5) For ethephon⁽⁵⁾, fenamiphos⁽⁶⁾, triasulfuron⁽⁷⁾ and triticonazole⁽⁸⁾, the Authority submitted reasoned opinions on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005. The Authority concluded that it is necessary to lower the MRLs as regards triasulfuron for barley, oats, rye, and wheat and as regards fenamiphos for tomatoes, aubergines, peppers, water melons, courgettes, Brussels sprouts, bananas, peanuts and oilseeds and to raise the MRL for grapes. As regards triticonazole, the Authority concluded that no MRL needs to be modified. It is appropriate to move the MRLs on new commodities for these four substances, temporarily set in Part B of Annex III to Regulation (EC) No 396/2005, to Annex II to that Regulation.

- (6) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.

- (7) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.

- (8) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States and interested parties to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (9) Annex II to Regulation (EC) No 396/2005 and Part B of Annex III to that Regulation should therefore be amended accordingly.
- (10) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been lawfully produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health and neither the European Parliament nor the Council has opposed them,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

- (1) Annex II is amended in accordance with the Annex to this Regulation.
- (2) In Part B of Annex III, the columns for ethephon, fenamiphos, triasulfuron and triticonazole are deleted.

Article 2

As regards the active substances and the products set out in the following list, Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were lawfully produced before 1 January 2012:

- (b) carbendazim and thiophanate-methyl: frozen, canned, preserved and processed products of grapefruits, oranges and tomatoes;

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2012.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 7 June 2011.

COMMISSION IMPLEMENTING REGULATION (EU) No 562/2011

of 10 June 2011

adopting the plan allocating to the Member States resources to be charged to the 2012 budget year for the supply of food from intervention stocks for the benefit of the most deprived persons in the European Union and derogating from certain provisions of Regulation (EU) No 807/2010

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) ⁽¹⁾, and in particular points (f) and (g) of Article 43, in conjunction with Article 4 thereof,

Having regard to Council Regulation (EC) No 2799/98 of 15 December 1998 establishing agrimonetary arrangements for the euro ⁽²⁾, and in particular Article 3(2) thereof,

Whereas:

- (1) In accordance with Article 2 of Commission Regulation (EU) No 807/2010 of 14 September 2010 laying down detailed rules for the supply of food from intervention stocks for the benefit of the most deprived persons in the Union ⁽³⁾, the Commission has to adopt a distribution plan to be financed from resources available in the 2012 budget year. That plan has to lay down, in particular, for each of the Member States applying the measure, the maximum financial resources available to carry out its part of the plan, and the quantity of each type of product to be withdrawn from the stocks held by the intervention agencies.
- (2) The Member States involved in the distribution plan for the 2012 budget year have supplied the Commission with the information required in accordance with Article 1 of Regulation (EU) No 807/2010.
- (3) For the purposes of resource allocation, account must be taken of experience and of the degree to which the Member States used the resources allocated to them in previous years.
- (4) Taking into account the fact that availability of intervention stocks for the supply of the scheme for food distribution to the most deprived persons is substantially reduced in relation to the previous year, it is appropriate that the 2012 annual plan is adopted as soon as the

Member States supplied the Commission with the information required in Article 1 of Regulation (EU) No 807/2010. The fast adoption aims to allow the Member States additional time to organize the implementation of the Union annual plan with a view to giving a chance to national authorities and charities to find alternative sources of food.

- (5) Article 4 of Regulation (EU) No 807/2010 provides that, where no rice is available in intervention stocks, the Commission may authorise the removal of cereals from the intervention stocks as payment for the supply of rice or rice products mobilised on the market. Accordingly, given that there are currently no intervention stocks of rice, the removal of cereals from intervention stocks as payment for mobilising rice products in the market should be authorised.
- (6) Article 8(1) of Regulation (EU) No 807/2010 provides for the transfer between Member States of products unavailable in the intervention stocks of the Member State in which such products are required to implement the annual distribution plan. Accordingly, the intra-Union transfers necessary to implement that plan for 2012 should be authorised, subject to the conditions laid down in Article 8 of Regulation (EU) No 807/2010.
- (7) Due to the current market situation in the cereals sector, which is marked by high market price levels, it is appropriate, in order to secure the Union's financial interests, to increase the security, which is to be lodged by the contractor undertaking the supply operation of cereals as provided for in Articles 4(3) and 8(4) of Regulation (EU) No 807/2010.
- (8) To implement the annual distribution plan, the operative event within the meaning of Article 3 of Regulation (EC) No 2799/98 should be the date on which the financial year for administration of stocks in public storage starts.
- (9) In accordance with Article 2(2) of Regulation (EU) No 807/2010, the Commission has consulted the major organisations familiar with the problems of the most deprived persons in the Union when drawing up the annual distribution plan.
- (10) The Management Committee for the Common Organisation of Agricultural Markets has not delivered an opinion within the time limit set by its Chair,

⁽²⁾ OJ L 349, 24.12.1998, p. 1.
