COMMISSION REGULATION (EU) 2022/650**of 20 April 2022****amending the Annex to Regulation (EU) No 231/2012 laying down specifications for food additives listed in Annexes II and III to Regulation (EC) No 1333/2008 of the European Parliament and of the Council as regards specifications for sodium diacetate (E 262(ii))****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1333/2008 of the European Parliament and of the Council of 16 December 2008 on food additives ⁽¹⁾, and in particular Article 14 thereof,

Having regard to Regulation (EC) No 1331/2008 of the European Parliament and of the Council of 16 December 2008 establishing a common authorisation procedure for food additives, food enzymes and food flavourings ⁽²⁾, and in particular Article 7(5) thereof,

Whereas:

- (1) Commission Regulation (EU) No 231/2012 ⁽³⁾ lays down specifications for food additives listed in Annexes II and III to Regulation (EC) No 1333/2008.
- (2) The specifications for food additives may be updated in accordance with the common procedure referred to in Article 3(1) of Regulation (EC) No 1331/2008, either on the initiative of the Commission or following an application from a Member State or an interested party.
- (3) On 3 August 2020, an application was submitted for the amendment of specifications concerning the food additive sodium diacetate (E 262(ii)). The application was made available to the Member States pursuant to Article 4 of Regulation (EC) No 1331/2008.
- (4) Regulation (EU) No 231/2012 provides that sodium diacetate (E 262(ii)) is to contain 39 to 41 % of free acetic acid and 58 to 60 % of sodium acetate. The applicant requests the amendment to 39 to 43 % of free acetic acid and 57 to 60 % of sodium acetate.
- (5) According to the applicant, when producing sodium diacetate, (E 262(ii)) a stoichiometric product with a free acetic acid content of 42,3 % is obtained. The applicant claims that the reduction of the free acetic acid content to 39-41 % requires excessive amounts of energy. Therefore, the increase of the upper limit for free acetic acid to 43 % will shorten the drying time during the production, resulting in the reduction of energy needed and thus in a more sustainable production process.

⁽²⁾ OJ L 354, 31.12.2008, p. 1.

⁽³⁾ Commission Regulation (EU) No 231/2012 of 9 March 2012 laying down specifications for food additives listed in Annexes II and III to Regulation (EC) No 1333/2008 of the European Parliament and of the Council (OJ L 83, 22.3.2012, p. 1).

- (6) According to the applicant, there are no other changes to the production process, the higher amount of free acetic acid in sodium diacetate (E 262(ii)) does not have any impact on safety and, otherwise, the final product is the same, i.e. containing no other impurities than those specified in Regulation (EU) No 231/2012.
- (7) The application was discussed by the Working Party of Governmental Experts on Additives. Taking into account the information provided by the applicant and the feedback received from that Working Party, the Commission considered that the proposed amendment of the specifications for sodium diacetate (E 262(ii)) is not liable to have an effect on human health.
- (8) As the increase of the upper limit for free acetic acid content in sodium diacetate (E 262(ii)), from 41 to 43 %, is not liable to have an effect on human health, it is not necessary to seek the opinion of the European Food Safety Authority in accordance with Article 3(2) of Regulation (EC) No 1331/2008.
- (9) The Annex to Regulation (EU) No 231/2012 should therefore be amended accordingly.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Regulation (EU) No 231/2012 is amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 20 April 2022.

For the Commission

Ursula VON DER LEYEN

initiating a review of Implementing Regulation (EU) 2017/1993 imposing a definitive anti-dumping duty on imports of certain open mesh fabrics of glass fibres originating in the People's Republic of China as extended to imports of certain open mesh fabrics of glass fibres consigned from India, Indonesia, Malaysia, Taiwan and Thailand, whether declared as originating in these countries or not, for the purposes of determining the possibility of granting an exemption from those measures to one Indian exporting producer, repealing the anti-dumping duty with regard to imports from that exporting producer and making imports from that exporting producer subject to registration

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union ⁽¹⁾ ('the basic anti-dumping Regulation') and in particular Articles 13(4) and 14(5) thereof,

