REGULATIONS

COMMISSION DELEGATED REGULATION (EU) 2021/2244

of 7 October 2021

supplementing Regulation (EU) 2017/625 of the European Parliament and of the Council with specific rules on official controls as regards sampling procedures for pesticides residues in food and feed**(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) ⁽¹⁾, and in particular point (a) of Article 19(2) thereof,

Whereas

- (1) Regulation (EU) 2017/625 lays down rules for the performance of official controls and other official activities by the competent authorities of the Member States to verify compliance with Union legislation, inter alia, in the area of food safety at all stages of production, processing and distribution. It provides for specific rules on official controls in relation to substances whose use may result in residues of those substances in food and feed.
- (2) Regulation (EU) 2017/625 deletes Article 27(1) of Regulation (EC) No 396/2005 of the European Parliament and of the Council ⁽²⁾, which however remains applicable until 14 December 2022 unless an earlier date is set by a delegated act. That Article 27(1) lays down specific requirements for the performance of official controls as regards sampling procedures for the analysis of pesticide residues in food and feed.
- (3) Article 19(1) of Regulation (EU) 2017/625 lays down the specific requirements on official controls in relation to the residues of relevant substances in food and feed to be performed at any stage of production, processing and distribution.

⁽¹⁾ OJ L 95, 7.4.2017, p. 1.

⁽²⁾ Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (OJ L 70, 16.3.2005, p. 1).

- (4) The aim of monitoring pesticide residues in food and feed is to ensure compliance with the maximum residue levels established by Regulation (EC) No 396/2005 as well as to assess the consumer exposure to pesticides residues. It requires food and feed samples to be taken in a sufficient number and range to ensure that they are representative of the market. It also requires those samples to be taken at the most appropriate sampling point in the food chain.
- (5) It is therefore appropriate to supplement Article 19(1) of Regulation (EU) 2017/625 by laying down rules for the performance of the official controls as regards the relevant sampling procedures for pesticide residues in food and feed.
- (6) As the rules laid down in Article 27(1) of Regulation (EC) No 396/2005 regarding official controls for sampling will no longer apply as from 15 December 2022, this Regulation should apply from that date,

HAS ADOPTED THIS REGULATION:

Article 1

For the purposes of the official controls on pesticide residues, as provided for in Article 19(1) of Regulation (EU) 2017/625, each Member State shall take a sufficient number and range of samples of food and feed to ensure that the results are representative of the market, taking into account the results of previous multiannual national control programmes.

The sampling provided for in the first paragraph shall be carried out as close to the point of supply as is reasonable.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 15 December 2022.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 7 October 2021.

COMMISSION DELEGATED REGULATION (EU) 2021/2245**of 12 October 2021****amending Delegated Regulation (EU) 2017/891 as regards the calculation of the value of marketed production of producer organisations in the fruit and vegetable sector**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular Article 37, point (c)(i) and (iv), thereof,

Whereas:

- (1) Natural disasters or adverse climatic events have increasingly damaged the production of fruit and vegetables in the Union for several years. In 2017, the European Union Solidarity Fund, which was established by Council Regulation (EC) No 2012/2002 ⁽²⁾, was mobilised and a specific aid was granted to Latvia with the view to repairing damage caused by intense floods in the summer and autumn of 2017. In 2018, due to heavy rainfall and floods that occurred in some parts of the Union (Estonia, Latvia, Lithuania, and Finland), Commission Implementing Regulation (EU) 2018/108 ⁽³⁾ granted an emergency measure in the form of aid to farmers. In spring 2021, a severe period of frost occurred in certain regions of several Member States (especially in Spain, France, Italy) and for certain products (peaches, nectarines, apples and others). Consequently more than 50 % of the production is lost.
- (2) In view of more frequent natural disasters or adverse climatic events, a long-term solution regarding the calculation of the value of marketed production of producer organisations is needed, in order to reinforce their resilience for the future. It is necessary to amend Commission Delegated Regulation (EU) 2017/891 ⁽⁴⁾ by providing for flexibility in the calculation of the value of marketed production of producer organisations in the Union in case they face natural disasters and climatic events making the production unusable for consumption and processing.
- (3) Large losses in the value of marketed production caused by natural disasters or adverse climatic events have a major impact on the amount of Union aid received by producer organisations in the subsequent year, as the amount of Union aid is calculated as a percentage of the value of marketed production of each producer organisation. Where a large part or the entire harvest is lost, producer organisations risk losing their recognition, as one of the criteria for the recognition is reaching a certain minimum value of marketed production fixed at national level. This would entail a double economic loss, which would put at risk the long-term stability of producer organisations.
- (4) In view of the increased frequency of natural disasters or adverse climatic events and the resulting significantly larger production loss, the safeguard established by Article 23(4) of Delegated Regulation (EU) 2017/891 pursuant to which the value of marketed production of a product is to be deemed to represent 65 % of its value in the previous reference period, is insufficient.

⁽¹⁾ OJ L 347, 20.12.2013, p. 671.

⁽²⁾ Council Regulation (EC) No 2012/2002 of 11 November 2002 establishing the European Union Solidarity Fund (OJ L 311, 14.11.2002, p. 3).

⁽³⁾ Commission Implementing Regulation (EU) 2018/108 of 23 January 2018 on an emergency measure in the form of aid to farmers due to the floods and heavy rainfalls in certain areas of Lithuania, Latvia, Estonia and Finland (OJ L 19, 24.1.2018, p. 6).

⁽⁴⁾ Commission Delegated Regulation (EU) 2017/891 of 13 March 2017 supplementing Regulation (EU) No 1308/2013 of the European Parliament and of the Council with regard to the fruit and vegetables and processed fruit and vegetables sectors and supplementing Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to penalties to be applied in those sectors and amending Commission Implementing Regulation (EU) No 543/2011 (OJ L 138, 25.5.2017, p. 4).

- (5) Therefore, and due to the need to achieve economic and financial stability of producer organisations concerned by large losses in the value of marketed production caused by natural disasters and adverse climatic events, the threshold for the calculation of the value of marketed production for a given reference period should be increased. Taking into consideration the important damage caused by the recent adverse climatic events, the value of marketed production in case of natural disasters and adverse climatic events laid down in Article 23(4) of Delegated Regulation (EU) 2017/891 should be increased to 85 %.
- (6) Furthermore, a solution should be provided to avoid situations where producer organisations, that invest in preventive measures and nonetheless incur substantial damage due to natural disasters, adverse climatic events, plant diseases or pest infestation, not only incur losses of their value of marketed production but also see their Union financial assistance decreased. Therefore, the value of marketed production laid down in Article 23(4) of Delegated Regulation (EU) 2017/891 should be increased to 100 % for producer organisations, that prove that they have taken the necessary preventive measures against plant diseases, pest infestations, natural disasters and adverse climatic events such as heating systems or nets installed in fields, insurance schemes, or setting-up of mutual funds.
- (7) Delegated Regulation (EU) 2017/891 should therefore be amended accordingly.
- (8) In view of the implementation of operational programmes by calendar years and considering that the calculation of the value of marketed production that determines the amount of maximum Union financial assistance is based on the previous calendar year, it is necessary that this Regulation enters into force as soon as possible, on the day following that of its publication in the *Official Journal of the European Union*,

HAS ADOPTED THIS REGULATION:

Article 1

In paragraph 4 of Article 23 of Delegated Regulation (EU) 2017/891, the second subparagraph is replaced by the following:

‘Where a reduction of at least 35 % in the value of a product has occurred due to natural disasters, climatic events, plant diseases or pest infestations falling outside the responsibility and control of the producer organisation, the value of marketed production of that product shall be deemed to represent 85 % of its value in the previous reference period. The producer organisation shall prove to the competent authority of the Member State concerned that those reasons were falling outside its responsibility and control. In case the producer organisation proves to the competent authority of the Member State concerned that it has taken the necessary preventive measures against the natural disaster, climatic event, plant disease or pest infestation concerned, the value of marketed production of that product shall be deemed to represent 100 % of its value in the previous reference period.’

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 12 October 2021.

For the Commission
The President
Ursula VON DER LEYEN

COMMISSION IMPLEMENTING REGULATION (EU) 2021/2246**of 15 December 2021****amending Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety ⁽¹⁾, and in particular Article 53(1), point (b)(ii), thereof,

Having regard to Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) ⁽²⁾, and in particular Article 47(2), point (b), and Article 54(4), points (a) and (b), thereof,

Whereas:

- (1) Commission Implementing Regulation (EU) 2019/1793 ⁽³⁾ lays down rules on the temporary increase of official controls at the entry into the Union on certain food and feed of non-animal origin from certain third countries listed in Annex I to that Implementing Regulation, and on the imposition of special conditions governing the entry into the Union of certain consignments of food and feed from certain third countries due to the risk of contamination by mycotoxins, including aflatoxins, pesticide residues, pentachlorophenol and dioxins, and microbiological contamination, listed in Annex II to that Implementing Regulation.
- (2) Article 12 of Implementing Regulation (EU) 2019/1793 provides that the lists set out in Annexes I and II to that Implementing Regulation are to be reviewed at regular intervals not exceeding 6 months, in order to take into account new information related to risks to human health and non-compliance with Union legislation, such as the data resulting from notifications received through the rapid alert system established by Regulation (EC) No 178/2002, as well as data and information concerning consignments and the results of the documentary, identity and physical checks communicated by the Member States to the Commission.
- (3) The occurrence and relevance of recent food incidents notified through the Rapid Alert System for Food and Feed ('RASFF') indicating the existence of a serious direct or indirect risk to human health deriving from food or feed, as established by Regulation (EC) No 178/2002, and information regarding official controls performed by Member

⁽¹⁾ OJ L 31, 1.2.2002, p. 1.

