REGULATIONS

COMMISSION REGULATION (EU) 2022/1343

of 29 July 2022

amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for acequinocyl, chlorantraniliprole and emamectin in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For acequinocyl, chlorantraniliprole and emamectin, maximum residue levels (MRLs) were set in Part A of Annex III to Regulation (EC) No 396/2005.
- (2) For acequinocyl, the European Food Safety Authority ('the Authority') submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽²⁾. For some products, the Authority recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. The Authority further concluded that concerning the MRLs for grapefruits, oranges, lemons, limes, mandarins, hazelnuts/cobnuts, apples, pears, quinces, medlars, loquats/Japanese medlars, table and wine grapes, tomatoes, aubergines/eggplants, hops, swine (muscle, fat, liver, kidney), bovine (muscle, fat, liver, kidney, milk), equine (muscle, fat, liver, kidney, milk) some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (3) For chlorantraniliprole, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽³⁾. It recommended lowering the MRLs for almonds, Brazil nuts, cashew nuts, chestnuts, coconuts, hazelnuts/cobnuts, macadamias, pecans, pine nut kernels, pistachios, walnuts, apples, pears, quinces, medlars, loquats/Japanese medlars, sweet corn, cauliflowers, celeries, coffee beans and muscle (swine, bovine, sheep, goat and equine). For other products, it recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

⁽²⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for acequinocyl according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2020; 18(1): 5983.

⁽³⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for chlorantraniliprole according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2020; 18(9): 6235.

or the level identified by the Authority. For kales, the Authority recommended to keep the existing MRL of 20 mg/kg. However, the Member States requested to raise the MRL for kales to 40 mg/kg, which is the codex maximum residue limit (CXL) for radish leaves, because radish leaves are currently classified in Part B of Annex II to Regulation (EC) No 396/2005 under the subgroup 'Kales'. In 2015 when the CXL for radish leaves was introduced in the Union legislation, radish leaves were not explicitly mentioned in the Union legislation. Hence, they were considered to belong to the subgroup 'Baby leaf crops (including brassica species)' and not to the subgroup 'Kales'. The Member States requested to follow the current classification. The Authority further concluded that concerning the MRLs for sweet peppers/bell peppers, melons, watermelons, grape leaves and similar species, peanuts/groundnuts, sunflower seeds and rapeseeds/canola seeds some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.

- (4) For emamectin, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽⁴⁾. It proposed to change the residue definition to emamectin B1a and its salts, expressed as emamectin B1a (free base). It recommended lowering the MRLs for plums, potatoes, cucumbers, gherkins, courgettes, melons, watermelons, broccoli, cauliflowers, Brussels sprouts, head cabbages, lamb's lettuces/corn salads, lettuces, cresses and other sprouts and shoots, land cresses, Roman rocket/ rucola, red mustards, baby leaf crops (including brassica species), chervil, chives, celery leaves, parsley, sage, rosemary, thyme, basil and edible flowers, laurel/bay leaves, tarragon, peas (without pods) and globe artichokes. For other products, the Authority recommended raising or keeping the existing MRLs. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. The Authority further concluded that concerning the MRLs for oranges, lemons, mandarins, table and wine grapes, pumpkins, escarole/broad-leaved endives, cotton seeds, swine (muscle, fat, liver, kidney), bovine (muscle, fat, liver, kidney), sheep (muscle, fat, liver, kidney), goat (muscle, fat, liver, kidney), equine (muscle, fat, liver, kidney), other farmed terrestrial animals (muscle, fat, liver, kidney) and milk (cattle, sheep, goat, horse) some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation. The Authority also concluded that concerning the MRL for apricots some information was not available. An application pursuant to Article 6(1) of Regulation (EC) No 396/2005 requesting a modification of the existing MRLs was submitted among other products also for apricots. The Authority in its opinion ⁽⁵⁾ concluded that all requirements with respect to completeness of data submission were met, and that the modification to the MRL for apricots requested by the applicant was acceptable. This modification has been addressed in the Commission Regulation (EU) 2022/476 ⁽⁶⁾ and therefore the additional information for apricots is not needed.
- (5) Existing CXLs were taken into account in the reasoned opinions of the Authority. CXLs, which are safe for consumers in the Union, were considered for MRL setting.
- (6) As regards products on which the use of the plant protection product concerned is not authorised in the Union, and for which no import tolerances or CXLs exist, MRLs should be set at the specific limit of determination or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (7) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. As regards several substances, those laboratories concluded that for certain commodities technical development requires the setting of specific limits of determination.

⁽⁴⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for emamectin according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2019;17(8):5803.

⁽⁵⁾ Reasoned opinion on the modification of the existing maximum residue levels for emamectin in various crops. *EFSA Journal* 2021;19(8):6824.

⁽⁶⁾ Commission Regulation (EU) 2022/476 of 24 March 2022 amending Annexes II, III and IV to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for acetic acid, azoxystrobin, benzovindiflupyr, cyantraniliprole, cyflufenamid, emamectin, flutolanil, lime sulphur, maltodextrin and proquinazid in or on certain products (OJ L 98, 25.3.2022, p. 9).

