REGULATIONS

COMMISSION DELEGATED REGULATION (EU) 2022/76

of 22 September 2021

supplementing Regulation (EU) 2019/2033 of the European Parliament and of the Council with regard to regulatory technical standards specifying adjustments to the K-factor ‘daily trading flow’ (K-DTF) coefficients

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2019/2033 of the European Parliament and of the Council of 27 November 2019 on the prudential requirements of investment firms and amending Regulations (EU) No 1093/2010, (EU) No 575/2013, (EU) No 600/2014 and (EU) No 806/2014 ⁽¹⁾, and in particular the third subparagraph of Article 15(5) in conjunction with point (c) of Article 15(5) thereof,

Whereas:

- (1) The daily trading flow (DTF) is calculated based on the volume of transactions. Circumstances leading to higher trading volumes may therefore force investment firms dealing on own account, including market makers, to reduce their trading activities. This may lead to a risk of reduced market liquidity, with potential detriments to financial stability. Consequently, as a result of those circumstances, the K-DTF coefficients should be adjusted in a way that does not disincentivise trading activities. Where circumstances lead to lower trading volume, those considerations do not apply and therefore, the adjustments to the K-DTF coefficients should be based only on the trades volumes occurring during periods of high volatility.
- (2) If the K-DTF requirements in stressed market conditions are overly restrictive and detrimental to financial stability, the coefficient referred to in Article 15(2) of Regulation (EU) 2019/2033 should be adjusted to be smaller than the one provided in Table 1 of that Article, in order to avoid making the K-DTF a disincentive to trading.
- (3) Given that point (c) of Article 15(5) of Regulation (EU) 2019/2033 refers to stressed market conditions as referred to in Commission Delegated Regulation (EU) 2017/578 ⁽²⁾, the start and end time of the periods of stressed market conditions should be in line with Article 6(2) of Delegated Regulation (EU) 2017/578 on the identification of stressed market conditions by a trading venue.

⁽¹⁾ OJ L 314, 5.12.2019, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) 2017/578 of 13 June 2016 supplementing Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments with regard to regulatory technical standards specifying the requirements on market making agreements and schemes (OJ L 87, 31.3.2017, p. 183).

- (4) For the purposes of calculating the adjusted K-DTF, stressed market conditions should cover cases where short-term changes in trading volume and price have a significant impact for the calculation for the K-DTF. As stressed market conditions may last for an indeterminate period of time, including periods as short as a few minutes, the adjusted coefficients should be capable of reflecting the value of the daily trading flow that takes place during periods of any different duration.
- (5) This Regulation is based on the draft regulatory technical standards submitted to the Commission by the European Banking Authority after having consulted the European Securities and Markets Authority.
- (6) The European Banking Authority has conducted open public consultations on the draft regulatory technical standards on which this Regulation is based, analysed the potential related costs and benefits and requested the advice of the Banking Stakeholder Group established in accordance with Article 37 of Regulation (EU) No 1093/2010 of the European Parliament and of the Council ⁽³⁾,

HAS ADOPTED THIS REGULATION:

Article 1

Adjustments to the K-DTF coefficients

1. The adjustments to the K-DTF coefficients referred to in Table 1 of Article 15(2) of Regulation (EU) 2019/2033 shall in the event that in stressed market condition as referred to in Delegated Regulation (EU) 2017/578 the K-DTF requirements seem overly restrictive and detrimental to financial stability as referred to in point (c) of Article 15(5) of Regulation (EU) 2019/2033, be determined using the following formula:

- (a) for the coefficient of the K-DTF cash trades:

$$C_{adj} = C * (DTF_{excl}/DTF_{incl})$$

where:

C_{adj} = adjusted coefficient

C = coefficient in Table 1 of Article 15(2) of Regulation (EU) 2019/2033

DTF_{excl} = the DTF of cash trades measured in accordance with Article 33 of Regulation (EU) 2019/2033, excluding the value of any cash trade that occurred during a stressed market condition as referred to in Article 2; and

DTF_{incl} = the DTF of cash trades measured in accordance with Article 33 of Regulation (EU) 2019/2033, including the value of any cash trade that occurs during a stressed market condition as referred to in Article 2.

- (b) for the coefficient of the K-DTF derivatives:

$$C_{adj} = C * (DTF_{excl}/DTF_{incl})$$

where:

C_{adj} = adjusted coefficient

C = coefficient in Table 1 of Article 15(2) of Regulation (EU) 2019/2033

DTF_{excl} = the DTF of derivatives measured in accordance with Article 33 of Regulation (EU) 2019/2033, excluding the value of any derivatives trade that occurred during a stressed market condition as referred to in Article 2; and

DTF_{incl} = the DTF of derivatives measured in accordance with Article 33 of Regulation (EU) 2019/2033, including the value of any derivatives trade that occurs during a stressed market condition as referred to in Article 2.

⁽³⁾ Regulation (EU) No 1093/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Banking Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/78/EC (OJ L 331, 15.12.2010, p. 12).

The calculation of DTFexcl shall include only the value of daily trading flow that relates to financial instruments or underlyings of financial instruments traded on a trading segment within the relevant trading venue during an event for which a stressed market condition has been deemed to occur by that trading venue.

Article 2

Period of stressed market condition

For the purposes of Article 1, an event of stressed market condition means a situation where the parameters referred to in Article 6(2) of Delegated Regulation (EU) 2017/578 are met and where those stressed market conditions lead to increased trading volumes.

The start and end time of an event of stressed market condition shall be the time which the trading venue has identified in accordance with Article 6(2) of Delegated Regulation (EU) 2017/578.

Article 3

Entry into force

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 September 2021.

For the Commission
The President

COMMISSION IMPLEMENTING REGULATION (EU) 2022/77

of 13 January 2022

entering a name in the register of protected designations of origin and protected geographical indications ('Увс чацаргана/Uvs chatsargana' (PGI))

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1151/2012 of the European Parliament and of the Council of 21 November 2012 on quality schemes for agricultural products and foodstuffs ⁽¹⁾, and in particular Article 52(2) thereof,

Whereas:

- (1) Pursuant to Article 50(2)(a) of Regulation (EU) No 1151/2012, Mongolia's application to register the name 'Увс чацаргана/Uvs chatsargana' was published in the *Official Journal of the European Union* ⁽²⁾.
- (2) As no statement of opposition under Article 51 of Regulation (EU) No 1151/2012 has been received by the Commission, the name 'Увс чацаргана/Uvs chatsargana' should therefore be entered in the register,

HAS ADOPTED THIS REGULATION:

Article 1

The name 'Увс чацаргана/Uvs chatsargana' (PGI) is hereby entered in the register.

The name specified in the first paragraph denotes a product in Class 1.6. – Fruit, vegetables and cereals, fresh or processed, as listed in Annex XI to Commission Implementing Regulation (EU) No 668/2014 ⁽³⁾.*Article 2*This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 13 January 2022.

For the Commission,
On behalf of the President,
Janusz WOJCIECHOWSKI
Member of the Commission

⁽¹⁾ OJ L 343, 14.12.2012, p. 1.

⁽²⁾ OJ C 398, 1.10.2021, p. 36.

⁽³⁾ Commission Implementing Regulation (EU) No 668/2014 of 13 June 2014 laying down rules for the application of Regulation (EU) No 1151/2012 of the European Parliament and of the Council on quality schemes for agricultural products and foodstuffs (OJ L 179, 19.6.2014, p. 36).

COMMISSION REGULATION (EU) 2022/78**of 19 January 2022****amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for dazomet, hexythiazox, metam and methylisothiocyanate in or on certain products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For dazomet, hexythiazox and metam, maximum residue levels ('MRLs') were set in Part A of Annex III to Regulation (EC) No 396/2005.
- (2) For dazomet and metam, the European Food Safety Authority ('the Authority') submitted reasoned opinions on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽²⁾. It proposed a revised common residue definition based on methylisothiocyanate, the main metabolite for dazomet and metam. The residue definition should therefore be changed accordingly. The Authority recommended lowering the MRLs for grapefruits, oranges, lemons, limes, mandarins, apples, pears, quinces, medlars, loquats/Japanese medlars, apricots, cherries (sweet), peaches, plums, table and wine grapes, blackberries, dewberries, raspberries (red and yellow), blueberries, cranberries, currants (black, red and white), gooseberries (green, red and yellow), rose hips, mulberries (black and white), azaroles/Mediterranean medlars, elderberries, figs, table olives, kumquats, kaki/Japanese persimmons, kiwi fruits (green, red, yellow), prickly pears/cactus fruits, avocados, mangoes and granate apples/pomegranates. For other products, it recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. The Authority concluded that concerning the MRLs for strawberries, beetroots, carrots, celeriacs/turnip rooted celeries, horseradishes, Jerusalem artichokes, parsnips, parsley roots/Hamburg roots parsley, radishes, salsifies, swedes/rutabagas, turnips, tomatoes, sweet peppers/bell peppers, aubergines/eggplants, okra/lady's fingers, cucumbers, gherkins, courgettes, melons, pumpkins, watermelons, Chinese cabbages/pe-tsai, kales, lamb's lettuces/corn salads, lettuces, escaroles/broad-leaved endives, cresses and other sprouts and shoots, land cresses, Roman rocket/rucola, red mustards, baby leaf crops (including brassica species), spinaches, purslanes, chards/beet leaves, herbal infusions from roots and hops, some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should also be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within 2 years from the publication of this Regulation.
- (3) For hexythiazox, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽³⁾. It proposed to change the residue definition. The residue definition should therefore be changed accordingly. The Authority recommended lowering the MRLs for grapefruits, oranges, lemons, limes, mandarins, almonds, brazil nuts, cashew nuts, chestnuts, coconuts, hazelnuts/cobnuts, macadamias, pecans, pine nut kernels, pistachios, walnuts, apples, pears, quinces, medlars, loquats/Japanese medlars, peaches,

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

⁽²⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for dazomet according to Article 12 of Regulation (EC) No 396/2005; EFSA Journal 2019;17(1):5562; and Reasoned opinion on the review of the existing maximum residue levels for metam according to Article 12 of Regulation (EC) No 396/2005; EFSA Journal 2019;17(1):5561.