Having regard to Commission Implementing Regulation (EU) 2017/1993 of 6 November 2017 imposing a definitive anti-dumping duty on imports of certain open mesh fabrics of glass fibres originating in the People's Republic of China as extended to imports of certain open mesh fabrics of glass fibres consigned from India, Indonesia, Malaysia, Taiwan and Thailand, whether declared as originating in these countries or not, following an expiry review pursuant to Article 11(2) of the Regulation (EU) 2016/1036 of the European Parliament and of the Council ⁽²⁾,

After informing the Member States,

Whereas:

1. REQUEST

- (1) The European Commission ('the Commission') received a request for an exemption from the anti-dumping measures applicable to imports of certain open mesh fabrics of glass fibres consigned from India, whether declared as originating in India or not, as far as Urja Products Private Limited ('the applicant') is concerned, pursuant to Article 13(4) of the basic anti-dumping Regulation.
- (2) The request was lodged on 23 August 2021 by the applicant, who is an exporting producer of open mesh fabrics of glass fibres in India ('the country concerned').

2. PRODUCT UNDER REVIEW

- (3) The product under review is open mesh fabrics of glass fibres, of a cell size of more than 1,8 mm both in length and in width and weighing more than 35 g/m², excluding fibreglass discs, consigned from India, whether declared as originating in India or not, currently falling under CN codes ex 7019 63 00, ex 7019 64 00, ex 7019 65 00, ex 7019 66 00 and ex 7019 69 90 (TARIC codes 7019 63 00 14, 7019 64 00 14, 7019 65 00 14, 7019 66 00 14 and 7019 69 90 14). 3. EXISTING MEASURES

- (4) By Regulation (EU) No 791/2011 ⁽³⁾, the Council imposed definitive anti-dumping duties on imports of certain open mesh fabrics of glass fibres originating in the People's Republic of China.
- (5) These measures were extended by Council Implementing Regulations (EU) No 672/2012 ⁽⁴⁾, (EU) No 21/2013 ⁽⁵⁾ and (EU) No 1371/2013 ⁽⁶⁾, as last amended by Commission Implementing Regulation (EU) 2018/1711 ⁽⁷⁾, to imports of certain open mesh fabrics of glass fibres consigned from India, Indonesia, Malaysia, Taiwan and Thailand, whether declared as originating in these countries or not, with the exception of those produced by Montex Glass Fibre Industries Pvt. Ltd and Pyrotek India Pvt. Ltd.
- (6) These measures were extended by Commission Implementing Regulation (EU) No 976/2014 ⁽⁸⁾, to imports of slightly modified open mesh fabrics of glass fibres.
- (7) The measures currently in force are imposed by Implementing Regulation (EU) 2017/1993 following an expiry review pursuant to Article 11(2) of the basic anti-dumping Regulation, as amended by Commission Implementing Regulation (EU) 2018/788 ⁽⁹⁾, which granted an exemption to SPG Glass Fibre PVT. Ltd.

4. GROUNDS FOR THE REVIEW

- (8) The applicant alleged that it did not export the product under review to the Union during the reporting period used in the investigation that led to the extended measures as adopted by Council Implementing Regulation (EU) No 1371/2013, namely the period from 1 April 2012 to 31 March 2013 ('the original investigation period'). Actually, the applicant had already come forward during the investigation that led to the extension of the measures, which had concluded that '*Urja Products does not produce the product under investigation*' ⁽¹⁰⁾.
- (9) In addition, the applicant provided evidence that it is a genuine producer and alleged that it has not circumvented the existing measures.
- (10) The applicant further claimed that after the original investigation period, in 2020 and 2021, it exported the product under review to the Union.

⁽⁵⁾ Council Implementing Regulation (EU) No 21/2013 of 10 January 2013 extending the definitive anti-dumping duty imposed by Implementing Regulation (EU) No 791/2011 on imports of certain open mesh fabrics of glass fibres originating in the People's Republic of China to imports of certain open mesh fabrics of glass fibres consigned from Taiwan and Thailand, whether declared as originating in Taiwan and Thailand or not (OJ L 11, 16.1.2013, p. 1).

