COMMISSION DELEGATED REGULATION (EU) 2023/1717

of 27 June 2023

amending Directive 2014/53/EU of the European Parliament and of the Council as regards the technical specifications for the charging receptacle and charging communication protocol for all the categories or classes of radio equipment capable of being recharged by means of wired charging

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2014/53/EU of the European Parliament and of the Council of 16 of April 2014 on the harmonisation of the laws of the Member States relating to the making available on the market of radio equipment and repealing Directive 1999/5/EC ⁽¹⁾, and in particular Article 3(4) thereof,

Whereas:

- (1) One of the objectives of Directive 2014/53/EU is to ensure the proper functioning of the internal market for radio equipment.
- (2) In order to harmonise the charging interfaces and charging communication protocols for specific categories or classes of radio equipment, and to specify requirements regarding the combined sale of radio equipment and its chargers and regarding the information to be provided to consumers and other end-users, Directive 2014/53/EU was amended by Directive (EU) 2022/2380 of the European Parliament and of the Council ⁽²⁾.
- (3) Following the amendments of Directive (EU) 2022/2380, Directive 2014/53/EU also provides the basis for adaptation of these requirements to any future scientific and technological progress or market developments in order to ensure a minimum common interoperability between radio equipment and its charging devices, as well as to improve consumer convenience, to reduce environmental waste and to avoid market fragmentation.
- (4) As regards the harmonisation of the charging interfaces and charging communication protocols for wired charging, Article 3(4), first subparagraph of Directive 2014/53/EU requires that radio equipment within the categories or classes of radio equipment specified in Part I of Annex Ia to that Directive is so constructed that it complies with the specifications relating to charging capabilities set out in that Annex.

⁽¹⁾ OJ L 153, 22.5.2014, p. 62.

⁽²⁾ Directive (EU) 2022/2380 of the European Parliament and of the Council of 23 November 2022 amending Directive 2014/53/EU on the harmonisation of the laws of the Member States relating to the making available on the market of radio equipment (OJ L 315, 7.12.2022, p. 30).

- (5) The specifications set out in Part I of Annex Ia to Directive 2014/53/EU provide that the categories or classes of radio equipment that are listed in that Annex and are capable of being recharged by means of wired charging are to be equipped with the USB Type-C receptacle as described in standard EN IEC 62680-1-3:2021 'Universal serial bus interfaces for data and power – Part 1-3: Common components – USB Type-C® Cable and Connector Specification'. Additionally, the specifications set out in Part I of Annex Ia to Directive 2014/53/EU provide that the categories or classes of radio equipment that are listed in that Annex and are capable of being recharged by means of wired charging at voltages higher than 5 volts, currents higher than 3 amperes or powers higher than 15 watts are to incorporate USB Power Delivery as described in standard EN IEC 62680-1-2:2021 'Universal serial bus interfaces for data and power – Part 1-2: Common components – USB Power Delivery specification'.
- (6) On 5 September 2022, the International Electrotechnical Commission (IEC) published standard IEC 62680-1-2:2022 'Universal serial bus interfaces for data and power – Part 1-2: Common components – USB Power Delivery specification' and standard IEC 62680-1-3:2022 'Universal serial bus interfaces for data and power – Part 1-3: Common components – USB Type-C® cable and connector specification'. Both of those standards contain updated specifications.
- (7) On 14 October 2022, the European Committee for Electrotechnical Standardisation (Cenelec) adopted, as European (EN) standards, those two IEC standards published on 5 September 2022, by means of EN IEC 62680-1-2:2022 'Universal serial bus interfaces for data and power – Part 1-2: Common components – USB Power Delivery specification' and EN IEC 62680-1-3:2022 'Universal serial bus interfaces for data and power – Part 1-3: Common components – USB Type-C® cable and connector specification'.
- (8) In order to adapt to the technical progress, it is necessary to modify, in Part I, Point 2, of Annex Ia to Directive 2014/53/EU, the references of the standard relating to the charging receptacle and cables on wired charging in line with standard EN IEC 62680-1-3:2022.
- (9) It is also necessary to modify, in Part I, Point 3, of Annex Ia to Directive 2014/53/EU, the references of the standard relating to the charging communication protocol on wired charging at voltage higher than 5 volts, currents higher than 3 amperes or powers higher than 15 watts, in line with standard EN IEC 62680-1-2:2022.
- (10) Directive 2014/53/EU should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:

Article 1

Part I of Annex Ia to Directive 2014/53/EU is amended as follows:

- (1) in point 2.1, the reference to standard 'EN IEC 62680-1-3:2021' is replaced by 'EN IEC 62680-1-3:2022';
- (2) in point 2.2, the reference to standard 'EN IEC 62680-1-3:2021' is replaced by 'EN IEC 62680-1-3:2022';
- (3) in point 3.1, the reference to standard 'EN IEC 62680-1-2:2021' is replaced by 'EN IEC 62680-1-2:2022'.

COMMISSION IMPLEMENTING REGULATION (EU) 2023/1718**of 8 September 2023****amending the implementing technical standards laid down in Implementing Regulation (EU) 2015/2197 with regard to closely correlated currencies in accordance with Regulation (EU) No 575/2013 of the European Parliament and of the Council****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and amending Regulation (EU) No 648/2012 ⁽¹⁾, and in particular Article 354(3), third subparagraph, thereof,

Whereas:

- (1) To ensure that the currency pairs referred to in the Annex to Commission Implementing Regulation (EU) 2015/2197 ⁽²⁾ reflect the actual correlation between the relevant currencies, it is necessary to update the list of closely correlated currencies, based on recent data. Those data refer to 31 March 2023 as the end date for calculating the three and five year data series required to assess the currency pairs in accordance with Regulation (EU) No 575/2013.
- (2) Implementing Regulation (EU) 2015/2197 should therefore be amended accordingly.
- (3) This Regulation is based on the draft implementing technical standards submitted to the Commission by the European Banking Authority (EBA).
- (4) The amendments to Implementing Regulation (EU) 2015/2197 do not involve significant changes in substantive terms, but merely apply the methodology already established in that Regulation to updated data series. In accordance with Article 15(1), second subparagraph, of Regulation (EU) No 1093/2010 of the European Parliament and of the Council ⁽³⁾, EBA has therefore neither conducted an open public consultation on the draft implementing technical standards on which this Regulation is based, nor analysed the potential related costs and benefits, considering that such a consultation or analysis would be highly disproportionate in relation to the scope and impact of the draft implementing technical standards concerned. EBA requested the advice of the Banking Stakeholder Group established in accordance with Article 37 of Regulation (EU) No 1093/2010,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Implementing Regulation (EU) 2015/2197 is replaced by the text in the Annex to this Regulation.

COMMISSION REGULATION (EU) 2023/1719

of 8 September 2023

amending Annexes II and IV to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for isoxaben, metaldehyde, *Metarhizium brunneum* strain Ma 43, paclobutrazol and Straight Chain Lepidopteran Pheromones (SCLP) in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 5 and Article 14(1), point (a), thereof,

Whereas:

- (1) For isoxaben, metaldehyde and paclobutrazol, maximum residue levels ('MRLs') were set in Annex II to Regulation (EC) No 396/2005. For *Metarhizium brunneum* strain Ma 43 and Straight Chain Lepidopteran Pheromones (SCLP), no specific MRLs were set, nor were those substances included in Annex IV to that Regulation, so the default value laid down in Article 18(1), point (b), thereof applies.
- (2) As regards metaldehyde, an application pursuant to Article 6(1) of Regulation (EC) No 396/2005 requesting a modification of the existing MRLs was submitted for flowering brassica and leafy brassica.
- (3) In addition, in the framework of another application pursuant to Article 6(1) of Regulation (EC) No 396/2005, another applicant had submitted information previously unavailable during the review conducted in accordance with Article 12 of Regulation (EC) No 396/2005 on a hydrolysis study investigating the effect of sterilisation on the nature of residue. This study demonstrated that the existing MRLs for metaldehyde in potatoes, other root and tuber vegetables except sugar beets (except swedes/rutabagas), tomatoes, aubergines/eggplants, brassica vegetables (excluding brassica roots and brassica baby leaf crops), lettuces and salad plants, spinaches and similar leaves, globe artichokes are fully supported by data.
- (4) As regards paclobutrazol, an applicant submitted information previously unavailable during the review conducted in accordance with Article 12 of Regulation (EC) No 396/2005 on a representative study investigating primary crop metabolism in fruit crops. This study demonstrated that the existing MRLs for that substance in apples, pears, quinces, medlars, loquats/Japanese medlars, apricots and peaches are fully supported by data.
- (5) In accordance with Article 8 of Regulation (EC) No 396/2005, all those applications were evaluated by the Member States concerned and the evaluation reports were forwarded to the Commission and to the European Food Safety Authority ('the Authority').
- (6) The Authority assessed the applications and the evaluation reports, examining in particular the risks to consumers and, where relevant, to animals, and gave reasoned opinions on the proposed MRLs ⁽²⁾. It forwarded those opinions to the applicants, the Commission and the Member States and made them available to the public.

