Remarks

Former Item 01 04 09 01

This item is intended to cover the financing of the provision of paid-up shares of the capital subscribed by the Union.

The European Investment Fund (EIF) was created in 1994. Its founder members were the European Community, represented by the Commission, the European Investment Bank (EIB) and a number of financial institutions. Union membership of the EIF is presently governed by Decision 94/375/EC.

In the conclusions of the European Council of 19/20 December 2013, the European Council calls on the Commission and the EIB to further enhance the EIF capacity through an increase in its capital with a view to reaching final agreement by May 2014.

An equity facility for growth (EFG) shall allow investments in risk capital funds which invest in SMEs in the expansion and growth stage, and in particular in those operating cross-borders. The possibility shall exist to invest in early stage funds in conjunction with the equity facility for RDI under Horizon 2020. In cases of joint investments in multi-stage funds, investments will be provided on a pro-rata basis from the EFG of Cosme and the equity facility for RDI under Horizon 2020. Support from the EFG shall be (a) either directly by the European Investment Fund (EIF) or other entities entrusted with the implementation on behalf of the Commission or (b) by funds-of-funds or investment vehicles investing across borders.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6341 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Articles 21(3)(i) of the Financial Regulation.

CHAPTER 02 04 — HORIZON 2020 — RESEARCH RELATING TO ENTERPRISES (*cont'd*)*Remarks*

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for the Horizon 2020 — the Framework Programme for Research and Innovation which covers the 2014 to 2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding. It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

CHAPTER 02 04 — HORIZON 2020 — RESEARCH RELATING TO ENTERPRISES (*cont'd*)

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 02 04 50 01.

Administrative appropriations of this chapter will be provided under Chapter 02 01 05.

02 04 03 Societal challenges*Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

*Remarks**New item*

The aim of this appropriation is to:

- support Union policies for internal and external security, whilst at the same time improving the competitiveness and technology base of the Union's security industry and to stimulate cooperation between providers and users of security solutions. Activities will target the development of innovative technologies and solutions that address security gaps and lead to the prevention of security threats. The focus of activities shall be to fight crime and terrorism, including critical infrastructure protection; strengthen security through border management; increase Europe's resilience to crises and disasters whilst protecting personal data and fundamental human rights,
- support the strengthening of the evidence base and support for the Innovation Union and ERA which are needed to foster the development of innovative societies and policies in Europe through the engagement of citizens, enterprises and users in research and innovation and the promotion of coordinated research and innovation policies in the context of globalisation.

New article

This appropriation is intended to finance the participation of the Union at the universal Expo ‘Feeding the Planet: Energy for Life’, to be held in Milan in 2015.

The appropriations are intended to cover the baseline costs for the Union participation within the Italian Pavilion (rental of space, stand erection and decoration, running costs) as well as for the preparatory and initial stages of a basic scientific programme for the EXPO 2015 involving the compilation of baseline data for policy support purposes. The cost of organising specific or thematic events and exhibitions (e.g. reimbursement of expert costs, exhibition materials, etc.) will be covered by appropriations of the relevant specific programmes according to the policy area concerned.

Remarks

This appropriation is intended to cover other administrative expenditure for all management of research and innovation programmes — Horizon 2020, in indirect action under the non-nuclear programmes, including other administrative expenditure incurred by staff posted in Union delegations.

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures coming under this item and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

It is also intended to cover expenditure on technical and administrative assistance relating to the identification, preparation, management, monitoring, audit and supervision of the programme or projects, such as conferences, workshops, seminars, development and maintenance of IT systems, missions, trainings and representation expenses.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

Horizon 2020 is the Union's new funding programme for research and innovation. It covers the period between 2014 and 2020 and brings together all existing Union research and innovation funding, including the Framework Programme for Research, the innovation related activities of the Competitiveness and Innovation Framework Programme and the European Institute of Innovation and Technology (EIT). The Euratom Research and Training Programme (2014-2018), based on the Euratom Treaty, is also an integral part of Horizon 2020. Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

This appropriation will be used in accordance with the Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

CHAPTER 08 02 — HORIZON 2020 — RESEARCH (*cont'd*)

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

08 02 02 Industrial leadership*Remarks*

This priority of Horizon 2020 aims to make the Union a more attractive location to invest in research and innovation, by promoting activities where businesses set the agenda as well as at accelerating the development of new technologies which will underpin future businesses and economic growth. It will provide major investment in key industrial technologies, maximise the growth potential of Union companies by providing them with adequate levels of finance and help innovative SMEs to grow into world-leading companies.

