Figures for outturn refer to all authorised appropriations, including budget appropriations, additional appropriations and earmarked revenue.

Budgetary remarks are only executable insofar as they do not modify or extend the scope of an existing legal base, impinge on the administrative autonomy of institutions and can be covered by available resources.

Remarks

The GNI-based resource is an 'additional' resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments and other revenue in any particular year. By implication, the GNI-based resource ensures that the budget is always balanced *ex ante*.

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (VAT-based resource, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States' GNI for financial year 2021 is 0,8672 %.

Legal basis

Council Decision 2014/335/EU, Euratom of 26 May 2014 on the system of own resources of the European Union (OJ L 168, 7.6.2014, p. 105), and in particular point (c) of Article 2(1) thereof.