- (8) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (9) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (10) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (11) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (12) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (13) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced in the Union or imported into the Union before 22 February 2023.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 22 February 2023.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 29 July 2022.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

(1) in Annex II, the following columns for acequinocyl, chlorantraniliprole and emamectin are added:

'Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply ^(*)	Acequinocyl (F)	Chlorantraniliprole (F)	Emamectin B1a and its salts, expressed as emamectin B1a (free base) (R) (F)

- (2) in Part A of Annex III, the columns for acequinocyl, chlorantraniliprole and emamectin are deleted.
-

COMMISSION IMPLEMENTING REGULATION (EU) 2022/1344**of 1 August 2022****laying down the technical specifications of data requirements for the topic 'ICT usage and e-commerce' for the reference year 2023, pursuant to Regulation (EU) 2019/2152 of the European Parliament and of the Council****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2019/2152 of the European Parliament and of the Council of 27 November 2019 on European business statistics, repealing 10 legal acts in the field of business statistics ⁽¹⁾, and in particular Article 7(1) and Article 17(6) thereof,

Whereas:

- (1) In order to produce pursuant to Annex II to Regulation (EU) 2019/2152 data on the topic ICT usage and e-commerce, listed in Annex I to that Regulation, based on comparable and harmonised data, and to ensure the correct implementation of the topic ICT usage and e-commerce by the Member States, the Commission is to specify the variables, measurement units, statistical population, classifications and breakdowns, as well as data transmission deadlines for that data.
- (2) Pursuant to point (a) of Article 17(4) of Regulation (EU) 2019/2152 Member States are required to provide quality and metadata reports for data transmitted under that Regulation. It is therefore necessary to establish the deadlines for submission of those reports.
- (3) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee,

HAS ADOPTED THIS REGULATION:

Article 1

For the topic ICT usage and e-commerce, as referred to in Annex I to Regulation (EU) 2019/2152, Member States shall transmit to the Commission (Eurostat) the data for reference year 2023 in accordance with the Annex to this Regulation.

Article 2

1. The annual metadata report for reference year 2023 for the topic ICT usage and e-commerce shall be transmitted to the Commission (Eurostat) by 31 May 2023.
2. The annual quality report for the topic ICT usage and e-commerce for reference year 2023 shall be transmitted to the Commission (Eurostat) by 5 November 2023.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

⁽¹⁾ OJ L 327, 17.12.2019, p. 1.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 1 August 2022.

For the Commission
The President
Ursula VON DER LEYEN

Technical specifications of data requirements for the topic ICT usage and e-commerce

Mandatory/ optional	Scope (filter)	Variable
Mandatory variables	(i) for all enterprises:	(1) main economic activity of the enterprise, in the previous calendar year (2) average number of employees and self-employed persons, in the previous calendar year (3) total value of turnover (in monetary terms, excluding VAT), in the previous calendar year (4) number of employees and self-employed persons or percentage of the total number of employees and self-employed persons who have access to the internet for business purposes
	(ii) for enterprises with employees and self-employed persons who have access to the internet for business purposes:	(5) use of any type of fixed connection to the internet (6) having a website (7) having a mobile app for clients (such as for loyalty program, e-commerce, customer support) (8) use of social networks (9) use of enterprise's blogs or microblogs (10) use of multimedia content sharing websites or apps (11) having web sales of goods or services via the enterprise's websites or apps (including extranets), in the previous calendar year (12) having web sales of goods or services via e-commerce marketplace websites or apps used by several enterprises for trading goods or services, in the previous calendar year (13) having EDI-type sales (receipt of orders placed via Electronic Data Interchange messages) of goods or services, in the previous calendar year (14) use of Enterprise Resource Planning (ERP) software to manage resources by sharing information among different functional areas such as accounting, planning, production, marketing (15) use of Customer Relationship Management (CRM) software for managing information about customers such as relations or transactions (16) use of Business Intelligence (BI) software for accessing and analysing data, presenting analytical findings to provide detailed insights for decision-making and strategic planning (17) sharing data electronically with suppliers or customers within the supply chain, for example via websites or apps, EDI-systems, real-time sensors or tracking (18) performing data analytics (from internal and external data sources) by own employees (19) having data analytics performed by an external enterprise or organisation for the enterprise (including data analytics based on data from internal and external sources) (20) buying cloud computing services used over the internet

Mandatory/ optional	Scope (filter)	Variable
		(21) use of Artificial Intelligence technologies performing analysis of written language (such as text mining) (22) use of Artificial Intelligence technologies converting spoken language into machine-readable format (speech recognition) (23) use of Artificial Intelligence technologies generating written or spoken language (natural language generation, speech synthesis) (24) use of Artificial Intelligence technologies identifying objects or persons based on images or videos (image recognition, image processing) (25) use of machine learning (such as deep learning) for data analysis (26) use of Artificial Intelligence technologies automating different workflows or assisting in decision-making (such as Artificial Intelligence based software robotic process automation) (27) use of Artificial Intelligence technologies enabling physical movement of machines via autonomous decisions based on observation of surroundings (autonomous robots, self-driving vehicles, autonomous drones) (28) invoices sent in electronic form, in a standard structure suitable for automated processing (e-invoices), excluding the transmission of PDF files, in the previous calendar year (29) invoices sent in electronic form not suitable for automated processing, including the transmission of PDF files, in the previous calendar year (30) invoices sent in paper form, in the previous calendar year
	(iii) for enterprises using any type of fixed internet connection:	(31) maximum contracted download speed of the fastest fixed internet connection in the ranges: [0 Mbit/s, < 30 Mbit/s], [30 Mbit/s, < 100 Mbit/s], [100 Mbit/s, < 500 Mbit/s], [500 Mbit/s, < 1 Gbit/s], [$\geq$ 1 Gbit/s]
	(iv) for enterprises having a website:	(32) enterprise's website has a description of goods or services, price information (33) enterprise's website has online ordering or reservation or booking (such as shopping cart) (34) enterprise's website has a possibility for visitors to customise or design online goods or services (35) enterprise's website has tracking or status of orders placed (36) enterprise's website has personalised content on the website for regular/recurrent visitors (37) enterprise's website has a chat service for customer support (a chatbot, virtual agent or a person replying to customers) (38) enterprise's website has advertisement of open job positions or online job application (39) enterprise's website has content available in at least in two languages

