DECISIONS

DECISION (EU) 2015/601 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**of 15 April 2015****providing macro-financial assistance to Ukraine**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 212 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure ⁽¹⁾,

Whereas:

- (1) Relations between the European Union and Ukraine are developing within the framework of the European Neighbourhood Policy (ENP) and the Eastern Partnership. The Association Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Ukraine, of the other part ⁽²⁾ ('the Association Agreement'), including a Deep and Comprehensive Free Trade Area (DCFTA), was negotiated from 2007 to 2011. It was initialled in 2012, signed by Ukraine on 21 March 2014 and by the Union on 27 June 2014. Since 1 November 2014, important parts of the Association Agreement have been provisionally applied in the areas of the respect for human rights, fundamental freedoms and rule of law, political dialogue and reform, justice, freedom and security, and economic and financial cooperation.
- (2) Following the reinstatement of the Ukrainian Constitution of 2004, presidential as well as parliamentary elections were successfully held on 25 May 2014 and 26 October 2014, respectively. After the formation of a new government on 2 December 2014 reflecting the outcome of the parliamentary elections, Ukraine has reconfirmed its commitment to political and economic reforms in line with the framework provided by the Association Agreement and has presented an Action Plan outlining the intended reforms.
- (3) The violation of Ukraine's sovereignty and territorial integrity and the resulting military conflict have had damaging effects on Ukraine's already precarious economic and financial stability. Ukraine is facing a difficult balance of payments and liquidity position linked to receding confidence and concomitant capital flight, as well as a worsening fiscal situation as a result of the direct budgetary cost of the conflict, a deeper than expected recession and the loss of fiscal revenues from the geographic areas controlled by the separatists. At the same time, pre-existing structural weaknesses and budgetary and external financial vulnerabilities have also contributed to the deterioration of the economic situation.
- (4) In this context, Ukraine's external financing needs are substantially larger than initially identified, requiring additional financial assistance by international creditors and donors. In its most recent programme review mission, the International Monetary Fund (IMF) identified a significant financing need over and above the funding

committed so far by the international community, which includes the Union's macro-financial assistance under Council Decision 2002/639/EC ⁽¹⁾, Decision No 646/2010/EU of the European Parliament and of the Council ⁽²⁾ and Council Decision 2014/215/EU ⁽³⁾.

- (5) The Union has, on various occasions, declared its commitment to support the new Ukrainian authorities in achieving their aims of stabilising the situation and pursuing the course of reforms. The Union has also declared its readiness to support fully the efforts of the international community and international financial institutions, especially the IMF, with regard to an international assistance package designed to address the urgent needs of Ukraine, conditional on Ukraine's clear commitment to reforms. Financial support from the Union to Ukraine is consistent with the Union's policy as set out in the ENP and in the Eastern Partnership. In its conclusions of 18 December 2014, the European Council stated that, following the Commission's second disbursement in December 2014 of EUR 500 million in macro-financial assistance, the Union and its Member States stand ready to further facilitate and support Ukraine's reform process, together with other donors and in line with IMF conditionality.
- (6) The Union's macro-financial assistance should be an exceptional financial instrument of untied and undesignated balance-of-payments support, which aims to address the beneficiary's immediate external financing needs and should underpin the implementation of a policy programme containing strong immediate adjustment and structural reform measures designed to improve the balance-of-payments position in the short term.
- (7) On 30 April 2014, the Ukrainian authorities and the IMF agreed on a two-year Stand-by Arrangement of Special Drawing Rights (SDR) 10,976 billion (about USD 17,01 billion, 800 percent of quota) in support of Ukraine's economic adjustment and reform programme.
- (8) On 5 March 2014, in view of the drastically worsening balance-of-payments situation in Ukraine, the Commission announced a support package, which was endorsed by the extraordinary European Council on 6 March 2014. That package includes financial assistance in the amount of EUR 11 billion for the period 2014-2020, including up to EUR 1,565 billion in grants for the same period mobilised under the European Neighbourhood Instrument, the Neighbourhood Investment Facility, the Instrument contributing to Stability and Peace and the budget of the Common Foreign and Security Policy, as well as the Union's macro-financial assistance of up to EUR 1,61 billion for the period 2014-2015.
- (9) On 9 September 2014, in view of the worsening economic situation and outlook, Ukraine requested further macro-financial assistance from the Union. That request was reiterated in another letter on 15 December 2014.
- (10) Given that Ukraine is a country covered by the ENP, it should be considered to be eligible to receive the Union's macro-financial assistance.
- (11) Given that there is still a significant residual external financing gap in Ukraine's balance of payments over and above the resources provided by the IMF and other multilateral institutions, the Union's macro-financial assistance to be provided to Ukraine ('the Union's macro-financial assistance') is, under the current exceptional circumstances, considered to be an appropriate response to Ukraine's request to support economic stabilisation in conjunction with the IMF programme. The Union's macro-financial assistance would support the economic stabilisation and the structural reform agenda of Ukraine, supplementing resources made available under the IMF financial arrangement.
- (12) The Union's macro-financial assistance should aim to support the restoration of a sustainable external financing situation for Ukraine, thereby supporting its economic and social development in line with the Association Agreement.
- (13) The determination of the amount of the Union's macro-financial assistance is based on a complete quantitative assessment of Ukraine's residual external financing needs, and takes into account its capacity to finance itself with its own resources, in particular the international reserves at its disposal. The Union's macro-financial assistance should complement the programmes and resources provided by the IMF and the World Bank. The determination