⁽⁶⁾ Council Implementing Regulation (EU) No 1371/2013 of 16 December 2013 extending the definitive anti-dumping duty imposed by Implementing Regulation (EU) No 791/2011 on imports of certain open mesh fabrics of glass fibres originating in the People's Republic of China to imports of certain open mesh fabrics of glass fibres consigned from India and Indonesia, whether declared as originating in India and Indonesia or not (OJ L 346, 20.12.2013, p. 20).

5. PROCEDURE

5.1. Initiation

- (11) The Commission examined the evidence available and concluded that there was sufficient evidence to justify the initiation of an investigation pursuant to Article 13(4) of the basic anti-dumping Regulation for the purpose of determining the possibility of granting the applicant an exemption from the extended measures.
- (12) The Union industry known to be concerned was informed of the request for a review and was given an opportunity to comment.
- (13) In its investigation, the Commission will pay particular attention to the applicant's relationship with the companies subject to the existing measures in order to ensure that it was not established in order to be used to circumvent the measures. The Commission will also consider whether particular monitoring conditions should be imposed in case the investigation will conclude that granting the exemption is warranted.

5.2. Repeal of the existing anti-dumping measures and registration of imports

- (14) In line with Article 11(4) of the basic anti-dumping Regulation, in cases of new exporters in the exporting country in question which have not exported the product during the period of investigation on which the measures were based, the anti-dumping duty in force should be repealed with regard to imports of the product under review which are produced and sold for export to the Union by the applicant.
- (15) At the same time, such imports should be made subject to registration in accordance with Article 14(5) of the basic anti-dumping Regulation in order to ensure that, should the review result in a finding of circumvention in respect of the applicant, anti-dumping duties can be levied from the date of the registration of these imports. The amount of the applicant's possible future liabilities would be equal to the duty applicable to 'all other companies' in Article 1(2) of Implementing Regulation (EU) 2017/1993 (62,9 %).

5.3. Review investigation period

- (16) The investigation will cover the period from 1 April 2012 to 31 December 2021 ('review investigation period').

5.4. Investigating the applicant

- (17) In order to obtain information it deems necessary for its investigation, the Commission will send a questionnaire to the applicant. The applicant must submit the completed questionnaire within 37 days of the date of entry into force of this Regulation, unless otherwise specified, pursuant to Article 6(2) of the basic anti-dumping Regulation.

5.5. Other written submissions

- (18) Subject to the provisions of this Regulation, all interested parties are invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of entry into force of this Regulation.

5.6. Possibility to be heard by the Commission investigation services

- (19) All interested parties may request to be heard by the Commission investigation services. Any request to be heard must be made in writing and must specify the reasons for the request. For hearings on issues pertaining to the initiation of the investigation, the request must be submitted within 15 days of the date of entry into force of this Regulation. Thereafter, a request to be heard must be submitted within the specific deadlines set by the Commission in its communication with the parties.