Mandatory/ optional	Scope (filter)	Variable
	(v) for enterprises which had web sales, in the previous calendar year:	(40) value of web sales of goods or services, or percentage of total turnover generated by web sales of goods and services, in the previous calendar year (41) percentage of value of web sales generated by web sales to private consumers (Business to Consumers: B2C), in the previous calendar year (42) percentage of value of web sales generated by web sales to other enterprises (Business to Business: B2B) and to public sector (Business to Government: B2G), in the previous calendar year
	(vi) for enterprises which had web sales of goods and services via the enterprise's websites or apps and via e-commerce marketplace websites or apps used by several enterprises for trading goods or services, in the previous calendar year:	(43) percentage of value of web sales of goods or services generated by sales via the enterprise's websites or apps, in the previous calendar year (44) percentage of value of web sales of goods or services generated by sales via e-commerce marketplace websites or apps used by several enterprises for trading goods or services, in the previous calendar year
	(vii) for enterprises which had EDI-type sales of goods and services, in the previous calendar year:	(45) value of EDI-type sales of goods or services or percentage of the total turnover generated by EDI-type sales of goods or services, in the previous calendar year
	(viii) for enterprises performing data analytics (from internal and external data sources) by own employees:	(46) performing data analytics on data from transaction records such as sale details, payments records (for example from ERP, enterprise's webshop) (47) performing data analytics on data about customers such as customer purchasing information, location, preferences, customer reviews, searches (for example from CRM system or enterprise's website) (48) performing data analytics on data from social media, including from enterprise's own social media profiles (such as personal information, comments, video, audio, images) (49) performing data analytics on web data (such as search engine trends, web scraping data) (50) performing data analytics on location data from the use of portable devices or vehicles (such as portable devices using mobile telephone networks, wireless connections or GPS) (51) performing data analytics on data from smart devices or sensors (such as Machine to Machine (M2M) communications, sensors installed in machinery, manufacturing sensors, smart meters, Radio frequency identification (RFID) tags) (52) performing data analytics on government authorities' open data (such as enterprise public records, weather conditions, topographic conditions, transport data, housing data, buildings data) (53) performing data analytics on satellite data (such as satellite imagery, navigation signals, position signals), including data acquired from enterprise's own infrastructure or from externally provided service (for example AWS Ground Station) and excluding location data from the use of portable devices or vehicles using GPS)

Mandatory/ optional	Scope (filter)	Variable
	(ix) for enterprises buying cloud computing services used over the internet:	(54) buying e-mail as a cloud computing service (55) buying office software (such as word processors or spreadsheets) as a cloud computing service (56) buying finance or accounting software applications as a cloud computing service (57) buying Enterprise Resource Planning (ERP) software applications as a cloud computing service (58) buying Customer Relationship Management (CRM) software applications as a cloud computing service (59) buying security software applications (such as antivirus program, network access control) as cloud computing service (60) buying hosting the enterprise's database(s) as a cloud computing service (61) buying storage of files as a cloud computing service (62) buying computing power to run the enterprise's own software as a cloud computing service (63) buying computing platform providing a hosted environment for application development, testing or deployment (such as reusable software modules, application programming interfaces (APIs)) as a cloud computing service
	(x) for enterprises using Artificial Intelligence technologies, referring specifically to mandatory variables (21) to (27), purpose of use:	(64) use of Artificial Intelligence technologies for marketing or sales (such as customer profiling, price optimisation, personalised marketing offers, market analysis based on machine learning, chatbots based on natural language processing for customer support, autonomous robots for orders processing) (65) use of Artificial Intelligence technologies for production or service processes (such as predictive maintenance or process optimization based on machine learning, tools to classify products or find defects in products based on computer vision, autonomous drones for production surveillance, security or inspection tasks, assembly works performed by autonomous robots) (66) use of Artificial Intelligence technologies for organisation of business administration processes or management (such as business virtual assistants based on machine learning and/or natural language processing (for example for document drafting), data analysis or strategic decision making based on machine learning (for example risk assessment), planning or business forecasting based on machine learning, human resources management based on machine learning or natural language processing (for example candidates pre-selection screening, employee profiling or performance analysis) (67) use of Artificial Intelligence technologies for logistics (such as autonomous robots for pick-and-pack solutions in warehouses for parcel shipping, tracing, distribution or sorting, route optimization based on machine learning) (68) use of Artificial Intelligence technologies for ICT security (such as face recognition based on computer vision for authentication of ICT users, detection and prevention of cyber-attacks based on machine learning)

Mandatory/ optional	Scope (filter)	Variable
		(69) use of Artificial Intelligence technologies for accounting, controlling or finance management (such as machine learning to analyse data that helps to make financial decisions, invoice processing based on machine learning, machine learning or natural language processing for bookkeeping documents) (70) use of Artificial Intelligence technologies for research and development (R&D) or innovation activity, excluding research on AI (such as analysis of data for conducting research, solving research problems, developing a new or significantly improved product/service based on machine learning)
Optional variables	(i) for enterprises with employees and self-employed persons who have access to the internet for business purposes:	(1) pay to advertise on the internet (such as adverts on search engines, on social media, on other websites or apps) (2) selling (access to) any of the enterprise's own data (such as data about the enterprise's customers' preferences, data from the enterprise's smart devices or sensors), in the previous calendar year (3) purchasing (access to) any data (such as data about other enterprise's customers' preferences, data from other enterprise's smart devices or sensors), in the previous calendar year
	(ii) for enterprises using social networks or enterprise's blogs or microblogs or multimedia content sharing websites or apps:	(4) use of social media to develop the enterprise's image or market products (such as advertising or launching products) (5) use of social media to obtain or respond to customer opinions, reviews, questions (6) use of social media to involve customers in development or innovation of goods or services (7) use of social media to collaborate with business partners (such as suppliers) or other organisations (such as public authorities, non-governmental organisations) (8) use of social media to recruit employees (9) use of social media to exchange views, opinions or knowledge within the enterprise
	(iii) for enterprises paying to advertise on the internet:	(10) use of targeted advertising based on content or keywords searched by internet users (11) use of targeted advertising based on the tracking of internet users' past activities or profile (12) use of targeted advertising based on the geolocation of internet users (13) use of any other method of targeted advertising on the internet than the ones specified in optional variables (10), (11) or (12)
	(iv) for enterprises using Artificial Intelligence technologies, referring specifically to mandatory variables (21) to (27), way of acquisition:	(14) developed by own employees (including those employed in parent or affiliate enterprise) (15) commercial software or systems were modified by own employees (including those employed in parent or affiliate enterprise) (16) open-source software or systems were modified by own employees (including those employed in parent or affiliate enterprise)