08 02 02 02 Enhancing access to risk finance for investing in research and innovation

*Remarks**New item*

Access to risk finance activity will set up two financial facilities, namely a debt facility and an equity facility, in order to help remedy the current market deficiencies in accessing risk finance for research and innovation. The goal of the debt facility is to improve access to debt financing for public and private entities and public-private partnerships engaged in research and innovation activities requiring riskier investments. The goal of the equity facility is in particular to contribute to overcoming the deficiencies of the European venture capital market and provide equity and quasi-equity to cover the development and financing needs of innovating enterprises from the early stage (including seed stage and technology transfer), so that they can grow and expand. In addition to these financial facilities to be implemented in complementarity with Cosme's facilities as far as support to SMEs is concerned, a set of accompanying measures, such as support to investment-readiness schemes, will be provided.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Articles 21(3)(i) of the Financial Regulation.

08 02 03 *Societal challenges**Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

*Remarks**New item*

This activity will focus on developing more sustainable and productive agriculture and forestry systems, while at the same time developing services, concepts and policies for thriving rural livelihoods. In addition, emphasis will be placed on healthy and safe foods for all as well as competitive food processing methods that use fewer resources and produce fewer by-products. In parallel, efforts will be made on sustainably exploiting aquatic living resources (e.g. sustainable and environmentally friendly fisheries). Low carbon, resource efficient, sustainable and competitive European bio-based industries will also be promoted.

Part of the appropriations will be used to fund a project on Aquaponics for sustainable, smart and inclusive growth.

Aquaponics is considered a new revolution in food production. Aquaponics is a sustainable food production model, based on the basic principle of organic farming, which combines hydroponics (growing plants in sand, gravel or water) and aquaculture (fish farming). The idea is to combine these two techniques into a single system, so as to reinforce the positive effects of each technique and cancel each other's negative ones.

CHAPTER 08 02 — HORIZON 2020 — RESEARCH (*cont'd*)**08 02 03** (*cont'd*)08 02 03 02 (*cont'd*)

The major benefits of aquaponics are:

- water recycling and reuse,
- high productivity (measured in terms of quantity/space),
- small environmental footprint.

There are several aquaponics production systems to produce plants and fish. All systems operate on the same principles, however, they are extremely flexible in both their opportunities and in their design. The main challenge is to find the right balance between the fish population, the nutrients brought, the bacterial population and food produced. Research and development is needed to further find this right balance.

Still marginal in Europe, the potential of this culture system has already convinced many countries. Aquaponics is gaining popularity because of its benefits. More and more people are beginning to realise the immense potential of this technique. Entrepreneurs, innovators and producers are getting into aquaponics.

This food production technique can bring several benefits: strengthen the local food systems, addressing the issue of health and food safety; create employment opportunities, reduce the environmental impact, reduce dependence on imports, provide education and training, to stimulate industry, reducing the carbon footprint.

The project is fully in line with the aim of the Europe 2020 strategy. It intends to contribute to a sustainable, smart and inclusive growth in Union and international development context.

The overall objective is to facilitate the emergence of an innovative, resource efficient and more competitive food production system that combines food security and the sustainable use of resources while ensuring environmental protection.

As part of its efforts to improve food security the Union promotes aquaculture as a means to increase food availability, access to food, jobs and income, including within Horizon 2020. Aquaponics is one of the sustainable ways to achieve this.