5.7. Instructions for making written submissions and sending completed questionnaires and correspondence

- (20) Information submitted to the Commission for the purpose of trade defence investigations shall be free from copyrights. Interested parties, before submitting to the Commission information and/or data that is subject to third party copyrights, must request specific permission to the copyright holder explicitly allowing the Commission a) to use the information and data for the purpose of this trade defence proceeding and b) to provide the information and/or data to interested parties to this investigation in a form that allows them to exercise their rights of defence.
- (21) All written submissions, including the information requested in this Regulation, completed questionnaires and correspondence provided by interested parties for which confidential treatment is requested shall be labelled '*Sensitive*'. Parties submitting information in the course of this investigation are invited to reason their request for confidential treatment.
- (22) Parties providing '*Sensitive*' information are required to furnish non-confidential summaries of it pursuant to Article 19(2) of the basic anti-dumping Regulation, which will be labelled '*For inspection by interested parties*'. Those summaries should be sufficiently detailed to permit a reasonable understanding of the substance of the information submitted in confidence.
- (23) If a party providing '*Sensitive*' information fails to show good cause for a confidential treatment request or does not furnish a non-confidential summary of it in the requested format and quality, the Commission may disregard such information unless it can be satisfactorily demonstrated from appropriate sources that the information is correct.
- (24) Interested parties are invited to make all submissions and requests via TRON.tdi (<https://tron.trade.ec.europa.eu/tron/TDI>) including requests to be registered as interested parties, scanned powers of attorney and certification sheets. By using TRON.tdi or email, interested parties express their agreement with the rules applicable to electronic submissions contained in the document '*CORRESPONDENCE WITH THE EUROPEAN COMMISSION IN TRADE DEFENCE CASES*' published on the website of the Directorate-General for Trade: http://trade.ec.europa.eu/doclib/docs/2011/june/tradoc_148003.pdf
- (25) The interested parties must indicate their name, address, telephone and a valid email address and they should ensure that the provided email address is a functioning official business email, which is checked on a daily basis. Once contact details are provided, the Commission will communicate with interested parties by TRON.tdi or email only, unless they explicitly request to receive all documents from the Commission by another means of communication or unless the nature of the document to be sent requires the use of a registered mail. For further rules and information concerning correspondence with the Commission including principles that apply to submissions via TRON.tdi and by email, interested parties should consult the communication instructions with interested parties referred to above.

6. POSSIBILITY TO COMMENT ON OTHER PARTIES' SUBMISSIONS

- (26) In order to guarantee the rights of defence, interested parties should have the possibility to comment on information submitted by other interested parties. When doing so, interested parties may only address issues raised in the other interested parties' submissions and may not raise new issues. Comments on the information provided by other interested parties in reaction to the disclosure of the definitive findings should be submitted within 5 days from the deadline to comment on the definitive findings, unless otherwise specified. If there is an additional final disclosure,

comments filed by other interested parties in reaction to this further disclosure should be made within 1 day from the deadline to comment on this further disclosure, unless otherwise specified. The outlined timeframe is without prejudice to the Commission's right to request additional information from interested parties in duly justified cases.

7. EXTENSION TO TIME LIMITS SPECIFIED IN THIS REGULATION

- (27) Any extension to the time limits provided for in this Regulation should only be requested in exceptional circumstances and will only be granted if duly justified upon good cause being shown.
- (28) In any event, any extension to the deadline to reply to questionnaires will be limited normally to 3 days, and as a rule will not exceed 7 days.
- (29) Regarding time limits for the submission of other information specified in the Regulation, extensions will be limited to 3 days unless exceptional circumstances are demonstrated.

8. NON-COOPERATION

- (30) In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 18 of the basic anti-dumping Regulation.
- (31) Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.
- (32) If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic anti-dumping Regulation, the result may be less favourable to that party than if it had cooperated.
- (33) Failure to give a computerised response will not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

9. HEARING OFFICER

- (34) Interested parties may request the intervention of the Hearing Officer in trade proceedings. The Hearing Officer reviews requests for access to the file, disputes regarding the confidentiality of documents, requests for extension of time limits and any other request concerning the rights of defence of interested parties and third parties as may arise during the proceeding.
- (35) The Hearing Officer may organise hearings and mediate between the interested party/ies and the Commission services to ensure that the interested parties' rights of defence are being fully exercised. A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. The Hearing Officer will examine the reasons for the requests. These hearings should only take place if the issues have not been settled with the Commission services in due course.
- (36) Any request must be submitted in good time and expeditiously so as not to jeopardise the orderly conduct of proceedings. To that effect, interested parties should request the intervention of the Hearing Officer at the earliest possible time following the occurrence of the event justifying such intervention. The Hearing Officer will examine the reasons for requests for interventions, the nature of the issues raised and the impact of those issues on the rights of defence, having due regard to the interests of good administration and the timely completion of the investigation.
- (37) For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: <http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/>

10. SCHEDULE OF THE INVESTIGATION

- (38) The investigation will be concluded, pursuant to Article 11(5) of the basic anti-dumping Regulation, within nine months of the date of the entry into force of this Regulation.

