of 24 March 2021

laying down the lists of third countries, territories or zones thereof from which the entry into the Union of animals, germinal products and products of animal origin is permitted in accordance with Regulation (EU) 2016/429 of the European Parliament and the Council

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Article 230(1) thereof,

Whereas:

- (1) Regulation (EU) 2016/429 lays down, inter alia, the animal health requirements for the entry into the Union of consignments of animals, germinal products and products of animal origin, and it applies from 21 April 2021. One of those animal health requirements is that those consignments must come from a third country or territory, or zone or compartment thereof, in accordance with Article 230(1) of that Regulation.
- (2) Commission Delegated Regulation (EU) 2020/692 ⁽²⁾ supplements Regulation (EU) 2016/429 as regards the animal health requirements for the entry into the Union of consignments of certain species and categories of animals, germinal products and products of animal origin from third countries or territories or zones thereof, or compartments thereof in the case of aquaculture animals. Point (a) of Article 3 of Delegated Regulation (EU) 2020/692 provides that consignments of animals, germinal products and products of animal origin falling within its scope may only be permitted to enter into the Union if they come from a third country or territory, or zone or compartment thereof, listed for the particular species and categories of animals, germinal products and products of animal origin in accordance with the animal health requirements laid down in that Delegated Regulation.
- (3) This Regulation should therefore establish the lists of third countries, territories or zones thereof, or compartments thereof in the case of aquaculture animals, from which the entry into the Union of the species and categories of animals, germinal products and products of animal origin falling within the scope of Delegated Regulation (EU) 2020/692 should be permitted, in accordance with the criteria laid down in Article 230(1) of Regulation (EU) 2016/429.

⁽¹⁾ Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') (OJ L 84, 31.3.2016, p. 1).

⁽²⁾ Commission Delegated Regulation (EU) 2020/692 of 30 January 2020 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for entry into the Union, and the movement and handling after entry of consignments of certain animals, germinal products and products of animal origin (OJ L 174, 3.6.2020, p. 379).

- (4) Currently, the lists of third countries and territories or zones thereof from which the entry into the Union of specific species and categories of animals, germinal products and products of animal origin is permitted, are laid down in several Commission acts. Firstly, lists are laid down in Commission Decision 2007/777/EC ⁽³⁾, Commission Regulation (EC) No 798/2008 ⁽⁴⁾, Commission Regulation (EC) No 119/2009 ⁽⁵⁾, Commission Regulation (EU) No 206/2010 ⁽⁶⁾, Commission Regulation (EU) No 605/2010 ⁽⁷⁾, Commission Implementing Regulation (EU) No 139/2013 ⁽⁸⁾ and Commission Implementing Regulation (EU) 2016/759 ⁽⁹⁾, all of which are repealed by Delegated Regulation (EU) 2020/692 with effect from 21 April 2021. In addition, other lists are laid down in Commission Decision 2006/168/EC ⁽¹⁰⁾, Commission Decision 2008/636/EC ⁽¹¹⁾, Commission Regulation (EC) No 1251/2008 ⁽¹²⁾, Commission Decision 2010/472/EU ⁽¹³⁾, Commission Implementing Decision 2011/630/EU ⁽¹⁴⁾, Commission Implementing Decision 2012/137/EU ⁽¹⁵⁾, Commission Implementing Regulation (EU) 2018/659 and Commission Implementing Decision (EU) 2019/294 ⁽¹⁶⁾, all of which are repealed by this Implementing Regulation.
- (5) Under the new animal health framework, established by Regulation (EU) 2016/429, it is appropriate to combine in a single Commission act a complete set of lists of third countries, territories or zones thereof authorised on the basis of animal health requirements for the entry into the Union of consignments of the animals, germinal products and products of animal origin falling within the scope of Delegated Regulation (EU) 2020/692. This is in line with the approach adopted by Delegated Regulation (EU) 2020/692, where the animal health requirements for the entry into the Union of those consignments are laid down in a single Commission act. In addition, it provides for more consistency and transparency of Union legislation.

⁽³⁾ Commission Decision 2007/777/EC of 29 November 2007 laying down the animal and public health conditions and model certificates for imports of certain meat products and treated stomachs, bladders and intestines for human consumption from third countries and repealing Decision 2005/432/EC (OJ L 312, 30.11.2007, p. 49).

⁽⁴⁾ Commission Regulation (EC) No 798/2008 of 8 August 2008 laying down a list of third countries, territories, zones or compartments from which poultry and poultry products may be imported into and transit through the Community and the veterinary certification requirements (OJ L 226, 23.8.2008, p. 1).

