## REGULATIONS

## COMMISSION REGULATION (EU) 2020/785

of 9 June 2020

**amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for chromafenozide, fluometuron, pencycuron, sedaxane, tau-fluvalinate and triazoxide in or on certain products**

*(Text with EEA relevance)*

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC <sup>(1)</sup>, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For chromafenozide, fluometuron, pencycuron, sedaxane and tau-fluvalinate maximum residue levels (MRLs) were set in Part A of Annex III to Regulation (EC) No 396/2005. For triazoxide no MRLs were set in Regulation (EC) No 396/2005 and as this active substance is not included in Annex IV to that Regulation, the default value of 0,01 mg/kg laid down in Article 18(1)(b) of that Regulation applies.
- (2) For chromafenozide the European Food Safety Authority ('the Authority'), submitted a reasoned opinion on the review of the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(2)</sup>. No uses are authorised and no import tolerances exist for chromafenozide in the Union. The Authority concluded that setting the MRL at the Limit of Determination (LOD) would provide a satisfactory level of protection for consumers in the Union. Therefore, MRLs should be set in Annex II to Regulation (EC) No 396/2005 at the specific LOD.
- (3) For fluometuron the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(3)</sup>. It recommended keeping the existing MRL for cotton seeds. No other authorisations exist for this substance. As there is no risk for consumers, the MRL for that product should be set in Annex II to Regulation (EC) No 396/2005 at the existing level.

<sup>(1)</sup> OJ L 70, 16.3.2005, p. 1.

<sup>(2)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for chromafenozide according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2019;17(1):5533.

<sup>(3)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for fluometuron according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2019;17(1):5560.

- (4) For pencycuron the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(4)</sup>. It proposed to change the residue definition and concluded that concerning the MRLs for all commodities some information was not available and that further consideration by risk managers was required. As a risk for consumers cannot be excluded, MRLs should be set in Annex II to Regulation (EC) No 396/2005 at the specific LOD.
- (5) For sedaxane the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(5)</sup>. It proposed to change the residue definition and recommended keeping the existing MRLs. As there is no risk for consumers, MRLs should be set in Annex II to Regulation (EC) No 396/2005 at the existing level.
- (6) For tau-fluvalinate the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(6)</sup>. It proposed to change the residue definition and recommended lowering the MRLs for cherries (sweet), strawberries, beetroots, carrots, broccoli, beans (without pods), peas (without pods), sesame seeds, rapeseeds/canola seeds, cotton seeds, barley, oats, swine (muscle, fat, kidney), kidney (bovine, sheep, goat, equine), milk (cattle, sheep, goat, horse). For other products, the Authority recommended raising or keeping the existing MRLs. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. It concluded that concerning the MRLs for cucumbers, poultry fat and poultry edible offals (other than liver and kidney) some information was not available and that further consideration by risk managers was required. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (7) For triazoxide the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 <sup>(7)</sup>. It recommended lowering the MRLs for barley, oats, rye and wheat. No other authorisations exist for this substance. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the specific LOD or the level identified by the Authority.
- (8) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or Codex maximum residue limits (CXLs) exist, MRLs should be set at the specific LOD or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (9) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. As regards several substances, those laboratories concluded that for certain commodities technical development requires the setting of specific limits of determination.
- (10) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (11) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (12) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (13) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (14) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.

<sup>(4)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for pencycuron according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2018;16(12):5518.

<sup>(5)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for sedaxane according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2019;17(1):5544.

<sup>(6)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for tau-fluvalinate according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2018;16(11):5475.

<sup>(7)</sup> European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for triazoxide according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2019;17(1):5525.

- (15) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

*Article 1*

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

*Article 2*

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced in the Union or imported into the Union before 6 January 2021.

*Article 3*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 6 January 2021.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 9 June 2020.

*For the Commission*  
*The President*  
Ursula VON DER LEYEN

## ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

- (1) in Annex II, the following columns for chromafenozide, fluometuron, pencycuron, sedaxane, tau-fluvalinate and triazoxide are added:

**'Pesticide residues and maximum residue levels (mg/kg)**

| Code number | Groups and examples of individual products to which the MRLs apply (a) | Chromafenozide | Fluometuron | Pencycuron (sum of pencycuron and pencycuron-PB-amine, expressed as pencycuron) (F) (R) (A) | Sedaxane (sum of isomers) | Fluvalinate (sum of isomers) (F) resulting from the use of tau-fluvalinate | Triazoxide      |
|-------------|------------------------------------------------------------------------|----------------|-------------|---------------------------------------------------------------------------------------------|---------------------------|----------------------------------------------------------------------------|-----------------|
| (1)         | (2)                                                                    | (3)            | (4)         | (5)                                                                                         | (6)                       | (7)                                                                        | (8)             |

(\*) Limit of analytical determination

(a) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

(F) = Fat soluble

**Pencycuron (sum of pencycuron and pencycuron-PB-amine, expressed as pencycuron) (F) (R) (A)**

(A) The EU reference labs identified the reference standard for the pencycuron-PB-amine as commercially not available. When re-viewing the MRL, the Commission will take into account the commercial availability of the reference standard referred to in the first sentence by 16 June 2021, or, if that reference standard is not commercially available by that date, the unavailability of it.

