THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 212, in conjunction with point (a) of the second subparagraph of Article 218(6) and Article 218(7) thereof,

Having regard to the proposal from the European Commission,

Having regard to the consent of the European Parliament ⁽¹⁾,

Whereas:

- (1) In accordance with Council Decision (EU) 2016/2053 ⁽²⁾, the Framework Agreement between the European Union and Kosovo on the general principles for the participation of Kosovo in Union programmes ('the Agreement') was signed on 25 November 2016, subject to its conclusion at a later date.
- (2) On 14 December 2010 the Council stated that it looked forward to receiving a Commission proposal that would allow for Kosovo's participation in Union programmes. Such participation is to be made possible by the conclusion of the Agreement.

- (4) The conclusion of the Agreement does not prejudice the position of Member States on the status of Kosovo, which will be decided in accordance with their national practice and international law. None of the terms, wording or definitions used in this Decision, the Agreement, including its Annex, or in the Union programmes constitute recognition of Kosovo by the Union as an independent State, nor does it constitute recognition by individual Member States of Kosovo in that capacity where they have not taken such a step.
- (5) The Agreement should be approved,

HAS ADOPTED THIS DECISION:

Article 1

The Framework Agreement between the European Union and Kosovo on the general principles for the participation of Kosovo in Union programmes is hereby approved on behalf of the Union.

The text of the Agreement is attached to this Decision.

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244(1999) and the ICJ Opinion on the Kosovo declaration of independence.

⁽¹⁾ Consent of 4 July 2017 (not yet published in the Official Journal).

⁽¹⁾ The date of entry into force of the Agreement will be published in the *Official Journal of the European Union* by the General Secretariat of the Council.

FRAMEWORK AGREEMENT**between the European Union and Kosovo* on the general principles for the participation of Kosovo in Union programmes**

THE EUROPEAN UNION, hereinafter referred to as 'the Union',

of the one part, and

KOSOVO*

of the other part,

hereinafter referred to as 'the Contracting Parties',

Whereas:

- (1) On 14 December 2007 the European Council underlined that the Union stands ready to play a leading role in strengthening stability in the region, stated the Union's readiness to assist Kosovo in the path towards sustainable stability and confirmed that the Union is ready to assist economic and political development through a clear European perspective, in line with the European perspective of the region.
- (2) On 7 December 2009 the Council welcomed the European Commission's Communication of 14 October 2009 entitled 'Kosovo — Fulfilling its European Perspective' and invited it to take the necessary measures to support Kosovo's progress towards the Union in line with the European perspective of the region. It attached importance to measures related to trade and visa, and encouraged the European Commission to open up for Kosovo taking part in Union programmes, integrating Kosovo into the economic and fiscal surveillance framework, activating the Instrument for Pre-accession Assistance's second component and strengthening the Stabilisation and Association Process dialogue.
- (3) On 14 December 2010 the Council stated that it looked forward to receiving a European Commission proposal that would allow for Kosovo's participation in Union programmes. The European Commission issued such a proposal in March 2011.
- (4) On 5 December 2011 the Council confirmed its commitment to find an agreement on Kosovo's participation in Union programmes, without prejudice to Member States' positions on status.
- (5) On 22 October 2012 the Council authorised the European Commission to open negotiations on behalf of the Union on a framework agreement with Kosovo concerning its participation in Union programmes.
- (6) Kosovo has expressed the wish to participate in a number of Union programmes.
- (7) Article 212 of the Treaty on the Functioning of the European Union refers to economic, financial and technical cooperation measures with third countries other than developing countries.
- (8) The specific terms and conditions, including the relevant financial contribution, for the participation of Kosovo in each particular Union programme should be determined by agreement between the European Commission, acting on behalf of the Union, and the authorities of Kosovo.
- (9) The signature and conclusion of this Agreement does not prejudice the position of Member States on the status of Kosovo, which will be decided in accordance with their national practice and international law. None of the terms, wording or definitions used in this Agreement, including its Annex, or in the Union programmes constitute recognition of Kosovo by the Union as an independent State, nor does it constitute recognition by individual Member States of Kosovo in that capacity where they have not taken such a step,

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244(1999) and the ICJ Opinion on the Kosovo declaration of independence.