⁽⁶⁾ Commission Regulation (EU) No 206/2010 of 12 March 2010 laying down lists of third countries, territories or parts thereof authorised for the introduction into the European Union of certain animals and fresh meat and the veterinary certification requirements (OJ L 73, 20.3.2010, p. 1).

⁽⁷⁾ Commission Regulation (EU) No 605/2010 of 2 July 2010 laying down animal and public health and veterinary certification conditions for the introduction into the European Union of raw milk, dairy products, colostrum and colostrum-based products intended for human consumption (OJ L 175, 10.7.2010, p. 1).

⁽⁸⁾ Commission Implementing Regulation (EU) No 139/2013 of 7 January 2013 laying down animal health conditions for imports of certain birds into the Union and the quarantine conditions thereof (OJ L 47, 20.2.2013, p. 1).

⁽⁹⁾ Commission Implementing Regulation (EU) 2016/759 of 28 April 2016 drawing up lists of third countries, parts of third countries and territories from which Member States are to authorise the introduction into the Union of certain products of animal origin intended for human consumption, laying down certificate requirements, amending Regulation (EC) No 2074/2005 and repealing Decision 2003/812/EC (OJ L 126, 14.5.2016, p. 13).

⁽¹⁰⁾ Commission Decision 2006/168/EC of 4 January 2006 establishing the animal health and veterinary certification requirements for imports into the Community of bovine embryos and repealing Decision 2005/217/EC (OJ L 57, 28.2.2006, p. 19).

⁽¹¹⁾ Commission Decision 2008/636/EC of 22 July 2008 establishing the list of third countries from which Member States authorise imports of ova and embryos of the porcine species (OJ L 206, 2.8.2008, p. 32).

⁽¹²⁾ Commission Regulation (EC) No 1251/2008 of 12 December 2008 implementing Council Directive 2006/88/EC as regards conditions and certification requirements for the placing on the market and the import into the Community of aquaculture animals and products thereof and laying down a list of vector species (OJ L 337, 16.12.2008, p. 41).

⁽¹³⁾ Commission Decision 2010/472/EU of 26 August 2010 on imports of semen, ova and embryos of animals of the ovine and caprine species into the Union (OJ L 228, 31.8.2010, p. 74).

⁽¹⁴⁾ Commission Implementing Decision 2011/630/EU of 20 September 2011 on imports into the Union of semen of domestic animals of the bovine species (OJ L 247, 24.9.2011, p. 32).

⁽¹⁵⁾ Commission Implementing Decision 2012/137/EU of 1 March 2012 on imports into the Union of semen of domestic animals of the porcine species (OJ L 64, 3.3.2012, p. 29).

⁽¹⁶⁾ Commission Implementing Decision (EU) 2019/294 of 18 February 2019 laying down the list of territories and third countries authorised for imports into the Union of dogs, cats and ferrets and the model animal health certificate for such imports (OJ L 48, 20.2.2019, p. 41).

- (6) For that reason, Decisions 2006/168/EC, 2008/636/EC, Regulation (EC) No 1251/2008, Decision 2010/472/EU, Implementing Decisions 2011/630/EU and 2012/137/EU, Implementing Regulation (EU) 2018/659 and Implementing Decision (EU) 2019/294 should be repealed from 21 April 2021. This Regulation should therefore establish new lists of third countries and territories or zones thereof which will replace the current lists of third countries and territories or zones or compartments thereof from which the entry into the Union of consignments of animals, germinal products and products of animal origin is permitted. The current lists are drawn up with regard to both animal health and food safety, where relevant. The new lists, however, should be drawn up separately on the basis of in particular the animal health requirements provided for Regulation (EU) 2016/429 and the food safety requirements provided for in Regulation (EU) 2017/625.
- (7) In certain cases, only certain zones or compartments of a third country or territory comply with all the criteria laid down in Article 230(1) of Regulation (EU) 2016/429 and the relevant animal health requirements laid down in Delegated Regulation (EU) 2020/692. In such cases, entry into the Union of certain species and categories of animals, germinal products and products of animal origin should only be permitted if they come from such zones or compartments of the third country or territory. This Regulation should therefore clearly specify in each list the zone(s), or compartment(s) in the case of aquaculture animals, of the third countries or territories which comply with those animal health requirements.
- (8) Point (c) of Article 231 of Regulation (EU) 2016/429 provides that the lists laid down by the Commission pursuant to Article 230(1) of that Regulation should also specify the specific conditions and animal health guarantees concerning listed diseases to be complied by the third countries or territories. This Regulation should therefore provide, where relevant, for such specific conditions and animal health guarantees, taking into account the specific animal health situation of the third country or territory of origin or zone thereof, or compartment thereof in the case of aquaculture animals, and the specific species and categories of animals, germinal products and products of animal origin concerned.
- (9) Part VI of Delegated Regulation (EU) 2020/692 sets out special rules for the entry into the Union of consignments of certain species and categories of animals, germinal products and products of animal origin for which the Union is not the final destination, and of consignments of certain species and categories of animals, germinal products and products of animal origin originating in and returning to the Union. In particular, that Regulation provides for the possibility to authorise the entry into the Union of such consignments which do not comply with all the relevant animal health requirements subject to the fulfilment of specific conditions. This Regulation should therefore lay down the specific animal health conditions that such consignments should comply with for entry into Union.
- (10) Pursuant to the EEA Agreement, the EEA EFTA States are not third countries when trading with the EU Member States in areas governed by the EEA Agreement.
- (11) As the rules laid down in this Regulation are to be applied in tandem with the rules laid down in Regulation (EU) 2016/429 and in Delegated Regulation (EU) 2020/692, this Regulation should also apply from 21 April 2021.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) ⁽¹⁾, and in particular Article 127(2) thereof,