⁽³⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for hexythiazox according to Article 12 of Regulation (EC) No 396/2005; EFSA Journal 2019;17(1):5559.

blackberries, dewberries, raspberries (red and yellow), blueberries, cranberries, currants (black, red and white), gooseberries (green, red and yellow), rose hips, mulberries (black and white), azaroles/Mediterranean medlars, elderberries, tomatoes, sweet peppers/bell peppers, aubergines/eggplants, cucumbers, gherkins, courgettes, melons, pumpkins, watermelons, maize/corn and hops. For other products, it recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. The Authority also concluded that concerning the MRLs for apricots, cherries (sweet), plums, soybeans and products of animal origin, some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within 2 years from the publication of this Regulation.

- (4) Existing Codex maximum residue limits (CXLs) were taken into account in the reasoned opinions of the Authority. CXLs, which are safe for consumers in the Union were considered for MRL setting.
- (5) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or CXLs exist, MRLs should be set at the specific limit of determination ('LOD') or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (6) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain LODs. As regards several substances, those laboratories concluded that, for certain commodities, technical development requires the setting of specific LODs.
- (7) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (8) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (9) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (10) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (11) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced in the Union or imported into the Union before 9 August 2022.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 9 August 2022.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 January 2022.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

(1) in Annex II, the following columns for dazomet, hexythiazox, metam and methylisothiocyanate are added:

“Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply ^(a)	Methylisothiocyanate (resulting from the use of dazomet or metam)	Hexythiazox (any ratio of constituent isomers) (F)	Dazomet (see methylisothiocyanate)	Metam (see methylisothiocyanate)

COMMISSION IMPLEMENTING REGULATION (EU) 2022/79**of 19 January 2022****laying down rules for the application of Regulation (EU) 2021/1139 of the European Parliament and of the Council as regards the recording, transmission and presentation of operation-level implementation data**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2021/1139 of the European Parliament and of the Council of 7 July 2021 establishing the European Maritime, Fisheries and Aquaculture Fund and amending Regulation (EU) 2017/1004 ⁽¹⁾, in particular Article 46(4) thereof,

Whereas:

- (1) Article 46(3) of Regulation (EU) 2021/1139 ('the EMFAF Regulation') establishes a framework for shared management by requiring the Member States' managing authorities to provide the Commission with relevant operation-level implementation data. This data should include the key characteristics of each beneficiary and each operation supported by the EMFAF under shared management. This requirement complements that established in Article 42 of Regulation (EU) 2021/1060 of the European Parliament and of the Council ⁽²⁾ concerning the transmission of cumulative data for each programme.
- (2) In order to ensure consistency and completeness of the data, for both managing authorities and for the Commission, it is necessary to provide a common format as well as common technical specifications and rules for the presentation of that data.
- (3) The measures provided for in this Regulation should apply promptly, to facilitate consistent recording of data from the beginning of programme implementation.
- (4) The measures provided for in this Regulation are in accordance with the opinion of the Committee for the European Maritime, Fisheries and Aquaculture Fund,

HAS ADOPTED THIS REGULATION:

*Article 1***Subject matter**

This Regulation sets out rules for the recording, transmission and presentation of the operation-level implementation data referred to in Article 46(3) of Regulation (EU) 2021/1139 ('implementation data').

*Article 2***Recording and transmission of implementation data**

Managing Authorities shall record and provide the Commission with implementation data for each operation supported under shared management in line with the format set out in Annex I.

⁽¹⁾ OJ L 247, 13.7.2021, p. 1.

⁽²⁾ Regulation (EU) 2021/1060 of the European Parliament and of the Council of 24 June 2021 laying down common provisions on the European Regional Development Fund, the European Social Fund Plus, the Cohesion Fund, the Just Transition Fund and the European Maritime, Fisheries and Aquaculture Fund and financial rules for those and for the Asylum, Migration and Integration Fund, the Internal Security Fund and the Instrument for Financial Support for Border Management and Visa Policy (OJ L 231, 30.6.2021, p. 159).

*Article 3***Presentation of data**

Managing Authorities shall present the implementation data referred to in Article 2 in accordance with the specifications provided for in the tables set out in Annex II.

*Article 4***Entry into force**

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 January 2022.

For the Commission
The President
Ursula VON DER LEYEN

Operation description

Field	Content of field	Field Type	Field Length	Storage Format	Comment	Link with Annex VII of CPR
01	CCI	text	15		Common code of identification of the programme. Not applicable for direct and indirect management.	
02	Unique Identifier of the Operation (ID)	text	255		Required for all operations supported by the EMFAF.	Table 1, field 13. Table 4, field 6. Table 5, fields 11, 12.
03	Description of the operation	text	255		Required for all operations supported by the EMFAF.	
04	Common fleet register (CFR) number	longtext	63 999		Where relevant. Common fleet register (CFR) number as per Commission Implementing Regulation (EU) 2017/218 ⁽¹⁾ — one vessel per operation: CFR number — more than one vessel per operation: CFR numbers as CSV (Character Separated Values). Semicolon “;” shall be used as separator. No blanks, no quotation marks.	
05	Sector the operation is contributing to	text	2		See code in Table 1 of Annex II. Only one option can be selected.	
06	Specific objective	text	5		For shared management: see nomenclature in Annex II of the EMFAF Regulation. For direct and indirect management: see nomenclature in the work programme adopted pursuant to Article 10 of the EMFAF Regulation.	

07	NUTS code	text	5		Only NUTS versions valid during the programming period, i.e. NUTS Classification 2021 or later. See Commission Delegated Regulation 2019/1755 of 8 August 2019 or https://ec.europa.eu/eurostat/web/nuts/background . No spaces. NUTS 3 by default, NUTS 2 to national level as appropriate if the operation relates to a larger region or the whole Member State. "TCX1" for operations in third countries.	
08	Name of beneficiary	text	255			
09	Beneficiary code	text	250		Unique code. For shared management: based on the national application system.	
10	Type of beneficiary	text	2		See code in Table 2 of Annex II. Only one option can be selected.	
11	Gender of beneficiary/natural person	text	2		See code in Table 3 of Annex II. Only one option can be selected.	
12	Number of people directly involved in the operation	number		long integer	Excludes contractors and people/employees not directly participating in the operation.	
13	Number of partners involved in the operation	number		long integer		
14	Lead partner	text	2		See code in Table 4 of Annex II.	
15	Indication as to whether the operation relates to marine, inland, or both	text	2		See code in Table 5 of Annex II.	
16	State of progress of the operation	text	2		See code in Table 6 of Annex II.	Table 1, field 13. Table 4, field 6. Table 5, fields 11, 12. Table 9, fields 11, 12, 13, 14.
17	Total eligible cost (EUR)	number		double	No currency sign.	

18	Total eligible public cost (EUR)	number		double	No currency sign.	Table 1, field 8. Table 4, field 4.
19	EMFAF support (EUR)	number		double	No currency sign.	Table 1, field 9.
20	Date of approval of application for support	date		dd/mm/yyyy		
21	Total eligible expenditure (EUR)	number		double	No currency sign.	
22	Total eligible public expenditure (EUR)	number		double	No currency sign.	Table 1, field 11. Table 4, field 5.
23	EMFAF eligible expenditure (EUR)	number		double	No currency sign.	
24	Date of final payment to beneficiary	date		dd/mm/yyyy		
25	Type of intervention	text	2		For shared management: see codes in Annex IV of the EMFAF Regulation. For direct and indirect management: see codes in Table 9 of Annex II.	Table 4, field 3.
26	Type of operation	text	2		See code in Table 7 of Annex II	
27	Increase of the gross tonnage of a fishing vessel under Article [19(3)] of the EMFAF Regulation	number		double	Amount of additional GT. Blank in case operation not related to Article [19(3)].	
28	Description of the fleet segment relevant to field 27	text	255		If relevant, description of the fleet segment(s) of origin of the gross tonnage allocated to the vessel benefitting from the operation as presented in the annual report foreseen under Article 22(2) of Regulation (EU) No 1380/2013 of the European Parliament and of the Council, in line with Commission guidelines COM(2014)545.	
29	Operation relevant to small-scale coastal fishing (SSCF)	text	2		Only 01 or 02 allowed. See code in Table 4 of Annex II.	

30	Operation relevant to the landing obligation	text	2		Only 01 or 02 allowed. See code in Table 4 of Annex II.	
31	Operation relevant to climate change	text	2		Only 01 or 02 allowed. See code in Table 4 of Annex II.	
32	Operation relevant to non-discrimination	text	2		Only 01 or 02 allowed. See code in Table 4 of Annex II.	
33	Operation relevant to gender equality	text	2		Only 01 or 02 allowed. See code in Table 4 of Annex II.	
34	Operation relevant to rights of people with disabilities	text	2		Only 01 or 02 allowed. See code in Table 4 of Annex II.	
35	Form of support	text	2		See code in Table 8 of Annex II. Only one option can be selected.	
36	Did the beneficiary previously receive EMFF/EMFAF support?	text	2		Only 01 or 02 allowed. See code in Table 4 of Annex II.	