⁽²⁾ OJ L 95, 7.4.2017, p. 1.

⁽³⁾ Commission Implementing Regulation (EU) 2019/1793 of 22 October 2019 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council and repealing Commission Regulations (EC) No 669/2009, (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660 (OJ L 277, 29.10.2019, p. 89).

States on food and feed of non-animal origin in the first semester of 2021 indicate that the lists set out in Annexes I and II to Implementing Regulation (EU) 2019/1793 should be amended in order to protect human health in the Union.

- (4) Groundnuts and products produced from groundnuts from Argentina have been subject to an increased level of official controls due to the risk of contamination by aflatoxins since January 2019. The official controls carried out by the Member States and available information show improvement in compliance with the relevant requirements provided for in Union legislation. Those results provide evidence that the entry of those foodstuffs into the Union does not constitute a serious risk for human health. As a consequence, it is not necessary to continue to provide that each consignment is accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005 of the European Parliament and of the Council ⁽⁴⁾. At the same time, Member States should continue to carry out controls to ensure that the current level of compliance will be maintained. Therefore, the entry concerning groundnuts from Argentina in Annex II to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex I to that Implementing Regulation, maintaining the level of frequency of identity and physical checks at 5 % of consignments entering the Union.
- (5) Hazelnuts and products produced from hazelnuts from Azerbaijan have been subject to an increased level of official controls due to the risk of contamination by aflatoxins since January 2019. The official controls carried out by the Member States and available information show improvement in compliance with the relevant requirements provided for in Union legislation. Those results provide evidence that the entry of those foodstuffs into the Union does not constitute a serious risk for human health. As a consequence, it is not necessary to continue to provide that each consignment has been accompanied by an official certificate stating that all results of sampling and analysis show compliance with the Regulation (EC) No 396/2005. At the same time, Member States should continue to carry out controls to ensure that the current level of compliance will be maintained. Therefore, the entry concerning hazelnuts from Azerbaijan in Annex II to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex I to that Implementing Regulation, maintaining the level of frequency of identity and physical checks at 20 % of consignments entering the Union.
- (6) Black pepper (*Piper nigrum*) from Brazil has been subject to an increased level of official controls due to the risk of contamination by *Salmonella* since January 2019. The official controls carried out on those foodstuffs by the Member States show a persistent high rate of non-compliance since the establishment of the increased level of official controls. Those results provide evidence that the entry of those foodstuffs into the Union constitutes a serious risk for human health.
- (7) It is therefore necessary, in addition to the increased level of official controls, to provide for special conditions in relation to the importation of black pepper (*Piper nigrum*) from Brazil. In particular, all consignments of black pepper from Brazil should be accompanied by an official certificate stating that all results of sampling and analysis show the absence of *Salmonella* in 25 g. The results of the sampling and analysis should be attached to that certificate. Therefore, the entry on black pepper from Brazil in Annex I to Implementing Regulation (EU) 2019/1793 should be transferred to Annex II to that Implementing Regulation with a frequency of identity and physical checks set at 50 % of consignments entering the Union.
- (8) In relation to consignments of Galia melons (*Cucumis melo* var. *reticulatus*) from Honduras, the data resulting from notifications in the RASFF and information regarding official controls performed by Member States indicate the emergence of new risks to human health, due to a possible contamination by *Salmonella* *Braenderup*. It is therefore necessary to require an increased level of official controls on entries of those commodities from Honduras. Such commodities should therefore be included in Annex I to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 10 % of consignments entering the Union.
- (9) Sweet peppers (*Capsicum annuum*) from China have been subjected to an increased level of official controls due to the risk of contamination by *Salmonella* since January 2019. The official controls carried out by the Member States and available information show improvement in compliance with the relevant requirements provided for in Union legislation. Therefore, an increased level of official controls at the level of 20 % of consignments entering the Union

⁽⁴⁾ Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (OJ L 70, 16.3.2005, p. 1).

is no longer justified for this commodity. However, Member States should continue to carry out controls to ensure that the current level of compliance will be maintained. The corresponding entry in Annex I to Implementing Regulation (EU) 2019/1793 should be modified and the frequency of identity and physical checks decreased to 10 % of consignments entering the Union.

- (10) Aubergines (*Solanum melongena*) from the Dominican Republic have been subject to an increased level of official controls due to the risk of contamination by pesticide residues since January 2019. The official controls carried out on those foodstuffs by the Member States show a persistent high rate of non-compliance since the establishment of the increased level of official controls. Those results provide evidence that the entry of those foodstuffs into the Union constitutes a serious risk for human health.
- (11) It is therefore necessary, in addition to the increased level of official controls, to provide for the imposition of special conditions in relation to aubergines (*Solanum melongena*) from the Dominican Republic. In particular, all consignments of that commodity from the Dominican Republic should be accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005 on maximum residue levels of pesticides for consignments of food and feed listed in Annex II to Implementing Regulation (EU) 2019/1793 due to the contamination risk by pesticide residues. The results of the sampling and analysis should be attached to that certificate. Therefore, the entry on aubergines (*Solanum melongena*) from the Dominican Republic in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex II to that Implementing Regulation, with a frequency of identity and physical checks maintained at 50 % of consignments entering the Union.
- (12) Peppers of the genus *Capsicum* and Yardlong beans from the Dominican Republic have been subject to an increased level of official controls due to the risk of contamination by pesticide residues since January 2010. The official controls carried out on those foodstuffs by the Member States show a persistent high rate of non-compliance since the establishment of the increased level of official controls. Those results provide evidence that the entry of those foodstuffs into the Union constitutes a serious risk for human health.
- (13) It is therefore necessary, in addition to the increased level of official controls, to provide for the imposition of special conditions in relation to peppers of the genus *Capsicum* and Yardlong beans from the Dominican Republic. In particular, all consignments of peppers of the genus *Capsicum* and Yardlong beans from the Dominican Republic should be accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005 on maximum residue levels of pesticides for consignments of food and feed listed in Annex II to Implementing Regulation (EU) 2019/1793 due to the contamination risk by pesticide residues. The results of the sampling and analysis should be attached to that certificate. Therefore, the entry on peppers of the genus *Capsicum* and Yardlong beans from the Dominican Republic in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex II to that Implementing Regulation, with a frequency of identity and physical checks maintained at 50 %.
- (14) In relation to consignments of drumsticks (*Moringa oleifera*) from India, the data resulting from notifications in the RASFF and information regarding official controls performed by Member States indicate the emergence of new risks to human health, due to a possible contamination by pesticide residues. It is therefore necessary to require an increased level of official controls on entries of this commodity from India. Such commodities should therefore be included in Annex I to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 10 %.
- (15) In relation to consignments of peppers of the genus *Capsicum* (other than sweet) from India, a high frequency of non-compliance with the relevant requirements provided for in Union legislation with respect to contamination by pesticide residues was detected during official controls performed by Member States in accordance with Annex II to Implementing Regulation (EU) 2019/1793. It is therefore appropriate to increase the frequency of identity and physical checks to be performed on such consignments to 20 %.
- (16) In relation to consignments of rice from India and Pakistan, the data resulting from notifications in the RASFF and information regarding official controls performed by Member States indicate the emergence of new risks to human health, due to a possible contamination by aflatoxins and ochratoxine A. It is therefore necessary to require an increased level of official controls on entries of such consignments. Entries of those commodities from India and Pakistan should therefore be included in Annex I to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 10 %.

- (17) In relation to consignments of gotukola (*Centella asiatica*) and mukunuwenna (*Alternanthera sessilis*) from Sri Lanka, the data resulting from notifications in the RASFF and information regarding official controls performed by Member States indicate the emergence of new risks to human health, due to a possible contamination by pesticide residues. It is therefore necessary to require an increased level of official controls on entries of such consignments. Entries of those commodities from Sri Lanka should therefore be included in Annex I to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 10 %.
- (18) Hazelnuts and products produced from hazelnuts from Turkey have been subject to an increased level of official controls due to the risk of contamination by aflatoxins April 2021. The official controls carried out on those foodstuffs by the Member States indicate an overall satisfactory degree of compliance with the relevant requirements provided for in Union legislation. Therefore, an increased level of official controls is no longer justified for this commodity and its entry in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted.
- (19) In relation to consignments of grapefruits from Turkey, the data resulting from notifications in the RASFF and information regarding official controls performed by Member States indicate the emergence of new risks to human health, due to a possible contamination by pesticide residues. It is therefore necessary to require an increased level of official controls on entries of such consignments. Entries of that commodity from Turkey should therefore be included in Annex I to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 10 %.
- (20) Mandarins (including tangerines and satsumas), clementines, wilkings and similar citrus hybrids and oranges from Turkey have been subject to an increased level of official controls due to the risk of contamination by pesticide residues since January 2020. The official controls carried out on those foodstuffs by the Member States show a persistent high rate of non-compliance since the establishment of the increased level of official controls. Those results provide evidence that the entry of those foodstuffs into the Union constitutes a serious risk for human health.
- (21) It is therefore necessary, in addition to the increased level of official controls, to provide for the imposition of special conditions in relation to mandarins and oranges from Turkey. In particular, all consignments of mandarins (including tangerines and satsumas), clementines, wilkings and similar citrus hybrids and oranges from Turkey should be accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005 on maximum residue levels of pesticides for consignments of food and feed listed in Annex II to Implementing Regulation (EU) 2019/1793 due to the contamination risk by pesticide residues. The results of the sampling and analysis should be attached to that certificate. Therefore, the entry on mandarins and oranges from Turkey in Annex I to Implementing Regulation (EU) 2019/1793 should be deleted and transferred to Annex II to that Implementing Regulation with a frequency of identity and physical checks raised to 20 %.
- (22) In relation to consignments of cumin seeds and dried oregano from Turkey, the data resulting from notifications in the RASFF and information regarding official controls performed by Member States indicate the emergence of new risks to human health, due to a possible contamination by pyrrolizidine alkaloids. It is therefore necessary to require an increased level of official controls on entries of such consignments. Entries of these commodities from Turkey should therefore be included in Annex I to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 10 % of consignments entering the Union.
- (23) In relation to *pitahaya* (dragon fruit) from Vietnam, a high frequency of non-compliance with the relevant requirements provided for in Union legislation with respect to contamination by pesticide residues was detected during official controls performed by Member States in accordance with Annex II to Implementing Regulation (EU) 2019/1793. It is therefore appropriate to increase the frequency of identity and physical checks to be performed on such consignments to 20 %.
- (24) The risk arising from contamination of groundnuts by aflatoxins is associated as well with groundnuts paste. Therefore to ensure efficient protection against potential health risks arising from contamination of groundnuts paste by aflatoxins, in the columns referring to 'Food and feed (intended use)' and 'CN code' in Annex I and in Table