11. PROCESSING OF PERSONAL DATA

- (39) Any personal data collected in this investigation will be treated in accordance with Regulation (EU) 2018/1725 of the European Parliament and of the Council ⁽¹⁾.
- (40) A data protection notice that informs all individuals of the processing of personal data in the framework of Commission's trade defence activities is available on DG TRADE's website: <http://ec.europa.eu/trade/policy/accessing-markets/trade-defence/>

COMMISSION IMPLEMENTING REGULATION (EU) 2022/652**of 20 April 2022****concerning the authorisation of bitter orange extract as a feed additive for certain animal species****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such an authorisation. Article 10(2) of that Regulation provides for the re-evaluation of additives authorised pursuant to Council Directive 70/524/EEC ⁽²⁾.
- (2) Bitter orange extract was authorised without a time limit in accordance with Directive 70/524/EEC as a feed additive for all animal species. That additive was subsequently entered in the Register of feed additives as an existing product, in accordance with Article 10(1)(b) of Regulation (EC) No 1831/2003.
- (3) The applicant requested the additive to be classified in the additive category 'sensory additives' and in the functional group 'flavouring compounds'. That application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (4) In accordance with Article 10(2) of Regulation (EC) No 1831/2003 in conjunction with Article 7 thereof, an application was submitted for the re-evaluation of bitter orange extract for all animal species.
- (5) The applicant requested bitter orange extract to be authorised also for use in water for drinking. However, Regulation (EC) No 1831/2003 does not allow the authorisation of flavouring compounds for use in water for drinking. Therefore, the use of bitter orange extract in water for drinking should not be allowed.
- (6) The European Food Safety Authority ('the Authority') concluded in its opinion of 23 June 2021 ⁽³⁾ that, under the proposed conditions of use, bitter orange extract does not have adverse effects on animal health, consumer health or the environment. The Authority also concluded that bitter orange extract should be considered as an irritant to skin and eyes, and as a skin and respiratory sensitiser. Therefore, the Commission considers that appropriate protective measures should be taken to prevent adverse effects on human health, in particular as regards the users of the additive.
- (7) The Authority concluded, that bitter orange extract is recognised to flavour food and its function in feed would be essentially the same as that in food, therefore, no further demonstration of efficacy is considered necessary. It also verified the report on the methods of analysis of the feed additive in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.

⁽¹⁾ OJ L 268, 18.10.2003, p. 29.

⁽²⁾ Council Directive 70/524/EEC of 23 November 1970 concerning additives in feedingstuffs (OJ L 270, 14.12.1970, p. 1).

⁽³⁾ EFSA Journal 2021;19(7):6709.

- (8) The assessment of bitter orange extract shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of that substance should be authorised as specified in the Annex to this Regulation.
- (9) Certain conditions should be provided for to allow better control. In particular, a recommended content should be indicated on the label of the feed additive. Where such content is exceeded, certain information should be indicated on the label of premixtures.
- (10) The fact that bitter orange extract is not authorised for use as a flavouring in water for drinking does not preclude its use in compound feed which is administered via water.
- (11) Since safety reasons do not require the immediate application of the modifications to the conditions of authorisation of the substance concerned, it is appropriate to allow a transitional period for interested parties to prepare themselves to meet the new requirements resulting from the authorisation.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Authorisation

The substance specified in the Annex, belonging to the additive category 'sensory additives' and to the functional group 'flavouring compounds', is authorised as an additive in animal nutrition, subject to the conditions laid down in that Annex.

