REGULATIONS

COMMISSION DELEGATED REGULATION (EU) 2015/895

of 2 February 2015

supplementing Regulation (EU) No 508/2014 of the European Parliament and of the Council on the European Maritime and Fisheries Fund as regards transitional provisions

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 508/2014 of the European Parliament and of the Council of 15 May 2014 on the European Maritime and Fisheries Fund and repealing Council Regulations (EC) No 2328/2003, (EC) No 861/2006, (EC) No 1198/2006 and (EC) No 791/2007 and Regulation (EU) No 1255/2011 of the European Parliament and of the Council ⁽¹⁾, and in particular Article 129(1) thereof,

Whereas:

- (1) Article 129 of Regulation (EU) No 508/2014 provides for the possibility to establish the conditions under which support approved by the Commission under Council Regulations (EC) No 861/2006 ⁽²⁾, (EC) No 1198/2006 ⁽³⁾ and (EC) No 791/2007 ⁽⁴⁾ and Regulation (EU) No 1255/2011 of the European Parliament and of the Council ⁽⁵⁾ may be integrated into support provided for under Regulation (EU) No 508/2014, including for technical assistance and for the *ex post* evaluations.
- (2) Provisions for the transition from support under Regulation (EC) No 1198/2006 to support under Regulation (EU) No 508/2014 should be adopted. The *ex post* evaluation of the programmes funded under the European Fisheries Fund (EFF) will provide key information to support the strategic report for the coming programming period, as referred to in Article 53(2) of Regulation (EU) No 1303/2013 of the European Parliament and of the Council ⁽⁶⁾. This information will also feed into the impact assessment which will help prepare the new regulatory framework for the ESI Funds in the post-2020 period.
- (3) In light of the above, this Regulation should adjust the dates for the completion of the *ex post* evaluation of the programmes to take account of the fact that the deadline set in Article 50(3) of Regulation (EC) No 1198/2006 is not compatible with a comprehensive *ex post* evaluation exercise, since it will not be possible for an evaluator to examine the impact of the programmes in relation to the objectives when commitments and payments are still ongoing. Indeed, in accordance with Article 55(1) of Regulation (EC) No 1198/2006, the period of eligibility of expenditure under the EFF lasts until 31 December 2015, and therefore payments by and to beneficiaries in accordance with Article 55(1) and (7) of that Regulation can be made until that date. Furthermore, the last

application for payment can be sent by the Member States to the Commission until 31 March 2017, in accordance with Article 86(1)(a) of Regulation (EC) No 1198/2006.

- (4) This Regulation should also clarify that it is not necessary for Member States to provide to the Commission the annual report referred to in Article 67 of Regulation (EC) No 1198/2006 by 30 June 2016 since the information contained in that report will not arrive in time for its inclusion in the *ex post* evaluation report referred to in Article 50(3) of Regulation (EC) No 1198/2006. Once sent to the Commission by Member States in June 2016, that report will need to be approved before being examined and integrated in the *ex post* evaluation by 31 December 2016. Furthermore, that information will be included in the final report referred to in that Article,

HAS ADOPTED THIS REGULATION:

COMMISSION REGULATION (EU) 2015/896

of 11 June 2015

amending Annex IV to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for *Trichoderma polysporum* strain IMI 206039, *Trichoderma asperellum* (formerly *T. harzianum*) strains ICC012, T25 and TV1, *Trichoderma atroviride* (formerly *T. harzianum*) strains IMI 206040 and T11, *Trichoderma harzianum* strains T-22 and ITEM 908, *Trichoderma gamsii* (formerly *T. viride*) strain ICC080, *Trichoderma asperellum* (strain T34), *Trichoderma atroviride* strain I-1237, geraniol, thymol, sucrose, ferric sulphate (iron (III) sulphate), ferrous sulphate (iron (II) sulphate) and folic acid in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 5(1) thereof,

Whereas:

- (1) For *Trichoderma polysporum* strain IMI 206039, *Trichoderma asperellum* (formerly *T. harzianum*) strains ICC012, T25 and TV1, *Trichoderma atroviride* (formerly *T. harzianum*) strains IMI 206040 and T11, *Trichoderma harzianum* strains T-22 and ITEM 908, *Trichoderma gamsii* (formerly *T. viride*) strain ICC080, *Trichoderma asperellum* (strain T34), *Trichoderma atroviride* strain I-1237, sucrose, geraniol and thymol, no specific MRLs were set nor were the substances included in Annex IV to Regulation (EC) No 396/2005, so the default value of 0,01 mg/kg laid down in Article 18(1)(b) of that Regulation applies. Ferric sulphate (iron (III) sulphate), ferrous sulphate (iron (II) sulphate) and folic acid are included in Annex IV to Regulation (EC) No 396/2005.
- (2) As regards *Trichoderma polysporum* strain IMI 206039 ⁽²⁾, *Trichoderma asperellum* (formerly *T. harzianum*) strains ICC012, T25 and TV1 ⁽³⁾, *Trichoderma atroviride* (formerly *T. harzianum*) strains IMI 206040 and T11 ⁽⁴⁾, *Trichoderma harzianum* strains T-22 and ITEM 908 ⁽⁵⁾, *Trichoderma gamsii* (formerly *T. viride*) strain ICC080 ⁽⁶⁾, *Trichoderma asperellum* (strain T34) ⁽⁷⁾ and *Trichoderma atroviride* strain I-1237 ⁽⁸⁾ the European Food Safety Authority ('the Authority') could not conclude on the dietary risk assessment for consumers as some information was not available and further consideration by risk managers was necessary. Such further consideration was reflected in the corresponding review reports ⁽⁹⁾ which concluded that these substances are not pathogenic to humans and are not expected to produce toxins that are relevant for human health. In view of those conclusions, the Commission considers that the inclusion of such substances in Annex IV to Regulation (EC) No 396/2005 is appropriate.
- (3) For thymol ⁽¹⁰⁾, the Authority could not conclude on the dietary risk assessment for consumers as some information was not available and, in accordance with Commission Implementing Regulation (EU) No 568/2013 ⁽¹¹⁾ the substance was approved subject to the submission of confirmatory information. Thymol is naturally occurring in plants. In view of this, it is considered appropriate to include this substance temporarily in Annex IV to Regulation (EC) No 396/2005 pending submission of the reasoned opinion of the Authority in accordance with Article 12(1).
- (4) For geraniol ⁽¹²⁾, the Authority could not conclude on the dietary risk assessment for consumers as some information was not available and, in accordance with Commission Implementing Regulation (EU) No 570/2013 ⁽¹³⁾ the substance was approved subject to the submission of confirmatory information. Geraniol is naturally occurring in plants. In view of this, it is considered appropriate to include this substance temporarily in Annex IV to Regulation (EC) No 396/2005 pending submission of the reasoned opinion of the Authority in accordance with Article 12(1).
- (5) Sucrose is approved as basic substance in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council ⁽¹⁴⁾. In view of Commission Implementing Regulation (EU) No 916/2014 ⁽¹⁵⁾, the Commission considers that the inclusion of such substance in Annex IV to Regulation (EC) No 396/2005 is appropriate.
- (6) Ferric sulphate (iron (III) sulphate) is not an active substance under Regulation (EC) No 1107/2009. Therefore, this substance does not fall within the scope of Regulation (EC) No 396/2005. In view of this, it is considered appropriate to delete this substance from Annex IV to Regulation (EC) No 396/2005.

- (7) Commission Decision 2007/442/EC ⁽¹⁶⁾ provided for a non-inclusion of folic acid in Annex I to Council Directive 91/414/EEC ⁽¹⁷⁾. Since Article 12 of Regulation (EC) No 396/2005 therefore does not apply to folic acid, it is appropriate to delete after the entry for folic acid the footnote 1 referring to that provision.
- (8) Ferrous sulphate (iron II sulphate) and folic acid are food supplements under Directive 2002/46/EC of the European Parliament and of the Council ⁽¹⁸⁾. Other substances listed in Annex IV are food additives or flavourings. In view of this, it is appropriate to modify the wording of footnote 2 to refer more broadly to other specific food and feed legislation.
- (9) Based on the conclusion of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the relevant requirements of Article 5(1) and Article 14(2) of Regulation (EC) No 396/2005.
- (10) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annex IV to Regulation (EC) No 396/2005 is amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 11 June 2015.