1 of Annex II to Implementing Regulation (EU) 2019/1793, the category 'groundnuts paste' and relevant CN codes for groundnuts paste should be added for the entries relating to groundnuts for Argentina, Bolivia, Brazil, China, Madagascar, Senegal and for the United States in Annex I and for Egypt, Ghana, Gambia, India and Sudan in Annex II.

- (25) Sesamum seeds from India have been subjected to an increased level of official controls in view of a risk of contamination by pesticide residues including ethylene oxide since October 2020. The official controls carried out by Member States and available information show improvement in compliance with the relevant requirements in Union legislation regarding pesticide residues other than ethylene oxide. Therefore, an increased level of official controls of consignments of sesamum seed for the possible contamination with pesticide residues that can be analysed with multi-residues methods is no longer necessary for this commodity. Therefore the corresponding entry in Annex II to Implementing Regulation (EU) 2019/1793 should be modified accordingly.
- (26) Data resulting from notifications in the RASFF and information regarding official controls performed by Member States indicate the emergence of new risks to human health, due to a possible contamination by ethylene oxide, requiring an increased level of official controls. Ethylene oxide is classified as a mutagen, category 1B, a carcinogen, category 1B, and a reproductive toxicant, category 1B, in accordance with Regulation (EC) No 1272/2008 of the European Parliament and of the Council ⁽ⁱ⁾. Moreover, ethylene oxide is not approved as an active substance for use in plant protection products in the Union.
- (27) In relation to consignments of locust beans (carob), mucilages and thickeners, whether or not modified, derived from locust beans or locust bean seeds from Morocco, spice paste from Mexico and peppers of the genus *Capsicum* (other than sweet) from Uganda, results from official controls performed by Member States show occurrences of contamination by ethylene oxide.
- (28) Therefore, in order to ensure efficient protection against potential health risks arising from contamination of those commodities, consignments of locust beans (carob), mucilages and thickeners, whether or not modified, derived from locust beans or locust bean seeds from Morocco, spice paste from Mexico and peppers of the genus *Capsicum* (other than sweet) from Uganda should therefore be included in Annex I to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 10 %.
- (29) Taking into account the number of RASFF notifications received, it is appropriate to provide for special conditions for consignments of xanthan gum from China, locust beans (including mucilages and thickeners derived from locust beans), Guar gum, several spices, Calcium carbonate and food supplements containing botanicals from India, food supplements containing botanicals and instant noodles from South Korea, locust beans (including mucilages and thickeners derived from locust beans) from Malaysia and Turkey, and instant noodles from Vietnam. Due to the contamination risk by ethylene oxide, consignments of those products should be accompanied by an official certificate stating that all results of sampling and analysis show compliance with Regulation (EC) No 396/2005 on maximum residue levels of ethylene oxide for consignments of food and feed listed in Annex II to Implementing Regulation (EU) 2019/1793. The results of the sampling and analysis should be attached to that certificate. Therefore, entries of consignments of xanthan gum from China, locust beans (including mucilages and thickeners derived from locust beans), Guar gum, several spices, Calcium carbonate and food supplements containing botanicals from India, food supplements containing botanicals and instant noodles from South Korea, locust beans (including mucilages and thickeners derived from locust beans) from Malaysia and Turkey, and instant noodles from Vietnam should be included in Annex II to Implementing Regulation (EU) 2019/1793, with a frequency of identity and physical checks set at 20 %.
- (30) In order to ensure consistency and clarity, it is appropriate to replace Annexes I and II to Implementing Regulation (EU) 2019/1793 in their entirety by the text set out in the Annex to this Regulation.

⁽ⁱ⁾ Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (OJ L 353, 31.12.2008, p. 1).

- (31) It is appropriate to provide for a transitional period for consignments of black pepper (*Piper nigrum*) from Brazil, of aubergines (*Solanum melongena*), of sweet peppers (*Capsicum annuum*), of peppers of the genus *Capsicum* (other than sweet) and yardlong beans (*Vigna unguiculata* ssp. *sesquipedalis*, *Vigna unguiculata* ssp. *unguiculata*) from the Dominican Republic and of mandarins (including tangerines and satsumas), clementines, wilkings and similar citrus hybrids and oranges from Turkey, which are not accompanied by an official certificate, but which were already subject to official controls at the border control post in accordance with Union legislation in force at the time.
- (32) Implementing Regulation (EU) 2019/1793 should therefore be amended accordingly.
- (33) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

1. Article 14 is replaced by the following:

‘Article 14

Transitional period

Consignments of black pepper (*Piper nigrum*) from Brazil, of aubergines (*Solanum melongena*), of sweet peppers (*Capsicum annuum*), of peppers of the genus *Capsicum* (other than sweet) and yardlong beans (*Vigna unguiculata* ssp. *sesquipedalis*, *Vigna unguiculata* ssp. *unguiculata*) from the Dominican Republic and of mandarins (including tangerines and satsumas), clementines, wilkings and similar citrus hybrids and oranges from Turkey, which were already subject to increased official controls before the entry into force of this Regulation, may be authorised to entry into the Union until 26 January 2022 without being accompanied by an official certificate and the results of sampling and analysis.’;

2. Annexes I and II are replaced by the text set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 15 December 2021.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

‘ANNEX I

Food and feed of non-animal origin from certain third countries subject to a temporary increase of official controls at border control posts and control points

Row	Country of origin	Food and feed (intended use)	CN code ⁽¹⁾	TARIC sub-division	Hazard	Frequency of identity and physical checks (%)

⁽¹⁾ Where only certain products under any CN code are required to be examined, the CN code is marked 'ex'.

⁽²⁾ The sampling and the analyses shall be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III.

⁽³⁾ Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29(2) of Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (OJ L 70, 16.3.2005, p. 1) that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in/on products of plant origin only).

-
- (⁴) Residues of Amitraz.
- (⁵) Residues of Nicotine.
- (⁶) The sampling and the analyses shall be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III.
- (⁷) Residues of Tolfenpyrad.
- (⁸) Residues of Amitraz (amitraz including the metabolites containing the 2,4 -dimethylaniline moiety expressed as amitraz), Diafenthiuron, Dicofol (sum of p, p' and o,p' isomers) and Dithiocarbamates (dithiocarbamates expressed as CS₂, including maneb, mancozeb, metiram, propineb, thiram and ziram).
- (⁹) Residues of Dicofol (sum of p, p' and o,p' isomers), Dinotefuran, Folpet, Prochloraz (sum of prochloraz and its metabolites containing the 2,4,6-Trichlorophenol moiety expressed as prochloraz), Thiophanate-methyl and Triforine.
- (¹⁰) For the purposes of this Annex, 'Sudan dyes' refers to the following chemical substances: (i) Sudan I (CAS Number 842-07-9); (ii) Sudan II (CAS Number 3118-97-6); (iii) Sudan III (CAS Number 85-86-9); (iv) Scarlet Red; or Sudan IV (CAS Number 85-83-6).
- (¹¹) Residues of Acephate.
- (¹²) Residues of Diafenthiuron.
- (¹³) Residues of Phenthoate.
- (¹⁴) Residues of Chlorbufam.
- (¹⁵) Residues of Formetanate (sum of formetanate and its salts expressed as formetanate (hydrochloride)), Prothiofos and Triforine.
- (¹⁶) Residues of Prochloraz.
- (¹⁷) Residues of Diafenthiuron, Formetanate (sum of formetanate and its salts expressed as formetanate (hydrochloride)) and Thiophanate-methyl.
- (¹⁸) 'Unprocessed products' as defined in Regulation (EC) No 852/2004 of the European Parliament and of the Council of 29 April 2004 on the hygiene of foodstuffs (OJ L 139, 30.4.2004, p. 1).
- (¹⁹) 'Placing on the market' and 'final consumer' as defined in Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety (OJ L 31, 1.2.2002, p. 1).
- (²⁰) Reference methods: EN 1988-1:1998, EN 1988-2:1998 or ISO 5522:1981.
- (²¹) Residues of Dithiocarbamates (dithiocarbamates expressed as CS₂, including maneb, mancozeb, metiram, propineb, thiram and ziram), Phenthoate and Quinalphos.
- (²²) Residues of Ethylene Oxide (sum of ethylene oxide and 2-chloro-ethanol, expressed as ethylene oxide).'
-