REGULATIONS

COMMISSION REGULATION (EU) 2017/1389

of 26 July 2017

amending Annex VII to Regulation (EC) No 882/2004 of the European Parliament and of the Council as regards the designation of the EU reference laboratory for foodborne viruses

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules ⁽¹⁾, and in particular Article 32(5) thereof,

Whereas:

- (1) Regulation (EC) No 882/2004 lays down the general tasks, duties and requirements for European Union (EU) reference laboratories for food and feed and for animal health. The EU reference laboratories for food and feed are listed in Part I of Annex VII to that Regulation. This list does not include an EU reference laboratory for foodborne viruses. However, Article 32(5) of that Regulation provides that additional EU reference laboratories may be included in Annex VII by the Commission.
- (2) EU reference laboratories should cover the areas of feed and food law and animal health where precise analytical and diagnostic results are needed. Although well-established methods to detect viruses in foods exist, the effectiveness of controls is hampered by the lack of uniformity in the use of the tests. The fact that no proficiency tests are being performed to assess the methods used by national reference laboratories and their capability to use the tests makes it difficult for some national reference laboratories and official laboratories to obtain the accreditation necessary to work in compliance with Regulation (EC) No 882/2004. Therefore, the absence of an EU reference laboratory on foodborne viruses negatively affects the competent authorities' ability to perform official controls in this area.
- (3) On 16 December 2016 the Commission launched a call for applications to select and designate an EU reference laboratory in the field of foodborne viruses. The selected laboratory Livsmedelsverket should be designated as EU reference laboratory in the field of foodborne viruses.
- (4) Part I of Annex VII to Regulation (EC) No 882/2004 should therefore be amended accordingly.
- (5) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

⁽¹⁾ OJ L 165, 30.4.2004, p. 1.

HAS ADOPTED THIS REGULATION:

Article 1

In Part I of Annex VII to Regulation (EC) No 882/2004, the following point 22 is added:

‘22. EU reference laboratory for foodborne viruses

Livsmedelsverket

Uppsala

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION DECISION (EU) 2017/1392**of 25 July 2017****amending Decision 2014/350/EU establishing the ecological criteria for the award of the EU Ecolabel for textile products***(notified under document C(2017) 5069)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 66/2010 of the European Parliament and of the Council of 25 November 2009 on the EU Ecolabel ⁽¹⁾, and in particular Article 8(2) thereof,

After consulting the European Union Ecolabelling Board,

Whereas:

- (1) After notification by technical experts to the Commission and some Member States that a clarification is needed in point 1 of Article 1 of Commission Decision 2014/350/EU ⁽²⁾, it is necessary to further specify to which textile fibres the ecological criteria apply and to support the potential for labelling intermediate textile products.
- (2) It is necessary to improve the wording in Section 1 on 'Textile fibre criteria' and in criterion 1 of Annex to Decision 2014/350/EU in order to clarify the exceptions applying when recycled fibres or organic cotton fibres are used and how the calculation of the percentage of cotton required in criteria 1(a) and 1(b) is to be conducted. Based on discussions held at the January 2016 European Union Ecolabelling Board (EUEB) and Competent Body (CB) Forum meetings, it is necessary to harmonise the wording used in the organic cotton, IPM cotton and pesticides restriction requirements across the textiles, footwear and furniture product groups, taking as a reference the revised criteria laid down in Commission Decision (EU) 2016/1332 ⁽³⁾ and in Commission Decision (EU) 2016/1349 ⁽⁴⁾. Based on discussions held at the EUEB meeting of November 2016, it is necessary to limit the requirement of non-blending of organic and GMO cotton to those products for which a claim of organic cotton content is made in accordance with criterion 28 of Decision 2014/350/EU. Furthermore, it should be considered to allow an additional claim regarding the use of GMO-free cotton in criterion 28 of Decision 2014/350/EU.
- (3) After notification by technical experts to the Commission and some Member States, a clarification is necessary as to the composite sampling instructions in the assessment and verification of criterion 3(a).
- (4) For reasons of clarity, it is necessary to improve the wording in Criterion 13(b) of Section 3 on 'Chemicals and process criteria', for reasons of consistency with the process regarding identification and establishment of the candidate list for substances of very high concern (SVHC) set out in Regulation (EC) No 1907/2006 of the European Parliament and of the Council ⁽⁵⁾ and for consistency with Article 6(7) of Regulation (EC) No 66/2010. The wording in criterion 14 also should be made consistent with Article 6(6) of Regulation (EC) No 66/2010. After a notification by technical experts to the Commission, a clarification is necessary in criterion 14 of Decision 2014/350/EU as to when to use the hazardous classification rules that apply to substances and when to use the ones that apply to mixtures. Furthermore, based on discussions held at the CB Forum meetings, it is necessary to harmonise the restrictions in criterion 14(b) on table entry (iv) concerning water, dirt and stain repellents and the requirements in Appendix 1 with the respective criterion and requirements used in the