of the amount of the assistance also takes into account expected financial contributions from multilateral donors and the need to ensure fair burden sharing between the Union and other donors, as well as the pre-existing deployment of other external financing instruments of the Union in Ukraine and the added value of the overall Union involvement.

- (14) The Commission should ensure that the Union's macro-financial assistance is legally and substantially in line with the key principles, objectives and measures taken within the different areas of external action and other relevant Union policies.
- (15) The Union's macro-financial assistance should support the Union's external policy towards Ukraine. Commission services and the European External Action Service should work closely together throughout the macro-financial assistance operation in order to coordinate, and to ensure the consistency of, Union external policy.
- (16) The Union's macro-financial assistance should support Ukraine's commitment to values shared with the Union, including those of democracy, the rule of law, good governance, respect for human rights, sustainable development and poverty reduction, as well as Ukraine's commitment to the principles of open, rule-based and fair trade.
- (17) A pre-condition for granting the Union's macro-financial assistance should be that Ukraine respects effective democratic mechanisms — including a multi-party parliamentary system — and the rule of law, and guarantees respect for human rights. In addition, the specific objectives of the Union's macro-financial assistance should strengthen the efficiency, transparency and accountability of the public finance management systems in Ukraine, and promote structural reforms aimed at supporting sustainable and inclusive growth, employment creation and fiscal consolidation. Both the fulfilment of the pre-condition and the achievement of those objectives should be regularly monitored by the Commission and by the European External Action Service.
- (18) In order to ensure that the Union's financial interests linked to the Union's macro-financial assistance are protected efficiently, Ukraine should take appropriate measures relating to the prevention of, and fight against, fraud, corruption and any other irregularities linked to that assistance. In addition, provision should be made for the Commission to carry out checks and for the Court of Auditors to carry out audits.
- (19) Release of the Union's macro-financial assistance is without prejudice to the powers of the European Parliament and of the Council (as budgetary authority).
- (20) The amounts of the provision required for the Union's macro-financial assistance should be consistent with the budgetary appropriations provided for in the multi-annual financial framework.
- (21) The Union's macro-financial assistance should be managed by the Commission. In order to ensure that the European Parliament and the Council are able to follow the implementation of this Decision, the Commission should regularly inform them of developments relating to the assistance and provide them with relevant documents.
- (22) In order to ensure uniform conditions for the implementation of this Decision, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council ⁽¹⁾.
- (23) The Union's macro-financial assistance should be subject to economic policy conditions, to be laid down in a Memorandum of Understanding. In order to ensure uniform conditions of implementation and for reasons of efficiency, the Commission should be empowered to negotiate such conditions with the Ukrainian authorities under the supervision of the committee of representatives of the Member States in accordance with Regulation (EU) No 182/2011. Under that Regulation, the advisory procedure should, as a general rule, apply in all cases other than as provided for in that Regulation. Considering the potentially important impact of assistance of more than EUR 90 million, it is appropriate that the examination procedure be used for operations above that threshold. Considering the amount of the Union's macro-financial assistance to Ukraine, the examination procedure should apply to the adoption of the Memorandum of Understanding, and to any reduction, suspension or cancellation of the assistance,