ANNEX II

Food and feed from certain third countries subject to special conditions for the entry into the Union due to contamination risk by mycotoxins, including aflatoxins, pesticide residues, pentachlorophenol and dioxins, and to microbiological contamination

1. Food and feed of non-animal origin referred to in Article 1, point (1)(b)(i)

Row	Country of origin	Food and feed (intended use)	CN code ⁽¹⁾	TARIC sub-division	Hazard	Frequency of identity and physical checks (%)
1	Bangladesh (BD)	— Foodstuffs containing or consisting of betel leaves (<i>Piper betle</i>) (Food)	ex 1404 90 00 ⁽¹⁰⁾	10	<i>Salmonella</i> ⁽⁶⁾	50
2	Brazil (BR)	— Brazil nuts in shell	— 0801 21 00		Aflatoxins	50
		— Mixtures of nuts or dried fruits containing Brazil nuts in shell (Food)	— ex 0813 50 31; ex 0813 50 39; ex 0813 50 91; ex 0813 50 99	20 20 20 20		
		— Black pepper (<i>Piper nigrum</i>) (Food – neither crushed nor ground)	ex 0904 11 00	10	<i>Salmonella</i> ⁽²⁾	50
3	China (CN)	— Xanthan gum (Food and feed)	— ex 3913 90 00	40	Pesticide residues ⁽¹¹⁾	20
4	Dominican Republic (DO)	Aubergines (<i>Solanum melongena</i>) (Food – fresh or chilled)	0709 30 00		Pesticide residues ⁽⁴⁾	50
		— Sweet peppers (<i>Capsicum annuum</i>)	— 0709 60 10; 0710 80 51		Pesticide residues ⁽⁴⁾ ⁽⁸⁾	50
		— Peppers of the genus <i>Capsicum</i> (other than sweet)	— ex 0709 60 99; ex 0710 80 59	20 20		
		— Yardlong beans (<i>Vigna unguiculata</i> ssp. <i>sesquipedalis</i> , <i>Vigna unguiculata</i> ssp. <i>unguiculata</i>) (Food – fresh, chilled or frozen)	— ex 0708 20 00; ex 0710 22 00	10 10		

5	Egypt (EG)	— Groundnuts (peanuts), in shell	— 1202 41 00			
		— Groundnuts (peanuts), shelled	— 1202 42 00			
		— Peanut butter	— 2008 11 10			
		— Groundnuts (peanuts), otherwise prepared or preserved, including mixtures	— 2008 11 91; 2008 11 96; 2008 11 98;			
			— ex 2008 19 12;	40	Aflatoxins	20
			— ex 2008 19 13;	40		
			— ex 2008 19 19;	50		
			— ex 2008 19 92;	40		
			— ex 2008 19 93;	40		
			— ex 2008 19 95;	40		
			— ex 2008 19 99	50		
		— Oilcake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of groundnut oil	— 2305 00 00			
		— Groundnut flours and meals	— ex 1208 90 00	20		
		— Groundnuts paste (<i>Food and feed</i>)	— ex 2007 10 10	80		
			— ex 2007 10 99	50		
			— ex 2007 99 39	07; 08		
6	Ethiopia (ET)	— Pepper of the genus Piper; dried or crushed or ground fruit of the genus Capsicum or of the genus Pimenta	— 0904		Aflatoxins	50
		— Ginger, saffron, turmeric (curcuma), thyme, bay leaves, curry and other spices (<i>Food – dried spices</i>)	— 0910			
		Sesamum seeds (<i>Food</i>)	— 1207 40 90		Salmonella ⁽⁶⁾	50
			— ex 2008 19 19	40		
			— ex 2008 19 99	40		

7	Ghana (GH)	— Groundnuts (peanuts), in shell	— 1202 41 00		Aflatoxins	50
		— Groundnuts (peanuts), shelled	— 1202 42 00			
		— Peanut butter	— 2008 11 10			
		— Groundnuts (peanuts), otherwise prepared or preserved, including mixtures	— 2008 11 91; — 2008 11 96; — 2008 11 98;			
			— ex 2008 19 12;	40		
			— ex 2008 19 13;	40		
			— ex 2008 19 19;	50		
			— ex 2008 19 92;	40		
			— ex 2008 19 93;	40		
			— ex 2008 19 95;	40		
			— ex 2008 19 99	50		
		— Oilcake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of groundnut oil	— 2305 00 00			
		— Groundnut flours and meals	— ex 1208 90 00	20		
8	Gambia (GM)	— Groundnuts paste (<i>Food and feed</i>)	— ex 2007 10 10	80	Aflatoxins	50
			— ex 2007 10 99	50		
			— ex 2007 99 39	07; 08		
		— Groundnuts (peanuts), in shell	— 1202 41 00			
		— Groundnuts (peanuts), shelled	— 1202 42 00			
		— Peanut butter	— 2008 11 10			
		— Groundnuts (peanuts), otherwise prepared or preserved, including mixtures	— 2008 11 91; — 2008 11 96; — 2008 11 98;			
			— ex 2008 19 12;	40		
			— ex 2008 19 13;	40		
			— ex 2008 19 19;	50		
			— ex 2008 19 92;	40		
			— ex 2008 19 93;	40		
			— ex 2008 19 95;	40		
			— ex 2008 19 99	50		

		— Oilcake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of groundnut oil — Groundnut flours and meals — Groundnuts paste (Food and feed)	— 2305 00 00 — ex 1208 90 00 — ex 2007 10 10 — ex 2007 10 99 — ex 2007 99 39	20 80 50 07; 08		
9	Indonesia (ID)	Nutmeg (<i>Myristica fragrans</i>) (Food – dried spices)	0908 11 00; 0908 12 00		Aflatoxins	20
10	India (IN)	Betel leaves (<i>Piper betle</i> L.) (Food)	ex 1404 90 00	10	<i>Salmonella</i> (²)	10
		Peppers of the genus <i>Capsicum</i> (sweet or other than sweet) (Food – dried, roasted, crushed or ground)	0904 21 10; ex 0904 22 00; ex 0904 21 90; ex 2005 99 10; ex 2005 99 80	11; 19 20 10; 90 94	Aflatoxins	20

-
- (¹) Where only certain products under any CN code are required to be examined, the CN code is marked 'ex'.
- (²) The sampling and the analyses shall be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III.
- (³) The analytical report referred to in Article 10(3) shall be issued by a laboratory accredited in accordance with EN ISO/IEC 17025 for the analysis of pentachlorophenol (PCP) in food and feed.

The analytical report shall indicate:

- (⁴) the results of sampling and analysis for the presence of PCP, performed by the competent authorities of the country of origin or of the country where the consignment is consigned from if that country is different from the country of origin;
- (⁵) the measurement uncertainty of the analytical result;
- (⁶) the limit of detection (LOD) of the analytical method; and
- (⁷) the limit of quantification (LOQ) of the analytical method.

The extraction before analysis shall be performed with an acidified solvent. The analysis shall be carried out according to the modified version of the QuEChERS method as set out on the websites of the European Union Reference Laboratories for Residues of Pesticides or according to an equally reliable method.

- (⁸) Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29(2) of Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC (OJ L 70, 16.3.2005, p. 1) that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in/on products of plant origin only).
- (⁹) Residues of Carbofuran.
- (⁶) The sampling and the analyses shall be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III.
- (⁷) Residues of Dithiocarbamates (dithiocarbamates expressed as CS₂, including maneb, mancozeb, metiram, propineb, thiram and ziram) and Metrafenone.
- (⁸) Residues of Dithiocarbamates (dithiocarbamates expressed as CS₂, including maneb, mancozeb, metiram, propineb, thiram and ziram), Phenthoate and Quinalphos.
- (⁹) The description of the goods is as laid down in the description column of the CN in Annex I to Council Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff (OJ L 256, 7.9.1987, p. 1).
- (¹⁰) Foodstuffs containing or consisting of betel leaves (*Piper betle*) including, but not limited to, those declared under CN code 1404 90 00.
- (¹¹) Residues of Ethylene Oxide (sum of ethylene oxide and 2-chloro-ethanol, expressed as ethylene oxide).
-

2. Food referred to in Article 1, point (1)(b)(ii)

Row	Food consisting of two or more ingredients, containing any of the individual products listed in the table in point 1 of this Annex due to risk of contamination by aflatoxins in a quantity above 20 % of either a single product or as the sum of products listed	
	CN code ⁽¹⁾	Description ⁽²⁾
1	ex 1704 90	Sugar confectionery (including white chocolate), not containing cocoa, other than chewing gum, whether or not sugar-coated
2	ex 1806	Chocolate and other food preparations containing cocoa
3	ex 1905	Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa, communion wafers, empty cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products

⁽¹⁾ Where only certain products under any CN code are required to be examined, the CN code is marked 'ex'.

⁽²⁾ The description of the goods is as laid down in the description column of the CN in Annex I to Council Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff (OJ L 256, 7.9.1987, p. 1).'