Research and innovation in aquaponics at the Union level will support the development of a new industrial sector, opening prospects for new business, associations of actors in the aquaculture and horticultural sectors and the creation of dynamic short circuits in rural and urban areas. In addition aquaponics can contribute to strengthening and transforming communities (e.g. neighbourhoods, hospitals, prisons, nursing homes) and be a catalyst for social innovation.

Further research and innovation in this field may enable Europe to play an important role in the global bio-economy. It can make Europe more present on the international scene with regards to innovative, sustainable and competitive food production systems.

CHAPTER 08 02 — HORIZON 2020 — RESEARCH (*cont'd*)

08 02 03 (*cont'd*)

08 02 03 02 (*cont'd*)

This project is based on a multidimensional approach that takes into account:

- the need to ensure the health and safety of food products through ecological agriculture and increasing aquaculture production,
- the inclusion of nutrition,
- the need for economy of resources (e.g. water, energy, land, capital) and improvements in the use of water, energy and space,
- protecting the environment,
- the importance of market development,
- the organisational and social innovation,
- utility organisations' and companies' social and solidarity economy,
- social inclusion and education,
- the need for creating new skills and new jobs with the aim of modernising labour markets,
- the strengthening of governance (i.e. strengthening the participation of stakeholders in decision-making),
- the importance attached by the Union to territorial cohesion and integrated territorial approach,
- a European context marked by the emergence of a policy of sustainable cities,
- the importance attached by the Union to develop an economy based on knowledge.

The project aims at being cross-regional, multi-disciplinary and cross-disciplinary. Activities shall include:

- making an inventory of technologies and organisational models that use aquaponics. The existing information on aquaponics is very scattered and it is therefore necessary to identify the actors, their expertise and mission,
- creating a 'Community of Practice' that pools within a network the expertise and resources in this field and implement a dynamic exchange, sharing and capitalisation of resource. The creation of a community (Technology Platform) including research, scientific, professional and business community and the operation of this network should be promoted.

CHAPTER 08 02 — HORIZON 2020 — RESEARCH (*cont'd*)**08 02 03** (*cont'd*)08 02 03 02 (*cont'd*)

Support should be provided for this Technology Platform to:

- identify areas of further need for research and innovation,
- coordinate the establishment of collaborative innovation pilot projects,
- increase knowledge transfer and disseminate innovations and best practices, expertise and lessons learned,
- ensure the creation and maintenance of a resources centre for dissemination of knowledge and results.

*Remarks**New item*

The aim of this activity is to contribute to making European societies more inclusive, innovative and reflective, by promoting smart, sustainable and inclusive growth. Actions will support coordinated policymaking through the development of evidence, tools, forward-looking activities and pilots to increase transnational efficiency and economic impact of research and innovation policies and achieve a well-functioning European Research Area and Innovation Union. Actions will also aim at closing the innovation divide, ensuring societal engagement in research and innovation, promoting coherent and effective cooperation with third countries and developing an understanding of Europe's intellectual basis: its history and the many European and non-European influences; as an inspiration for our lives today.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services – CESES – and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, EU authorising officers are encouraged to make full use of the possibilities offered by the new Financial Regulation, including CESES contributions in kind to EU projects.

The aim is to fully exploit the potential of Europe's talent pool and to ensure that the benefits of an innovation-led economy are both maximised and widely distributed across the Union in accordance with the principle of excellence. By nurturing and connecting pools of excellence, the activities proposed will contribute to strengthening the European Research Area. The activities will focus on: teaming of excellent research institutions and low performing RDI regions aiming at the creation of new (or significant upgrade of existing) centres of excellence in low performing RDI Member States and regions, twinning of research institutions, establishing 'ERA Chairs', a Policy Support Facility (PSF) to improve the design, implementation, and evaluation of national/regional research and innovation policies, supporting access to international networks for excellent researchers and innovators who lack sufficient involvement in European and international networks and strengthening the administrative and operational capacity of transnational networks of National Contact Points, including through training.

Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — the Framework Programme for Research and Innovation, which covers the 2014-2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative 'Innovation Union' and other flagship initiatives, notably 'Resource efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of the Union and ensuring optimum use thereof.