Article 2

Transitional measures

1. The substance specified in the Annex and premixtures containing this substance, which are produced and labelled before 11 November 2022 in accordance with the rules applicable before 11 May 2022 may continue to be placed on the market and used until the existing stocks are exhausted.
2. Compound feed and feed materials containing the substance as specified in the Annex which are produced and labelled before 11 May 2023 in accordance with the rules applicable before 11 May 2022 may continue to be placed on the market and used until the existing stocks are exhausted if they are intended for food-producing animals.
3. Compound feed and feed materials containing the substance as specified in the Annex which are produced and labelled before 11 May 2024 in accordance with the rules applicable before 11 May 2022 may continue to be placed on the market and used until the existing stocks are exhausted if they are intended for non-food-producing animals.

Article 3

COMMISSION IMPLEMENTING REGULATION (EU) 2022/653**of 20 April 2022****concerning the authorisation of a preparation of the leaves extract of *Melissa officinalis* L. as a feed additive for all animal species****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such an authorisation. Article 10(2) of that Regulation provides for the re-evaluation of additives authorised pursuant to Council Directive 70/524/EEC ⁽²⁾.
- (2) The leaves extract of *Melissa officinalis* L. was authorised without a time limit in accordance with Directive 70/524/EEC as a feed additive for all animal species. That additive was subsequently entered in the Register of feed additives as an existing product, in accordance with Article 10(1)(b) of Regulation (EC) No 1831/2003.
- (3) In accordance with Article 10(2) of Regulation (EC) No 1831/2003 in conjunction with Article 7 thereof, an application was submitted for the re-evaluation of a preparation of the leaves extract of *Melissa officinalis* L. for all animal species.
- (4) The applicant requested the additive to be classified in the additive category 'sensory additives' and in the functional group 'flavouring compounds'. That application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (5) The applicant requested the preparation of the leaves extract of *Melissa officinalis* L. to be authorised also for use in water for drinking. However, Regulation (EC) No 1831/2003 does not allow the authorisation of flavouring compounds for use in water for drinking. Therefore, the use of the preparation of the leaves extract of *Melissa officinalis* L. in water for drinking should not be allowed.
- (6) The European Food Safety Authority ('the Authority') concluded in its opinions of 28 January 2020 ⁽³⁾ and 29 September 2021 ⁽⁴⁾ that, under the proposed conditions of use, the preparation of the leaves extract of *Melissa officinalis* L. does not have adverse effects on animal health, consumer health or the environment. The Authority also concluded that the exposure of users to dusts from the additive is not of concern. However, no data was provided on irritant properties for eyes or skin, thus no conclusion could be drawn on these aspects. Due to the nature of the additive, it may be assumed to be potentially both a skin and respiratory sensitiser. Therefore, the Commission considers that appropriate protective measures should be taken to prevent adverse effects on human health, in particular as regards the users of the additive.
- (7) The Authority concluded, that the preparation of the leaves extract of *Melissa officinalis* L. is recognised to flavour food and its function in feed would be essentially the same as that in food, therefore, no further demonstration of efficacy is considered necessary. It also verified the report on the methods of analysis of the feed additive in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.

⁽⁴⁾ EFSA Journal 2021;19(10):6904.

- (8) The assessment of the preparation of the leaves extract of *Melissa officinalis* L. shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of that preparation should be authorised as specified in the Annex to this Regulation.
- (9) Certain conditions should be provided for to allow better control. In particular, a recommended content should be indicated on the label of the feed additive. Where such content is exceeded, certain information should be indicated on the label of premixtures.
- (10) The fact that the preparation of the leaves extract of *Melissa officinalis* L. is not authorised for use as a flavouring in water for drinking does not preclude its use in compound feed which is administered via water.
- (11) Since safety reasons do not require the immediate application of the modifications to the conditions of authorisation of the preparation concerned, it is appropriate to allow a transitional period for interested parties to prepare themselves to meet the new requirements resulting from the authorisation.

