REGULATIONS

COMMISSION REGULATION (EU) 2021/1109

of 1 July 2021

establishing a fisheries closure for giant red shrimp in GFCM geographical subareas 9, 10 and 11 for certain vessels flying the flag of Italy

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Union control system for ensuring compliance with the rules of the common fisheries policy ⁽¹⁾, and in particular Article 36(2) thereof,

Whereas:

- (1) Council Regulation (EU) 2021/90 ⁽²⁾ lays down fishing opportunities for 2021.
- (2) According to the information received by the Commission, the maximum allowable fishing effort related to giant red shrimp in GFCM geographical subareas 9, 10 and 11 and applicable to vessels flying the flag of or registered in Italy having an overall length equal or superior to 24 metres, is deemed to have been reached for 2021.
- (3) It is therefore necessary to prohibit certain fishing activities for that stock group,

HAS ADOPTED THIS REGULATION:

*Article 1***Effort exhaustion**

The maximum allowable fishing effort allocated to Italy for the stock group of giant red shrimp in GFCM geographical subareas 9, 10 and 11 for 2021 referred to in the Annex shall be deemed to be reached from the date set out in that Annex.

*Article 2***Prohibitions**

Fishing activities for the stock group referred to in Article 1 by vessels flying the flag of or registered in Italy and having an overall length equal or superior to 24 metres shall be prohibited from the date set out in the Annex. In particular it shall be prohibited to retain on board, relocate, tranship or land fish from that stock caught by those vessels after that date.

COMMISSION REGULATION (EU) 2021/1110**of 6 July 2021****amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for ametoctradin, bixafen, fenazaquin, spinetoram, tefluthrin and thien carbazon-methyl in or on certain products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For ametoctradin, bixafen, fenazaquin, spinetoram and tefluthrin maximum residue levels (MRLs) were set in Part A of Annex III to Regulation (EC) No 396/2005. For thien carbazon-methyl no MRLs were set in Regulation (EC) No 396/2005, and as this active substance is not included in Annex IV to that Regulation, the default value of 0,01 mg/kg laid down in Article 18(1)(b) of Regulation (EC) No 396/2005 applies.
- (2) For ametoctradin the European Food Safety Authority ('the Authority') submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽²⁾. It recommended lowering the MRLs for sweet peppers/bell peppers. For other products, it recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. The Authority further concluded that concerning the MRLs for spring onions/green onions and Welsh onions, barley, oat, rye, wheat, hops, swine (muscle, fat, liver, kidney), bovine (muscle, fat, liver, kidney, milk), sheep (muscle, fat, liver, kidney, milk), goat (muscle, fat, liver, kidney, milk), equine (muscle, fat, liver, kidney, milk), poultry (muscle, fat, liver, kidney) and birds' eggs some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (3) For bixafen the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽³⁾. It recommended lowering the MRLs for linseeds, mustard seeds, barley and oat. For other products, it recommended raising or keeping the existing MRLs. Based on rotational crops studies and taking into account that the uptake of residues in succeeding crops cannot be fully avoided, specific MRLs reflecting uptake of residues from soil were derived for beetroots, carrots, celeriacs/turnip rooted celeries, horseradishes, Jerusalem artichokes, parsnips, parsley roots/Hamburg roots parsley, radishes, salsifies, swedes/rutabagas, turnips, herbal infusions from roots, sugar beet roots and chicory roots. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority.
- (4) For fenazaquin the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽⁴⁾. It recommended lowering the MRLs for cucumbers, melons and watermelons. For other products, it recommended raising or keeping the existing MRLs. The Authority further concluded that concerning the MRLs for citrus fruits, pome fruits, strawberries, tomatoes and teas some information was not

⁽³⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for bixafen according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2020; 18(1): 5998.

⁽⁴⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for fenazaquin according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2020; 18(1): 5955.

available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.