Whereas:

- (1) Regulation (EU) 2017/625 lays down rules for official controls and other control activities performed by the competent authorities of the Member States in order to verify compliance with Union legislation in the area of, among others, food safety at all stages of the production, processing and distribution process. In particular, it provides that consignments of certain animals and goods are only to enter the Union from a third country or region thereof which appears on a list drawn up by the Commission for that purpose.
- (2) Commission Delegated Regulation (EU) 2019/625 ⁽²⁾ supplements Regulation (EU) 2017/625 as regards the conditions for the entry into the Union of consignments of certain animals and goods intended for human consumption from third countries or regions thereof in order to ensure that they comply with the relevant requirements established in the rules referred to in Article 1(2)(a) of Regulation (EU) 2017/625 (food safety) or with requirements recognised to be at least equivalent. In particular, it identifies the animals and goods intended for human consumption that are subject to the requirement to come from a third country or region thereof listed in accordance with Article 126(2)(a) of Regulation (EU) 2017/625.
- (3) Commission Implementing Regulation (EU) 2019/626 ⁽³⁾ lays down the lists of third countries or regions thereof authorised for the entry into the Union of the animals and the goods identified in Article 3 of Delegated Regulation (EU) 2019/625.
- (4) In accordance with Article 127 of Regulation (EU) 2017/625, these lists include only third countries or regions thereof, which have submitted appropriate evidence and guarantees that the animals and goods concerned comply with the requirements of Union legislation in the area of food safety.

⁽¹⁾ OJ L 95, 7.4.2017, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) 2019/625 of 4 March 2019 supplementing Regulation (EU) 2017/625 of the European Parliament and of the Council with regard to requirements for the entry into the Union of consignments of certain animals and goods intended for human consumption (OJ L 131, 17.5.2019, p. 18).

⁽³⁾ Commission Implementing Regulation (EU) 2019/626 of 5 March 2019 concerning lists of third countries or regions thereof authorised for the entry into the European Union of certain animals and goods intended for human consumption, amending Implementing Regulation (EU) 2016/759 as regards these lists (OJ L 131, 17.5.2019, p. 31).

- (5) Regulation (EC) No 853/2004 of the European Parliament and of the Council ⁽⁴⁾ provides that food business operators importing products of animal origin from third countries or regions thereof are to ensure that the third country of dispatch appears on a list of third countries from which imports of such products are permitted.
- (6) In addition to complying with Union legislation in the area of food and food safety, animals and goods from third countries entering the Union are to comply with Union legislation in the area of animal health. To this end, Regulation (EU) 2016/429 of the European Parliament and of the Council ⁽⁵⁾ provides that Member States are to permit the entry into the Union of certain consignments of animals, germinal products and products of animal origin from third countries or territories only if those goods come from a third country or territory listed for that purpose.
- (7) Commission Implementing Regulation (EU) 2021/404 ⁽⁶⁾ lays down the lists of third countries or regions thereof authorised for the entry into the Union of certain animals and goods with regard to animal health requirements, in accordance with the criteria laid down in Article 230(1) of Regulation (EU) 2016/429 and with the relevant animal health requirements laid down in Commission Delegated Regulation (EU) 2020/692 ⁽⁷⁾.
- (8) Delegated Regulation (EU) 2020/692 repeals, with effect from 21 April 2021, a number of Commission acts laying down lists of third countries or regions thereof authorised for the entry into the Union of consignments of certain animals, germinal products and products of animal origin. Of these lists, those established with regard to food safety requirements should be laid down in the present Regulation, with effect from 21 April 2021.

Therefore, a re-assessment of compliance with these requirements is not necessary.