⁽⁴⁾ Commission Decision (EU) 2016/1349 of 5 August 2016 establishing the ecological criteria for the award of the EU Ecolabel for footwear (OJ L 214, 9.8.2016, p. 16).

⁽⁵⁾ Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (OJ L 396, 30.12.2006, p. 1).

footwear and furniture product groups, taking as reference for the latter the revised criteria for furniture in Decision (EU) 2016/1332 and respectively for footwear in Decision (EU) 2016/1349 as these were voted in January 2016 Ecolabel Regulatory Committee ⁽¹⁾. Concerning table entry (v) on 'Auxiliaries', it is necessary to amend and clarify the scope of the derogation and to allow calculations of residuals under the part on assessment and verification. It is also necessary to change the wording in Appendix 1 to the Annex to Decision 2014/350/EU so as to make it consistent with Regulation (EU) No 528/2012 of the European Parliament and of the Council ⁽²⁾.

- (5) After notification by members of the EUEB to the Commission and discussions held at the CB Forum meetings in 2016, it is necessary to amend, in section (f) of Appendix 1 to the Annex to Decision 2014/350/EU, the restrictions applying to all production stages so as to introduce detergents into the coverage of the restriction, to correct the test reference for anaerobic biodegradability and to narrow the coverage of the restriction of non-ionic and cationic detergents and surfactants to those that are classified as hazardous to the aquatic environment in accordance with Regulation (EC) No 1272/2008 of the European Parliament and of the Council ⁽³⁾.
- (6) After notification by members of the EUEB to the Commission and discussions held at the CB Forum meetings in 2016, it is necessary to amend criteria 20 and 21 in Section 4 'Fitness for use criteria', so as to reflect the new technical findings of the experts of the Member States.
- (7) Based on discussions held at the CB forum meetings in 2015 and 2016, and for reasons of consistency with Directive 2010/75/EU of the European Parliament and of the Council ⁽⁴⁾, it is necessary to allow calculations of emissions to air of organic compounds under the part of criterion 16(b) on assessment and verification of Decision 2014/350/EU.
- (8) Based on discussions held at the EUEB and CB Forum meetings in 2015 and 2016, it is necessary to harmonise the wording of the part on assessment and verification used in criterion 26 on 'Fundamental principles and rights at work' in Decision 2014/350/EU with the wording used in the personal, notebook and tablet computers product group, taking as reference Commission Decision (EU) 2016/1371 ⁽⁵⁾.
- (9) After discussion with members of the EUEB in 2016, it is necessary to prolong the validity of Decision 2014/350/EU, because the environmental ambition level of the Ecolabel criteria set in Decision 2014/350/EU is anticipated to remain high in comparison to other labelling schemes. Besides, maintaining a stable set of criteria over a longer period of time will enable an increased number of applicants to make the necessary improvements and technical investments along the innovation cycle in order to apply for the Ecolabel, and the market to respond in turn with new specifications of raw materials and intermediate textile products.
- (10) Decision 2014/350/EU should therefore be amended accordingly.
- (11) The measures provided for in this Decision are in accordance with the opinion of the Committee established by Article 16 of Regulation (EC) No 66/2010,

HAS ADOPTED THIS DECISION:

ANNEX

The Annex to Decision 2014/350/EU is amended as follows:

(1) Section 1 'Textile fibre criteria' is amended as follows:

(a) The second paragraph is replaced by the following:

'Any fibre, including the above listed ones, may be used without having to meet the textile fibre criteria if it contributes to less than 5 % of the total weight of the product or if it constitutes a padding or lining. With the exception of polyamide and polyester the textile fibre criteria do not have to be met in the following cases:

- (i) by the whole product if the fibres contain recycled content that in total amounts to at least 70 % by weight of all the fibres in the product;
- (ii) by individual fibres forming part of the ecolabelled product where the fibre type contains at least 70 % by weight of recycled content.