⁽¹⁾ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

HAVE ADOPTED THIS DECISION:

Article 1

1. The Union shall make macro-financial assistance available to Ukraine ('the Union's macro-financial assistance') of a maximum amount of EUR 1,8 billion, with a view to supporting Ukraine's economic stabilisation and a substantive reform agenda. The assistance shall contribute to covering Ukraine's balance of payments needs as identified in the IMF programme.

2. The full amount of the Union's macro-financial assistance shall be provided to Ukraine in the form of loans. The Commission shall be empowered on behalf of the Union to borrow the necessary funds on the capital markets or from financial institutions and to on-lend them to Ukraine. The loans shall have a maximum maturity of 15 years.

3. The release of the Union's macro-financial assistance shall be managed by the Commission in a manner consistent with the agreements or understandings reached between the IMF and Ukraine, and with the key principles and objectives of economic reforms set out in the Association Agreement and the EU-Ukraine Association Agenda agreed under the ENP.

The Commission shall regularly inform the European Parliament and the Council of developments regarding the Union's macro-financial assistance, including disbursements thereof, and shall provide those institutions with the relevant documents in due time.

4. The Union's macro-financial assistance shall be made available for a period of two and a half years, starting from the day after the entry into force of the Memorandum of Understanding referred to in Article 3(1).

5. If the financing needs of Ukraine decrease fundamentally during the period of the disbursement of the Union's macro-financial assistance compared to the initial projections, the Commission shall, acting in accordance with the examination procedure referred to in Article 7(2), reduce the amount of the assistance or suspend or cancel it.

Article 2

1. A pre-condition for granting the Union's macro-financial assistance shall be that Ukraine respects effective democratic mechanisms — including a multi-party parliamentary system — and the rule of law, and guarantees respect for human rights.

2. The Commission and the European External Action Service shall monitor the fulfilment of this pre-condition throughout the life-cycle of the Union's macro-financial assistance.

3. Paragraphs 1 and 2 shall be applied in accordance with Council Decision 2010/427/EU ⁽¹⁾.

Article 3

1. The Commission shall, in accordance with the examination procedure referred to in Article 7(2), agree with the Ukrainian authorities on clearly defined economic policy and financial conditions, focusing on structural reforms and sound public finances, to which the Union's macro-financial assistance is to be subject, to be laid down in a Memorandum of Understanding ('the Memorandum of Understanding') which shall include a timeframe for the fulfilment of those conditions.

The economic policy and financial conditions set out in the Memorandum of Understanding shall be consistent with the agreements or understandings referred to in Article 1(3), including the macroeconomic adjustment and structural reform programmes implemented by Ukraine, with the support of the IMF.

2. The conditions referred to in paragraph 1 shall aim, in particular, to enhance the efficiency, transparency and accountability of the public finance management systems in Ukraine, including for the use of the Union's macro-financial assistance. Progress in mutual market opening, the development of rules-based and fair trade and other priorities in the context of the Union's external policy shall also be duly taken into account when designing the policy measures. Progress in attaining those objectives shall be regularly monitored by the Commission.

⁽¹⁾ Council Decision 2010/427/EU of 26 July 2010 establishing the organisation and functioning of the European External Action Service (OJ L 201, 3.8.2010, p. 30).

