COMMISSION DELEGATED REGULATION (EU) 2017/1393

of 24 May 2017

amending Delegated Regulation (EU) No 1395/2014 establishing a discard plan for certain small pelagic fisheries and fisheries for industrial purposes in the North Sea

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1380/2013 of the European Parliament and of the Council of 11 December 2013 on the Common Fisheries Policy, amending Council Regulations (EC) No 1954/2003 and (EC) No 1224/2009 and repealing Council Regulations (EC) No 2371/2002 and (EC) No 639/2004 and Council Decision 2004/585/EC ⁽¹⁾, and in particular Articles 15(6) and 18(1) and (3) thereof,

Whereas:

- (1) Regulation (EU) No 1380/2013 aims to progressively eliminate discards in Union fisheries through the introduction of a landing obligation for catches of species subject to catch limits.
- (2) Commission Delegated Regulation (EU) No 1395/2014 ⁽²⁾ established a discard plan in order to implement the landing obligation in certain small pelagic fisheries and fisheries for industrial purposes in the North Sea.
- (3) According to Article 15(6) of Regulation (EU) No 1380/2013, in conjunction with its Article 15(5)(a), discard plans may include technical measures aimed at reducing or, as far as possible, eliminating unwanted catches.
- (4) Belgium, Denmark, Germany, France, the Netherlands, Sweden and the United Kingdom have a direct fisheries management interest in the North Sea. After consulting the North Sea Advisory Council and the Pelagic Advisory Council, those Member States have submitted on 7 February 2017 a joint recommendation for a technical measure.
- (5) The joint recommendation suggests in particular that Delegated Regulation (EU) No 1395/2014 be amended to include derogation from paragraph 3 of Article 21 of Council Regulation (EC) No 850/98 ⁽³⁾, which prohibits the use of certain fishing gear in an area along the Danish North Sea coast.
- (6) The prohibition laid down by paragraph 3 of Article 21 of Regulation (EC) No 850/98 had been introduced in order to protect herring which is bycaught in the sprat fishery.
- (7) According to the consultations carried out by the interested Member States, the proportion of herring in catch samples taken inside the relevant area is currently lower than the proportion of herring in catch samples taken outside that area. Those consultations indicated that the prohibition established by paragraph 3 of Article 21 of Regulation (EC) No 850/98 currently prevents the flexibility required to allow vessels to fish where they can reduce their unwanted bycatch as much as possible.

⁽¹⁾ OJ L 354, 28.12.2013, p. 22.

⁽²⁾ Commission Delegated Regulation (EU) No 1395/2014 of 20 October 2014 establishing a discard plan for certain small pelagic fisheries and fisheries for industrial purposes in the North Sea (OJ L 370, 30.12.2014, p. 35).

⁽³⁾ Council Regulation (EC) No 850/98 of 30 March 1998 for the conservation of fishery resources through technical measures for the protection of juveniles of marine organisms (OJ L 125 27.4.1998, p. 1).

- (8) Scientific contributions were obtained from relevant scientific bodies and reviewed by the International Council for the Exploration of the Seas (ICES). On 28 February 2017 an Expert Group Fisheries and Aquaculture took place and the measures concerned were discussed.
- (9) ICES advises ⁽¹⁾ that the proportion of herring caught by weight in an experimental fishery for sprat was higher outside than inside the sprat box, but there was no difference when measured by number. On this basis, fishing inside the sprat box would be expected to reduce unwanted catches of herring (by weight) compared to fishing outside; ICES advises that it is unlikely there would be any effect on herring or sprat stocks if the sprat box was lifted. ICES considers that there is no further need to review the sprat box as other management measures are sufficient to control herring bycatch.
- (10) The measures suggested in the joint recommendation comply with Article 18(3) of Regulation (EU) No 1380/2013 and may be included in Delegated Regulation (EU) No 1395/2014.
- (11) Delegated Regulation (EU) No 1395/2014 should therefore be amended accordingly.
- (12) As the measures provided for in this Regulation have a direct impact on the economic activities linked to and the planning of the fishing season of Union vessels, this Regulation should enter into force immediately after its publication,

HAS ADOPTED THIS REGULATION:

Article 1

In Delegated Regulation (EU) No 1395/2014, the following Article 4a is inserted:

Technical measures for sprat fisheries in an area along the Danish North Sea coast

- (a) towed gear with a mesh size of less than 32 mm;
- (b) purse seines; or
- (c) gillnets, entangling nets, trammel nets and drift nets with a mesh size of less than 30 mm.'

Whereas:

- (1) Commission Regulation (EC) No 1484/95 ⁽³⁾ lays down detailed rules for implementing the system of additional import duties and fixes representative prices in the poultrymeat and egg sectors and for egg albumin.
- (2) Regular monitoring of the data used to determine representative prices for poultrymeat and egg products and for egg albumin shows that the representative import prices for certain products should be amended to take account of variations in price according to origin.
- (3) Regulation (EC) No 1484/95 should therefore be amended accordingly.