COMMISSION IMPLEMENTING REGULATION (EU) 2021/2247**of 15 December 2021****amending Regulation (EC) No 1484/95 as regards fixing representative prices in the poultrymeat and egg sectors and for egg albumin**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular Article 183(b) thereof,

Having regard to Regulation (EU) No 510/2014 of the European Parliament and of the Council of 16 April 2014 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products and repealing Council Regulations (EC) No 1216/2009 and (EC) No 614/2009 ⁽²⁾, and in particular Article 5(6)(a) thereof,

Whereas:

- (1) Commission Regulation (EC) No 1484/95 ⁽³⁾ lays down detailed rules for implementing the system of additional import duties and fixes representative prices in the poultrymeat and egg sectors and for egg albumin.
- (2) Regular monitoring of the data used to determine representative prices for poultrymeat and egg products and for egg albumin shows that the representative import prices for certain products should be amended to take account of variations in price according to origin.
- (3) Regulation (EC) No 1484/95 should therefore be amended accordingly.
- (4) Given the need to ensure that this measure applies as soon as possible after the updated data have been made available, this Regulation should enter into force on the day of its publication,

HAS ADOPTED THIS REGULATION:

Article 1

Annex I to Regulation (EC) No 1484/95 is replaced by the text set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Union*.

⁽¹⁾ OJ L 347, 20.12.2013, p. 671.

⁽²⁾ OJ L 150, 20.5.2014, p. 1.

⁽³⁾ Commission Regulation (EC) No 1484/95 of 28 June 1995 laying down detailed rules for implementing the system of additional import duties and fixing representative prices in the poultrymeat and egg sectors and for egg albumin, and repealing Regulation No 163/67/EEC (OJ L 145, 29.6.1995, p. 47).

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 15 December 2021.

⁽¹⁾ Nomenclature of countries laid down by Commission Regulation (EU) No 1106/2012 of 27 November 2012 implementing Regulation (EC) No 471/2009 of the European Parliament and of the Council on Community statistics relating to external trade with non-member countries, as regards the update of the nomenclature of countries and territories (OJ L 328, 28.11.2012, p. 7).’

COMMISSION IMPLEMENTING REGULATION (EU) 2021/2248**of 16 December 2021****specifying the details of the electronic interface between national customs systems and the information and communication system for market surveillance, and the data to be transmitted by means of that interface****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2019/1020 of the European Parliament and of the Council of 20 June 2019 on market surveillance and compliance of products and amending Directive 2004/42/EC and Regulations (EC) No 765/2008 and (EU) No 305/2011 ⁽¹⁾, and in particular Article 34(8) thereof,

Whereas:

- (1) Article 34(7) of Regulation (EU) 2019/1020 requires the Commission to develop an electronic interface ('the interface') to enable the transmission of data between national customs systems and the information and communication system referred to in Article 34(1) of that Regulation. That information and communication system is known as the Information and Communication System for Market Surveillance ('ICSMS'). The interface is intended to facilitate communication between customs authorities and market surveillance authorities for the control of products entering the Union in accordance with Articles 25 to 28 of Regulation (EU) 2019/1020. Its use is to remain voluntary pursuant to Article 26(4) of that Regulation.
- (2) In order to facilitate the preparation of the electronic systems and the consistent exchange of information, it is necessary to lay down the standard datasets to be transmitted, in the prescribed form and manner, by means of the interface. Those datasets should reflect the requirements set out in Regulation (EU) 2019/1020 as regards the controls on products entering the Union market. They should nevertheless be flexible enough to allow Member States to deal with all relevant cases, using the data or data fields that are appropriate for each case.
- (3) To limit the administrative burden for customs authorities, the data transmitted from national customs systems to ICSMS should, whenever possible, be readily available from these systems. Nevertheless, verification of compliance of a product by the market surveillance authorities requires additional data elements to be entered in national customs systems.
- (4) Where Member States make use of the interface, they should be subject to specific procedural requirements in order to ensure the effective functioning of the electronic systems.
- (5) Where the application of this Regulation entails the processing of personal data, it should be carried out in accordance with Union law on the protection of personal data, in particular Regulation (EU) 2016/679 ⁽²⁾ and Regulation (EU) 2018/1725 ⁽³⁾ of the European Parliament and of the Council. This Regulation should lay down some specifications as regards the processing of personal data. These specifications should in the future be consistent with those laid down in the EU Single Window Environment for Customs, for which the Commission

⁽¹⁾ OJ L 169, 25.6.2019, p. 1.

⁽²⁾ Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1)

⁽³⁾ Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295, 21.11.2018, p. 39).

tabled a proposal on 28 October 2020 ⁽⁴⁾. The provisions of this Regulation on personal data protection may therefore be reviewed in light of the future legislative framework governing the EU Single Window Environment for Customs.

- (6) Data transmitted via the interface should be confidential and should not remain in the interface longer than necessary for its transmission.
- (7) In accordance with Article 34(7) of Regulation (EU) 2019/1020, the interface should be in place within four years from the date of adoption of this Regulation. Setting up electronic systems is a complex technical task requiring Member States and the Commission to invest both financially and in terms of time. The development process of the interface is expected to take four years. The date of application of this Regulation should therefore be deferred until the interface is available.
- (8) The European Data Protection Supervisor was consulted in accordance with Article 42(1) of Regulation (EU) 2018/1725 and delivered an opinion on 22 October 2021.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the committee established by Article 43 of Regulation (EU) 2019/1020,

HAS ADOPTED THIS REGULATION:

Article 1

Definitions

For the purposes of this Regulation, the following definitions shall apply:

- (a) 'Information and Communication System for Market Surveillance' or 'ICSMS' means the information and communication system on market surveillance provided for in Article 34(1) of Regulation (EU) 2019/1020;
- (b) 'interface' means the electronic interface to be developed by the Commission pursuant to Article 34(7) of Regulation (EU) 2019/1020.

Article 2

Data to be transmitted

1. For the purposes of notification to market surveillance authorities of the suspension of release for free circulation of a product pursuant to Article 26(2) of Regulation (EU) 2019/1020, the data to be transmitted shall include:

- (a) relevant data available from national customs systems, including data from the customs declaration, as listed in Annex I, Section 1, to this Regulation;
- (b) additional data to be entered in national customs systems, as listed in Annex I, Section 2, to this Regulation.

2. Where market surveillance authorities request customs authorities to maintain the suspension of the release for free circulation of the product, inform customs authorities of their approval for such release or require customs authorities not to release the product for free circulation pursuant to Articles 27 and 28 of Regulation (EU) 2019/1020, the data to be transmitted shall include:

- (a) the decision of the market surveillance authorities as regards the approval or refusal to release the product for free circulation, or their request to maintain the suspension, in accordance with Annex II to this Regulation;

⁽⁴⁾ Proposal for a Regulation of the European Parliament and of the Council establishing the European Union Single Window Environment for Customs and amending Regulation (EU) No 952/2013, COM/2020/673 final.

- (b) follow-up to the communications referred to in point (a) of this paragraph, both by customs authorities and market surveillance authorities, in accordance with Annex III to this Regulation.

3. For the purposes of a request by market surveillance authorities to suspend the release for free circulation of a product pursuant to Article 26(3) of Regulation (EU) 2019/1020, and of the reply by customs authorities, the data specified in Annex IV to this Regulation shall be transmitted.

Article 3

Procedure

1. Where a Member State uses the interface, customs authorities shall connect the national customs systems with that interface, test the connection and ensure that these systems remain interoperable with that interface.
2. Where the notifications and requests referred to in Article 26(2) and (3) of Regulation (EU) 2019/1020 take place by means of ICSMS and of the interface pursuant to Article 26(4) of that Regulation, the following provisions shall apply:
 - (a) customs authorities shall enter in their national customs systems the data to be transmitted, where such data are not already present, and shall authorise the transmission of these data via the interface to ICSMS;
 - (b) market surveillance authorities shall enter in ICSMS the data to be transmitted and shall authorise the transmission of these data via the interface to the national customs systems of the relevant customs authorities;
 - (c) once the transmission of the data referred to in points (a) and (b) of this paragraph has been authorised, the interface shall transmit these data to the other system;
 - (d) all subsequent data transmissions relating to the notifications and requests shall take place via the interface.
3. Where the market surveillance authorities do not respond to the notification within the time limits set out in Article 27, point (a), of Regulation (EU) 2019/1020, ICSMS shall transmit to national customs systems, via the interface, an automatic message indicating that the product may be released for free circulation where all the other requirements and formalities relating to such a release have been fulfilled.

Article 4

Processing of personal data

1. Processing of personal data may take place in the interface only for the following purposes:
 - (a) enabling information to be exchanged between national customs systems and ICSMS for the control of products entering the Union market in accordance with Articles 25 to 28 of Regulation (EU) 2019/1020;
 - (b) performing the transformation of data, where necessary, to ensure alignment of customs and non-customs terminology and thereby enabling the exchange of information referred to in point (a).
2. The interface may process personal data only for the following categories of data subjects:
 - (a) natural persons whose personal information is contained in the customs declaration;
 - (b) natural persons whose personal information is contained in the supporting documents or in any other additional documentary evidence required for the verification of compliance with Union law of the products subject to the customs declaration;
 - (c) authorised staff of customs authorities and market surveillance authorities or any other relevant authority or authorised body whose personal information is contained in any documents referred to in points (a) and (b);

- (d) Commission staff and third party providers acting on behalf of the Commission that perform operations and maintenance activities related to the interface.
- 3. The interface may process only the following categories of personal data:
 - (a) name and contact information (including address, country code, e-mail, telephone) or identification number of the natural persons referred to in paragraph 2, points (a) and (b);
 - (b) name, contact information (including address, country code, e-mail, telephone) and signature of the authorised staff referred to in paragraph 2, points (c) and (d).
- 4. The transformation of personal data referred to in paragraph 1, point (b), shall be performed using information technology infrastructure located in the Union.