3. The detailed financial terms of the Union's macro-financial assistance shall be laid down in a Loan Agreement to be agreed between the Commission and the Ukrainian authorities.

4. The Commission shall verify at regular intervals that the conditions laid down in Article 4(3) continue to be met, including whether the economic policies of Ukraine are in accordance with the objectives of the Union's macro-financial assistance. In so doing, the Commission shall coordinate closely with the IMF and the World Bank, and, where necessary, with the European Parliament and the Council.

Article 4

1. Subject to the conditions laid down in paragraph 3, the Union's macro-financial assistance shall be made available by the Commission in three loan instalments. The size of each loan instalment shall be laid down in the Memorandum of Understanding.

2. The amounts of the Union's macro-financial assistance shall be provisioned, where required, in accordance with Council Regulation (EC, Euratom) No 480/2009 ⁽¹⁾.

3. The Commission shall decide on the release of the loan instalments subject to the fulfilment of all of the following conditions:

- (a) the pre-condition set out in Article 2;
- (b) a continuous satisfactory track record of Ukraine implementing a policy programme that contains strong adjustment and structural reform measures supported by a non-precautionary IMF credit arrangement; and
- (c) the implementation of the economic policy and financial conditions agreed in the Memorandum of Understanding within a specific time-frame.

4. The disbursement of the second loan instalment shall not take place on a date earlier than three months after the date of release of the first loan instalment.

The disbursement of the third loan instalment shall not take place on a date earlier than three months after the date of release of the second loan instalment.

5. If the conditions laid down in paragraph 3 are not met, the Commission shall temporarily suspend or cancel the disbursement of the Union's macro-financial assistance. In such cases, it shall inform the European Parliament and the Council of the reasons for that suspension or cancellation.

6. The Union's macro-financial assistance shall be disbursed to the National Bank of Ukraine. Subject to provisions to be agreed in the Memorandum of Understanding, including confirmation of Ukraine's residual budgetary financing needs, the Union funds may be transferred to the Ukrainian Ministry of Finance as the final beneficiary.

Article 5

1. The borrowing and lending operations related to the Union's macro-financial assistance shall be carried out in euro using the same value date and shall not involve the Union in the transformation of maturities, or expose it to any exchange or interest rate risk, or to any other commercial risk.

2. Where the circumstances permit, and if Ukraine so requests, the Commission may take the necessary steps to ensure that an early repayment clause is included in the loan terms and conditions, and that it is matched by a corresponding clause in the terms and conditions of the borrowing operations.

3. Where circumstances permit an improvement of the interest rate of the loan, and if Ukraine so requests, the Commission may decide to refinance all or part of its initial borrowings or may restructure the corresponding financial conditions. Refinancing or restructuring operations shall be carried out in accordance with paragraphs 1 and 4 and shall not have the effect of extending the maturity of the borrowings concerned or of increasing the amount of capital outstanding at the date of the refinancing or restructuring.

4. All costs incurred by the Union which relate to the borrowing and lending operations under this Decision shall be borne by Ukraine.
5. The Commission shall inform the European Parliament and the Council of any developments in the operations referred to in paragraphs 2 and 3.