(¹) Commission Implementing Regulation (EU) 2017/218 of 6 February 2017 on the Union fishing fleet register (OJ L 34, 9.2.2017, p. 9).

37	Common result indicator(s) code(s) applicable to the operation (as many rows as relevant)	text	6		See codes in Table 10 of Annex II	Table 9, field 5.

38	Baseline value	number		double		Table 9, fields 11, 13.
39	Indicative result expected by the beneficiary (one row per indicator)	number		double		Table 9, field 12.
40	Ex-post result (one row per indicator)	number		double	The resulting value after the project has been completed.	Table 9, field 14.

ANNEX II

PRESENTATION OF IMPLEMENTATION DATA

Table 1

Sector the operation is contributing to (Annex I, Table 1, field 5)

Code	Description
01	Fisheries
02	Aquaculture
03	Processing
04	Tourism
05	Environment
06	Maritime (except fishing and aquaculture)
07	Integrated/multisector
08	Other

Table 2

Type of beneficiary ⁽¹⁾ (Annex I, Table 1, field 10)

Code	Description
01	PO – Producer organisation
02	APO – Association of producer organisations
03	IBO – Inter-branch organisation
04	Private enterprise – micro
05	Private enterprise – SME (Small or medium-sized enterprise)
06	Private enterprise – large
07	Public body
08	Research centre / university / scientists
09	Non-governmental organisation (NGO) / association
10	Educational institution
11	LAG – Local action group
12	Entity without legal personality
13	International organisation
14	Commission bodies and agencies
15	Natural persons
16	Other

⁽¹⁾ The lead partner, if an operation has more than one beneficiary.

Table 3

Gender of beneficiary/natural person (Annex I, Table 1, field 11)

Code	Description
01	Natural person – male
02	Natural person – female
03	Natural person – non-defined gender
04	More than one natural person, family
05	More than one natural person, predominately male
06	More than one natural person, predominately female
07	N/A. (in the case of legal persons)

Table 4

Codes for Yes/No fields (Annex I, Table 1, fields 29-34 and 36)

Code	Description
01	Yes
02	No

Table 5

Indication as to whether the operation relates to marine, inland, or both (Annex I, Table 1, field 15)

Code	Description
01	Marine
02	Inland
03	Both
04	N/A

Table 6

State of progress of the operation (Annex I, Table 1, field 16)

Code	Description
00	Operation selected
01	Operation interrupted/abandoned following partial implementation
02	Operation under implementation
03	Operation fully implemented (but for which all expenses have not necessarily been paid to the beneficiary)
04	Operation completed

Table 7

Type of operation (Annex I, Table 1, field 26)

Code	Description
01	Investment in reduction of energy use and energy efficiency
02	Investment in renewable energy systems
03	Investment in on-board production equipment
04	Investment on board to improve navigation or engine control
05	Investment in physical infrastructure at existing fishing ports or at new or existing landing sites
06	First acquisition of a fishing vessel
07	Investment to improve traceability
08	Preparation and implementation of production and marketing plans by producer organisations
09	Marketing activities
10	Advisory services
11	Investments to support business development (strategy development, administration, equipment)
12	Other business-diversification operations not involving fisheries, aquaculture, or innovation
13	Insurance schemes
14	Training to improve skills and develop human capital
15	Events
16	Awareness raising, communication to the wider public
17	Capacity building
18	Development of marketing innovation
19	Development of process innovation
20	Development of product innovation
21	Studies and research
22	Knowledge sharing
23	Cooperation
24	Restoring ecological continuity of rivers
25	Restocking of aquatic species
26	Retrieval and/or disposal of marine litter
27	Environmental services
28	Specific investments for improving aquatic habitats and biodiversity
29	Permanent cessation of fishing activities
30	Temporary cessation of fishing activities
31	Compensation
32	Productive investments for sustainable aquaculture

33	Gear selectivity to reduce unwanted catches
34	Gear modification to minimise habitat impacts
35	Gear selectivity in relation to endangered, threatened and protected species
36	Use of unwanted catches
37	Natura 2000 areas management and monitoring (soft operations)
38	Investments in Natura 2000 areas restoration
39	Management and monitoring of marine protected areas (soft operations)
40	Investments in the restoration of marine protected areas
41	Reduction and prevention of pollution/contamination
42	Water usage and water quality improvements
43	Investments for control and enforcement for public authorities
44	Investments for control and enforcement for private business
45	Observation coordination
46	Data collection
47	Investment in IT – hardware
48	Investment in IT – software
49	IT development and maintenance
50	Data assembly and dissemination
51	Inspections
52	Investment in animal welfare
53	Food quality and hygiene safety
54	Investments in safety equipment
55	Investments in working conditions
56	Pilot projects
57	Socio-cultural development
58	Governance
59	Animation and capacity building
60	Preparatory actions
61	Management
62	Assistance under Direct Management
63	Evaluation
64	Other (social)
65	Other (environmental)
66	Other (economic)

Table 8

Form of support (Annex I, Table 1, field 35)

Code	Description
01	Grants
02	Financial instruments
03	Combination of grants and financial instruments
04	Prizes
05	Contracting (Direct management)

Table 9

Types of intervention for support under direct and indirect management (Annex I, Table 1, field 25)

Code	Description
17	International ocean governance
18	Maritime policy
19	Scientific advice
20	Control and enforcement
21	Voluntary contributions to international organisations
22	Conservation measures
23	Advisory councils
24	Communication
25	Market intelligence

Table 10

Common result indicators (Annex I, Table 2, field 37)

Code	Description	Measurement unit
CR01	New production capacity	tonnes/annum
CR02	Aquaculture production maintained	tonnes/annum
CR03	Businesses created	number of entities
CR04	Businesses with higher turnover	number of entities
CR05.1	Capacity of vessels withdrawn	GT
CR05.2	Capacity of vessels withdrawn	kW
CR06	Jobs created	number of persons
CR07	Jobs maintained	number of persons
CR08	Persons benefitting	number of persons
CR09.1	Area addressed by operations contributing to a good environmental status, protecting, conserving, and restoring biodiversity and ecosystems	km ²

CR09.2	Area addressed by operations contributing to a good environmental status, protecting, conserving, and restoring biodiversity and ecosystems	km ²
CR10	Actions contributing to a good environmental status, including nature restoration, conservation, protection of ecosystems, biodiversity, animal health and welfare	number of actions
CR11	Entities increasing social sustainability	number of entities
CR12	Effectiveness of the system for “collection, management and use of data”	scale: high, medium, low
CR13	Cooperation activities between stakeholders	number of actions
CR14	Innovations enabled	number of new products, services, processes, business models or methods
CR15	Control means installed or improved	number of means
CR16	Entities benefitting from promotion and information activities	number of entities
CR17	Entities improving resource efficiency in production and/or processing	number of entities
CR18.1	Energy consumption leading to CO ₂ emissions reduction	kWh/tonnes
CR18.2	Energy consumption leading to CO ₂ emissions reduction	litres/h
CR19	Actions to improve governance capacity	number of actions
CR20	Investment induced	EUR
CR21	Datasets and advice made available	number
CR22	Usage of data and information platforms	number of page views

COMMISSION IMPLEMENTING REGULATION (EU) 2022/80**of 19 January 2022****amending Annexes V and XIV to Implementing Regulation (EU) 2021/404 as regards the entries for the United Kingdom in the lists of third countries authorised for the entry into the Union of consignments of poultry, germinal products of poultry and fresh meat of poultry and game birds****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Articles 230(1) and 232(1) thereof.

Whereas:

- (1) Regulation (EU) 2016/429 requires that consignments of animals, germinal products and products of animal origin must come from a third country or territory, or zone or compartment thereof, listed in accordance with Article 230(1) of that Regulation in order to enter the Union.
- (2) Commission Delegated Regulation (EU) 2020/692 ⁽²⁾ lays down the animal health requirements with which consignments of certain species and categories of animals, germinal products and products of animal origin from third countries or territories, or zones thereof, or compartments thereof, in the case of aquaculture animals, must comply with in order to enter the Union.
- (3) Commission Implementing Regulation (EU) 2021/404 ⁽³⁾ establishes the lists of third countries, or territories, or zones or compartments thereof, from which the entry into the Union of the species and categories of animals, germinal products and products of animal origin falling within the scope of Delegated Regulation (EU) 2020/692 is permitted.
- (4) More particularly, Annexes V and XIV to Implementing Regulation (EU) 2021/404 set out the lists of third countries, or territories, or zones thereof authorised for the entry into the Union, respectively, of consignments of poultry, germinal products of poultry, and of fresh meat from poultry and game birds.
- (5) The United Kingdom notified the Commission of an outbreak of highly pathogenic avian influenza in captive birds. The outbreak is located near Washington, Sunderland, Tyne & Wear, England and was confirmed on 11 December 2021 by laboratory analysis (RT-PCR).
- (6) Furthermore, the United Kingdom notified the Commission of an outbreak of highly pathogenic avian influenza in poultry. The outbreak is located near Buckfastleigh, Teignbridge, Devon, England and was confirmed on 22 December 2021 by laboratory analysis (RT-PCR).

⁽¹⁾ OJ L 84, 31.3.2016, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) 2020/692 of 30 January 2020 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for entry into the Union, and the movement and handling after entry of consignments of certain animals, germinal products and products of animal origin (OJ L 174, 3.6.2020, p. 379).