Mandatory/ optional	Scope (filter)	Variable
		(17) commercial software or systems ready to use were purchased (including examples where it was already incorporated in a purchased item or system) (18) external providers were contracted to develop or modify them
	(v) for enterprises which did not use any Artificial Intelligence technologies, referring specifically to mandatory variables (21) to (27):	(19) consideration of using any of Artificial Intelligence technologies, referring specifically to mandatory variables (21) to (27)
	(vi) for enterprises which did not use but considered to use Artificial Intelligence technologies, referring specifically to mandatory variables (21) to (27):	(20) Artificial Intelligence technologies not used because the costs seem too high (21) Artificial Intelligence technologies not used because there is a lack of relevant expertise in the enterprise (22) Artificial Intelligence technologies not used because of incompatibility with existing equipment, software or systems (23) Artificial Intelligence technologies not used because of difficulties with availability or quality of the necessary data (24) Artificial Intelligence technologies not used because of concerns regarding violation of data protection and privacy (25) Artificial Intelligence technologies not used because of lack of clarity about the legal consequences (such as liability in case of damage caused by the use of Artificial Intelligence) (26) Artificial Intelligence technologies not used because of ethical considerations (27) Artificial Intelligence technologies not used because they are not useful for the enterprise
	(vii) for enterprises having sent invoices in electronic form, in a standard structure suitable for automated processing (e-invoices), excluding the transmission of PDF files, in the previous calendar year:	(28) percentage of e-invoices out of all invoices sent, or percentage of e-invoices out of all invoices sent in the following ranges: [0,<10], [10,<25], [25,<50], [50,<75], [>=75], in the previous calendar year

COMMISSION IMPLEMENTING REGULATION (EU) 2022/1345**of 1 August 2022****laying down rules for the application of Regulation (EU) 2016/429 of the European Parliament and of the Council with regard to registration and approval of establishments keeping terrestrial animals and collecting, producing, processing or storing germinal products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Article 86(1) and (2) and Article 96(3) thereof,

Whereas:

- (1) Regulation (EU) 2016/429 lays down rules for animal diseases that are transmissible to animals or humans, including rules on the registration and approval by the competent authority of establishments keeping terrestrial animals and collecting, producing, processing or storing germinal products.
- (2) Commission Delegated Regulation (EU) 2019/2035 ⁽²⁾ supplements Regulation (EU) 2016/429 by laying down detailed rules concerning the registers to be kept by the competent authority of registered and approved establishments keeping terrestrial animals and collecting, producing, processing or storing germinal products registered with it or approved by it.
- (3) More particularly, Article 18, point (d), of Delegated Regulation (EU) 2019/2035 provides that the competent authority is to include in its register of establishments of kept terrestrial animals and of hatcheries registered with it the address and geographical coordinates (latitude and longitude) of the location of the establishment. Furthermore, Article 18, point (h), of Delegated Regulation (EU) 2019/2035 provides that the competent authority is to include in that register information about the period during which animals or hatching eggs are kept on the establishment if it is not continuously occupied, including seasonal occupation or occupation during particular events. While Article 84(1), point (b), of Regulation (EU) 2016/429 provides that operators of establishments keeping terrestrial animals or collecting, producing, processing or storing germinal products are to provide the competent authority with certain information in order for their establishments to be registered, that information does not include all the detailed information required under Article 18, points (d) and (h), of Delegated Regulation (EU) 2019/2035. It is therefore appropriate to lay down a requirement for the operators of establishments of kept terrestrial animals and of hatcheries to provide such detailed information to the competent authority for the purpose of registration.
- (4) Similarly, Article 21, points (d) and (h), of Delegated Regulation (EU) 2019/2035 also provide that the competent authority is to include in its register of establishments approved by it the same detailed information required by Article 18, points (d) and (h), of that Delegated Regulation. While Article 96(1) of Regulation (EU) 2016/429 requires operators to provide the competent authority with certain information for the purposes of their application for approval of their establishment, that information does not include all the detailed information required under Article 21, points (d) and (h), of Delegated Regulation (EU) 2019/2035. It is therefore appropriate to lay down a requirement for the operators of establishments of kept terrestrial animals and of hatcheries to provide such detailed information to the competent authority for the purpose of approval.

⁽¹⁾ OJ L 84, 31.3.2016, p. 1.

⁽²⁾ Commission Delegated Regulation (EU) 2019/2035 of 28 June 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for establishments keeping terrestrial animals and hatcheries, and the traceability of certain kept terrestrial animals and hatching eggs (OJ L 314, 5.12.2019, p. 115).