2. COMMISSION IMPLEMENTING REGULATION (EU) 2022/654
of 20 April 2022
concerning the authorisation of butylated hydroxyanisole as a feed additive for cats
(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition ⁽¹⁾, and in particular Articles 9(2) and 10(5) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation. In particular, Article 10(2), in conjunction with Article 10(7) of that Regulation, provides for specific procedures for the re-evaluation of additives authorised pursuant to Council Directive 70/524/EEC ⁽²⁾ and Council Directive 82/471/EEC ⁽³⁾.
- (2) Butylated hydroxyanisole was authorised without a time limit as a feed additive for all animal species in accordance with Council Directive 70/524/EEC. This additive has been subsequently entered in the Register of feed additives as an existing product, in accordance with Article 10(1) of Regulation (EC) No 1831/2003.
- (3) In accordance with Article 10(2) of Regulation (EC) No 1831/2003 in conjunction with Article 7 thereof, an application was submitted for the re-evaluation of butylated hydroxyanisole as a feed additive for all animal species. The applicant has later withdrawn the application with regard to cats, due to the adoption by EFSA on 12 November 2019 ⁽⁴⁾ of a non-favourable opinion concerning the safety of the additive for use for cats. The re-evaluation of butylated hydroxyanisole resulted in the authorisation thereof as a feed additive for all animal species except cats, by Commission Implementing Regulation (EU) 2020/1399 ⁽⁵⁾.
- (4) Article 10(5) of Regulation (EC) No 1831/2003 requires the adoption of a Regulation withdrawing from the market feed additives for which no application in accordance with Article 10(2) and (7) of that Regulation was submitted before the deadline set in those provisions, or for which an application was submitted but subsequently withdrawn.
- (5) Since the applicant has withdrawn the application with regard to cats, butylated hydroxyanisole (E 320) should be withdrawn from the market as a feed additive for cats.
- (6) In accordance with Article 7 of Regulation (EC) No 1831/2003, a new application was submitted for the authorisation of butylated hydroxyanisole as a feed additive for cats, to be classified in the category 'technological additives' and in the functional group 'antioxidants'. That application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.

⁽¹⁾ OJ L 268, 18.10.2003, p. 29.

⁽²⁾ Council Directive 70/524/EEC of 23 November 1970 concerning additives in feedingstuffs (OJ L 270, 14.12.1970, p. 1).

⁽³⁾ Council Directive 82/471/EEC of 30 June 1982 concerning certain products used in animal nutrition (OJ L 213, 21.7.1982, p. 8).

⁽⁴⁾ EFSA Journal 2019;17(12):5913.

⁽⁵⁾ Commission Implementing Regulation (EU) 2020/1399 of 5 October 2020 concerning the authorisation of butylated hydroxyanisole as a feed additive for all animal species except cats (OJ L 324, 6.10.2020, p. 29).

- (7) The European Food Safety Authority ('the Authority') concluded in its opinion of 23 June 2021 ⁽⁶⁾ that, under the proposed conditions of use, butylated hydroxyanisole does not have an adverse effect on animal health, consumer safety or the environment. It also concluded that the additive should be considered as a skin and eye irritant and a potential skin sensitiser. Therefore, the Commission considers that appropriate protective measures should be taken to prevent adverse effects on human health, in particular as regards the users of the additive. The Authority also concluded that since butylated hydroxyanisole is authorised as an antioxidant for use in food at comparable use levels, no studies are required to demonstrate the efficacy of butylated hydroxyanisole as an antioxidant in feed for cats. It also verified the report on the methods of analysis of the feed additive in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.
- (8) The assessment of butylated hydroxyanisole shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of butylated hydroxyanisole should be authorised as specified in the Annex to this Regulation.
- (9) As butylated hydroxyanisole as a feed additive for cats is ready to be newly authorised simultaneously to the adoption of a measure requiring a withdrawal from the market of the additive under the previous conditions of authorisation in accordance with Article 10(5) of Regulation (EC) No 1831/2003, such withdrawal from the market should not prevent the effective application of the new authorisation. The terms of the new authorisation differ from the previous ones in particular in that they provide for a more specific description of the additive and for the related methods of analysis, a new identification number of the additive and other provisions related to the directions of use and users' safety for the additive and premixture concerned.
- (10) Since there is no safety reason requiring the immediate withdrawal from the market of butylated hydroxyanisole as a feed additive for cats under the previous conditions of authorisation, it is appropriate to allow a limited transitional period for interested parties, within which existing stocks of butylated hydroxyanisole as a feed additive for cats, premixtures, feed materials and compound feed produced with that additive may be used up, in order to meet the new requirements resulting from the authorisation.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Authorisation

The substance specified in the Annex, belonging to the additive category 'technological additives' and to the functional group 'antioxidants', is authorised as an additive in animal nutrition, subject to the conditions laid down in that Annex.