Article 6

1. The Union's macro-financial assistance shall be implemented in accordance with Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council ⁽¹⁾ and Commission Delegated Regulation (EU) No 1268/2012 ⁽²⁾.
2. The implementation of the Union's macro-financial assistance shall be under direct management.
3. The Memorandum of Understanding and the Loan Agreement shall contain provisions:
 - (a) ensuring that Ukraine regularly checks that financing provided from the general budget of the Union has been properly used, takes appropriate measures to prevent irregularities and fraud, and, if necessary, takes legal action to recover any funds provided under this Decision that have been misappropriated;
 - (b) ensuring the protection of the Union's financial interests, in particular providing for specific measures in relation to the prevention of, and fight against, fraud, corruption and any other irregularities affecting the Union's macro-financial assistance, in accordance with Council Regulation (EC, Euratom) No 2988/95 ⁽³⁾, Council Regulation (Euratom, EC) No 2185/96 ⁽⁴⁾ and Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council ⁽⁵⁾;
 - (c) expressly authorising the Commission, including the European Anti-Fraud Office, or its representatives to carry out checks, including on-the-spot checks and inspections;
 - (d) expressly authorising the Commission and the Court of Auditors to perform audits during and after the availability period of the Union's macro-financial assistance, including document audits and on-the-spot audits, such as operational assessments; and
 - (e) ensuring that the Union is entitled to early repayment of the loan where it has been established that, in relation to the management of the Union's macro-financial assistance, Ukraine has engaged in any act of fraud or corruption or any other illegal activity detrimental to the financial interests of the Union.
4. During the implementation of the Union's macro-financial assistance, the Commission shall monitor, by means of operational assessments, the soundness of Ukraine's financial arrangements, the administrative procedures, and the internal and external control mechanisms which are relevant to the assistance.

Article 7

1. The Commission shall be assisted by a committee. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.
2. Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

1. By 30 June of each year, the Commission shall submit to the European Parliament and to the Council a report on the implementation of this Decision in the preceding year, including an evaluation of that implementation. That report shall:

REGULATIONS

COMMISSION DELEGATED REGULATION (EU) 2015/602

of 9 February 2015

amending Regulation (EU) No 978/2012 of the European Parliament and the Council as regards the vulnerability threshold defined in point 1(b) of Annex VII to that Regulation

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 978/2012 of the European Parliament and of the Council of 25 October 2012 applying a scheme of generalised tariff preferences and repealing Council Regulation (EC) No 732/2008 ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Pursuant to point (a) of Article 9(1) of Regulation (EU) No 978/2012, a country benefiting from the Generalised Scheme of Preferences (GSP) may benefit from the tariff preferences provided under the special incentive arrangement for sustainable development and good governance if it is considered vulnerable due to lack of diversification and insufficient integration within the international trading system, as defined in Annex VII.
- (2) In accordance with point 1(b) of Annex VII, in addition to the condition of point 1(a) of that Annex, for a country to be considered vulnerable, it is to be a country of which the imports of products listed in Annex IX into the Union represent less than the threshold of 2 % in value of the total imports into the Union of products listed in that Annex originating in GSP beneficiary countries, as an average during the last 3 consecutive years.
- (3) Where the list of GSP beneficiary countries is amended, Regulation (EU) No 978/2012 empowers the Commission to adopt delegated acts to amend Annex VII in order to review the vulnerability threshold defined in point 1(b) of Annex VII (hereinafter vulnerability threshold) so as to maintain proportionally the same weight of the vulnerability threshold as calculated in accordance with Annex VII.
- (4) With effect from 1 January 2015, Commission Delegated Regulation (EU) No 1421/2013 ⁽²⁾ removed China, Ecuador, the Maldives and Thailand from the list of GSP beneficiary countries listed in Annex II to Regulation (EU) No 978/2012. Due to the substantial share of GSP imports represented by the abovementioned countries, their removal from the list of beneficiaries necessitates the amendment of the vulnerability threshold.
- (5) As a result of all the amendments to the list of countries in Annex II to Regulation (EU) No 978/2012 between the entry into force of that Regulation and 1 January 2015, the total imports into the Union from all GSP beneficiary countries taken as an average during the last 3 consecutive years (2011-2013) would decrease to 30,55 %. Therefore, an increase of the vulnerability threshold from 2 % to 6,5 % as from 1 January 2015 would maintain proportionally the same weight of the vulnerability threshold as laid down in Annex VII.

⁽¹⁾ OJ L 303, 31.10.2012, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) No 1421/2013 of 30 October 2013 amending Annexes I, II and IV to Regulation (EU) No 978/2012 of the European Parliament and of the Council applying a scheme of generalised tariff preferences (OJ L 355, 31.12.2013, p. 1).