⁽³⁾ Commission Implementing Regulation (EU) 2021/404 of 24 March 2021 laying down the lists of third countries, territories or zones thereof from which the entry into the Union of animals, germinal products and products of animal origin is permitted in accordance with Regulation (EU) 2016/429 of the European Parliament and of the Council (OJ L 114, 31.3.2021, p. 1).

- (7) Additionally, the United Kingdom notified the Commission of outbreaks of highly pathogenic avian influenza in poultry. The outbreaks are located near Watlington, King's Lynn and West Norfolk, Norfolk, England and near North Somercotes, East Lindsey, Lincolnshire, England and were confirmed on 28 December 2021 by laboratory analysis (RT-PCR).
- (8) Moreover, the United Kingdom notified the Commission of an outbreak of highly pathogenic avian influenza in poultry. The outbreak is located near Romsey, Test Valley, Hampshire, England and was confirmed on 30 December 2021 by laboratory analysis (RT-PCR).
- (9) In addition, the United Kingdom notified the Commission of outbreaks of highly pathogenic avian influenza in poultry. The outbreaks are located near Mablethorpe, East Lindsey, Lincolnshire England and near Louth, East Lindsey, Lincolnshire, England and were confirmed on 31 December 2021 by laboratory analysis (RT-PCR).
- (10) Furthermore, the United Kingdom notified the Commission of an outbreak of highly pathogenic avian influenza in captive birds. The outbreak is located near Eton, Windsor & Birkenhead, Berkshire, England, and was confirmed on 2 January 2022 by laboratory analysis (RT-PCR).
- (11) Additionally, the United Kingdom notified the Commission of an outbreak of highly pathogenic avian influenza in poultry. The outbreak is located near Alford, East Lindsey, Lincolnshire, England and was confirmed on 3 January 2022 by laboratory analysis (RT-PCR).
- (12) Moreover, the United Kingdom notified the Commission of an outbreak of highly pathogenic avian influenza in poultry. The outbreak is located near Lazonby, Eden, Cumbria, England and was confirmed on 4 January 2022 by laboratory analysis (RT-PCR).
- (13) In addition, the United Kingdom notified the Commission of an outbreak of highly pathogenic avian influenza in poultry. The outbreak is located near North Somercotes, East Lindsey, Lincolnshire, England and was confirmed on 5 January 2022 by laboratory analysis (RT-PCR).
- (14) Furthermore, the United Kingdom notified the Commission of an outbreak of highly pathogenic avian influenza in poultry. The outbreak is located near Upholland, West Lancashire, Lancashire, England and was confirmed on 7 January 2022 by laboratory analysis (RT-PCR).
- (15) The veterinary authorities of the United Kingdom established a 10 km control zone around the affected establishments and implemented a stamping-out policy in order to control the presence of highly pathogenic avian influenza and limit the spread of that disease.
- (16) The United Kingdom has submitted information to the Commission on the epidemiological situation on its territory and the measures it has taken to prevent the further spread of highly pathogenic avian influenza. That information has been evaluated by the Commission. On the basis of that evaluation, the entry into the Union of consignments of poultry, germinal products of poultry, and fresh meat from poultry and game birds from the areas under restrictions established by the veterinary authorities of the United Kingdom due to the recent outbreaks of highly pathogenic avian influenza should no longer be authorised.
- (17) Annexes V and XIV to Implementing Regulation (EU) 2021/404 should be therefore amended accordingly.
- (18) Taking into account the current epidemiological situation in the United Kingdom as regards highly pathogenic avian influenza and its serious risk of introduction into the Union, the amendments to be made to Implementing Regulation (EU) 2021/404 by this Regulation should take effect as a matter of urgency.

- (19) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes V and XIV to Implementing Regulation (EU) 2021/404 are amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 January 2022.

For the Commission
The President
Ursula VON DER LEYEN

Annexes V and XIV to Implementing Regulation (EU) 2021/404 are amended as follows:

(1) Annex V is amended as follows:

(a) in Part 1, in the entry for the United Kingdom, the following rows for zones GB-2.76 to GB-2.87 are inserted after the row for zone GB-2.75:

GB United Kingdom	GB-2.76	Breeding poultry other than ratites and productive poultry other than ratites	BPP	N, P1		11.12.2021	
		Breeding ratites and productive ratites	BPR	N, P1		11.12.2021

(b) in Part 2, in the entry for the United Kingdom, the following descriptions of the zones GB-2.76 to GB-2.87 are inserted after the description of the zone GB-2.75:

GB United Kingdom	GB-2.76	Near Washington, Sunderland, Tyne & Wear, England. The area contained within a circle of a radius of 10km, centred on WGS84 dec, coordinates N54.90 and W1.42
	GB-2.77	Near Buckfastleigh, Teignbridge, Devon, England. The area contained within a circle of a radius of 10km, centred on WGS84, coordinates N50.48 and W3.78
	GB-2.78	Near Watlington, King's Lynn and West Norfolk, Norfolk, England. The area contained within a circle of a radius of 10km, centred on WGS84 dec, coordinates N52.68 and E0.53.
	GB-2.79	Near North Somercotes, East Lindsey, Lincolnshire England. The area contained within a circle of a radius of 10km, centred on WGS84, coordinates N53.47 and E0.12
	GB-2.80	Near Romsey, Test Valley, Hampshire, England. The area contained within a circle of a radius of 10km, centred on WGS84, coordinates N51.00 and W1.60
	GB-2.81	Near Mablethorpe, East Lindsey, Lincolnshire England. The area contained within a circle of a radius of 10km, centred on WGS84, coordinates N53.37 and E0.22
	GB-2.82	Near Louth, East Lindsey, Lincolnshire England. The area contained within a circle of a radius of 10km, centred on WGS84, coordinates N53.38 and W0.06
	GB-2.83	Near Eton, Windsor & Maidenhead, Berkshire, England, GB The area contained within a circle of a radius of 10km, centred on WGS84, coordinates N51.49 and W0.62
	GB-2.84	Near Alford, East Lindsey, Lincolnshire, England. The area contained within a circle of a radius of 10km, centred on WGS84, coordinates N53.34 and E0.15

	GB-2.85	Near Lazonby, Eden, Cumbria, England. The area contained within a circle of a radius of 10km, centred on WGS84, coordinates N54.79 and W2.71
	GB-2.86	Near North Somercotes, East Lindsey, Lincolnshire, England. The area contained with a circle of a radius of 10km, centred on WGS84, coordinates N53.45 and E0.09.
	GB-2.87	Near Upholland, West Lancashire, Lancashire, England. The area contained with a circle of a radius of 10km, centred on WGS84, coordinates N53.56 and W2.72'

(2) in Annex XIV, in Part 1, in the entry for the United Kingdom, the following rows for zones GB-2.76 to GB-2.87 are inserted after the row for zone GB-2.75:

GB United Kingdom	GB-2.76	Fresh meat of poultry other than ratites	POU	N, P1		11.12.2021	
		Fresh meat of ratites	RAT	N, P1		11.12.2021

DECISIONS

COUNCIL IMPLEMENTING DECISION (EU) 2022/81

of 18 January 2022

amending Implementing Decision 2009/1008/EU authorising the Republic of Latvia to extend the application of a measure derogating from Article 193 of Directive 2006/112/EC on the common system of value added tax

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax ⁽¹⁾, and in particular Article 395(1) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) Council Decision 2006/42/EC ⁽²⁾ authorised Latvia to apply a special measure derogating from Article 21(1), point (a), of Directive 77/388/EEC ⁽³⁾, to designate the recipient as the person liable to pay value added tax (VAT) on the supply of timber or on the provision of related services until 31 December 2009. By Council Implementing Decision 2009/1008/EU ⁽⁴⁾ Latvia was, by way of derogation from Article 193 of Directive 2006/112/EC, authorised to continue to designate the recipient of timber or related services as the person liable to pay VAT in the case of timber transactions until 31 December 2012 ('the special measure'). Following successive extensions, that authorisation is due to expire on 31 December 2021 ⁽⁵⁾.
- (2) By letter registered with the Commission on 4 April 2021, Latvia requested the authorisation to continue to apply the special measure. Along with that letter, Latvia submitted a report on the application of that special measure.
- (3) In accordance with Article 395(2), second subparagraph, of Directive 2006/112/EC, the Commission informed the other Member States by letters dated 9 August 2021, and Spain by letter dated 10 August 2021, of the request made by Latvia. By letter dated 10 August 2021, the Commission notified Latvia that it had all the information necessary for the appraisal of the request.
- (4) According to Latvia, the timber market, which is one of the most important sectors of its economy, is particularly sensitive to VAT fraud, because it is dominated by a great number of small local operators and individual suppliers. The nature of the market and of businesses involved has generated VAT fraud, which the Latvian tax authorities have found difficult to control. In order to combat that abuse, the Latvian tax authorities have introduced the reverse charge mechanism for the payment of VAT in timber transactions, which has proven to be very effective and has decreased fraud in that market significantly, according to the report submitted by Latvia.

⁽¹⁾ OJ L 347, 11.12.2006, p. 1.

⁽²⁾ Council Decision 2006/42/EC of 24 January 2006 authorising Latvia to extend the application of a measure derogating from Article 21 of the Sixth Council Directive 77/388/EEC on the harmonisation of the laws of the Member States relating to turnover taxes (OJ L 25, 28.1.2006, p. 31).

⁽³⁾ Sixth Council Directive 77/388/EEC of 17 May 1977 on the harmonization of the laws of the Member States relating to turnover taxes – Common system of value added tax: uniform basis of assessment (OJ L 145, 13.6.1977, p. 1).

