REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) No 834/2014**of 22 July 2014****laying down rules for the application of the common monitoring and evaluation framework of the common agricultural policy**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1306/2013 of 17 December 2013 of the European Parliament and of the Council on the financing, management and monitoring of the common agricultural policy and repealing Council Regulations (EEC) No 352/78, (EC) No 165/94, (EC) No 2799/98, (EC) No 814/2000, (EC) No 1290/2005 and (EC) No 485/2008 ⁽¹⁾, and in particular Article 110(2) and (4) thereof,

Whereas:

- (1) Regulation (EU) No 1306/2013 provides for a common monitoring and evaluation framework for measuring the performance of the common agricultural policy (CAP). For the application of that framework, rules need to be laid down which ensure a comprehensive and regular assessment of the progress, effectiveness and efficiency of the CAP against objectives. In order to allow Member States and the Commission to put in place a consistent monitoring and evaluation framework, a set of common indicators as referred to in Article 110(2) of Regulation (EU) No 1306/2013 should be laid down.
- (2) Those indicators should be linked to the structure and objectives of the CAP and be based on measurable elements. Therefore, different types of indicators should be laid down in order to allow for the assessment of the CAP at all levels. Impact indicators should reflect the common main objectives of the CAP as set out in Article 110(2) of Regulation (EU) No 1306/2013. For each of those common main objectives more specific objectives can be identified, for which result indicators need to be laid down. Those specific objectives include farm income and farm income variability, improvement of the competitiveness of the agricultural sector, market stability, consumer expectations, provision of public goods and environmental preservation, climate change mitigation and adaptation and maintenance of a diverse agriculture, as well as the specific objectives defined for the European Agricultural Fund for Rural Development (EAFRD), namely the Union priorities for rural development. In addition, the practical implementation of the CAP instruments should be monitored on the basis of output indicators that are able to reflect this operational level of the CAP.
- (3) It is important to ensure that the monitoring and evaluation framework can be used by Member States and the Commission efficiently and at the appropriate time. It should therefore be provided that Member States send the information necessary for the monitoring and evaluation of the CAP within the deadlines set by the relevant Regulations. With a view to avoiding any undue administrative burden, the Commission should, to the extent possible, use information already made available to it,
- (4) The measures provided for in this Regulation are in accordance with the opinion of the Committee on the Agricultural Funds,

⁽¹⁾ OJ L 347, 20.12.2013, p. 549.

HAS ADOPTED THIS REGULATION:

Article 1

Indicators

The indicators allowing for the assessment of the progress, effectiveness and efficiency of the common agricultural policy (CAP) against its objectives as referred to in Article 110(2) of Regulation (EU) No 1306/2013 shall be measurable. Those indicators shall include:

- (a) impact indicators, as specified in Section 1 of the Annex to this Regulation, reflecting the areas where the CAP is expected to have an influence;

- (c) output indicators, as specified in Section 3 of the Annex to this Regulation, reflecting the implementation of related CAP instruments;
- (d) context indicators, as referred to in Section 4 of the Annex to this Regulation, reflecting relevant aspects of the general contextual trends that are likely to have an influence on the implementation, achievements and performance of the CAP.

Result indicators, output indicators and context indicators relevant for the monitoring and evaluation of the European Agricultural Fund for Rural Development (EAFRD) shall be as set out in Commission Implementing Regulation (EU) No 808/2014. ⁽⁴⁾.

COMMISSION IMPLEMENTING REGULATION (EU) No 836/2014**of 31 July 2014****amending Regulation (EC) No 889/2008 laying down detailed rules for the implementation of Council Regulation (EC) No 834/2007 on organic production and labelling of organic products with regard to organic production, labelling and control**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 834/2007 of 28 June 2007 on organic production and labelling of organic products and repealing Regulation (EEC) No 2092/91 ⁽¹⁾, and in particular Article 22(1) thereof,

Whereas:

- (1) Article 42 of Commission Regulation (EC) No 889/2008 ⁽²⁾ allows exceptionally, until 31 December 2014, under certain conditions and when organically reared pullets are not available, for non-organically reared pullets for egg production of not more than 18 weeks to be brought into an organic livestock unit.
- (2) The development of harmonised organic production rules for young poultry at Union level is complex, as views on technical requirements vary widely. In order to allow more time to establish detailed rules for the production of organic pullets, the exceptional provision for using non-organic pullets should be extended for three years.
- (3) Article 43 of Regulation (EC) No 889/2008 allows exceptionally, for calendar years 2012, 2013 and 2014, for a maximum of 5 % of non-organic protein feed to be used for porcine and poultry species.
- (4) Organic protein supply has not been available in sufficient quality and quantity on the Union market to meet the nutritional requirements of pigs and poultry raised on organic farms. The production of organic protein crops is still lagging behind demand. It is therefore appropriate to extend the exceptional possibility of using a limited proportion of non-organic protein feed for a limited time period.
- (5) Regulation (EC) No 889/2008 should therefore be amended accordingly.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the regulatory committee on organic production,

HAS ADOPTED THIS REGULATION:

Article 1

Amendment of Regulation (EC) No 889/2008

Regulation (EC) No 889/2008 is amended as follows:

- (1) In Article 42(b), the date ‘31 December 2014’ is replaced by the date ‘31 December 2017’.
- (2) In Article 43, the second subparagraph is replaced by the following:

‘The maximum percentage of non-organic protein feed authorised per period of 12 months for those species shall be 5 % for calendar years 2015, 2016 and 2017.’