- (5) In addition, Article 85 of Regulation (EU) 2016/429 provides that Member States may, by way of derogation from Article 84(1) of that Regulation, exempt from the registration requirement certain categories of establishments posing an insignificant risk to animal or public health. Such exemptions may only be granted if those categories of establishments are of a type falling under the rules laid down in an implementing act adopted in accordance with Article 86(2) of that Regulation. Rules concerning the types of establishments posing an insignificant risk that may be exempted by the Member States from the registration requirement in accordance with Article 85 should therefore be laid down.
- (6) Certain establishments, in particular those keeping ungulates cannot be considered as posing an insignificant risk, as referred to in Article 85 of Regulation (EU) 2016/429, due to a number of listed diseases that may be transmitted by ungulates and which may affect the animal health status of establishments or zones in that respect. Similarly, dogs, cats and ferrets kept on an establishment for breeding purposes cannot be considered as posing an insignificant risk, especially from a human health perspective.
- (7) The movement of animals, germinal products and products of animal origin constitutes an important risk factor for animal and human health. Establishments where movements take place, involving in particular movements to or from other Member States or third countries, should therefore not be considered as posing an insignificant risk. However, establishments where animals, germinal products or products of animal origin are kept with a certain continuity and the primary purpose is not the movement of those animals, germinal products or products of animal origin to or out of the establishment, can be considered as posing an insignificant risk, even if such movements could occur on an occasional basis.
- (8) Operators often keep terrestrial animals of several species on the same establishment. If a Member State exempts from the registration requirement certain categories of establishments posing an insignificant risk, as provided for in Article 85 of Regulation (EU) 2016/429, it is not proportionate to the risk involved to require operators to provide the information referred to in Article 84(1), point (b)(iii), regarding kept terrestrial animals for which the establishment could be exempted from the registration requirement in accordance with Article 3 of this Regulation as if those animals were the only animals kept on that establishment.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Subject matter and scope

This Regulation lays down rules concerning:

- (a) the information to be provided by operators of establishments of kept terrestrial animals and of hatcheries for the purpose of the registration of their establishments, as provided for in Article 84(1) of Regulation (EU) 2016/429;
- (b) the types of establishments keeping terrestrial animals posing an insignificant risk that may be exempted by the Member States from the registration requirement in accordance with Article 85 of Regulation (EU) 2016/429;
- (c) the information to be provided by operators of establishments of kept terrestrial animals and of hatcheries in their application for approval of their establishment in accordance with Article 96(1) of Regulation (EU) 2016/429.

*Article 2***Information to be provided by operators for the purpose of the registration of their establishment**

1. Operators of establishments of kept terrestrial animals and of hatcheries referred to in Article 84(1) of Regulation (EU) 2016/429 shall, in addition to the information referred to in Article 84(1), point (b), of that Regulation, before they commence such activities, provide the competent authority with the following information:

- (a) the address and geographical coordinates (latitude and longitude) of the location of the establishment to be registered;
- (b) the period during which the kept terrestrial animals or hatching eggs are kept on the registered establishment if it is not continuously occupied, including seasonal occupation or occupation during particular events.

2. Operators of establishments of kept terrestrial animals referred to in Article 84(1) of Regulation (EU) 2016/429 shall not be obliged to provide the competent authority with the information referred to in Article 84(1), point (b)(iii), of that Regulation, regarding kept terrestrial animals falling within the derogation used by the Member State in accordance with Article 3 of this Regulation.

*Article 3***Types of establishments keeping terrestrial animals that may be exempted by the Member States from the registration requirement**

1. Member States may exempt from the registration requirement establishments keeping terrestrial animals posing an insignificant risk, as provided for in Article 85 of Regulation (EU) 2016/429, if the following criteria are fulfilled:

- (a) no ungulates are kept on the establishment;
- (b) no dogs, cats or ferrets are kept for breeding on the establishment;
- (c) the establishment is not involved in any movement of kept terrestrial animals, germinal products or products of animal origin to or from another Member State or third country;
- (d) the kept terrestrial animals, germinal products or products of animal origin on the establishment are not intended to be moved out of the establishment.

2. Member States that exempt establishments in accordance with paragraph 1 may lay down additional criteria regarding limitations on the number of kept terrestrial animals that may be kept on such establishments and restrict the geographical location of those establishments, in particular in relation to their proximity to establishments registered or approved by the competent authority.

*Article 4***Information to be provided by operators in their application for approval of their establishment**

Operators of establishments of kept terrestrial animals and of hatcheries shall, for the purposes of their application for approval of their establishment as provided for in Article 94(1) and Article 95, point (a), of Regulation (EU) 2016/429, in addition to the information referred to in Article 96(1) of that Regulation, provide the competent authority with the following information:

- (a) the address and geographical coordinates (latitude and longitude) of the location of the establishment to be approved;
- (b) the period during which animals or hatching eggs are kept on the approved establishment if it is not continuously occupied, including seasonal occupation or occupation during particular events.

*Article 5***Entry into force**

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 1 August 2022.

The President
Ursula VON DER LEYEN

COMMISSION REGULATION (EU) 2022/1346**of 1 August 2022****amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for 1,4-dimethylnaphthalene, 8-hydroxyquinoline, pinoxaden and valifenalate in or on certain products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For 1,4-dimethylnaphthalene, 8-hydroxyquinoline, pinoxaden and valifenalate, maximum residue levels (MRLs) were set in Part A of Annex III to Regulation (EC) No 396/2005.
- (2) For 1,4-dimethylnaphthalene the European Food Safety Authority ("the Authority"), submitted a reasoned opinion on the existing MRLs to the Commission and the Member States in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽²⁾. The Authority proposed to change the residue definition for products of animal origin. The Authority considered that, as 1,4-dimethylnaphthalene could naturally occur in plant products, setting MRLs for products of plant origin at the Limit of Determination (LOD) could be inappropriate. It concluded that sufficient monitoring data for plant products (except potatoes) and some information on potatoes and products of animal origin were not available, and that further consideration by risk managers was required. As there is no risk for consumers, all MRLs should be set in Annex II to Regulation (EC) No 396/2005. MRLs for products of plant origin (with the exception of potatoes) should be set based on currently available monitoring data. MRLs for potatoes and products of animal origin should be set at the levels identified by the Authority. All above-mentioned MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (3) For 8-hydroxyquinoline the Authority submitted a reasoned opinion on the existing MRLs to the Commission and the Member States in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽³⁾. The Authority concluded that, due to missing data, the consumer risk assessment performed is indicative and therefore proposed setting or maintaining all MRLs at the LOD. As there is no risk for consumers, MRLs should be set in Annex II to Regulation (EC) No 396/2005.
- (4) For pinoxaden the Authority submitted a reasoned opinion on the existing MRLs to the Commission and the Member States in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽⁴⁾. It proposed to change the residue definition. It recommended lowering the MRLs for barley, rye, and wheat. The Authority concluded that concerning the MRLs for products of animal origin, some information was not available and that further consideration by risk managers was required. The MRLs for products of animal origin will be reviewed; the review will take into account the information available within two years from the publication of this Regulation. As there is no risk for consumers, MRLs should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority.