(R) = The residue definition differs for the following combinations pesticide-code number:

Pencycuron - code 1000000: pencycuron (F)

---

**Fluvalinate (sum of isomers) (F) resulting from the use of tau-fluvalinate**

- (+) The European Food Safety Authority identified some information on residue trials as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 June 2022, or, if that information is not submitted by that date, the lack of it.

**0232010 Cucumbers**

- (+) The European Food Safety Authority identified some information on livestock metabolism and feeding studies as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 16 June 2022, or, if that information is not submitted by that date, the lack of it.

**1016020 Fat****1016050 Edible offals (other than liver and kidney)**

---

- (2) in Part A of Annex III, the columns for chromafenozide, fluometuron, pencycuron, sedaxane and tau-fluvalinate are deleted.
-

**COMMISSION IMPLEMENTING REGULATION (EU) 2020/786****of 15 June 2020****amending and correcting Regulation (EC) No 1235/2008 laying down detailed rules for implementation of Council Regulation (EC) No 834/2007 as regards the arrangements for imports of organic products from third countries****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 834/2007 of 28 June 2007 on organic production and labelling of organic products and repealing Regulation (EEC) No 2092/91 <sup>(1)</sup>, and in particular Article 33(2) and (3) and Article 38(d) thereof,

Whereas:

- (1) Annex III to Commission Regulation (EC) No 1235/2008 <sup>(2)</sup> sets out the list of third countries whose systems of production and control measures for organic production of agricultural products are recognised as equivalent to those laid down in Regulation (EC) No 834/2007.
- (2) According to information provided by India, the Indian competent authority has suspended its recognition of 'Indian Society for Certification of Organic Products (ISCOP)'. Consequently, that control body should no longer be listed in Annex III to Regulation (EC) No 1235/2008.
- (3) Annex III to Regulation (EC) No 1235/2008 includes product category F (vegetative propagating material and seeds for cultivation) for Japan. However, Japan does not have rules for the organic production of vegetative propagating material and seeds for cultivation. References to that product category should therefore be deleted in Japan's entry in that Annex. That deletion will allow control bodies to be recognised for that product category for Japan for the purposes of Annex IV to Regulation (EC) No 1235/2008. Japan has been informed about these changes.
- (4) According to the information provided by the Republic of Korea, the name of the control body 'Konkuk University industrial cooperation corps' has changed to 'KAFCC' and new internet addresses have been provided for 'Woorinong Certification' and 'Neo environmentally-friendly Certification Center'. In addition, the recognition of the control body 'Ecolivestock Association' has been withdrawn. Finally, the Korean competent authority has recognised the following six control bodies which should be added to the list in Annex III to Regulation (EC) No 1235/2008: 'Korea Crops Research Institute (co.ltd)', 'Korea organic certification', 'Jayeondeul agri-food certification institute', 'Institute of Organic food Evaluation', 'EverGreen Nongouhwi' and 'ONNURI ORGANIC Co., Ltd.'.
- (5) According to the information provided by United States, the name of the control body 'Primuslabs' has changed to 'Primus Auditing Operations' and a new internet address has been provided for that control body. The names of two control bodies that had been added by Commission Implementing Regulation (EU) 2020/25 <sup>(3)</sup> had been misspelled. Those names should be corrected with effect from the date of entry into force of Implementing Regulation (EU) 2020/25.
- (6) Annex IV to Regulation (EC) No 1235/2008 sets out the list of control authorities and control bodies competent to carry out controls and issue certificates in third countries for the purpose of equivalence.
- (7) The Commission has received and examined a request from 'BAŞAK Ekolojik Ürünler Kontrol ve Sertifikasyon Hizmetleri Tic. Ltd' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition to Kyrgyzstan for product categories A and D.

<sup>(1)</sup> OJ L 189, 20.7.2007, p. 1.

<sup>(2)</sup> Commission Regulation (EC) No 1235/2008 of 8 December 2008 laying down detailed rules for implementation of Council Regulation (EC) No 834/2007 as regards the arrangements for imports of organic products from third countries (OJ L 334, 12.12.2008, p. 25).

<sup>(3)</sup> Commission Implementing Regulation (EU) 2020/25 of 13 January 2020 amending and correcting Regulation (EC) No 1235/2008 laying down detailed rules for implementation of Council Regulation (EC) No 834/2007 as regards the arrangements for imports of organic products from third countries (OJ L 8, 14.1.2020, p. 18).