COMMISSION IMPLEMENTING DECISION (EU) 2017/1396**of 26 July 2017****amending the Annex to Decision 2007/453/EC as regards the BSE status of Poland and certain regions of the United Kingdom***(notified under document C(2017) 5140)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 999/2001 of the European Parliament and of the Council of 22 May 2001 laying down rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies ⁽¹⁾, and in particular the third subparagraph of Article 5(2) thereof,

Whereas:

- (1) Regulation (EC) No 999/2001 provides that Member States, third countries or regions thereof (countries or regions) are to be classified according to their bovine spongiform encephalopathy (BSE) status into one of three categories: negligible BSE risk, controlled BSE risk and undetermined BSE risk.
- (2) The third subparagraph of Article 5(2) of Regulation (EC) No 999/2001 provides that if the World Organisation for Animal Health (OIE) has placed an applicant country in one of the three categories of BSE status, a reassessment of the Union categorisation may be decided.
- (3) The Annex to Commission Decision 2007/453/EC ⁽²⁾ lists the BSE status of countries or regions according to their BSE risk. Poland and the United Kingdom are currently listed in point B thereof under countries or regions with a controlled BSE risk.
- (4) The OIE plays a leading role in the categorisation of OIE Member Countries and zones by their BSE risk, in accordance with the provisions of its Terrestrial Animal Health Code (Terrestrial Code ⁽³⁾).
- (5) On 23 May 2017, the OIE World Assembly of Delegates adopted Resolution No 26 on the Recognition of the Bovine Spongiform Encephalopathy Risk Status of Member Countries ⁽⁴⁾, in view of an entry into force on 26 May 2017. That Resolution recognised Poland, and also two zones of the United Kingdom, namely Northern Ireland and Scotland, as having a negligible BSE risk.
- (6) The list of countries or regions in the Annex to Decision 2007/453/EC should therefore be amended so that Poland and Northern Ireland and Scotland are listed in point A under countries or regions with a negligible BSE risk.
- (7) The Annex to Decision 2007/453/EC should therefore be amended accordingly.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

COMMISSION IMPLEMENTING DECISION (EU) 2017/1397**of 27 July 2017****amending the Annex to Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States***(notified under document C(2017) 5369)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market ⁽¹⁾, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market ⁽²⁾, and in particular Article 10(4) thereof,

Whereas:

- (1) Commission Implementing Decision (EU) 2017/247 ⁽³⁾ was adopted following outbreaks of highly pathogenic avian influenza of subtype H5 in a number of Member States ('the concerned Member States'), and the establishment of protection and surveillance zones by the competent authority of the concerned Member States in accordance with Council Directive 2005/94/EC ⁽⁴⁾.
- (2) Implementing Decision (EU) 2017/247 provides that the protection and surveillance zones established by the competent authorities of the concerned Member States in accordance with Directive 2005/94/EC are to comprise at least the areas listed as protection and surveillance zones in the Annex to that Implementing Decision. Implementing Decision (EU) 2017/247 also lays down that the measures to be applied in the protection and surveillance zones, as provided for in Article 29(1) and Article 31 of Directive 2005/94/EC, are to be maintained until at least the dates for those zones set out in the Annex to that Implementing Decision.
- (3) The Annex to Implementing Decision (EU) 2017/247 was subsequently amended by Commission Implementing Decisions (EU) 2017/417 ⁽⁵⁾, (EU) 2017/554 ⁽⁶⁾, (EU) 2017/696 ⁽⁷⁾, (EU) 2017/780 ⁽⁸⁾, (EU) 2017/819 ⁽⁹⁾, (EU) 2017/977 ⁽¹⁰⁾, (EU) 2017/1139 ⁽¹¹⁾ and (EU) 2017/1240 ⁽¹²⁾ in order to take account of changes to the protection and surveillance zones established by the competent authorities of the Member States in accordance with Directive 2005/94/EC, following further outbreaks of highly pathogenic avian influenza of subtype H5 in the Union. In addition, Implementing Decision (EU) 2017/247 was amended by Implementing Decision (EU) 2017/696 in order to lay down rules regarding the dispatch of consignments of day-old chicks from the areas listed in the Annex to Implementing Decision (EU) 2017/247, following certain improvements in the epidemiological situation as regards that virus in the Union.
- (4) The overall disease situation in the Union has been steadily improving. Since the date of the last amendment made to Implementing Decision (EU) 2017/247 by Implementing Decision (EU) 2017/1240, only Italy has detected new outbreaks of highly pathogenic avian influenza of subtype H5N8 in poultry holdings, namely in the region of Lombardia of that Member State. Italy has also notified the Commission that it has taken the necessary measures required in accordance with Directive 2005/94/EC, including the establishment of protection and surveillance zones around the infected poultry holdings.
- (5) The Commission has examined the measures taken by Italy in accordance with Directive 2005/94/EC, following the recent outbreaks of avian influenza of subtype H5N8 in that Member State, and it has satisfied itself that the boundaries of the protection and surveillance zones, established by the competent authority of Italy, are at a sufficient distance to any holding where an outbreak of highly pathogenic avian influenza of subtype H5N8 has been confirmed.

- (6) In order to prevent any unnecessary disturbance to trade within the Union, and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with Italy, the protection and surveillance zones established in Italy, in accordance with Directive 2005/94/EC, following the recent outbreaks of highly pathogenic avian influenza of subtype H5N8 in that Member State. Therefore, the entries for Italy in the Annex to Implementing Decision (EU) 2017/247 should be updated to take account of the current epidemiological situation in that Member State as regards that disease.
- (7) The Annex to Implementing Decision (EU) 2017/247 should therefore be amended to update regionalisation at Union level to include the protection and surveillance zones established by Italy, in accordance with Directive 2005/94/EC and the duration of the restrictions applicable therein.
- (8) Implementing Decision (EU) 2017/247 should therefore be amended accordingly.
- (9) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

The Annex to Implementing Decision (EU) 2017/247 is amended in accordance with the Annex to this Decision.