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

⁽²⁾ European Food Safety Authority; Reasoned Opinion on the review of the existing maximum residue levels for 1,4-dimethylnaphthalene according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2021;19(5):6597.

⁽³⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for 8-hydroxyquinoline according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2021;19(4):6566.

⁽⁴⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for pinoxaden according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2021;19(3):6503.

- (5) For valifenalate the Authority submitted a reasoned opinion on the existing MRLs to the Commission and the Member States in accordance with Article 12(1) of Regulation (EC) No 396/2005 ^(*). It proposed to change the residue definition for products of animal origin. It recommended lowering MRLs for onions, shallots, and aubergines/eggplants. For other products, it recommended raising or keeping the existing MRLs. Concerning the MRL for tomatoes, the Authority concluded that some information was not available and that further consideration by risk managers was required. The MRL for tomatoes will be reviewed. The review will take into account the information available within two years from the publication of this Regulation. As there is no risk for consumers, this MRL should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority.
- (6) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or Codex maximum residue limits (CXLs) exist, MRLs should be set at the specific LOD or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (7) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain LODs. For all the substances covered by this Regulation, those laboratories proposed product specific LODs that are analytically achievable.
- (8) The modifications of the MRLs proposed by this Regulation are based on the reasoned opinions of the Authority and take into account those factors listed in Article 14(2) of Regulation (EC) No 396/2005 that are relevant to each substance covered by this Regulation.
- (9) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (10) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (11) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for transitory provisions for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (12) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (13) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced in the Union or imported into the Union before 22 February 2023.

^(*) European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for valifenalate according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2021;19(5):6591.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 22 February 2023.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 1 August 2022.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

- (1) in Annex II, the following columns for 1,4-dimethylnaphthalene, 8-hydroxyquinoline, pinoxaden and valifenalate are added:

Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply ⁽⁴⁾	1,4-dimethylnaphthalene (R) (F)	8-hydroxyquinoline (sum of 8-hydroxyquinoline and its salts, expressed as 8-hydroxyquinoline)	Sum of M4 and M6 (both free and conjugated), expressed as pinoxaden (R) (A)	Valifenalate (R) (A)

(*) Indicates lower limit of analytical determination

(†) For the complete list of products of plant and animal origin to which MRL's apply, reference should be made to Annex I

1,4-dimethylnaphthalene (R) (F)

(R) The residue definition differs for the following combinations pesticide-code number: 1,4-dimethylnaphthalene - code 1000000 except 1040000: Sum of 1,4-dimethylnaphthalene and its metabolite M23 free and conjugated, expressed as 1,4-dimethylnaphthalene

(F) Fat soluble

The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 2 August 2024, or, if that information is not submitted by that date, the lack of it.

1000000 PRODUCTS OF ANIMAL ORIGIN -TERRESTRIAL ANIMALS

1010000 Commodities from

1011000 (a) swine

1011010 Muscle

1011020 Fat

1011030 Liver

1011040 Kidney

1011050 Edible offals (other than liver and kidney)

1011990 Others (2)

1012000 (b) bovine

1012010 Muscle

1012020 Fat

1012030 Liver

1012040 Kidney

1012050 Edible offals (other than liver and kidney)

1012990 Others (2)

1013000 (c) sheep

1013010 Muscle

1013020 Fat

1013030 Liver

1013040 Kidney

1013050 Edible offals (other than liver and kidney)

1013990 Others (2)

1014000 d) goat

1014010 Muscle

1014020 Fat
 1014030 Liver
 1014040 Kidney
 1014050 Edible offals (other than liver and kidney)
 1014990 Others (2)
 1015000 (e) equine
 1015010 Muscle
 1015020 Fat
 1015030 Liver
 1015040 Kidney
 1015050 Edible offals (other than liver and kidney)
 1015990 Others (2)
 1016000 (f) poultry
 1016010 Muscle
 1016020 Fat
 1016030 Liver
 1016040 Kidney
 1016050 Edible offals (other than liver and kidney)
 1016990 Others (2)
 1017000 (g) other farmed terrestrial animals
 1017010 Muscle
 1017020 Fat
 1017030 Liver
 1017040 Kidney
 1017050 Edible offals (other than liver and kidney)
 1017990 Others (2)
 1020000 Milk
 1020010 Cattle
 1020020 Sheep
 1020030 Goat
 1020040 Horse
 1020990 Others (2)
 1030000 Birds eggs
 1030010 Chicken
 1030020 Duck
 1030030 Geese
 1030040 Quail
 1030990 Others (2)
 1040000 Honey and other apiculture products (7)
 1050000 Amphibians and Reptiles
 1060000 Terrestrial invertebrate animals
 1070000 Wild terrestrial vertebrate animals

The European Food Safety Authority identified some information on residue trials and nature of the residue in processed commodities as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 2 August 2024, or, if that information is not submitted by that date, the lack of it.