- (8) The Commission has received and examined a request from 'Beijing Continental Hengtong Certification Co., Ltd' to be included in the list in Annex IV to Regulation (EC) No 1235/2008. Based on the information received, the Commission has concluded that it is justified to recognise that control body for China for product categories A and D.
- (9) The Commission has received and examined a request from 'Biocert International Pvt Ltd' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition for Georgia to product category A.
- (10) 'BioGro New Zealand Limited' has notified the Commission of the change of its address.
- (11) On the basis of the dossier submitted by 'Bio.inspecta AG' the scope of its recognition was extended to Tunisia for product categories A and D by Commission Implementing Regulation (EU) 2019/39 <sup>(4)</sup>. However, since Tunisia is listed in Annex III to Regulation (EC) No 1235/2008 for product categories A and D, Article 10(2)(b) of that Regulation precluded the Commission from including Bio.inspecta AG in Annex IV for that country for those product categories. In the interest of legal certainty, the necessary adjustments to Bio.inspecta AG's entry in Annex IV to Regulation (EC) No 1235/2008 should be considered as an amendment, rather than a correction with retroactive effect from the date of entry into force of Implementing Regulation (EU) 2019/39.
- (12) The Commission has received and examined a request from 'CCPB SrL' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition to Tanzania and Mozambique for product categories C and D.
- (13) The Commission has received and examined a request from 'CERES Certification of Environmental Standards GmbH' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition to Cuba, Sudan and Kosovo <sup>(5)</sup> for product categories A, B and D and to Algeria, Bangladesh, Burundi, Congo (Brazzaville), Chad, Gambia, Guinea and Niger for product categories A and D and to extend the scope of its recognition for Belarus to product category B, for Ghana to product category D, for Kazakhstan to product categories B and F and for Moldova to product category F.
- (14) The Commission has received and examined a request from 'Ecocert SA' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition to Dominica for product category A and to extend the scope of its recognition for Japan to product category F.
- (15) The Commission has received and examined a request from 'Ecovivendi d.o.o. Belgrade' to be included in the list in Annex IV to Regulation (EC) No 1235/2008. Based on the information received, the Commission has concluded that it is justified to recognise 'Ecovivendi d.o.o. Belgrade' for Serbia for product categories A and D.
- (16) The Commission has received and examined a request from 'Ekoagros' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition for Belarus to product categories D and F, for Kazakhstan to product categories B and D, for Russia to product category F and for Tajikistan to product categories B and F.
- (17) The Commission has received and examined a request from 'Japan Organic and Natural Foods Association' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition for Japan to product category C.
- (18) The Commission has received and examined a request from 'ORSER' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition for Azerbaijan, Bosnia and Herzegovina, Georgia, Iran, Kyrgyzstan, Kazakhstan and Turkey to product categories B and E.

<sup>(4)</sup> Commission Implementing Regulation (EU) 2019/39 of 10 January 2019 amending Regulation (EC) No 1235/2008 laying down detailed rules for implementation of Council Regulation (EC) No 834/2007 as regards the arrangements for imports of organic products from third countries (OJ L 9, 11.1.2019, p. 106).

<sup>(5)</sup> This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

- (19) 'Servicio de Certificación CAAE S.L.U' has notified the Commission of the change of its address.
- (20) The Commission has received and examined a request from 'SIA "Sertifikācijas un testēšanas centrs"' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition to Turkmenistan for product category A.
- (21) The Commission has received and examined a request from 'TÜV Nord Integra' to amend its specifications. Based on the information received, the Commission has concluded that it is justified to extend the scope of its recognition to Algeria for product categories A and D.
- (22) Regulation (EC) No 1235/2008 should therefore be amended and corrected accordingly.
- (23) The measures provided for in this Regulation are in accordance with the opinion of the Committee on organic production,

HAS ADOPTED THIS REGULATION:

*Article 1*

**Amendments to Regulation (EC) No 1235/2008**

Regulation (EC) No 1235/2008 is amended as follows:

- (1) Annex III is amended in accordance with Annex I to this Regulation;
- (2) Annex IV is amended in accordance with Annex II to this Regulation.

*Article 2*

**Corrections of Regulation (EC) No 1235/2008**

Annex III to Regulation (EC) No 1235/2008 is corrected in accordance with Annex III to this Regulation.

*Article 3*

**Entry into force and application**

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

Article 2 shall apply from 3 February 2020.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 15 June 2020.

*For the Commission*

*The President*

Ursula VON DER LEYEN

---

## ANNEX I

Annex III to Regulation (EC) No 1235/2008 is amended as follows:

- (1) in the entry relating to India, in point 5, the row relating to code number IN-ORG-009 is deleted;
- (2) the entry relating to Japan is amended as follows:
  - (a) in point 1, the row relating to category F (vegetative propagating material and seeds for cultivation) is deleted;
  - (b) in point 2, the introductory phrase is replaced by the following:
 

‘2. Origin: products of category A that have been grown in Japan and products of category D processed in Japan with organically grown ingredients that have been grown in Japan or that have been imported into Japan;’
- (3) in the entry relating to the Republic of Korea, point 5 is amended as follows:
  - (a) the rows relating to code numbers KR-ORG-006, KR-ORG-009 and KR-ORG-019 are replaced by the following:

|            |                                                   |                                                                                                             |
|------------|---------------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| KR-ORG-006 | KAFCC                                             | <a href="http://eco.konkuk.ac.kr">http://eco.konkuk.ac.kr</a>                                               |