- (6) In line with paragraph 4 of the Common Understanding on delegated acts between the European Parliament, the Council and the European Commission, appropriate and transparent consultations, including at expert level, have been carried out on this Regulation,

HAS ADOPTED THIS REGULATION:

Article 1

In point 1(b) of Annex VII to Regulation (EU) No 978/2012, the threshold '2 %' is replaced by '6,5 %.'

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2015.

COMMISSION REGULATION (EU) 2015/603**of 13 April 2015****amending Annexes II, III and V to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for 2-naphthyloxyacetic acid, acetochlor, chloropicrin, diflufenican, flurprimidol, flutolanil and spinosad in or on certain products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Articles 14(1)(a) and 18(1)(b) and Article 49(2) thereof,

Whereas:

- (1) For acetochlor, chloropicrin, diflufenican, flurprimidol, flutolanil and spinosad, maximum residue levels (MRLs) were set in Part A of Annex III to Regulation (EC) No 396/2005. For 2-naphthyloxyacetic acid no MRLs are set in Regulation (EC) No 396/2005, and as that active substance is not included in Annex IV to that Regulation, the default value of 0,01 mg/kg laid down in Article 18(1)(b) of that Regulation applies.
- (2) The non-inclusion of 2-naphthyloxyacetic acid in Annex I to Directive 91/414/EEC is provided for in Commission Implementing Regulation (EU) No 1127/2011 ⁽²⁾. All existing authorisations for plant protection products containing the active substance 2-naphthyloxyacetic acid have been revoked. It is therefore appropriate to set the MRLs at the specific limit of determination or at the default MRL as set out in Article 18(1)(b) of Regulation (EC) No 396/2005.

pome fruit, stone fruit, table grapes, wine grapes, kiwi, bovine muscle, fat, liver and kidney, sheep muscle, fat, liver and kidney, goat muscle, fat, liver and kidney and cattle, sheep and goat milk some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation. The Authority concluded that concerning the MRLs for strawberries, cane fruits, other small fruits and berries, peas (with pods), peas (without pods), peas (dry) and millet grain no information was available and that further consideration by risk managers was required. The MRLs for these products should be set at the specific limit of determination or at the default MRL as set out in Article 18(1)(b) of Regulation (EC) No 396/2005.

- (6) The non-inclusion of flurprimidol in Annex I to Directive 91/414/EEC is provided for in Commission Implementing Decision No 2011/328/EU ⁽¹⁾. - (7) For flutolanil, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽²⁾. It proposed to change the residue definition. It recommended lowering the MRL for potatoes. For another product it recommended keeping the existing MRL. It concluded that concerning the MRLs for peppers, beans (fresh, with pods), globe artichokes, swine muscle, fat, liver and kidney, bovine muscle, fat, liver and kidney, sheep muscle, fat, liver and kidney, goat muscle, fat, liver and kidney, poultry muscle, fat and liver, cattle, sheep and goat milk and birds' eggs some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for these products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (8) For spinosad, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof ⁽³⁾. For other products it recommended keeping or raising the existing MRLs. It concluded that concerning the MRLs for flowering brassica, spinach, globe artichokes, cereals grain, poultry muscle, fat and liver and birds eggs some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for these products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation. The Authority concluded that concerning the MRLs for swedes and turnips no information was available and that further consideration by risk managers was required. The MRLs for these products should be set at the specific limit of determination or at the default MRL as set out in Article 18(1)(b) of Regulation (EC) No 396/2005. As regards blackberries, raspberries, other small fruit and berries, celery, fennel, swine muscle and liver, bovine muscle, sheep muscle, fat and liver, goat muscle, fat and liver and poultry muscle, after submitting the opinion referred to in the first sentence, the Authority submitted further opinions concerning the MRLs ⁽⁴⁾ ⁽⁵⁾ ⁽⁶⁾. It is appropriate to take those opinions into account. As regards tree nuts, dewberries, passion fruit and spring onions, after the Authority submitted the opinion referred to in the first sentence, by Commission Regulation (EU) No 293/2013 ⁽⁷⁾, CXLs were included as MRLs in Regulation (EC) No 396/2005. - (9) As regards products of plant and animal origin for which neither relevant authorisations or import tolerances were reported at Union level nor CXLs were available, the Authority concluded that further consideration by risk managers was required. Taking into account the current scientific and technical knowledge, MRLs for those products should be set at the specific limit of determination or at the default MRL in accordance with Article 18(1)(b) of Regulation (EC) No 396/2005.

