COMMISSION IMPLEMENTING REGULATION (EU) No 19/2014**of 10 January 2014****amending the Annex to Regulation (EU) No 37/2010 on pharmacologically active substances and their classification regarding maximum residue limits in foodstuffs of animal origin, as regards the substance chloroform****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 470/2009 of the European Parliament and of the Council of 6 May 2009 laying down Community procedures for the establishment of residue limits of pharmacologically active substances in foodstuffs of animal origin, repealing Council Regulation (EEC) No 2377/90 and amending Directive 2001/82/EC of the European Parliament and of the Council and Regulation (EC) No 726/2004 of the European Parliament and of the Council ⁽¹⁾, and in particular Article 14 in conjunction with Article 17 thereof,

Having regard to the opinion of the European Medicines Agency formulated by the Committee for Medicinal Products for Veterinary Use,

Whereas:

- (1) The maximum residue limit ('MRL') for pharmacologically active substances intended for use in the Union in veterinary medicinal products for food-producing animals or in biocidal products used in animal husbandry are established in accordance with Regulation (EC) No 470/2009.
- (2) Pharmacologically active substances and their classification regarding MRLs in foodstuffs of animal origin are set out in the Annex to Commission Regulation (EU) No 37/2010 ⁽²⁾.
- (3) Chloroform is currently included in Table 2 of the Annex to Regulation (EU) No 37/2010 as a prohibited substance.

(4) An application for the establishment of maximum residue limits for chloroform in all ruminants and porcine species has been submitted to the European Medicines Agency.

(5) The Committee for Medicinal Products for Veterinary Use ('CVMP') recommended that there is no need to establish an MRL for chloroform for all ruminants and porcine species.

(6) For the protection of human health it has to be ensured that consumer exposure to residues will remain below the acceptable daily intake, as specified in Article 6 of Regulation (EC) No 470/2009. Therefore, it is necessary to restrict the use of chloroform to excipients in vaccines and to limit the amount of the substance that can be administered.

(7) According to Article 5 of Regulation (EC) No 470/2009 the European Medicines Agency is to consider using MRLs established for a pharmacologically active substance in a particular foodstuff for another foodstuff derived from the same species, or MRLs established for a pharmacologically active substance in one or more species for another species. The CVMP recommended the extrapolation of the absence of the need to establish a MRL for chloroform from all ruminants and porcine species to all mammalian food producing species.

(8) Table 1 of the Annex to Regulation (EU) No 37/2010 should be amended to include the substance chloroform for all mammalian food producing species, while establishing the absence of the need to establish a MRL, and the entry for chloroform in Table 2 of that Annex should be deleted.

(9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Veterinary Medicinal Products,

The Annex to Regulation (EU) No 37/2010 is amended as set out in the Annex to this Regulation.

DECISIONS

COMMISSION IMPLEMENTING DECISION

of 10 October 2013

amending Decision 2010/372/EU on the use of controlled substances as process agents under Article 8(4) of Regulation (EC) No 1005/2009 of the European Parliament and of the Council

*(notified under document C(2013) 6517)***(Only the Dutch, French, German, Italian, Polish and Portuguese texts are authentic)**

(2014/8/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1005/2009 of the European Parliament and of the Council of 16 September 2009 on substances that deplete the ozone layer⁽¹⁾, and in particular Article 8(4) thereof,

Whereas:

- (1) In view of the responsibilities of the Union under Decision X/14 and subsequent decisions of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer, Article 8(4) of Regulation (EC) No 1005/2009 limits the use of controlled substances as process agents to 1 083 metric tonnes per year and limits the emissions from process agent uses to 17 metric tonnes per year.
- (2) Commission Decision 2010/372/EU⁽²⁾ establishes a list of undertakings for which the use of controlled substances as process agents shall be permitted and sets the maximum quantities that may be used for make-up and emitted for each of the undertakings concerned.
- (3) Since 2010, two undertakings (Anwil SA and CUF Químicos Industriais SA) have stopped using controlled substances as process agents. Another undertaking (Arkema France SA) has informed the French competent authorities that there were major and manifest errors in the emissions data it reported to the Commission for 2007, 2008, 2009, 2010 and 2011, with the result that its annual emissions were significantly underestimated. This data was used by the Commission as the basis for the calculation of the undertaking's limit as set out in the Annex to Decision 2010/372/EU, which lists the undertakings and the maximum quantities that may be emitted annually by each undertaking. The French competent authorities have investigated this claim and have found that such

manifest errors in the reported data indeed exist. These errors in the reported data appear to be unintentional, and resulted in a limit being set for the undertaking that was significantly below the limit that would otherwise have been set had annual emissions been correctly reported. The undertaking's limit as set out in the Annex to Decision 2010/372/EU does not therefore correctly reflect its historical annual emissions and should be corrected.

- (4) The Annex to Decision 2010/372/EU should therefore be amended.
- (5) It should also be clarified that transfers of make-up quota between different substances and uses are also possible within the same undertaking.
- (6) Decision 2010/372/EU should therefore be amended accordingly.
- (7) Decision 2010/372/EU is not limited in time and it may be appropriate to review it, and in particular its Annex, in the light of future technical developments.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Committee established by Article 25(1) of Regulation (EC) No 1005/2009,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2010/372/EU is amended as follows:

- (1) in Article 3, the first sentence is replaced by the following:

‘An undertaking may fully or partially transfer its make-up quota allocated for an existing installation outlined in the Annex, regardless of the substance or use the quantity was allocated for, to another undertaking listed in the Annex or within the same undertaking to another substance and use listed in the Annex for that undertaking.’;

⁽²⁾ OJ L 169, 3.7.2010, p. 17.