Article 5

Joint controllership of the interface

- 1. As regards the processing of personal data in the interface, the Commission shall be a joint controller within the meaning of Article 28(1) of Regulation (EU) 2018/1725, and customs authorities and market surveillance authorities shall be joint controllers within the meaning of Article 26(1) of Regulation (EU) 2016/679.
- 2. The Commission shall enter into a joint controllership arrangement with the other joint controllers, to establish the respective responsibilities of the joint controllers and comply with the obligations under Regulations (EU) 2016/679 and (EU) 2018/1725.
- 3. The joint controllers shall ensure that they:
 - (a) work together to process the requests made by the data subject in a timely manner;
 - (b) assist each other in matters involving the identification and handling of any data breach related to joint processing;
 - (c) exchange the relevant information necessary to inform data subjects pursuant to Section 2 of Regulation (EU) 2016/679 and Section 2 of Regulation (EU) 2018/1725;
 - (d) ensure and protect the security, integrity, availability and confidentiality of the personal data processed jointly pursuant to Article 32 of Regulation (EU) 2016/679 and Article 33 of Regulation (EU) 2018/1725.

Article 6

Confidentiality of data

Data transmitted via the interface pursuant to this Regulation shall not remain in the interface longer than necessary for their transmission and shall be kept confidential by the Commission during the transmission. This data shall be used only for the purpose of implementation of Regulation (EU) 2019/1020.

Article 7

Entry into force and application

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 16 December 2025.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 16 December 2021.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX I

Data referred to in Article 2(1)

The data referred to in Article 2(1) shall include the groups and elements laid down in Sections 1 and 2.

1. Data from national customs systems, including data from the customs declaration where these are available*Information about the goods*

- (a) Customs classification code, including the Harmonised System sub-heading code, the Combined Nomenclature code laid down in Council Regulation (EEC) No 2658/87 ⁽¹⁾, and TARIC code;
- (b) Description of the goods;
- (c) Mass of the goods;
- (d) Quantity of the goods;
- (e) Relevant supporting documents.

Information about the economic operators

- (f) Exporter;
- (g) Seller;
- (h) Importer;
- (i) Buyer;
- (j) Declarant.

Origin and destination of the goods

- (k) Country of destination;
- (l) Country of origin;
- (m) Country of dispatch;
- (n) Country of exporter;
- (o) Mode of transport at the border.

Administrative information

- (p) Master reference number of the customs declaration;
- (q) Goods item number;
- (r) Date of acceptance of the declaration;
- (s) Indication of declarations containing a reduced dataset;
- (t) Responsible customs office, including customs office of presentation and supervising customs office where relevant.
- (u) Customs process data.

Where the data elements listed in this Section consist in numerical or alphanumerical codes commonly used by the customs authorities, the interface shall be set up in such a way that it can retrieve from customs systems and transmit to ICSMS the relevant textual information captured by those codes.

⁽¹⁾ Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff (OJ L 256, 7.9.1987, p. 1)

2. Additional data to be entered in national customs systems

- (a) Reasons for suspension, in accordance with Article 26(1) of Regulation (EU) 2019/1020 (mandatory in all cases);
 - (b) Information on the product, for example name, trade name or registered trade mark, model, EAN number, serial number (where available);
 - (c) Union legal act(s) to which the assumed non-compliance relates (mandatory in all cases);
 - (d) Main category of products concerned, in line with Article 1(1), point (c) (viii) of Commission implementing Regulation (EU) 2021/1121 ⁽²⁾ (mandatory in all cases);
 - (e) Information referred to in Article 4(4) of Regulation 2019/1020 concerning the economic operator (mandatory if the requirement is applicable and the data are available);
 - (f) Pictures of the product and, where relevant, its packaging, for example showing product information, conformity marking, labelling or suspicious elements (where available);
 - (g) Other relevant documents, for example invoices, declaration of conformity, test reports (where available);
 - (h) Market surveillance authority or authorities to be notified, selected from the list of market surveillance authorities designated by Member States and entered in ICSMS in accordance with Article 10(2) of Regulation (EU) 2019/1020 (mandatory in all cases).
-

⁽²⁾ Commission Implementing Regulation (EU) 2021/1121 of 8 July 2021 specifying the details of the statistical data to be submitted by the Member States as regards controls on products entering the Union market with regard to product safety and compliance (OJ L 243, 9.7.2021, p. 37).

ANNEX II

Data referred to in Article 2(2), point (a)

The data referred to in Article 2(2), point (a), shall include the following elements:

- (a) indication of whether the market surveillance authorities:
 - (1) approve the release for free circulation of the product. The market surveillance authorities shall indicate the Union legal act(s) under which their assessment has been made, as well as the main category of products concerned in accordance with Annex I, Section 2, point (d);
 - (2) request that the suspension of the release for free circulation be maintained to enable the market surveillance or customs authorities to carry out specific actions. The market surveillance authorities shall indicate the Union legal act(s) under which their assessment is being made, as well as the main category of products concerned in accordance with Annex I, Section 2, point (d); or
 - (3) require the customs authorities not to release the product for free circulation because it presents a serious risk or it does not comply with applicable Union legislation. The market surveillance authorities shall indicate the reasons why the product is not compliant or presents a serious risk, the Union legal act(s) infringed, as well as the main category of products concerned in line with Annex I, Section 2, point (d). The market surveillance authorities may indicate whether they object to the product being subsequently declared for a customs procedure other than release for free circulation. They may also indicate whether and why they consider that the product should be destroyed or otherwise rendered inoperable within the framework of Article 28(4) of Regulation (EU) 2019/1020.
 - (b) administrative information, including master reference number of the customs declaration, goods item number, ICSMS registration number and functional contact details of the responsible market surveillance authority.
-

ANNEX III

Data referred to in Article 2(2), point (b)

The data referred to in Article 2(2), point (b), shall include the following elements:

- (a) where the suspension of release for free circulation was maintained to enable the customs authorities to carry out specific actions:
 - the outcome of such actions;
 - (b) where the suspension of release for free circulation was maintained to enable the market surveillance authorities to carry out specific actions:
 - the data fields set out in Annex II;
 - (c) where the market surveillance authorities required the customs authorities not to release the product for free circulation:
 - information by the customs authorities on the situation of the product following the refusal of release for free circulation, including whether they were destroyed or otherwise rendered inoperable, placed under a customs procedure other than release for free circulation, or re-exported; or
 - if the economic operator appeals the refusal to release the product for free circulation, information about this appeal and, where necessary, request for re-assessment by the market surveillance authorities.
-

ANNEX IV

Data referred to in Article 2(3)

The data referred to in Article 2(3) shall include the following elements:

- (a) requests by market surveillance authorities to suspend the release for free circulation of a product, specifying the relevant authority, the master reference number of the customs declaration, the description of the product and the reasons for the request;
 - (b) replies by customs authorities, specifying the relevant authority, and whether the product has been identified and its release for free circulation suspended.
-

COMMISSION IMPLEMENTING REGULATION (EU) 2021/2249**of 16 December 2021****amending Annex I to Implementing Regulation (EU) 2021/605 laying down special control measures for African swine fever****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Article 71(3) thereof,

Whereas:

- (1) African swine fever is an infectious viral disease affecting kept and wild porcine animals and can have a severe impact on the concerned animal population and the profitability of farming causing disturbance to movements of consignments of those animals and products thereof within the Union and exports to third countries.
- (2) Commission Implementing Regulation (EU) 2021/605 ⁽²⁾ was adopted within the framework of Regulation (EU) 2016/429, and it lays down special disease control measures regarding African swine fever to be applied for a limited period of time by the Member States listed in Annex I thereto (the Member States concerned), in restricted zones I, II and III listed in that Annex.
- (3) The areas listed as restricted zones I, II and III in Annex I to Implementing Regulation (EU) 2021/605 are based on the epidemiological situation of African swine fever in the Union. Annex I to Implementing Regulation (EU) 2021/605 was last amended by Commission Implementing Regulation (EU) 2021/2110 ⁽³⁾ following changes in the epidemiological situation as regards that disease in Germany and Poland.
- (4) Any amendments to restricted zones I, II and III in Annex I to Implementing Regulation (EU) 2021/605 should be based on the epidemiological situation as regards African swine fever in the areas affected by that disease and the overall epidemiological situation of African swine fever in the Member State concerned, the level of risk for the further spread of that disease, as well as scientifically based principles and criteria for geographically defining zoning due to African swine fever and the Union's guidelines agreed with the Member States at the Standing Committee on Plants, Animals, Food and Feed and publicly available on Commission's website ⁽⁴⁾. Such amendments should also take account of international standards, such as the Terrestrial Animal Health Code ⁽⁵⁾ of the World Organisation for Animal Health and justifications for zoning provided by the competent authorities of the Member States concerned.

⁽¹⁾ OJ L 84, 31.3.2016, p. 1.

⁽²⁾ Commission Implementing Regulation (EU) 2021/605 of 7 April 2021 laying down special control measures for African swine fever (OJ L 129, 15.4.2021, p. 1).

⁽³⁾ Commission Implementing Regulation (EU) 2021/2110 of 30 November 2021 amending Annex I to Implementing Regulation (EU) 2021/605 laying down special control measures for African swine fever (OJ L 429, 1.12.2021, p. 108).