Article 2

Withdrawal from the market

Butylated hydroxyanisole (E 320) shall be withdrawn from the market as a feed additive for cats to the extent that it does not meet the conditions laid down in the authorisation referred to in Article 1.

1. Butylated hydroxyanisole as a feed additive for cats and premixtures containing it, which are produced and labelled before 11 November 2022 in accordance with the rules applicable before 11 May 2022 may continue to be placed on the market and used until the existing stocks are exhausted.
2. Compound feed and feed materials intended for cats containing butylated hydroxyanisole, which are produced and labelled before 11 May 2023 in accordance with the rules applicable before 11 May 2022 may continue to be placed on the market and used until the existing stocks are exhausted.

Having regard to the proposal from the European Commission,

Whereas:

- (1) The Comprehensive and Enhanced Partnership Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and the Republic of Armenia, of the other part ⁽¹⁾ ('the Agreement') was signed in Brussels on 24 November 2017 and has been applied provisionally since 1 June 2018.

- (11) It is in the interest of the Union that the positions expressed on the Union's behalf in the TCCV be established according to principles, criteria and orientations governing the valuation of imported goods for customs purposes, and that those to be expressed in the TCRO be established according to principles, criteria and orientations governing the determination of the origin of goods. It is also in the interest of the Union that such positions be established in an expeditious manner to allow the Union to exercise its rights in the TCCV and in the TCRO.
- (12) In view of the highly technical nature of matters relating to the valuation of imported goods for customs purposes and of matters relating to the determination of the origin of goods, the volume of questions dealt with in TCCV and TCRO meetings taking place each year, the short time available to consider documents issued by the World Customs Organization (WCO) Secretariat and members of the TCCV or of the TCRO in preparation of TCCV or TCRO meetings and the consequent need for the position of the Union to take into account and to effectively act upon the new information presented before or during such meetings, necessary steps should be established, in line with the principle of sincere cooperation among the Union institutions enshrined in Article 13(2) of the Treaty on European Union (TEU), for the specification of the position of the Union.
- (13) In view of the recurrent late availability of working documents before TCCV and TCRO meetings, and in order to preserve the Union's rights and interests within those committees, the Commission should strive to call on the WCO Secretariat to ensure the availability of working documents in conformity with the respective rules of procedure of the TCCV and of the TCRO, so that such documents are dispatched at least 30 days before the opening of the relevant session.
- (14) To ensure that the Council is able to assess and, where appropriate, revise the policy in this Decision on a regular basis, and in the spirit of the sincere cooperation among the Union institutions enshrined in Article 13(2) of the TEU, the validity of this Decision should be limited in time,

HAS ADOPTED THIS DECISION:

3. ORIENTATIONS

The Union shall, where appropriate:

- (a) endeavour to support the adoption, by the TCCV and the TCRO, of advisory opinions, commentaries, explanatory notes, case studies, studies, information and advice, or similar acts, concerning the valuation of imported goods for customs purposes or the determination of the origin of goods, to ensure, at the technical level, uniformity in interpretation and application of the CVA and the ARO;
- (b) propose and prepare instruments as referred to in point (a).

II. Specification of the position to be taken on behalf of the Union within the Technical Committees on Customs Valuation and on Rules of Origin, established under the auspices of the WCO, with regard to the adoption of advisory opinions, commentaries, explanatory notes, case studies, studies and similar acts concerning the valuation of imported goods for customs purposes under the CVA, and the adoption of advisory opinions, information and advice, and similar acts, concerning the determination of the origin of goods under the ARO