⁽⁴⁾ Council Implementing Decision 2009/1008/EU of 7 December 2009 authorising the Republic of Latvia to extend the application of a measure derogating from Article 193 of Directive 2006/112/EC on the common system of value added tax (OJ L 347, 24.12.2009, p. 30).

⁽⁵⁾ Council Implementing Decision (EU) 2018/2006 of 11 December 2018 amending Implementing Decision 2009/1008/EU authorising the Republic of Latvia to extend the application of a measure derogating from Article 193 of Directive 2006/112/EC on the common system of value added tax (OJ L 322, 18.12.2018, p. 20).

- (5) Special measures for derogation are in general granted for a limited period of time to allow an assessment whether the special measure is appropriate and effective. Special measures for derogation grant Member States time to introduce other conventional measures at national level to monitor the movement of materials, the payment of VAT, and the compliance of taxable persons, which conventional measures should tackle the respective problem until the expiry of the special measure, thus making an extension of the special measure redundant. A derogation allowing making use of the reverse charge procedure is granted only exceptionally for specific fraudulent areas and constitutes a means of last resort. Therefore, before the expiry of the extension of the special measure under this Implementing Decision, Latvia should implement other conventional measures to fight and prevent VAT fraud in the timber market so that another extension of the special measure would no longer be needed.
- (6) Latvia should therefore be authorised to apply the special measure only until 31 December 2024.
- (7) In order to avoid disruptive effects, Latvia should be allowed to apply the special measure without interruption. The authorisation requested should therefore be granted with effect from 1 January 2022, in order to follow seamlessly on from the prior arrangements under Implementing Decision 2009/1008/EU.
- (8) The special measure will have no adverse impact on the Union's own resources accruing from VAT.
- (9) Implementing Decision 2009/1008/EU should therefore be amended accordingly,

HAS ADOPTED THIS DECISION:

Article 1

Article 2 of Implementing Decision 2009/1008/EU is replaced by the following:

'Article 2

This Decision shall apply until 31 December 2024.'

Article 2

This Decision shall take effect on the day of its notification.

Article 3

This Decision is addressed to the Republic of Latvia.

Done at Brussels, 18 January 2022.

For the Council
The President
B. LE MAIRE

ACTS ADOPTED BY BODIES CREATED BY INTERNATIONAL AGREEMENTS

Only the original UN/ECE texts have legal effect under international public law. The status and date of entry into force of this Regulation should be checked in the latest version of the UN/ECE status document TRANS/WP.29/343, available at: <https://unece.org/status-1958-agreement-and-annexed-regulations>

UN Regulation No 26 – Uniform provisions concerning the approval of vehicles with regard to their external projections [2022/82]

Incorporating all valid text up to:

04 series of amendments – Date of entry into force: 25 September 2020

CONTENTS

REGULATION

1. Scope and purpose
2. Definitions
3. Application for approval
4. Approval
5. General specifications
6. Particular specifications
7. Modification of a vehicle type
8. Conformity of production
9. Penalties for non-conformity of production
10. Production definitively discontinued
11. Names and addresses of Technical Services conducting approval tests and of Type Approval Authorities
12. Transitional provisions

ANNEXES

1. Communication concerning the approval or extension or refusal or withdrawal of approval or production definitively discontinued of a vehicle type with regard to its external projections, pursuant to Regulation No 26
2. Arrangements of the approval marks
3. Methods of determining the dimensions of projections and gaps
4. Communication concerning the approval or extension or refusal or withdrawal of approval or production definitively discontinued of a separate technical unit type of luggage rack, ski rack or radio receiving or transmitting aerial

1. SCOPE AND PURPOSE

- 1.1. This Regulation applies to external projections of category M₁ vehicles. ⁽¹⁾ It does not apply to exterior devices for indirect vision or to the ball of towing devices.
- 1.2. The purpose of this Regulation is to reduce the risk or seriousness of bodily injury to a person hit by the bodywork or brushing against it in the event of a collision. This is valid both when the vehicle is stationary and in motion.

2. DEFINITIONS

For the purposes of this Regulation:

- 2.1. '*Approval of a vehicle*' means the approval of a vehicle type with regard to its external projections;
- 2.2. '*Vehicle type*' means a category of motor vehicles which do not differ in such essential respects as, shape or materials of the external surface;
- 2.3. '*External surface*' means the outside of the vehicle including the bonnet, the lid of the luggage compartment, the doors, the wings, the roof, the lighting and light-signalling devices and the visible strengthening components.
- 2.4. '*Floor line*' means the line determined as follows:

Successively position round a laden vehicle a cone with a vertical axis the height of which is not defined, and with a half angle of 30° in such a way that it contacts, constantly and as low as possible, the external surface of the vehicle. The floor line is the geometric trace of these points of contact. In determining the floor line, the jacking points, exhaust pipes or wheels shall not be taken into consideration. The gaps of the wheel arches are assumed to be filled in by an imaginary surface forming a smooth continuation of the surrounding external surface. At both ends of the vehicle the bumper shall be taken into consideration when establishing the floor line. Dependent upon the particular vehicle the floor line trace may occur at the bumper section extremity or at the body panel below the bumper. Where two or more points of contact occur simultaneously, the lower point of contact shall be used to determine the floor line;
- 2.5. '*Radius of curvature*' means the radius of the arc of a circle which comes closest to the rounded form of the component under consideration;
- 2.6. '*Laden vehicle*' means the vehicle laden to the maximum permitted technical mass. Vehicles equipped with hydropneumatic, hydraulic or pneumatic suspension or a device for automatic levelling according to load shall be tested with the vehicle in the most adverse normal running condition specified by the manufacturer;
- 2.7. '*Extreme outer edge*' of the vehicle means, in relation to the sides of the vehicle, the plane parallel to the median longitudinal plane of the vehicle coinciding with its outer lateral edge, and, in relation to the front and rear ends, the perpendicular transverse plane of the vehicle coinciding with its outer front and rear edges, account not being taken of the projection:
- 2.7.1. Of tyres near their point of contact with the ground, and connections for tyre pressure gauges;
- 2.7.2. Of any anti-skid devices which may be mounted on the wheels;
- 2.7.3. Of devices for indirect vision;

⁽¹⁾ As defined in the Consolidated Resolution on the Construction of Vehicles (R.E.3.), document ECE/TRANS/WP.29/78/Rev.6, para. 2. – <https://unece.org/transport/standards/transport/vehicle-regulations-wp29/resolutions>

- 2.7.4. Of side direction indicator lamps, end outline marker lamps, front and rear position (side) lamps and parking lamps;
- 2.7.5. In relation to the front and rear ends, of parts mounted on the bumpers, of towing devices and of exhaust pipes;
- 2.8. *'The dimension of the projection'* of a component mounted on a panel means the dimension determined by the method described in paragraph 2 of Annex 3 to this Regulation;
- 2.9. *'The nominal line of a panel'* means the line passing through the two points represented by the position of the centre of a sphere when its surface makes its first and last contact with a component during the measuring procedure described in paragraph 2.2 of Annex 3 to this Regulation;
- 2.10. *'Aerial'* means any device used for transmitting and/or receiving electromagnetic signals;
- 2.11. *'Bumper'* means the front or rear, lower, outer structure of a vehicle. It includes all structures that are intended to give protection to a vehicle when involved in a low speed frontal or rear collision and also any attachments to this structure;
- 2.12. *'Bumper cover'* means the non-rigid outer surface of a bumper, generally extending across the full width of the front or rear of a vehicle.
- 3. APPLICATION FOR APPROVAL
 - 3.1. Application for approval of a vehicle type with regard to its external projections
 - 3.1.1. The application for approval of a vehicle type with regard to its external projections shall be submitted by the vehicle manufacturer or by his duly accredited representative.
 - 3.1.2. It shall be accompanied by the following documents in triplicate:
 - 3.1.2.1. Photographs of the front, rear, and side parts of the vehicle taken at an angle of 30° to 45° to the vertical longitudinal median plane of the vehicle;
 - 3.1.2.2. Drawings with dimensions of the bumpers and, where appropriate,
 - 3.1.2.3. Drawings of certain external projections and if applicable drawings of certain sections of the external surface referred to in 6.9.1.
 - 3.1.3. A vehicle representative of the type of vehicle to be approved shall be submitted to the Technical Service responsible for conducting the approval tests. At the request of the aforesaid Technical Service, certain components and certain samples of the material used shall likewise be submitted.
 - 3.2. Application for type approval with regard to luggage racks, ski racks or radio receiving or transmitting aerials considered to be separate technical units
 - 3.2.1. Application for type approval with regard to luggage racks, ski racks or radio receiving or transmitting aerials considered to be separate technical units shall be submitted by the vehicle manufacturer or the manufacturer of the aforementioned separate technical units, or by their duly accredited representative;
 - 3.2.2. For every type of any one of the devices referred to in paragraph 3.2.1 above, the application shall be accompanied by the following:

- 3.2.2.1. Triplicate copies of documents specifying the technical characteristics of the separate technical unit and the assembly instructions to be supplied with every separate technical unit sold;
- 3.2.2.2. A specimen of the type of separate technical unit. Should the responsible authority consider it necessary, it may request a further specimen.
- 4. APPROVAL
- 4.1. Approval of a vehicle type with regard to its external projections
- 4.1.1. If the vehicle type submitted for approval pursuant to this Regulation meets the requirements of paragraphs 5 and 6 below, approval of that vehicle type shall be granted.
- 4.1.2. An approval number shall be assigned to each vehicle type approved. Its first two digits (at present 03, corresponding to the 03 series of amendments) shall indicate the series of amendments incorporating the most recent major technical amendments made to the Regulation at the time of issue of the approval. The same Contracting Party may not assign the same number to another vehicle type.
- 4.1.3. Notice of approval or of extension or refusal or withdrawal of approval or production definitively discontinued of a vehicle type pursuant to this Regulation shall be communicated to the Parties to the 1958 Agreement applying this Regulation by means of a communication form conforming to the model in Annex 1 to this Regulation.
- 4.1.4. There shall be affixed, conspicuously and in a readily accessible place specified on the approval form, to every vehicle conforming to a vehicle type approved under this Regulation an international approval mark consisting of:
 - 4.1.4.1.. A circle surrounding the letter 'E' followed by the distinguishing number of the country which has granted approval; ⁽²⁾
 - 4.1.4.2. The number of this Regulation, followed by the letter 'R', a dash and the approval number to the right of the circle prescribed in paragraph 4.1.4.1 above.
 - 4.1.5. If the vehicle conforms to a vehicle type approved, under one or more other Regulations annexed to the Agreement, in the country which has granted approval under this Regulation the symbol prescribed in paragraph 4.1.4.1 need not be repeated; in such a case the additional numbers and symbols of all the Regulations under which approval has been granted in the country which has granted approval under this Regulation shall be placed in vertical columns to the right of the symbol prescribed in paragraph 4.1.4.1.
 - 4.1.6. The approval mark shall be clearly legible and be indelible.
 - 4.1.7. The approval mark shall be placed close to or on the vehicle data plate affixed by the manufacturer.
 - 4.1.8. Annex 2 to this Regulation gives examples of arrangements of approval marks.
 - 4.1.9. The Type Approval Authority shall verify the existence of satisfactory arrangements for ensuring effective control of the conformity of production before type approval is granted.

⁽²⁾ The distinguishing numbers of the Contracting Parties to the 1958 Agreement are reproduced in Annex 3 to the Consolidated Resolution on the Construction of Vehicles (R.E.3), document ECE/TRANS/WP.29/78/Rev. 6 - <https://unece.org/transport/standards/transport/vehicle-regulations-wp29/resolutions>

- 4.2. Approval with regard to luggage racks, ski racks or radio receiving or transmitting aerials considered to be separate technical units
- 4.2.1. If the type of separate technical unit submitted for approval pursuant to this Regulation meets the requirements of paragraphs 6.16, 6.17 and 6.18 below, approval of that type of separate technical unit shall be granted.
- 4.2.2. An approval number shall be assigned to each type of separate technical unit approved. Its first two digits (at present 03 corresponding to the 03 series of amendments which entered into force on 23 June 2005) shall indicate the series of amendments incorporating the most recent major technical amendments made to the Regulation at the time of issue of the approval. The same Contracting Party may not assign the same number to another type of separate technical unit.
- 4.2.3. Notice of approval, or of extension or refusal or withdrawal of approval or production definitively discontinued, of a type of separate technical unit pursuant to this Regulation shall be communicated to the Parties to the 1958 Agreement applying this Regulation by means of a communication form conforming to the model in Annex 4 to this Regulation.
- 4.2.4. There shall be affixed, conspicuously and in a readily accessible place specified on the approval form, to every separate technical unit conforming to a type approved under this Regulation, an international approval mark consisting of:
- 4.2.4.1. A circle surrounding the letter 'E' followed by the distinguishing number of the country which has granted approval;²
- 4.2.4.2. The number of this Regulation, followed by the letter 'R', a dash and the approval number to the right of the circle prescribed in paragraph 4.2.4.1.
- 4.2.5. The approval mark shall be clearly legible and be indelible.
- 4.2.6. The approval mark shall be placed close to or on the separate technical unit data plate affixed by the manufacturer.
- 4.2.7. Annex 2 to this Regulation gives examples of arrangements of approval marks.
- 4.2.8. The Type Approval Authority shall verify the existence of satisfactory arrangements for ensuring effective control of conformity of production before type approval is granted.
5. GENERAL SPECIFICATIONS
- 5.1. The provisions of this Regulation shall not apply to those parts of the external surface which, with the vehicle in the laden condition, with all doors, windows and access lids etc., in the closed position, are either:
- 5.1.1. At a height of more than 2 metres, or
- 5.1.2. Below the floor line, or
- 5.1.3. So located that, in their static condition as well as when in operation, they cannot be contacted by a sphere 100 mm in diameter.
- 5.2. The external surface of vehicles shall not exhibit, directed outwards, any pointed or sharp parts or any projections of such shape, dimensions, direction or hardness as to be likely to increase the risk or seriousness of bodily injury to a person hit by the external surface or brushing against it in the event of a collision.
- 5.3. The external surface of vehicles shall not exhibit, directed outwards, any part likely to catch on pedestrians, cyclists or motor cyclists.

5.4. No protruding part of the external surface shall have a radius of curvature less than 2,5 mm. This requirement shall not apply to parts of the external surface which protrude less than 5 mm, but the outward facing angles of such parts shall be blunted, save where such parts protrude less than 1,5 mm.

5.5. Protruding parts of the external surface, made of a material of hardness not exceeding 60 shore A, may have a radius of curvature less than 2,5 mm.

The hardness measurement shall be taken with the component as installed on the vehicle. Where it is impossible to carry out a hardness measurement by the Shore A procedure, comparable measurements shall be used for evaluation.

5.6. The provisions of the above paragraphs 5.1 to 5.5 shall apply in addition to the particular specifications of the following paragraph 6, except where these particular specifications expressly provide otherwise.

6. PARTICULAR SPECIFICATIONS

6.1. Ornaments

6.1.1. Added ornaments which project more than 10 mm from their support shall retract, become detached or bend over under a force of 10 daN exerted at their most salient point in any direction in a plane approximately parallel to the surface on which they are mounted. These provisions shall not apply to ornaments on radiator grilles, to which only the general requirements of paragraph 5 shall apply.

To apply the 10 daN force a flat-ended ram of not more than 50 mm diameter shall be used. Where this is not possible, an equivalent method shall be used. After the ornaments are retracted, detached or bent over, the remaining projections shall not project more than 10 mm. These projections shall in any case satisfy the provisions of paragraph 5.2. If the ornament is mounted on a base, this base is regarded as belonging to the ornament and not to the supporting surface.

6.1.2. Protective strips or shielding on the external surface shall not be subject to the requirements of paragraph 6.1.1 above; however, they shall be firmly secured to the vehicle.

6.2. Headlights

6.2.1. Projecting visors and rims shall be permitted on headlights, provided that their projection, as measured in relation to the external transparent surface of the headlight does not exceed 30 mm and their radius of curvature is at least 2,5 mm throughout.

In the case of a headlamp mounted behind an additional transparent surface, the projection shall be measured from the outermost transparent surface. The projections shall be determined according to the method described in paragraph 3 of Annex 3 to this Regulation.

6.2.2. Retracting headlights shall meet the provisions of paragraph 6.2.1 above in both the operative and retracted positions.

6.2.3. The provisions of paragraph 6.2.1 above do not apply to headlamps which are sunk into the bodywork or which are 'overhung' by the bodywork, if the latter complies with the requirements of paragraph 6.9.1 below.

6.3. Grilles and gaps

6.3.1. The requirements of paragraph 5.4 above shall not apply to gaps between fixed or movable elements, including those forming part of air intake or outlet grilles and radiator grilles, provided that the distance between consecutive elements does not exceed 40 mm and provided that the grilles and gaps have a functional purpose. For gaps of between 40 mm and 25 mm the radii of curvature shall be 1 mm or more. However, if the distance

between two consecutive elements is equal to or less than 25 mm, the radii of curvature of external faces of the elements shall not be less than 0,5 mm. The distance between two consecutive elements of grilles and gaps shall be determined according to the method described in paragraph 4 of Annex 3 to this Regulation.

6.3.2. The junction of the front with the side faces of each element forming a grille or gap shall be blunted.

6.4. Windscreen wipers

6.4.1. The windscreen wiper fittings shall be such that the wiper shaft (number 1 in Figure 0) is furnished with a protective casing (number 1.1 in Figure 0) which has a radius of curvature meeting the requirements of paragraph 5.4 above and an end surface area of not less than 150 mm². The holder (head and main part, i.e. numbers 2, 2.1 in Figure 0) are designed with a radius of curvature meeting the requirements of paragraph 5.4 above. In the case of rounded covers, these shall have a minimum projected area of 150 mm² when measured not more than 6,5 mm from the point projecting furthest. These requirements shall also be met by rear window wipers and headlamp wipers.

6.4.2. Paragraph 5.4 shall not apply to the wiper blades (number 4 in Figure 0), supporting members (number 3 in Figure 0) if present, to second holder (number 2.2 in Figure 0) if present, to the functional hinge between the holder head and the holder (number 5 in Figure 0) if present, or to the junction between the main and the second holder (number 6 in Figure 0) if present. However, these units shall be so made as to have no sharp angles or pointed or cutting parts.

Figure 0

Example of parts distribution

Legend:

- 1 Wiper shaft
- 1.1 Protective casing
- 2 Holder head
- 2.1 Main holder
- 2.2 Second holder
- 3 Supporting members
- 4 Wiper blades
- 5 Functional hinge
- 6 Junction between the main and second holder

6.4.3. Compliance with the provisions in paragraphs 6.4.1 and 6.4.2 shall be verified with the wipers in parked position.

6.5. Bumpers

6.5.1. The ends of the bumpers shall be turned in towards the external surface in order to minimize the risk of fouling. This requirement is considered to be satisfied if either the bumper is recessed or integrated within the bodywork or the end of the bumper is turned in so that it is not contactable by a 100 mm sphere and the gap between the bumper end and the surrounding bodywork does not exceed 20 mm.