CHAPTER 09 04 — HORIZON 2020 (*cont'd*)

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in 'Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European Cooperation in the field of Scientific and Technical Research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 09 04 50 01.

Administrative appropriations of this chapter will be provided under Article 09 01 05.

COMMISSION

CHAPTER 09 04 — HORIZON 2020 (*cont'd*)09 04 01 *Excellent science**Remarks*

This priority of Horizon 2020 aims to reinforce and extend excellence in the Union's science base and ensure a steady stream of world-class research to secure the Union's long-term competitiveness. It will support the best ideas, develop talent within the Union, provide researchers with access to priority research infrastructure, and make the Union an attractive location for the world's best researchers. Research actions to be funded will be determined according to the need and opportunities of science, without pre-determined thematic priorities. The research agenda will be set in close liaison with the scientific community and research will be funded on the basis of excellence.

*Remarks**New item*

The specific objective is to foster radically new technologies by exploring novel and high-risk ideas building on scientific foundations. By providing flexible support to goal-oriented and interdisciplinary collaborative research on various scales and by adopting innovative research practices, the aim is to identify and seize opportunities of long-term benefit for citizens, the economy and society.

Activities under the 'Future and Emerging Technologies' specific objective shall address the entire spectrum of science-driven innovation: from bottom-up, small scale early explorations of embryonic and fragile ideas to building new research and innovation communities around transformative emerging research areas and large and federated research initiatives built around a research agenda aiming to achieve ambitious and visionary goals.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

09 04 03 ***Societal challenges****Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

*Remarks**New item*

The specific objective is to foster inclusive, innovative and reflective European societies in a context of unprecedented transformations and growing global interdependencies.

Activities will cover four main areas: ICT-enabled public sector innovation, understanding and preserving Europe's intellectual basis, learning and inclusion.

ICT-enabled public sector innovation refers to the use of ICT for the creation and implementation of new processes, products, services and methods of delivery which result in significant improvements in the efficiency, effectiveness and quality of public services. The future public administrations should be digital and cross-border by default. Activities cover fostering efficient, open and citizen-centric public services, involving the public sector as an agent for innovation and change as well as cross-border innovation measures or seamless delivery of public services.

The aim of the second challenge is 'to contribute to an understanding of Europe's intellectual basis: its history and the many European and non-European influences; as an inspiration for our lives today'.

COMMISSION

CHAPTER 09 04 — HORIZON 2020 (*cont'd*)**09 04 03** (*cont'd*)09 04 03 02 (*cont'd*)

The aim of the third challenge is to support the widespread adoption of ICT in schools and for training in Europe.

The fourth challenge is to get the elderly (aged 65 and above), the unemployed and low educated, migrants, people in need of care, people living in remote or poorer areas, persons with disabilities, and homeless to fully participate in society. Activities focus on empowering them with the necessary digital skills and providing them with access to digital technologies.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

Remarks

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 1, 6 2 2 4 and 6 2 2 5 of the statement of revenue may give rise to the provision of additional appropriations. Such revenue will be used to cover, inter alia, expenditure incurred on staff and resources in respect of work for third parties carried out by the Joint Research Centre.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 0 1 3 and 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations.

CHAPTER 10 01 — ADMINISTRATIVE EXPENDITURE OF THE ‘DIRECT RESEARCH’ POLICY AREA *(cont’d)***10 01 05** *(cont’d)*

The appropriations could be supplemented by appropriations that the Joint Research Centre will earn by participating on a competitive basis in indirect actions and in scientific and technical activities in support of Union policies. The activities of a competitive nature conducted by the JRC shall consist of:

- activities carried out following grant or procurement procedures,
- activities on behalf of third parties,
- activities undertaken under an administrative agreement with other institutions or other Commission departments for the provision of technical-scientific services.

2013 appropriations from items in Article 10 01 05 automatically carried forward to 2014 will be booked onto the three Horizon 2020 items in this Article.