For the purposes of calculating the percentage of cotton in a product that shall be required to comply with criterion 1(a) or 1(b), the recycled cotton fibre content shall be deducted from the required minimum percentages except in the case of clothing for babies under 3 years old.'

(b) Criterion 1 is amended as follows:

(i) The second and third indents are replaced by the following:

- only in case an organic cotton claim is made under criterion 28, for the production standard 1(a), all conventional cotton and IPM cotton that is blended with organic cotton shall come from non-genetically modified varieties,
- for the purposes of calculating the percentage of cotton in a product that shall be required to comply with criterion 1(b), any organic cotton fibre content shall be deducted from the required minimum percentage,
- all organic and IPM cotton shall be fully traceable in accordance with criterion 1(d), with verification accepted based on the annual volume of cotton purchased or the content of the final product,'.

(ii) In criterion 1(a) the fourth paragraph is replaced by the following:

'For conventional and IPM cotton that is blended with organic cotton, a qualitative screening test for common genetic modifications carried out according to EU Reference Methods for GMO analysis (*) and indicating a GMO-free result shall be accepted as a proof of compliance. Tests shall be made on samples of raw cotton from each country of origin and before it passes through any wet treatment. Certification of IPM cotton by schemes that exclude genetically modified cotton shall be accepted as proof of compliance.

(iii) Criterion 1(b) is amended as follows:

— the second sentence of the third paragraph is replaced by the following:

'Verification shall either be provided on an annual basis for each country of origin or on the basis of certifications for all IPM cotton purchased to manufacture the product,'.

— the fifth paragraph is deleted.

(iv) In criterion 1(c), the second and third paragraphs are replaced by the following:

'Aldicarb, aldrin, campheclor (toxaphene), captafol, chlordane, 2,4,5-T, chlordimeform, cypermethrin, DDT, dieldrin, dinoseb and its salts, endosulfan, endrin, heptachlor, hexachlorobenzene, hexachlorocyclohexane (total isomers), methamidophos, methylparathion, monocrotophos, neonicotinoids (clothianidine, imidacloprid, thiametoxam), parathion, pentachlorophenol.

- (ii) on a final product basis: Documentation corresponding to the quantity of cotton used in each final product shall be provided from the spinning and/or fabric production stages. All documentation shall reference the Control Body or certifier of the different forms of cotton.'

(vi) In criterion 3(a) the third and fourth paragraphs are replaced by the following:

'Assessment and verification: the applicant shall either provide the documentation indicated above or compile test reports, using the following test method: IWTO draft test method 59. The test should be made on farmer or sales lots of raw wool, by country of origin (if mixed) and before any wet processing. A minimum of one composite sample of multiple farmer or sales lots from each country of origin shall be tested per processing lot. A composite sample should consist of either of the following:

- (i) wool fibres from at least 10 randomly selected farmer or sales lots (by country of origin), where there are more than 10 sales lots for that country of origin within the processing lot;
- (ii) one sample per sales lot or farmer lot (whichever is less) supplying the processing lot where there are less than 10 sales lots for that country of origin within the processing lot.

Alternatively test reports may be submitted for all farmer or sales lots in a processing lot.

Where a derogation applies then the applicant shall provide evidence confirming the scouring plant configuration and laboratory test reports demonstrating the breakdown of ectoparasitocides that may be present in scouring residues and sludge.'

This applies to substances used to impart function to the final product and to substances that have been intentionally used in production formulas.

No derogation shall be given concerning substances of very high concern that are present in a textile article, or in any homogeneous part of a textile article, in concentrations higher than 0,10 % (weight by weight).'

(b) Criterion 14 is amended as follows:

These

restrictions shall also apply to functional substances incorporated into synthetic fibres and man-made cellulose fibres during their manufacturing. This criterion applies to production chemicals in the form in which they are applied to the product, either as substances or mixtures.

(*) Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (OJ L 353, 31.12.2008, p. 1).;

This shall take place upon application and subsequently during the license period if new production sites are introduced.

In countries where ILO Labour Inspection Convention, 1947 (No 81) has been ratified and ILO supervision indicates that the national labour inspection system is effective and the scope of the inspection system covers the areas listed above (*), verification by labour inspector(s) appointed by a public authority shall be accepted.