0211000 (a) potatoes

There is evidence that 1,4-dimethylnaphthalene could naturally occur in some plant compounds. Based on currently available monitoring data a temporary MRL is set at a value of 0.05 mg/kg pending the submission of further monitoring data to confirm it. When reviewing the MRL, the Commission will take into account the information, if it is submitted by 2 August 2024, or, if that information is not submitted by that date, the lack of it.

0100000 FRUITS FRESH or FROZEN; TREE NUTS

0110000 Citrus fruits
 0110010 Grapefruits
 0110020 Oranges
 0110030 Lemons
 0110040 Limes
 0110050 Mandarins
 0110990 Others (2)
 0120000 Tree nuts
 0120010 Almonds
 0120020 Brazil nuts
 0120030 Cashew nuts
 0120040 Chestnuts
 0120050 Coconuts
 0120060 Hazelnuts/cobnuts

0120070 Macadamias
0120080 Pecans
0120090 Pine nut kernels
0120100 Pistachios
0120110 Walnuts
0120990 Others (2)
0130000 Pome fruits
0130010 Apples
0130020 Pears
0130030 Quinces
0130040 Medlars
0130050 Loquats/Japanese medlars
0130990 Others (2)
0140000 Stone fruits
0140010 Apricots
0140020 Cherries (sweet)
0140030 Peaches
0140040 Plums
0140990 Others (2)
0150000 Berries and small fruits
0151000 (a) grapes
0151010 Table grapes
0151020 Wine grapes
0152000 (b) strawberries
0153000 (c) cane fruits
0153010 Blackberries
0153020 Dewberries
0153030 Raspberries (red and yellow)
0153990 Others (2)
0154000 (d) other small fruits and berries
0154010 Blueberries
0154020 Cranberries
0154030 Currants (black red and white)
0154040 Gooseberries (green red and yellow)
0154050 Rose hips
0154060 Mulberries (black and white)
0154070 Azaroles/Mediterranean medlars
0154080 Elderberries
0154990 Others (2)
0160000 Miscellaneous fruitswith
0161000 (a) edible peel
0161010 Dates
0161020 Figs
0161030 Table olives
0161040 Kumquats
0161050 Carambolas
0161060 Kaki/Japanese persimmons
0161070 Jambuls/jambolans
0161990 Others (2)
0162000 (b) inedible peel small
0162010 Kiwi fruits (green red yellow)
0162020 Litchis/lychees
0162030 Passionfruits/maracujas
0162040 Prickly pears/cactus fruits
0162050 Star apples/cainitos
0162060 American persimmons/Virginia kaki
0162990 Others (2)
0163000 (c) inedible peel large
0163010 Avocados
0163020 Bananas
0163030 Mangoes
0163040 Papayas
0163050 Granate apples/pomegranates
0163060 Cherimoyas
0163070 Guavas
0163080 Pineapples
0163090 Breadfruits
0163100 Durians
0163110 Soursops/guanabanas

0163990 Others (2)
0212000 (b) tropical root and tuber vegetables
0212010 Cassava roots/manioc
0212020 Sweet potatoes
0212030 Yams
0212040 Arrowroots
0212990 Others (2)
0213000 (c) other root and tuber vegetables except sugar beets
0213010 Beetroots
0213020 Carrots
0213030 Celeriacs/turnip rooted celeries
0213040 Horseradishes
0213050 Jerusalem artichokes
0213060 Parsnips
0213070 Parsley roots/Hamburg roots parsley
0213080 Radishes
0213090 Salsifies
0213100 Swedes/rutabagas
0213110 Turnips
0213990 Others (2)
0220000 Bulb vegetables
0220010 Garlic

DECISIONS

COUNCIL DECISION (EU) 2022/1347

of 18 July 2022

appointing an alternate member, proposed by the Federal Republic of Germany, of the Committee of the Regions

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 305 thereof,

Having regard to Council Decision (EU) 2019/852 of 21 May 2019 determining the composition of the Committee of the Regions ⁽¹⁾,

Having regard to the proposal of the German Government,

Whereas:

- (1) Pursuant to Article 300(3) of the Treaty, the Committee of the Regions is to consist of representatives of regional and local bodies who either hold a regional or local authority electoral mandate or are politically accountable to an elected assembly.
- (2) On 10 December 2019, the Council adopted Decision (EU) 2019/2157 ⁽²⁾, appointing the members and alternate members of the Committee of the Regions for the period from 26 January 2020 to 25 January 2025.
- (3) An alternate member's seat on the Committee of the Regions has become vacant following the end of the national mandate on the basis of which Ms Karin HALSCH was proposed for appointment.
- (4) The German Government has proposed Ms Melanie KÜHNEMANN-GRUNOW, representative of a regional body who holds a regional authority electoral mandate, *Mitglied des Abgeordnetenhauses von Berlin* (Member of the Berlin House of Representatives), as an alternate member of the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025,

HAS ADOPTED THIS DECISION:

Article 1

Ms Melanie KÜHNEMANN-GRUNOW, representative of a regional body who holds an electoral mandate, *Mitglied des Abgeordnetenhauses von Berlin* (Member of the Berlin House of Representatives), is hereby appointed as an alternate member of the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025.

Article 2

This Decision shall enter into force on the date of its adoption.

Done at Brussels, 18 July 2022.