COMMISSION IMPLEMENTING REGULATION (EU) 2015/897**of 11 June 2015****concerning the authorisation of thiamine hydrochloride and thiamine mononitrate as feed additives for all animal species****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation. Article 10 of that Regulation provides for the re-evaluation of additives authorised pursuant to Council Directive 70/524/EEC ⁽²⁾.
- (2) Thiamine hydrochloride and thiamine mononitrate were authorised without a time limit in accordance with Directive 70/524/EEC as feed additives for all animal species. Those products were subsequently entered in the Register of feed additives as existing products, in accordance with Article 10(1) of Regulation (EC) No 1831/2003.
- (3) In accordance with Article 10(2) of Regulation (EC) No 1831/2003 in conjunction with Article 7 thereof, three applications were submitted for the re-evaluation of thiamine hydrochloride and thiamine mononitrate as feed additives for all animal species and, in accordance with Article 7 of that Regulation, for a new use in water for drinking. The applicants requested these additives to be classified in the additive category 'nutritional additives'. Those applications were accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (4) The European Food Safety Authority ('the Authority') concluded in its opinions of 11 October 2011 ⁽³⁾ that, under the proposed conditions of use in feed, thiamine hydrochloride and thiamine mononitrate do not have adverse effects on animal health, human health or the environment. The Authority further concluded that thiamine hydrochloride and thiamine mononitrate are effective sources of vitamin B₁ and that no safety concerns would arise for users. The Authority does not consider that there is a need for specific requirements of post-market monitoring. It also verified the report on the method of analysis of the feed additives in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.
- (5) The assessment of thiamine hydrochloride and thiamine mononitrate shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of these substances should be authorised as specified in the Annex to this Regulation.
- (6) Since safety reasons do not require the immediate application of the modifications to the conditions of authorisation, it is appropriate to allow a transitional period for interested parties to prepare themselves to meet the new requirements resulting from the authorisation.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

COMMISSION IMPLEMENTING DECISION (EU) 2015/902**of 10 June 2015****on a measure taken by Latvia in accordance with Directive 2006/42/EC of the European Parliament and of the Council to prohibit the placing on the market of a lawnmower manufactured by GGP Italy SpA***(notified under document C(2015) 3799)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to the Directive 2006/42/EC of the European Parliament and of the Council of 17 May 2006 on machinery, and amending Directive 95/16/EC ⁽¹⁾, and in particular Article 11(3) thereof,

Whereas:

- (1) Latvia informed the Commission of a measure to prohibit the placing on the market of a lawnmower Stiga Collector 35 EL (C350, 297352654/S13) manufactured by GGP Italy SpA.
- (2) The lawnmower bore CE marking, according to Directive 2006/42/EC.
- (3) The reason for taking the measure was the non-conformity of the lawnmower with the essential health and safety requirements set out in Annex I to Directive 2006/42/EC, points 1.3.8 — Choice of protection against risk arising from moving parts and 1.4.1 — General requirements for guards and protective devices, on the grounds that the distance between the rear wall of the machine and the point of the blade tip circle is too short, leading to deficiency in safe operation of the machine.
- (4) The notification was accompanied by a test report established by the Slovenian Institute of Quality and Metrology.
- (5) The Commission wrote to the manufacturer inviting him to comment on the measure taken by the Latvian authorities. In reply, the manufacturer informed that the product was voluntarily removed from the Latvian market.
- (6) The documentation available, the comments expressed and the action taken by the parties concerned demonstrate that the lawnmower Stiga Collector 35 EL (C350, 297352654/S13) fails to satisfy the essential health and safety requirements of Directive 2006/42/EC. It is therefore appropriate to consider the measure taken by Latvia as justified.

HAS ADOPTED THIS DECISION:

Article 1

The measure taken by Latvia to prohibit the placing on the market of lawnmower Stiga Collector 35 EL (C350, 297352654/S13) manufactured by GGP Italy SpA, via del Lavoro 6, 31033 Castelfranco Veneto, Italy, is justified.

- (1) Spain informed the Commission of a measure to prohibit the placing on the market of a grass trimmer N1E-SPK-200 (CB200-08) manufactured by NINGBO SPARK TOOLS Co Ltd China, imported by ADEO SERVICES France and distributed in Spain by LEROY MERLIN Spain.
- (2) The grass trimmer bore CE marking, according to Directive 2006/42/EC on machinery.
- (3) The reason for taking the measure was the non-conformity of the grass trimmer with the essential health and safety requirements set out in Annex I to Directive 2006/42/EC, points 1.4.1 — General requirements for guards and protective devices, 1.4.2 — Special requirements for guards and 1.7.3 — Marking of machinery, on the grounds that the distance between the cutting plane and the protection edge of the tool was smaller than 10 mm, with the consequent risk of cut.
- (4) Spain informed the distributor about the deficiencies. The distributor took the necessary measures to remove non-compliant products from the market
- (5) The documentation available, the comments expressed and the action taken by the parties concerned demonstrate that the grass trimmer N1E-SPK-200 (CB200-08) fails to satisfy the essential health and safety requirements set out in Directive 2006/42/EC. It is therefore appropriate to consider the measure taken by Spain as justified,