6.5.2. If the line of the bumper which corresponds to the outline contour of the car vertical projection is on a rigid surface, that surface shall have a minimum radius of curvature of 5 mm at all its points lying from the contour line to 20 mm inward, and a minimum radius of curvature of 2,5 mm in all other cases. This provision applies to that part of the zone lying from the contour line to 20 mm inward which is situated between and in front (or rear in case of the rear bumper) of tangential points with the contour line of two vertical planes each forming with the longitudinal plane of symmetry of the vehicle an angle of 15° (see Fig. 1).

Figure 1

- 6.5.3. The requirement of paragraph 6.5.2 above shall not apply to parts on or of the bumper or to bumper insets which have a projection of less than 5 mm, with special reference to joint covers and jets for headlamp washers; but the outward facing angles of such parts shall be blunted, save where such parts protrude less than 1,5 mm.
- 6.5.4. The requirement of paragraph 6.5.2 above does not apply to the bumper cover. The provisions of paragraph 5 of this Regulation remain applicable.
- 6.6. Handles, hinges and push-buttons of doors, luggage compartments and bonnets; fuel tank filler caps and covers
- 6.6.1. The projection shall not exceed 40 mm in the case of door or luggage compartment handles and 30 mm in all other cases.
- 6.6.2. If lateral door handles rotate to operate, they shall meet one or other of the following requirements:
- 6.6.2.1. In the case of handles which rotate parallel to the plane of the door, the open end of handles must be directed towards the rear. The end of such handles shall be turned back towards the plane of the door and fitted into a protective surround or be recessed.
- 6.6.2.2. Handles which pivot outwards in any direction which is not parallel to the plane of the door shall, when in the closed position, be enclosed in a protective surround or be recessed. The open end shall face either rearwards or downwards.
- Nevertheless, handles which do not comply with this last condition may be accepted if:
- (a) They have an independent return mechanism;
 - (b) Should the return mechanism fail, they cannot project more than 15 mm;
 - (c) They comply, in such opened position, with the provisions of paragraph 5.4; and
 - (d) Their end surface area, when measured not more than 6,5 mm from the point projecting furthest, is not less than 150 mm².
- 6.7. Wheels, wheel nuts, hub caps and wheel discs
- 6.7.1. The requirements of paragraph 5.4 above shall not apply.
- 6.7.2. The wheels, wheel nuts, hub caps and wheel discs shall not exhibit any pointed or sharp projections that extend beyond the external plane of the wheel rim. Wing nuts shall not be allowed.
- 6.7.3. When the vehicle is travelling in a straight line, no part of the wheels other than the tyres, situated above the horizontal plane passing through their axis of rotation shall project beyond the vertical projection, in a horizontal plane of the external surface or structure. However, if functional requirements so warrant, wheel discs which cover wheel and hub nuts may project beyond the vertical projection of the external surface or structure on condition that the radius of curvature of the surface of the projecting part is not less than 30 mm and that the projection beyond the vertical projection of the external surface or structure in no case exceeds 30 mm.
- 6.8. Sheet-metal edges
- 6.8.1. Sheet-metal edges, such as gutter edges and the rails of sliding doors, shall not be permitted unless they are folded back or are fitted with a shield meeting the requirements of this Regulation which are applicable to it.
- An unprotected edge shall be considered to be folded back either if it is folded back by approximately 180°, or if it is folded towards the bodywork in such a manner that it cannot be contacted by a sphere having a diameter of 100 mm.

The requirements of paragraph 5.4 above shall not apply to the following sheet metal edges: rear edge of bonnet and front edge of rear luggage boot.

The rear edge of the bonnet includes the extrapolation of this edge to the left and right (e.g. as upper edge of the fender or as edge of the a-pillar). This extrapolation is limited laterally by the outermost lateral point of the windscreen glass.

6.9. Body-panels

6.9.1. Folds in body panels may have a radius of curvature of less than 2,5 mm provided that it is not less than one-tenth of the height 'H' of the projection, measured in accordance with the method described in paragraph 1 of Annex 3 to this Regulation.

6.10. Lateral air or rain deflectors

6.10.1. Lateral deflectors shall have a radius of curvature of at least 1 mm on edges capable of being directed outwards.

6.11. Jacking brackets and exhaust pipes

6.11.1. The jacking brackets and exhaust pipe(s) shall not project more than 10 mm beyond the vertical projection of the floor line lying vertically above them. As an exception to this requirement an exhaust pipe may project more than 10 mm beyond the vertical projection of the floor line, so long as it terminates in rounded edges, the minimum radius of curvature being 2,5 mm.

6.12. Air intake and outlet flaps

6.12.1. Air intake and outlet flaps shall meet the requirements of paragraphs 5.2, 5.3 and 5.4 above in all positions of use.

6.13. Roof

6.13.1. Opening roofs shall be considered only in the closed position.

6.13.2. Convertible vehicles shall be examined with the hood in both the raised and lowered positions.

6.13.2.1. With the hood lowered, no examination shall be made of the vehicle inside an imaginary surface formed by the hood when in the raised position.

6.13.2.2. Where a cover for the linkage of the hood when folded is provided as standard equipment, the examination shall be made with the cover in position.

6.14. Windows

6.14.1. Windows which move outwards from the external surface of the vehicle shall comply with the following provisions in all positions of use:

6.14.1.1. No exposed edge shall face forwards;

6.14.1.2. No part of the window shall project beyond the extreme outer edge of the vehicle.

6.15. Registration plate brackets

6.15.1. Supporting brackets provided by the vehicle manufacturer for registration plates shall comply with the requirements of paragraph 5.4 of this Regulation if they are contactable by a 100 mm diameter sphere when a registration plate is fitted in accordance with the vehicle manufacturer's recommendation.

6.16. Luggage racks and ski racks

- 6.16.1. Luggage racks and ski racks shall be so attached to the vehicle that positive locking exists in at least one direction and that horizontal, longitudinal and transverse forces can be transmitted which are at least equal to the vertical load-bearing capacity of the rack as specified by its manufacturer. For the test of the luggage rack or ski rack fixed to the vehicle according to the manufacturer's instructions, the test loads shall not be applied at one point only.
- 6.16.2. Surfaces which, after installation of the rack, can be contacted by a sphere of 165 mm diameter shall not have parts with a radius of curvature less than 2,5 mm, unless the provisions of paragraph 6.3 can be applied.
- 6.16.3. Fastening elements such as bolts that are tightened or loosened without tools shall not project more than 40 mm beyond the surfaces referred to in paragraph 6.16.2 above, the projection being determined according to the method prescribed in paragraph 2 of Annex 3 to this Regulation, but using a sphere of 165 mm diameter in those cases where the method prescribed in paragraph 2.2 of this annex is employed.

6.17. Aerials

- 6.17.1. Radio receiving and transmitting aerials shall be fitted to the vehicle in such a way that if their unattached end is less than 2 m from the road surface in any position of use specified by the manufacturer of the aerial, it shall be inside the zone bounded by the vertical planes which are 10 cm inside the extreme outer edge of the vehicle as defined in paragraph 2.7 of this Regulation.
- 6.17.2. Furthermore, aerials shall be so fitted to the vehicle, and if necessary their unattached ends so restricted, that no part of the aerials protrude beyond the extreme outer edge of the vehicle as defined in paragraph 2.7 of this Regulation.
- 6.17.3. Shafts of aerials may have radii of curvature of less than 2,5 mm. However, the unattached ends shall be fitted with fixed cappings, the radii of curvature of which are not less than 2,5 mm.
- 6.17.4. The bases of aerials shall not project more than 40 mm when determined according to the procedure of paragraph 2 of Annex 3 to this Regulation.
- 6.17.4.1. In cases where by the absence of a flexible shaft or part it is not possible to identify what the base is of an aerial this requirement is deemed to be met if, after a horizontal force of not more than 50 daN in forward and rearward direction is applied by a flat-ended ram of not more than 50 mm diameter at the most salient part of the aerial:
- (a) The aerial bends towards the support and does not project more than 40 mm, or
 - (b) The aerial breaks off and the remaining part of the aerial does not show any sharp or dangerous part that can be contacted by the 100 mm sphere and does not project more than 40 mm.
- 6.17.4.2. Paragraphs 6.17.4 and 6.17.4.1 above shall not apply to aerials located behind the vertical transversal plane passing through the 'R' point of the driver, provided that the maximum projection of the aerial including its housing does not exceed 70 mm when determined according to the procedure of paragraph 2 of Annex 3 to this Regulation.

If the aerial is located behind that vertical plane but projects more than 70 mm, paragraph 6.17.4.1 above shall apply using a projection limit of 70 mm instead of 40 mm.

6.18. Assembly instructions

- 6.18.1. Luggage racks, ski racks and radio receiving or transmitting aerials that have been approved as separate technical units may not be offered for sale, sold or purchased unless accompanied by assembly instructions. The assembly instructions shall contain sufficient information to enable the approved components to be mounted on the vehicle in a manner that complies with the relevant provisions of paragraphs 5 and 6 of this Regulation. In particular, the positions of use must be indicated for telescopic aerials.

7. MODIFICATION OF A VEHICLE TYPE

- 7.1. Every modification to an existing vehicle type shall be notified to the Type Approval Authority which approved the vehicle type. The Type Approval Authority shall then either:

- (a) Decide, in consultation with the manufacturer, that a new type-approval is to be granted, or
- (b) Apply the procedure contained in paragraph 7.1.1 (Revision) and, if applicable, the procedure contained in paragraph 7.1.2 (Extension).