- (5) For spinetoram the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽⁵⁾. It proposed to change the residue definition. It recommended lowering the MRLs for oranges, mandarins, plums, litchis/lychees, mangoes, potatoes, onions, tomatoes, sweet peppers/bell peppers, aubergines/eggplants, cucumbers, gherkins, courgettes, melons, pumpkins, watermelons, sweet corn, broccoli, cauliflower, Brussels sprouts, head cabbages, lettuces, spinaches, beans (with pods), leeks and sugar beet roots. For other products, it recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. Taking into account additional information on the good agricultural practice provided by Belgium and as there is no risk for consumers, the MRL for cresses and other sprouts and shoots and land cresses should be set in Annex II to Regulation (EC) No 396/2005 at the existing level. The Authority further concluded that concerning the MRLs for tree nuts, pome fruits, apricots, table and wine grapes, blackberries, dewberries, cranberries, gooseberries (green, red and yellow), rose hips, mulberries (black and white), azaroles/Mediterranean medlars, elderberries, table olives, soyabeans, cotton seeds, olives for oil production, maize/corn, rice, bovine (fat, liver, kidney), equine (fat, liver, kidney), poultry (fat, liver) and birds' eggs some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (6) For tefluthrin the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽⁶⁾. It recommended lowering the MRLs for witloofs/Belgian endives and chicory roots. For other products, it recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. The Authority further concluded that concerning the MRLs for celeriacs/turnip rooted celeries, radishes, swedes/rutabagas, turnips, tomatoes, aubergines/eggplants, melons, watermelons, sweet corn, lamb's lettuces/corn salads, cresses and other sprouts and shoots, land cresses, roman rocket/rucola, red mustards, baby leaf crops (including brassica species), celeries, Florence fennels, rhubarbs, sunflower seeds, rapeseeds/canola seeds, soyabeans, cotton seeds, barley, maize/corn, common millet/proso millet, oat, rye, sorghum, wheat, poultry (muscle, fat, liver, kidney, edible offals) and birds' eggs some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (7) For thien carbazon-methyl the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽⁷⁾. It recommended setting MRLs at the Limit of Determination ('LOD'). Those MRLs should be set in Annex II to Regulation (EC) No 396/2005.
- (8) Existing Codex maximum residue limits ('CXLs') were taken into account in the reasoned opinions of the Authority. CXLs, which are safe for consumers in the Union, were considered for MRL setting.

⁽⁵⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for spinetoram according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2020; 18(3): 5997.

⁽⁶⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for tefluthrin according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2020; 18(1): 5995.

⁽⁷⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for thien carbazon-methyl according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2020; 18(1): 5957.

- (9) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or CXLs exist, MRLs should be set at the specific LOD or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (10) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. As regards several substances concerned by this Regulation, those laboratories concluded that for certain commodities technical development requires the setting of specific limits of determination.
- (11) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (12) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (13) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (14) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (15) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (16) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced in the Union or imported into the Union before 27 July 2021.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 27 January 2022.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

DECISIONS

COMMISSION DECISION (EU) 2021/1112

of 25 June 2021

amending Decision 2013/767/EU as regards the extension of the mandate of the member organisations of the civil dialogue groups dealing with matters covered by the common agricultural policy

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Whereas:

- (1) Commission Decision 2013/767/EU ⁽¹⁾ has set up a framework for civil dialogue in matters covered by the common agricultural policy, in accordance with Article 11(2) TEU.
- (2) The member organisations of the civil dialogue groups ⁽²⁾ (CDGs) have been appointed for a seven-year mandate, which expires in July 2021. However, the necessity to renew the mandate of those member organisations coincides with the final phase of the inter-institutional negotiations on the new common agricultural policy that will be applicable as from 2023. Moreover, the outcome of the reform of the common agricultural policy, which will be followed by the adoption of a series of implementing and delegated acts, should have an impact on the new structure of the CDGs.
- (3) The existing CDGs system matches the current architecture of the agricultural legislation of the Union. Therefore, the mandate of the member organisations should be extended until 31 December 2022, following the rationale of Regulation (EU) 2020/2220 of the European Parliament and of the Council ⁽³⁾, which ensures a transition towards the new common agricultural policy and extended most of the currently applicable rules until the end of 2022.
- (4) The composition of the CDGs should remain unchanged during the period of extension of the mandate of their member organisations. However, member organisations should be free to decide whether they wish to withdraw their membership during that period.
- (5) In order to enhance the operability of the CDGs during the period of extension of the mandate of their member organisations, and in accordance with standard practice for Commission expert groups, the Commission should take over the role of the chair of the CDGs. Moreover, certain arrangements with regard to the agenda and the minutes of the meetings should be aligned with the practice followed in other expert groups with a view to ensuring consistency.
- (6) Decision 2013/767/EU should therefore be amended accordingly,

⁽¹⁾ Commission Decision 2013/767/EU of 16 December 2013 setting up a framework for civil dialogue in matters covered by the common agricultural policy and repealing Decision 2004/391/EC (OJ L 338, 17.12.2013, p. 115).

⁽²⁾ Institutionally speaking, Civil Dialogue Groups are Commission expert groups in the sense of Commission Decision C(2016) 3301.

⁽³⁾ Regulation (EU) 2020/2220 of the European Parliament and of the Council of 23 December 2020 laying down certain transitional provisions for support from the European Agricultural Fund for Rural Development (EAFRD) and from the European Agricultural Guarantee Fund (EAGF) in the years 2021 and 2022 and amending Regulations (EU) No 1305/2013, (EU) No 1306/2013 and (EU) No 1307/2013 as regards resources and application in the years 2021 and 2022 and Regulation (EU) No 1308/2013 as regards resources and the distribution of such support in respect of the years 2021 and 2022 (OJ L 437, 28.12.2020, p. 1).

HAS ADOPTED THIS DECISION:

Article 1

Decision 2013/767/EU is amended as follows:

- (1) in Article 3, paragraph 2 is deleted;
- (2) in Article 4(5), the introductory wording is replaced by the following:
‘The mandate of the member organisations shall expire on 31 December 2022. A member organisation may be replaced within a group where:’;
- (3) Article 5 is amended as follows:
 - (a) paragraph 1 is replaced by the following:
‘1. A representative of the Commission shall chair the meetings.’;
 - (b) paragraphs 2 and 3 are deleted;
 - (c) in paragraph 4, the first sentence is replaced by the following:
‘4. No vote shall take place at the end of a group’s discussion.’;
 - (d) paragraph 5 is replaced by the following:
‘5. Minutes on the discussion on each point of the agenda and on the opinions delivered by the group shall be meaningful and complete. Minutes shall be drafted by the secretariat under the responsibility of the chairperson.’;
 - (e) paragraph 7 is replaced by the following:
‘7. The Directorate-General may invite experts from outside the group with specific competences relating to a subject on the agenda to participate in the work of the group or working group on an ad-hoc basis. In addition, the Commission’s representative may grant observer status to individuals or organisations as defined in Article 4(2), in so far as their participation does not threaten the balance of the groups or working groups. They shall have the right to speak, when invited to do so by the chairperson.’;
 - (f) paragraph 10 is replaced by the following:
‘10. All relevant documents, including the agendas, the minutes and the participants’ submissions, shall be made available either on the Register of Commission expert groups and other similar entities or through a link from the Register to a dedicated website, where this information can be found. Access to dedicated websites shall not be submitted to user registration or any other restriction. In particular, the agenda and other relevant background documents shall be published in due time ahead of the meeting, followed by the timely publication of the minutes. Exceptions to publication shall only be provided for where it is deemed that the disclosure of a document would undermine the protection of a public or private interest as defined in Article 4 of Regulation (EC) No 1049/2001 of the European Parliament and of the Council (*).’

(*) Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).’.

Article 2

This Decision shall enter into force on the seventh day following that of its publication in the *Official Journal of the European Union*.