- (13) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been lawfully produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (14) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (15) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (16) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

COMMISSION IMPLEMENTING REGULATION (EU) 2015/604**of 16 April 2015****amending Annexes I and II to Regulation (EU) No 206/2010 as regards animal health requirements for bovine tuberculosis in the models of veterinary certificates BOV-X and BOV-Y and the entries for Israel, New Zealand and Paraguay in the lists of third countries, territories or parts thereof from which the introduction into the Union of live animals and fresh meat is authorised****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption ⁽¹⁾, and in particular the introductory phrase of Article 8, the first subparagraph of Article 8(1) and Article 8(4) thereof,

Having regard to Council Directive 2004/68/EC of 26 April 2004 laying down animal health rules for the importation into and transit through the Community of certain live ungulate animals, amending Directives 90/426/EEC and 92/65/EEC and repealing Directive 72/462/EEC ⁽²⁾, and in particular the first and second subparagraphs of Article 3(1), the first subparagraph of Article 6(1), Article 7(e) and Article 13(1)(e) thereof,

Whereas:

- (1) Directive 2004/68/EC lays down, inter alia, specific animal health requirements for the importation into and transit through the Union of live ungulates which are to be based on the rules laid down in Union legislation for the diseases to which those animals are susceptible.
- (2) Directive 2004/68/EC also provides that specific conditions may be laid down for third countries for which equivalence has been formally recognised by the Union based on the official health guarantees provided by the third country concerned.
- (3) Commission Regulation (EU) No 206/2010 ⁽³⁾ lays down, inter alia, the veterinary certification requirements for the introduction into the Union of certain consignments of live animals, including consignments of domestic bovine animals. Annex I to that Regulation establishes a list of third countries, territories or parts thereof from which such consignments may be introduced into the Union, as well as the specific conditions for the consignments from certain third countries.
- (4) In addition, Annex I to Regulation (EU) No 206/2010 sets out a model of veterinary certificate for domestic bovine animals (including Bubalus and Bison species and their cross-breeds) intended for breeding and/or production after importation (BOV-X) and a model of veterinary certificate for domestic bovine animals (including Bubalus and Bison species and their cross-breeds) intended for immediate slaughter after importation (BOV-Y), which include guarantees for bovine tuberculosis.
- (5) Council Directive 64/432/EEC ⁽⁴⁾ lays down rules for intra-Union trade in bovine animals and provides for the monitoring and eradication programmes for certain diseases affecting those animals, including tuberculosis. New Zealand has requested for the recognition of its bovine tuberculosis control programme as being equivalent to the monitoring and eradication programmes for bovine tuberculosis that are implemented by the Member States in accordance with the conditions set out in Annex A.I to Directive 64/432/EEC. The information provided by New Zealand on its bovine tuberculosis control programme demonstrates that the bovine tuberculosis status of a bovine herd classified as 'C2', under the National Pest Management Strategy for bovine tuberculosis of New Zealand, is equivalent to the bovine tuberculosis status of a bovine herd that is recognised in a Member State as being an 'officially tuberculosis-free bovine herd' in accordance with the conditions set out in Annex A.I to Directive 64/432/EEC.

⁽¹⁾ OJ L 18, 23.1.2003, p. 11.

⁽²⁾ OJ L 139, 30.4.2004, p. 321.

⁽³⁾ Commission Regulation (EU) No 206/2010 of 12 March 2010 laying down lists of third countries, territories or parts thereof authorised for the introduction into the European Union of certain animals and fresh meat and the veterinary certification requirements (OJ L 73, 20.3.2010, p. 1).