7.1.1. Revision

When particulars recorded in the information folder have changed and the Type Approval Authority considers that the modifications made are unlikely to have an appreciable adverse effect and that in any case the vehicle still complies with the requirements, the modification shall be designated a 'revision'.

In such a case, the Type Approval Authority shall issue the revised pages of the information folder as necessary, marking each revised page to show clearly the nature of the modification and the date of re-issue. A consolidated updated version of the information folder, accompanied by a detailed description of the modification, shall be deemed to meet this requirement.

7.1.2. Extension

The modification shall be designated an 'extension' if, in addition to the change of the particulars recorded in the information folder,

- (a) Further inspections or tests are required, or
- (b) Any information on the communication document (with the exception of its attachments) has changed, or
- (c) Approval to a later series of amendments is requested after its entry into force.

- 7.2. Confirmation or refusal of approval, specifying the alterations shall be communicated by the procedure specified in paragraph 4.3 above to the Parties to the Agreement which apply this Regulation. In addition, the index to the information package, attached to the communication document, shall be amended accordingly to show the date of the most recent revision or extension.

8. CONFORMITY OF PRODUCTION

- 8.1. Vehicle (separate technical unit) approved under this Regulation shall be so manufactured as to conform to the type approved by meeting the requirements set forth in paragraphs 5 and 6 above.

- 8.2. In order to verify that the requirements of paragraph 8.1 above are met, suitable controls of the production shall be carried out.

- 8.3. The holder of the approval shall in particular:

- 8.3.1. Ensure the existence of procedures for the effective control of the quality of products;

- 8.3.2. Have access to the control equipment necessary for checking the conformity to each approved type;

- 8.3.3. Ensure that data of test results are recorded and that related documents shall remain available for a period to be determined in accordance with the Type Approval Authority;
- 8.3.4. Analyze the results of each type of test in order to verify and ensure the stability of the product characteristics making allowance for variation of an industrial production;
- 8.3.5. Ensure that for each type of product at least the tests prescribed in Annex 3 to this Regulation are carried out;
- 8.3.6. Ensure that any sampling of samples or test pieces giving evidence of non-conformity with the type of test considered shall give rise to another sampling and another test. All the necessary steps shall be taken to re-establish the conformity of the corresponding production.
- 8.4. The Type Approval Authority which has granted type approval may at any time verify the conformity control methods applicable to each production unit.
 - 8.4.1. In every inspection, the test books and production survey records shall be presented to the visiting inspector.
 - 8.4.2. The inspector may take samples at random to be tested in the manufacturer's laboratory. The minimum number of samples may be determined according to the results of the manufacturer's own verification.
 - 8.4.3. When the quality level appears unsatisfactory or when it seems necessary to verify the validity of the tests carried out in the application of paragraph 8.4.2 above, the inspector shall select samples to be sent to the Technical Service which has conducted the type approval tests.
 - 8.4.4. The Type Approval Authority may carry out any test prescribed in this Regulation.
 - 8.4.5. The normal frequency of inspections authorized by the Type Approval Authority shall be one per two years. In the case where negative results are recorded during one of these visits, the Type Approval Authority shall ensure that all necessary steps are taken to re-establish the conformity of production as rapidly as possible.

9. PENALTIES FOR NON-CONFORMITY OF PRODUCTION

- 9.1. The approval granted in respect of a vehicle type pursuant to this Regulation may be withdrawn if the requirement laid down in paragraph 8.1 above is not complied with.
- 9.2. If a Party to the Agreement applying this Regulation withdraws an approval it has previously granted, it shall forthwith notify the other Contracting Parties applying this Regulation by means of a communication form conforming to the model in Annex 1 to this Regulation.

10. PRODUCTION DEFINITELY DISCONTINUED

If the holder of the approval completely ceases to manufacture the type approved in accordance with this Regulation, he shall so inform the Type Approval Authority which granted the approval. Upon receiving the relevant communication that authority shall inform thereof the other Parties to the 1958 Agreement which apply this Regulation by means of a communication form conforming to the model in Annex 1 to this Regulation.

11. NAMES AND ADDRESSES OF TECHNICAL SERVICES CONDUCTING APPROVAL TESTS AND OF TYPE APPROVAL AUTHORITIES

The Parties to the Agreement applying this Regulation shall communicate to the United Nations Secretary-General the names and addresses of the Technical Services conducting approval tests and of the Type Approval Authorities, which grant approval and to which forms certifying approval or refusal or withdrawal of approval, issued in other countries, are to be sent.

12. TRANSITIONAL PROVISIONS

12.1. As from the official date of entry into force of the 02 series of amendments, no Contracting Party applying this Regulation shall refuse to grant type approvals under this Regulation as amended by the 02 series of amendments.

12.2. As from 24 months after the date of entry into force of the 02 series of amendments, Contracting Parties applying this Regulation shall grant type approval only if the vehicle type to be approved complies with the requirements of this Regulation as amended by the 02 series of amendments.

12.3. As from 36 months after the date of entry into force of the 02 series of amendments, existing approvals to this Regulation shall cease to be valid, except in the case of vehicle types which comply with the requirements of this Regulation as amended by the 02 series of amendments.

12.4. As from the official date of entry into force of the 03 series of amendments, no Contracting Party applying this Regulation shall refuse to grant approval under this Regulation as amended by the 03 series of amendments.

12.5. As from 24 months after the date of entry into force of the 03 series of amendments, Contracting Parties applying this Regulation shall grant approvals only if the vehicle type to be approved meets the requirements of this Regulation as amended by the 03 series of amendments.

12.6. Until 48 months after the date of entry into force the 03 series of amendments to this Regulation, no Contracting Party applying this Regulation shall refuse national type approval of a vehicle type approved to the preceding series of amendments to this Regulation.

12.7. Starting 48 months after the entry into force to the 03 series of amendments to this Regulation, Contracting Parties applying this Regulation may refuse first national registration (first entry into service) of a vehicle which does not meet the requirements of the 03 series of amendments to this Regulation.

12.8. As from the official date of entry into force of the 04 series of amendments, no Contracting Party applying this Regulation shall refuse to grant approval under this Regulation as amended by the 04 series of amendments.

12.9. As from 1 September 2022, Contracting Parties applying this Regulation shall not be obliged to accept type approvals to the preceding series of amendments, first issued after 1 September 2022.

12.10. Contracting Parties applying this Regulation shall continue to accept type approvals issued according to the preceding series of amendments to this Regulation first issued before 1 September 2022.

12.11. Contracting Parties applying this Regulation shall not refuse to grant type approvals according to any preceding series of amendments to this Regulation or extensions thereof.

14. Signature
15. The list of documents filed with the administration service which has granted approval and available on request is attached to this communication.

ANNEX 2

Arrangements of the approval marks

MODEL A

(See paragraphs 4.1.4 and 4.2.4 of this Regulation)

a = 8 mm min

The above approval mark affixed to a vehicle shows that the vehicle type concerned has been approved in the Netherlands (E 4) pursuant to UN Regulation No 26 and under approval number 042439. The first two digits of the approval number indicate that UN Regulation No 26 already included the 04 series of amendments when the approval was granted.

MODEL B

(See paragraph 4.1.5 of this Regulation)

a = 8 mm min

The above approval mark affixed to a vehicle shows that the vehicle type concerned has been approved in the Netherlands (E 4) pursuant to UN Regulation No 26 and UN Regulation No 24. ⁽¹⁾ The first two digits of the approval numbers indicate that, at the dates when the respective approvals were given, UN Regulation No 26 included the 04 series of amendments, while UN Regulation No 24 already included the 03 series of amendments.

⁽¹⁾ The second Regulation number is given merely as an example.

ANNEX 3

Methods of determining the dimensions of projections and gaps

1. Method of determining the height of the projection of folds in body panels
 - 1.1. The height H of a projection is determined graphically by reference to the circumference of a 165 mm diameter circle, internally tangential to the external outline of the external surface at the section to be checked.
 - 1.2. H is the maximum value of the distance, measured along a straight line passing through the centre of the 165 mm diameter circle between the circumference of the aforesaid circle and the external contour of the projection (see Fig.1).
 - 1.3. In cases where it is not possible for a 100 mm diameter circle to contact externally part of the external outline of the external surface at the section under consideration, the surface outline in this area will be assumed to be that formed by the circumference of the 100 mm diameter circle between its tangent points with the external outline (see Fig.2).
 - 1.4. Drawings of the necessary sections through the external surface shall be provided by the manufacturer to allow the height of the projections referred to above to be measured.
2. Method of determining the dimension of the projection of a component mounted on the external surface
 - 2.1. The dimension of the projection of a component which is mounted on a convex surface may be determined either directly or by reference to a drawing of an appropriate section of this component in its installed condition.
 - 2.2. If the dimension of the projection of a component which is mounted on a surface other than convex cannot be determined by simple measurement, it shall be determined by the maximum variation of the distance of the centre of a 100 mm diameter sphere from the nominal line of the panel when the sphere is moved over and is in constant contact with that component. Figure 3 shows an example of the use of this procedure.
3. Method of determining the projection of headlamp visors and rims
 - 3.1. The projection from the external surface of the headlamp shall be measured horizontally from the point of contact of a 100 mm diameter sphere as shown in Figure 4.
4. Method of determining the dimension of a gap or the space between elements of a grille
 - 4.1. The dimension of a gap or space between elements of a grille shall be determined by the distance between two planes passing through the points of contact of the sphere and perpendicular to the line joining those points of contact. Figures 5 and 6 show examples of the use of this procedure.