⁽⁴⁾ Working Document SANTE/7112/2015/Rev. 3 "Principles and criteria for geographically defining ASF regionalisation". https://ec.europa.eu/food/animals/animal-diseases/control-measures/asf_en

⁽⁵⁾ OIE Terrestrial Animal Health Code, 28th Edition, 2019. ISBN of volume I: 978-92-95108-85-1; ISBN of volume II: 978-92-95108-86-8. <https://www.oie.int/standard-setting/terrestrial-code/access-online/>

- (5) Since the date of adoption of Implementing Regulation (EU) 2021/2110, there have been new outbreaks of African swine fever in kept and wild porcine animals in Poland and Slovakia, as well as new outbreaks in wild porcine animals in Germany and Latvia. In addition, the epidemiological situation in certain zones listed as restricted zones III in Latvia, Poland and Slovakia has improved as regard kept porcine animals, due to the disease control measures being applied by those Member States in accordance with Union legislation.
- (6) In November 2021, one outbreak of African swine fever in kept porcine animals was observed in the Świętokrzyskie region in Poland in an area currently listed as restricted zone I in Annex I to Implementing Regulation (EU) 2021/605. This new outbreak of African swine fever in kept porcine animals constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Poland currently listed as restricted zone I in that Annex, affected by this recent outbreak of African swine fever, should now be listed as restricted zone III in that Annex instead of as restricted zone I thereof and the current boundaries of restricted zone I also need to be redefined to take account of this recent outbreak.
- (7) Also, in December 2021, one outbreak of African swine fever in a wild porcine animal was observed in the Zachodniopomorskie region in Poland in an area currently listed as restricted zone I in Annex I to Implementing Regulation (EU) 2021/605. This new outbreak of African swine fever in a wild porcine animal constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Poland currently listed as restricted zone I in that Annex, affected by this recent outbreak of African swine fever, should now be listed as restricted zone II in that Annex instead of as restricted zone I thereof and the current boundaries of restricted zone I also need to be redefined to take account of this recent outbreak.
- (8) Further, in December 2021, several outbreaks of African swine fever in wild porcine animals were observed in the Mazowieckie region in Poland in an area currently listed as restricted zone I in Annex I to Implementing Regulation (EU) 2021/605. Those new outbreaks of African swine fever in wild porcine animals constitute an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Poland currently listed as restricted zone I in that Annex, affected by those recent outbreaks of African swine fever, should now be listed as restricted zone II in that Annex instead of as restricted zone I thereof and the current boundaries of restricted zone I also need to be redefined to take account of those recent outbreaks.
- (9) In addition, in November and December 2021, several outbreaks of African swine fever in wild porcine animals were observed in the Podkarpackie and Dolnośląskie regions in Poland in areas currently listed as restricted zones II in Annex I to Implementing Regulation (EU) 2021/605, located in close proximity to areas currently listed as restricted zones I thereof. Those new outbreaks of African swine fever in wild porcine animals constitute an increased level of risk, which should be reflected in that Annex. Accordingly, those areas of Poland currently listed as restricted zones I in that Annex, that are in close proximity to the areas listed in restricted zones II affected by those recent outbreaks of African swine fever, should now be listed as restricted zones II in that Annex instead of as restricted zones I thereof.
- (10) Additionally, in November and December 2021, several outbreaks of African swine fever in wild porcine animals were observed in the Podkarpackie and Wielkopolskie regions in Poland in areas currently listed as restricted zones III in Annex I to Implementing Regulation (EU) 2021/605, located in close proximity to areas currently listed as restricted zones I thereof. Those new outbreaks of African swine fever in wild porcine animals constitute an increased level of risk, which should be reflected in that Annex. Accordingly, those areas of Poland currently listed as restricted zones I in that Annex, that are in close proximity to the areas listed in restricted zones III affected by those recent outbreaks of African swine fever, should now be listed as restricted zones II in that Annex instead of as restricted zones I thereof.

- (11) Further, in November 2021, one outbreak of African swine fever in a wild porcine animal was observed in the Humenné district in Slovakia in an area currently listed as restricted zone II in Annex I to Implementing Regulation (EU) 2021/605, located in close proximity to an area currently listed as restricted zone I thereof. This new outbreak of African swine fever in a wild porcine animal constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Slovakia currently listed as restricted zone I in that Annex, that is in close proximity to the zone listed in restricted zone II affected by this recent outbreak of African swine fever, should now be listed as restricted zone II in that Annex instead of as restricted zone I thereof.
- (12) Also, in December 2021, one outbreak of African swine fever in kept porcine animals was observed in the Nove Zamky district in Slovakia in an area currently not listed as a restricted zone in Annex I to Implementing Regulation (EU) 2021/605. This new outbreak of African swine fever in kept porcine animals constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Slovakia currently not listed as a restricted zone in that Annex, affected by this recent outbreak of African swine fever, should now be listed as restricted zone III in that Annex and a new restricted zone I also needs to be defined to take account of this recent outbreak.
- (13) In addition, in December 2021, one outbreak of African swine fever in kept porcine animals was observed in the Rimavská Sobota district in Slovakia in an area currently listed as restricted zone II in Annex I to Implementing Regulation (EU) 2021/605. This new outbreak of African swine fever in kept porcine animals constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Slovakia currently listed as restricted zone II in that Annex, affected by this recent outbreak of African swine fever, should now be listed as restricted zone III in that Annex instead of as restricted zone II thereof and the current boundaries of restricted zone II also need to be redefined to take account of this recent outbreak.
- (14) Additionally, in December 2021, one outbreak of African swine fever in a wild porcine animal was observed in the Dienvidkurzemes county in Latvia in an area currently listed as restricted zone I in Annex I to Implementing Regulation (EU) 2021/605. This new outbreak of African swine fever in a wild porcine animal constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Latvia currently listed as restricted zone I in that Annex, affected by this recent outbreak of African swine fever, should now be listed as restricted zone II in that Annex instead of as restricted zone I thereof and the current boundaries of restricted zone I also need to be redefined to take account of this recent outbreak.
- (15) Finally, in December 2021 one outbreak of African swine fever in a wild porcine animal was observed in the state of Mecklenburg-Western Pomerania in Germany in an area currently listed as restricted zone II in Annex I to Implementing Regulation (EU) 2021/605, located in close proximity to an area currently listed as restricted zone I thereof. This new outbreak of African swine fever in a wild porcine animal constitutes an increased level of risk, which should be reflected in that Annex. Accordingly, this area of Germany currently listed as restricted zone I in that Annex, that is in close proximity to the area listed in restricted zone II affected by this recent outbreak of African swine fever, should now be listed as restricted zone II in that Annex instead of as restricted zone I thereof.
- (16) Following those recent outbreaks of African swine fever in kept and wild porcine animals in Poland and Slovakia, as well as the outbreaks in wild porcine animals in Germany and Latvia and taking into account the current epidemiological situation as regards African swine fever in the Union, zoning in those Member States has been reassessed and updated. In addition, the risk management measures in place have also been reassessed and updated. These changes should be reflected in Annex I to Implementing Regulation (EU) 2021/605.

- (17) In addition, taking into account the effectiveness of the disease control measures for African swine fever for kept porcine animals in the restricted zone III listed in Annex I to Implementing Regulation (EU) 2021/605 being applied in Latvia in accordance with Commission Delegated Regulation (EU) 2020/687, and in particular those laid down in Articles 22, 25 and 40 thereof, and in line with the risk mitigation measures for African swine fever set out in the OIE Code, certain zones in the Ludzas county in Latvia, currently listed as restricted zones III in Annex I to Implementing Regulation (EU) 2021/605 should now be listed as restricted zones II in that Annex, due to the absence of African swine fever outbreaks in kept porcine animals in those restricted zones III for the past three months. The restricted zones III should now be listed as restricted zones II taking account of the current African swine fever epidemiological situation.
- (18) Also, taking into account the effectiveness of the disease control measures for African swine fever for kept porcine animals in the restricted zone III listed in Annex I to Implementing Regulation (EU) 2021/605 being applied in Slovakia in accordance with Commission Delegated Regulation (EU) 2020/687, and in particular those laid down in Articles 22, 25 and 40 thereof, and in line with the risk mitigation measures for African swine fever set out in the OIE Code, certain zones in the Brezno and Velký Krtíš districts in Slovakia, currently listed as restricted zones III in Annex I to Implementing Regulation (EU) 2021/605 should now be listed as restricted zones II in that Annex, due to the absence of African swine fever outbreaks in kept porcine animals in those restricted zones III for the past three months. The restricted zones III should now be listed as restricted zones II taking account of the current African swine fever epidemiological situation.
- (19) Further, taking into account the effectiveness of the disease control measures for African swine fever for kept porcine animals in the restricted zone III listed in Annex I to Implementing Regulation (EU) 2021/605 being applied in Poland in accordance with Commission Delegated Regulation (EU) 2020/687, and in particular those laid down in Articles 22, 25 and 40 thereof, and in line with the risk mitigation measures for African swine fever set out in the OIE Code, certain zones in the Lubuskie and Wielkopolskie regions in Poland, currently listed as restricted zones III in Annex I to Implementing Regulation (EU) 2021/605 should now be listed as restricted zones II in that Annex, due to the absence of African swine fever outbreaks in kept porcine animals in those restricted zones III for the past twelve months. The restricted zones III should now be listed as restricted zones II taking account of the current African swine fever epidemiological situation.
- (20) Finally, taking into account the effectiveness of the disease control measures for African swine fever for kept porcine animals in the restricted zone III listed in Annex I to Implementing Regulation (EU) 2021/605 being applied in Poland in accordance with Commission Delegated Regulation (EU) 2020/687, and in particular those laid down in Articles 22, 25 and 40 thereof, and in line with the risk mitigation measures for African swine fever set out in the OIE Code, certain zones in the Łódzkie, Opolskie and Wielkopolskie regions in Poland, currently listed as restricted zones III in Annex I to Implementing Regulation (EU) 2021/605 should now be listed as restricted zones I in that Annex, due to the absence of African swine fever outbreaks in kept and wild porcine animals in those restricted zones III for the past three months. The restricted zones III should now be listed as restricted zones I taking account of the current African swine fever epidemiological situation.
- (21) In order to take account of the recent developments in the epidemiological situation of African swine fever in the Union, and in order to combat the risks associated with the spread of that disease in a proactive manner, new restricted zones of a sufficient size should be demarcated for Germany, Latvia, Poland and Slovakia and duly listed as restricted zones I, II and III in Annex I to Implementing Regulation (EU) 2021/605. As the situation as regards African swine fever is very dynamic in the Union, when demarcating those new restricted zones, account has been taken of the situation in the surrounding areas.