⁽⁴⁾ Council Directive 64/432/EEC of 26 June 1964 on animal health problems affecting intra-Community trade in bovine animals and swine (OJ L 121, 29.7.1964, p. 1977/64).

- (6) Therefore, the list and the specific conditions set out in Part 1 of Annex I to Regulation (EU) No 206/2010, as well as the models of veterinary certificates BOV-X and BOV-Y set out in Part 2 of that Annex should be amended in order to reflect the special conditions by which the Union recognises the equivalence of the classification of bovine herds as 'C2' within the framework of the bovine tuberculosis control programme implemented in New Zealand with the conditions set out in Annex A.I to Directive 64/432/EEC for a bovine herd in a Member State recognised as being an 'officially tuberculosis-free bovine herd'.
- (7) Regulation (EU) No 206/2010 lays down, inter alia, the conditions for the importation into the Union of consignments of fresh meat of domestic bovine animals. To this end, it sets out in Annex II thereto a list of third countries, territories or parts thereof from which such consignments may be introduced into the Union and the models of veterinary certificates to accompany those consignments, taking into account any specific conditions or supplementary guarantees required.
- (8) On 19 September 2011, Paraguay notified an outbreak of foot-and-mouth disease (FMD) to the World Organisation for Animal Health (OIE) ⁽¹⁾. Following that notification, Regulation (EU) No 206/2010, as amended by Implementing Regulation (EU) No 1112/2011 ⁽²⁾, suspended imports into the Union of fresh meat of domestic bovine animals from that third country.
- (9) The last outbreak of FMD in Paraguay occurred in January 2012. By November 2013, the OIE recognised Paraguay as a country with two FMD free zones, covering the whole of the territory of Paraguay, where vaccination is practiced ⁽³⁾.
- (10) In April 2014, an audit was carried out by the Commission to verify the efficacy of the measures taken and the official controls in providing animal health guarantees with regard to FMD ⁽⁴⁾. The Food and Veterinary Office (FVO) concluded that the animal health control system in Paraguay offered satisfactory guarantees with regard to FMD, in compliance with or equivalent to the Union requirements for the introduction of deboned and matured fresh meat of domestic bovine animals. However, Paraguay was requested to substantiate the absence of the FMD virus on its territory and the effectiveness of its vaccination programme.
- (11) During the second half of 2014, Paraguay carried out serological surveys based on the guidelines provided for in Chapter 8.7 of the OIE's Terrestrial Animals Health Code, Edition 2014 ⁽⁵⁾. Following an evaluation of the results, the Commission concluded that there was sufficient evidence to substantiate the absence of the FMD virus in Paraguay and it was satisfied with the effectiveness of the vaccination programme. Paraguay thus provides sufficient animal health guarantees and it has requested to be authorised for exports into the Union of deboned and matured fresh meat of domestic bovine animals.
- (12) In addition, Israel is referred to in the list set out in Part 1 of Annex II to Regulation (EU) No 206/2010. For the sake of market transparency and in accordance with international law, it should be clarified that in the case of Israel the territorial coverage of the veterinary certificates is limited to the territory of the State of Israel, excluding the territories under Israeli administration since June 1967, namely the Golan Heights, the Gaza Strip, East Jerusalem and the rest of the West Bank.
- (13) Part 1 of Annex II to Regulation (EU) No 206/2010 should therefore be amended in order to authorise imports into the Union of fresh meat of domestic bovine animals from Paraguay and to amend the entry for Israel.
- (14) Annexes I and II to Regulation (EU) No 206/2010 should therefore be amended accordingly.
- (15) To avoid any disruption of imports into the Union of consignments of domestic bovine animals, the use of veterinary certificates issued in accordance with Regulation (EU) No 206/2010 in their versions prior to the amendments being introduced by this Regulation should be authorised during a transitional period subject to certain conditions.
- (16) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,