- (3) Two members' seats on the Committee of the Regions have become vacant following the end of the national mandate on the basis of which Ms Helma KUHN-THEIS and Ms Isolde RIES were proposed for appointment.
- (4) Two alternate members' seats on the Committee of the Regions have become vacant following the end of the national mandate on the basis of which Mr Roland THEIS and Mr Reiner ZIMMER were proposed for appointment.
- (5) The German Government has proposed the following representatives of local bodies who hold a local authority electoral mandate as members of the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025: Ms Helma KUHN-THEIS, *Mitglied des Gemeinderates von Weiskirchen* (Member of Weiskirchen Municipal Council), and Ms Isolde RIES, *Bürgermeisterin des Saarbrücker Bezirks West* (Mayor of West Saarbrücken District).
- (6) The German Government has proposed the following representatives of regional bodies who hold a regional authority electoral mandate as alternate members of the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025: Mr Damhat SISAMCI, *Mitglied des Landtages des Saarlandes* (Member of Saarland Regional Parliament), and Mr Roland THEIS, *Mitglied des Landtages des Saarlandes* (Member of Saarland Regional Parliament),

HAS ADOPTED THIS DECISION:

Article 1

The following representatives of regional or local bodies who hold an electoral mandate are hereby appointed to the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025:

(a) as members:

— Ms Helma KUHN-THEIS, *Mitglied des Gemeinderates von Weiskirchen* (Member of Weiskirchen Municipal Council) (change of mandate),

⁽¹⁾ OJ L 139, 27.5.2019, p. 13.

COMMISSION IMPLEMENTING DECISION (EU) 2022/1349**of 26 July 2022****accepting a request submitted by Romania to Directive (EU) 2016/797 of the European Parliament and of the Council for non-application of point 7.4.2.1 of the Annex to Regulation (EU) 2016/919 to twenty vehicles LEMA***(notified under document C(2022) 5152)***(Only the Romanian text is authentic)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive (EU) 2016/797 of the European Parliament and of the Council of 11 May 2016 on the interoperability of the rail system within the European Union ⁽¹⁾, and in particular Article 7(4) thereof,

Whereas:

- (1) On 6 January 2022, Romania submitted to the Commission a request for non-application of point 7.4.2.1 of the Annex to Commission Regulation (EU) 2016/919 ⁽²⁾ (the 'request'), which provides for certain new vehicles to be equipped with on-board European Train Control System (ETCS) Baseline 3, with regard to 20 new locomotives LEMA 6 000 kW manufactured. That request was submitted on the basis of Article 7(1), point (c) of Directive (EU) 2016/797.
- (2) On 25 February 2022, upon request from the Commission, the Romanian authorities provided further explanations to complete the request.
- (3) The information provided by the Romanian authorities enabled the Commission to carry out its analysis of the request.
- (4) Point 7.4.2.1 of the Annex to Regulation (EU) 2016/919 aims at facilitating the interoperability of the rolling stock in the European network by installing ETCS on-board. However, some areas of the Single European Railway Area drag behind schedule to roll out ETCS in their network.
- (5) The fleet of 20 locomotives referred to in the request is intended to operate in the Romanian network, where, currently, only 10 % of the network is equipped with trackside ETCS, while there is still a need for the class B system PZB to operate in the Romanian network.
- (6) Due to the impact of the COVID-19 pandemic, the manufacturing process of signalling systems is delayed and the signalling supplier is not expecting to have the ETCS baseline 3 prototype project ready before the end of 2022. The 20 vehicles would need to be retrofitted during 2023, until the end of that year.
- (7) The COVID-19 pandemic has impacted the development and certification process of the 20 new vehicles referred to in the request. The installation of ETCS Baseline 3 in the 20 locomotives referred to in the request would result in a further delay of 12 months for their availability and delivery. The lack of availability of the trains and the later need to retrofit the fleet from ETCS Baseline 2 to ETCS Baseline 3 would result in a considerable economic impact.

⁽¹⁾ OJ L 138, 26.5.2016, p. 44.⁽²⁾ Commission Regulation (EU) 2016/919 of 27 May 2016 on the technical specification for interoperability relating to the 'control-command and signalling' subsystems of the rail system in the European Union (OJ L 158, 15.6.2016, p. 1).

- (8) Nine of the locomotives referred to in the request are identified with numbers 91530480060-9, 91530480061-7, 91530480062-5, 91530480063-3, 91530480064-1, 91530480065-8, 91530480066-6, 91530480069-0 and 91530480070-8. Romanian authorities should provide the identification numbers of the other 11 locomotives at a later stage, upon their registration.
- (9) The manufacturer of the vehicles has committed to an engineering and installation plan to upgrade the vehicles subject of the request with on-board equipment of the new ETCS Baseline 3. According to the most recent time schedules supplied, the upgrade to ETCS Baseline 3 is expected to be completed by 31 December 2023.
- (10) The authorisation of the locomotives subject of the request, prior to the installation of the ETCS Baseline 3, will be valid only during the period of validity of this non-application decision.
- (11) Therefore, the Commission considers that the conditions laid down in Article 7(1)(c) and Article 7(4) of Directive (EU) 2016/797 are satisfied as regards the 20 vehicles subject of the request. The request submitted by Romania for the non-application of point 7.4.2.1 of the Annex to Regulation (EU) 2016/919 to those vehicles until 31 December 2023 should therefore be accepted.
- (12) The measures provided for in this Decision are in accordance with the opinion of the Committee referred to in Article 51(1) of Directive (EU) 2016/797,

HAS ADOPTED THIS DECISION:

Article 1

The request submitted on 25 March 2021 to the Commission by Romania for non-application, until 31 December 2023, of point 7.4.2.1 of the Annex to Regulation (EU) 2016/919 to 20 new locomotives LEMA 6 000 kW, is accepted. The Romanian authorities shall inform the Commission of the identification numbers of the new locomotives, once those locomotives are registered in the Romanian network.

Article 2

Where the provisions of this Decision are applied to a vehicle authorisation of any of the 20 locomotives referred to in Article 1, that vehicle authorisation shall be valid until 31 December 2023.

Article 3

This Decision is addressed to Romania.

It shall apply until 31 December 2023.

Done at Brussels, 26 July 2022.