- (22) Given the urgency of the epidemiological situation in the Union as regards the spread of African swine fever, it is important that the amendments to be made to Annex I to Implementing Regulation (EU) 2021/605 by this Implementing Regulation take effect as soon as possible.
- (23) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annex I to Implementing Regulation (EU) 2021/605 is replaced by the text set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 16 December 2021.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

Annex I to Implementing Regulation (EU) 2021/605 is replaced by the following:

'ANNEX I

RESTRICTED ZONES

PART I

1. Germany

The following restricted zones I in Germany:

Bundesland Brandenburg:

— Landkreis Dahme-Spreewald:

- Gemeinde Alt Zauche-Wußwerk,
- Gemeinde Byhleguhre-Byhlen,
- Gemeinde Märkische Heide, mit den Gemarkungen Alt Schadow, Neu Schadow, Pretschen, Plattkow, Wittmannsdorf, Schuhlen-Wiese, Bückchen, Kuschkow, Gröditsch, Groß Leuthen, Leibchel, Glietz, Groß Leine, Dollgen, Krugau, Dürrenhofe, Biebersdorf und Klein Leine,
- Gemeinde Neu Zauche,
- Gemeinde Schwielochsee mit den Gemarkungen Groß Liebitz, Gühlen, Mochow und Siegadel,
- Gemeinde Spreewaldheide,
- Gemeinde Straupitz,

— Landkreis Märkisch-Oderland:

- Gemeinde Müncheberg mit den Gemarkungen Müncheberg, Eggersdorf bei Müncheberg und Hoppegarten bei Müncheberg,
- Gemeinde Bliesdorf mit den Gemarkungen Kunersdorf - westlich der B167 und Bliesdorf - westlich der B167
- Gemeinde Märkische Höhe mit den Gemarkungen Reichenberg und Batzlow,
- Gemeinde Wriezen mit den Gemarkungen Haselberg, Frankenfelde, Schulzendorf, Lüdersdorf Biesdorf, Rathsdorf - westlich der B 167 und Wriezen - westlich der B167
- Gemeinde Buckow (Märkische Schweiz),
- Gemeinde Strausberg mit den Gemarkungen Hohenstein und Ruhlsdorf,
- Gemeine Garzau-Garzin,
- Gemeinde Waldsiedersdorf,
- Gemeinde Rehfelde mit der Gemarkung Werder,
- Gemeinde Reichenow-Mögelin,
- Gemeinde Prötzel mit den Gemarkungen Harnekop, Sternebeck und Prötzel östlich der B 168 und der L35,
- Gemeinde Oberbarnim,
- Gemeinde Bad Freienwalde mit der Gemarkung Sonnenburg,
- Gemeinde Falkenberg mit den Gemarkungen Dannenberg, Falkenberg westlich der L 35, Gersdorf und Krüge,
- Gemeinde Höhenland mit den Gemarkungen Steinbeck, Wollenberg und Wölsickendorf,

— Landkreis Barnim:

- Gemeinde Joachimsthal östlich der L220 (Eberswalder Straße), östlich der L23 (Töpferstraße und Templiner Straße), östlich der L239 (Glambecker Straße) und Schorfheide (JO) östlich der L238,
- Gemeinde Friedrichswalde mit der Gemarkung Glambeck östlich der L 239,

- Gemeinde Althüttendorf,
- Gemeinde Ziethen mit den Gemarkungen Groß Ziethen und Klein Ziethen westlich der B198,
- Gemeinde Chorin mit den Gemarkungen Golzow, Senftenhütte, Buchholz, Schorfheide (Ch), Chorin westlich der L200 und Sandkrug nördlich der L200,
- Gemeinde Britz,
- Gemeinde Schorfheide mit den Gemarkungen Altenhof, Werbellin, Lichterfelde und Finowfurt,
- Gemeinde (Stadt) Eberswalde mit der Gemarkungen Finow und Spechthausen und der Gemarkung Eberswalde südlich der B167 und westlich der L200,
- Gemeinde Breydin,
- Gemeinde Melchow,
- Gemeinde Sydower Fließ mit der Gemarkung Grüntal nördlich der K6006 (Landstraße nach Tuchen), östlich der Schönholzer Straße und östlich Am Postweg,
- Hohenfinow südlich der B167,
- Landkreis Uckermark:
 - Gemeinde Passow mit den Gemarkungen Briest, Passow und Schönow,
 - Gemeinde Mark Landin mit den Gemarkungen Landin nördlich der B2, Grünow und Schönermark,
 - Gemeinde Angermünde mit den Gemarkungen Frauenhagen, Mürow, Angermünde nördlich und nordwestlich der B2, Dobberzin nördlich der B2, Kerkow, Welsow, Bruchhagen, Greiffenberg, Günterberg, Biesenbrow, Görlsdorf, Wolletz und Altkünkendorf,
 - Gemeinde Zichow,
 - Gemeinde Casekow mit den Gemarkungen Blumberg, Wartin, Luckow-Petershagen und den Gemarkungen Biesendahlshof und Casekow westlich der L272 und nördlich der L27,
 - Gemeinde Hohenselchow-Groß Pinnow mit der Gemarkung Hohenselchow nördlich der L27,
 - Gemeinde Tantow,
 - Gemeinde Mescherin
 - Gemeinde Gartz (Oder) mit der Gemarkung Geesow sowie den Gemarkungen Gartz und Hohenreinkendorf nördlich der L27 und B2 bis Gartenstraße,
 - Gemeinde Pinnow nördlich und westlich der B2,
- Landkreis Oder-Spree:
 - Gemeinde Storkow (Mark),

DECISIONS

COUNCIL DECISION (EU) 2021/2250

of 14 December 2021

appointing a member and two alternate members, proposed by the Republic of Finland, of the Committee of the Regions

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 305 thereof,

Having regard to Council Decision (EU) 2019/852 of 21 May 2019 determining the composition of the Committee of the Regions ⁽¹⁾,

Having regard to the proposal of the Finnish Government,

Whereas:

- (1) Pursuant to Article 300(3) of the Treaty, the Committee of the Regions is to consist of representatives of regional and local bodies who either hold a regional or local authority electoral mandate or are politically accountable to an elected assembly.
- (2) On 10 December 2019, the Council adopted Decision (EU) 2019/2157 ⁽²⁾, appointing the members and alternate members of the Committee of the Regions for the period from 26 January 2020 to 25 January 2025.
- (3) A member's seat on the Committee of the Regions has become vacant following the end of the national mandate on the basis of which Ms Satu HAAPANEN was proposed for appointment.
- (4) An alternate member's seat on the Committee of the Regions has become vacant following the end of the national mandate on the basis of which Mr Joonas HONKIMAA was proposed for appointment.
- (5) The Finnish Government has proposed Ms Niina RATILAINEN, representative of a local body who holds a local authority electoral mandate, *Turun kaupunginvaltuuston jäsen* (member of a local assembly, Turku City Council), as a member of the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025.
- (6) An alternate member's seat will become vacant following the appointment of Ms Niina RATILAINEN as a member of the Committee of the Regions.
- (7) The Finnish Government has proposed the following representatives of local bodies who hold a local authority electoral mandate as alternate members of the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025: Mr Manu HUUHILO, *Kouvolan kaupunginvaltuuston jäsen* (member of a local assembly, Kouvola City Council), and Ms Eeva-Liisa NIEMINEN, *Tuusulan kunnanvaltuuston jäsen* (member of a local assembly, Tuusula Municipal Council),

⁽¹⁾ OJ L 139, 27.5.2019, p. 13.

⁽²⁾ Council Decision (EU) 2019/2157 of 10 December 2019 appointing the members and alternate members of the Committee of the Regions for the period from 26 January 2020 to 25 January 2025 (OJ L 327, 17.12.2019, p. 78).

HAS ADOPTED THIS DECISION:

Article 1

The following representatives of local bodies who hold an electoral mandate are hereby appointed to the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025:

(a) as a member:

— Ms Niina RATILAINEN, representative of a local body who holds a local authority electoral mandate, *Turun kaupunginvaltuuston jäsen* (member of a local assembly, Turku City Council),

and

(b) as alternate members:

— Mr Manu HUUHILO, *Kouvolan kaupunginvaltuuston jäsen* (member of a local assembly, Kouvola City Council),

— Ms Eeva-Liisa NIEMINEN, *Tuusulan kunnanvaltuuston jäsen* (member of a local assembly, Tuusula Municipal Council).

Article 2

This Decision shall enter into force on the date of its adoption.

Done at Brussels, 14 December 2021.