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

⁽²⁾ European Food Safety Authority. Reasoned Opinion on the modification of the existing maximum residue levels for metaldehyde in flowering brassica and leafy brassica. *EFSA Journal* 2023;21(3):7885.
European Food Safety Authority. Reasoned opinion on the modification of the existing MRLs for metaldehyde in certain legume vegetables and pulses. *EFSA Journal* 2014;12(1):3537.
European Food Safety Authority. Reasoned Opinion on the evaluation of confirmatory data following the Article 12 MRL review for paclobutrazol. *EFSA Journal* 2022;20(11):7651.

- (7) The Authority concluded that all requirements with respect to completeness of data submission were met and that the modifications to the MRLs requested by the applicants were acceptable with regard to consumer safety on the basis of a consumer exposure assessment for 27 specific European consumer groups. In so concluding, the Authority took into account the most recent data on the toxicological properties of the substances. Neither the long-term exposure to these substances via consumption of all food products that may contain them, nor the short-term exposure due to high consumption of the relevant products showed a risk that the acceptable daily intake or the acute reference dose is exceeded.
- (8) As regards isoxaben, an application requesting a modification of the existing MRL for isoxaben in gherkins was submitted pursuant to Article 6(1) of Regulation (EC) No 396/2005.
- (9) For that application, a Member State made a request to use the fast-track procedure, provided for in the Technical Guidelines on the MRL setting procedure ⁽³⁾, to set an MRL based on residue trials on courgettes.
- (10) The Authority has assessed residue trials on courgettes in the framework of the review of the existing MRLs for isoxaben and given a reasoned opinion on the proposed MRL ⁽⁴⁾. That opinion relies on the current scientific and technical knowledge on the subject. As it is appropriate to extrapolate from the residue trials on courgettes to gherkins, as confirmed by the Union guidelines on extrapolation of MRLs ⁽⁵⁾, it is unnecessary to request the Authority to provide a reasoned opinion on gherkins specifically.
- (11) It is therefore appropriate to set the MRL for isoxaben in gherkins at 0,05 mg/kg on the basis of the residue trials performed on courgettes.
- (12) *Metarhizium brunneum* strain Ma 43 and Straight Chain Lepidopteran Pheromones (SCLP) have been renewed as low-risk active substances by Commission Implementing Regulations (EU) 2022/383 ⁽⁶⁾ and (EU) 2022/1251 ⁽⁷⁾, respectively. The conditions of use of those substances are not expected to lead to the presence of residues in food or feed commodities that may pose a risk to the consumer and, therefore, no MRLs are required. It is therefore appropriate to include those substances in Annex IV to Regulation (EC) No 396/2005.
- (13) Based on the reasoned opinions of the Authority and taking into account the relevant factors listed in Article 14(2) of Regulation (EC) No 396/2005, the proposed modifications to the MRLs fulfil the requirements of Article 14(2) of that Regulation.
- (14) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (15) For technical reasons, the amendments to the proposed MRLs should apply later than those of Commission Regulation (EU) 2023/466 ⁽⁸⁾.

- (16) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,
