Those rules applied in addition to those of Commission Delegated Regulation (EU) 2019/2125 ⁽⁴⁾ concerning specific official controls of wood packaging material.
- (2) Plant health checks conducted by Member States on the basis of Implementing Decision (EU) 2018/1137 have shown that the marking of wood packaging material used in the transport of certain commodities originating in Belarus and China does not always comply with Regulation (EU) 2016/2031. - (4) In order to prevent the consequences of such non-compliance in the future, measures should be adopted as regards wood packaging material for the transport of certain commodities originating in Belarus, China and India.

⁽⁴⁾ Commission Delegated Regulation (EU) 2019/2125 of 10 October 2019 supplementing Regulation (EU) 2017/625 of the European Parliament and of the Council as regards rules concerning the performance of specific official controls of wood packaging material, notification of certain consignments and measures to be taken in cases of non-compliance (OJ L 321, 12.12.2019, p. 99).

- (5) In order to ensure a better preparation of the authorities carrying out the respective plant health checks, the competent authorities or operators involved in the importation of the specified commodities accompanied by wood packaging material should give, as soon as they are aware of the arrival of that wood packaging material, advance notice thereof to the competent authority of the border control post of first arrival.
- (6) The wood packaging material of consignments of the specified commodities should be subject to plant health checks on a regular basis. Based on the identified plant health risk, the rate of those checks should be no lower than 15 % of the imported wood packaging material of the specified commodities, to ensure that a representative sample is checked.
- (7) The wood packaging material, as well as the specified commodities, should be subject to the Union rules concerning customs supervision until those plant health checks are completed, in order to ensure that their free movement within the Union territory does not introduce any phytosanitary risks.
- (8) Plant health checks should take place at the border control post of first arrival into the Union territory or at control points referred to in point (a) of Article 53(1) of Regulation (EU) 2017/625, in order to ensure that those checks are carried out in the most appropriate facilities.
- (9) For the purposes of legal clarity, Implementing Decision (EU) 2018/1137 should be repealed and replaced by this Regulation, in order to take account of Regulations (EU) 2016/2031 and (EU) 2017/625, which are applicable since 14 December 2019.
- (10) In order for the Member States to have time to adapt to the requirements provided for by this Regulation, it should apply from 1 March 2021.
- (11) This Regulation should apply until 31 December 2023 to allow time to monitor the situation and determine compliance of the wood packaging material and the respective consignments with this Regulation and Regulation (EU) 2016/2031.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

The applicant submitted its comments, which have been carefully examined.
- (11) It has been established with respect to one or more representative uses of at least one plant protection product containing the active substance garlic extract that the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009 are satisfied.
- (12) The risk assessment for the renewal of the approval of the active substance garlic extract is based on a limited number of representative uses, which however do not restrict the uses for which plant protection products containing garlic extract may be authorised.
- (13) It is therefore appropriate to renew the approval of garlic extract.
- (14) Implementing Regulation (EU) No 540/2011 should therefore be amended accordingly.
- (15) Commission Implementing Regulation (EU) 2020/1160 ⁽⁸⁾ extended the approval period of garlic extract to 31 August 2021 in order to allow the renewal process to be completed before the expiry of the approval period of that active substance. However, given that a decision on renewal of the approval has been taken ahead of that extended expiry date, this Regulation shall apply from 1 March 2021.
- (16) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

COMMISSION IMPLEMENTING REGULATION (EU) 2021/130**of 3 February 2021****amending Annex I to Regulation (EC) No 798/2008 as regards the entry for the United Kingdom in the list of third countries, territories, zones or compartments from which certain poultry commodities may be imported into and transit through the Union in relation to highly pathogenic avian influenza****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption ⁽¹⁾, and in particular the introductory phrase of Article 8, the first subparagraph of paragraph 1 of Article 8, paragraph 4 of Article 8 and Article 9(4) thereof,

Having regard to Council Directive 2009/158/EC of 30 November 2009 on animal health conditions governing intra-Community trade in, and imports from third countries of, poultry and hatching eggs ⁽²⁾, and in particular Articles 23(1), 24(2) and 25(2) thereof,

Whereas:

- (1) Commission Regulation (EC) No 798/2008 ⁽³⁾ lays down veterinary certification requirements for imports into and transit, including storage during transit, through the Union of poultry and poultry products ('the commodities'). It provides that the commodities are only to be imported into and transit through the Union from the third countries, territories, zones or compartments listed in columns 1 and 3 of the table in Part 1 of Annex I thereto.
- (2) Regulation (EC) No 798/2008 also lays down the conditions for a third country, territory, zone or compartment to be considered as free from highly pathogenic avian influenza (HPAI).
- (3) In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community (Withdrawal Agreement), and in particular Article 5(4) of the Protocol on Ireland/Northern Ireland in conjunction with Annex 2 to that Protocol, Directives 2002/99/EC and 2009/158/EC, as well as the Commission acts based on them, apply to and in the United Kingdom in respect of Northern Ireland after the end of the transition period provided for in the Withdrawal Agreement.
- (4) Therefore, the United Kingdom, excluding Northern Ireland, is listed in the table in Part 1 of Annex I to Regulation (EC) No 798/2008 as a third country from which imports into and transit through the Union of certain poultry commodities are authorised from certain parts of its territory depending on the presence of HPAI. That regionalisation of the United Kingdom is set out in Part 1 of Annex I to Regulation (EC) No 798/2008, as amended by Implementing Regulation (EU) 2021/24 ⁽⁴⁾.
- (5) On 27 January 2021, the United Kingdom confirmed the presence of HPAI of subtype H5N8 in a poultry holding on the Isle of Anglesey in Wales.

⁽¹⁾ OJ L 18, 23.1.2003, p. 11.

⁽²⁾ OJ L 343, 22.12.2009, p. 74.

⁽³⁾ Commission Regulation (EC) No 798/2008 of 8 August 2008 laying down a list of third countries, territories, zones or compartments from which poultry and poultry products may be imported into and transit through the Community and the veterinary certification requirements (OJ L 226, 23.8.2008, p. 1).

⁽⁴⁾ Commission Implementing Regulation (EU) 2021/24 of 13 January 2021 amending Annex I to Regulation (EC) No 798/2008 as regards the entry for the United Kingdom in the list of third countries, territories, zones or compartments from which certain poultry commodities may be imported into and transit through the Union in relation to highly pathogenic avian influenza (OJ L 11, 14.1.2021, p. 1).

- (6) The veterinary authorities of the United Kingdom placed a 10 km control zone around the affected holding and implemented a stamping-out policy in order to control the presence of HPAI and limit the spread of that disease. Furthermore, the veterinary authorities of the United Kingdom confirmed that they immediately suspended issuing veterinary certificates for consignments of commodities intended for export to the Union from the whole of the territory of the United Kingdom, excluding Northern Ireland.
- (7) The United Kingdom has submitted information to the Commission on the epidemiological situation on its territory and the measures it has taken to prevent the further spread of HPAI which has now been evaluated by the Commission. On the basis of that evaluation, it is appropriate to place restrictions on the introduction into the Union of commodities from the area in Wales affected by HPAI, which the veterinary authorities of the United Kingdom have placed under restrictions due to the current outbreak.
- (8) The entry for the United Kingdom in the table in Part 1 of Annex I to Regulation (EC) No 798/2008 should, therefore, be amended to take account of the current epidemiological situation in that third country.
- (9) Annex I to Regulation (EC) No 798/2008 should therefore be amended accordingly.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Part 1 of Annex I to Regulation (EC) No 798/2008 is amended in accordance with the Annex to this Regulation.
